PART 3281 [1]—PULP AND PAPER

[General Preference Order M-251, as Amended Sept. 22, 1944]

PULPWOOD

The fulfillment of requirements for the defense of the United States has created in certain areas and is expected to create in other areas a shortage in the supply for defense, for export and for private account, of wood for pulp and lumber, and has created a shortage in the supply for defense, for export and for private account of various materials and facilities required for the production of pulpwood; and the following order is deemed necessary and appropriate in the public interest and to promote national defense:

§ 3281.1 [1] *General Preference Order M-251*—(a) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(b) *Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Pulpwood" includes wood of any species and in any form commonly delivered to a manufacturer of woodpulp for the manufacture of woodpulp, except those species and forms defined in and subject to the following orders of the War Production Board: M-136, and M-234.

(3) A "holder of pulpwood" is any person who holds or accumulates pulpwood for manufacture by himself into woodpulp.

(4) To "hold" or "accumulate" pulpwood means to have or obtain control of a supply of pulpwood whether by production or purchase directly by the holder, by production or purchase by an affiliate or subsidiary or by one branch, division or section of a single enterprise or by production or purchase by any other person for delivery to or for the account of the holder.

(c) *Reports of monthly receipts, consumption and inventory of pulpwood.* Each producer of woodpulp shall on or before the 5th day of each month, file Form WPB-1625 with the Pulpwood Production Branch, Paper Division, WPB, Reference M-251, for each mill operated by him located elsewhere in the United States than in the States of California, Washington and Oregon, and for each mill operated by him located in the States of California, Washington and Oregon shall on or before the 10th day of each month file Form WPB-1639, showing the monthly receipts, consumption and inventory of pulpwood at and for such mill, in accordance with instructions accompanying such forms.

Quarterly estimates of pulpwood receipts. Form WPB-3565 shall be filed by each producer of woodpulp on or before the 5th day of February, May, August and November for each mill operated by him located in the United States, showing quarterly estimates of pulpwood receipts for the 2 calendar quarters following the quarter in which the report is made in accordance with the instructions accompanying said form.

(d) *Control of pulpwood in areas of shortage.* Whenever the War Production Board determines that there prevails in any area a shortage in the supply of any type or types of pulpwood required for the production of materials needed in the public interest and for national defense, he may issue a schedule defining such area and such type or types of pulpwood, and may thereupon, according to the degree of the shortage and the immediacy of the need, and as specified in such schedule.

(1) Allocate specific quantities of pulpwood of the type or types defined held or accumulated in such area from and to specific persons;

(2) Direct holders of pulpwood in such area to maintain in their holdings or accumulations of pulpwood of the type or types defined a stated quantity or percentage, either uniform for all such holders or particular for any, to be known as a "Reserve Supply", available for disposition by the War Production Board, from which the War Production Board may from time to time authorize or direct the delivery of specific quantities to specific persons and/or the manufacture of

[1] Formerly Part 3113, § 3113.1

specific quantities into the specific products, and the War Production Board may in addition from time to time allocate specific quantities of any pulpwood of the type or types defined held or accumulated in such area, although not a part of such "Reserve Supply", from and to specific persons; and provide procedures for and granting such authorizations, directions and allocations;

(3) Direct that no person, or no person of a specified class, may consume, process, deliver or accept delivery of any pulpwood of the type or types defined held or accumulated in such area except upon specific authorization or direction by the War Production Board, and provide procedures for applying for and granting such authorization or direction; and/or

(4) Limit or prohibit particular uses of pulpwood of the type or types defined held or accumulated in such area. In any allocation, authorization or direction issued by the War Production Board pursuant to clause (1), (2) or (3) of the foregoing paragraph, the War Production Board may require the person to whom such allocation, authorization or direction is issued to manufacture, from the pulpwood which is the subject thereof, particular types and quantities of woodpulp or other wood product or impose upon the use of such pulpwood by such person any other conditions necessary and appropriate in the public interest and for national defense. Such allocations, authorizations and directions and any conditions attached thereto, and any limitations or prohibitions issued pursuant to clause (4) of the foregoing paragraph, shall be made to insure the satisfaction of requirements, direct and indirect, for the defense of the United States and for essential civilian supply, may be made in consideration of the possible dislocation of labor, the effect of the local shortage on the national supply of products manufactured from pulpwood and woodpulp, the problems of transporting such products into and out of the area defined, and the necessity of keeping a plant in operation so that it may be able to fulfill war orders and essential requirements, and may be made in the discretion of the War Production Board, without regard to preference ratings.

(c) *Miscellaneous provisions* — (1) *Records.* All persons affected by this order shall keep and preserve, for not less than 2 years, complete records concerning their receipts, inventories, and consumption or other disposition of pulpwood.

(2) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(3) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time request.

(4) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance.

(5) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to: Pulpwood Production Branch, Paper Division, War Production Board, Ref: M–251, Washington 25, D. C.

PART 3293—CHEMICALS

[General Allocation Order M–300, Schedule 29, as Amended Sept. 22, 1944]

AMMONIUM SILICOFLUORIDE

§ 3293.1029 *Schedule 29 to General Allocation Order M–300*—(a) *Definitions.* (1) "Ammonium silicofluoride" means the chemical known by that name and also as ammonium fluosilicate. The term includes mixtures of ammonium silicofluoride with other ingredients such as sand casting compounds.

(2) "Metal caster" means a person engaged in the casting of metals such as magnesium and aluminum.

(b) *General provisions.* (1) Ammonium silicofluoride is subject to allocation under General Allocation Order M–300 as an Appendix B material. The initial allocation date is July 1, 1944, and the allocation period is the calendar month.

(2) Metal casters seeking to purchase ammonium silicofluoride or casting compounds containing ammonium silicofluoride must file a certificate with their purchase orders stating that the material is required for "aluminum casting", "magnesium casting", or other specified metal casting. In addition, metal casters must file a one time base period and inventory report on Form WPB–3442 pursuant to paragraph (e).

(3) Consumers seeking to purchase and use ammonium silicofluoride for any purpose other than metal casting are not required to obtain authorization or to file anything under this Schedule, notwithstanding paragraph (x) of Order M–300.

(4) Suppliers seeking to purchase ammonium silicofluoride for resale must file a certificate with their purchase orders. This is required whether the ammonium silicofluoride is bought and resold as such or in mixed form, except that a certificate is not required from a supplier seeking to purchase ammonium silicofluoride, packaged for retail sale and labeled as a moth-proofing compound or laundry sour or laboratory reagent chemical. The supplier's certificate must either state that the ammonium silicofluoride is required "for resale exclusively for non-metal casting purposes" or that it is required "for resale on further authorization".

(5) A supplier (unless he is a producer) is not required to apply on Form WPB–2947 or to obtain specific authorization for sale of ammonium silicofluoride exclusively to consumers other than metal casters (such as laundries or moth-proofing manufacturers) or to suppliers who sell exclusively for non-metal casting purposes, notwithstanding paragraphs (d) and (e) of Order M–300.

(6) A supplier who sells ammonium silicofluoride for metal casting purposes, whether or not he also sells it for other purposes, and each producer is required to file application on Form WPB–2947 pursuant to paragraph (c) for authorization to deliver after July 1, 1944, ammonium silicofluoride or any mixtures containing ammonium silicofluoride.

(7) Authorized deliveries to customers named individually on the supplier's form shall be made in a sequence best suited to the needs of the customers, without regard to preference ratings. Other authorized deliveries shall be made in the sequence determined by War Production Board regulations.

(c) *Suppliers' applications on Form WPB–2947.* Each supplier seeking authorization to use or deliver ammonium silicofluoride wholly or partly for metal casting purposes, and each producer seeking authorization to use or deliver for any purpose, shall file application on Form WPB–2947 (formerly PD–602). List individually all customers whose certified use is for metal casting or for resale on further authorization. All other requests shall be lumped and shall be entered as a total requested for "non-metal casting purposes". In Column 7 in Table I specify the quantity of ammonium silicofluoride shipped to each customer (other than a distributor) during the month before the month in which the application is filed. If any shipments were made to any other customers for metal casting purposes during that period, their names should be listed in Column 1, and opposite in Column 7, the amount shipped should be specified. The filing date is the 20th day of the month before the proposed delivery month. File separate sets of forms for ammonium silicofluoride as such and in mixtures (specify ammonium silicofluoride content in the grade space). Send three copies (one certified) to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M–300–29. The unit of measure is the pound (total weight in case of mixtures). Fill in Table II.

(d) *Customers' certificate of use.* Each metal caster and each direct or indirect supplier of metal casters ordering ammonium silicofluoride shall furnish with or on his purchase order a certified statement of proposed use, in the form prescribed in Appendix D of General Allocation Order M–300. The certified statement should be in the hands of the supplier not later than the 15th day of the month before the requested delivery month. Specify as the proposed use "Aluminum casting", "Magnesium casting" or other specified metal casting, or "Resale on further authorization".

(e) *One time report on use and inventory*—(1) *Who must file.* Each metal caster shall file a one time use and inventory report on Form WPB–3442, on or before the date of his initial filing of a use certificate pursuant to paragraph (d) above. Separate sets of forms shall be prepared for ammonium silicofluoride as such and in the form of mixtures. A caster who purchases ammonium silicofluoride for use in a mixture should file only for the ammonium silicofluoride. Retain one copy and send one certified copy of each set to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M–300–29.

(2) *Heading.* Specify in space (1) ammonium silicofluoride as such or ammonium silicofluoride in mixture (specify ammonium silicofluoride content or suppliers' designation), in space (2) specify "pounds", and in space (3) specify "M–300–29." Fill in the other spaces as indicated.

(3) *Section I.* Fill in Column (a) as indicated and leave Column (b) blank. In the heading of Columns (d), (e), (f) and (g) specify 1st, 2d, 3d and 4th quarters, 1944, respectively. Chapter XI—Office of Price Administration

PART 1426—WOOD PRESERVATION AND PRIMARY FOREST PRODUCTS

[MPR 559]

EASTERN POLES AND PILING

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this Regulation.

Such specifications and standards as are used in this regulation were, prior to such use, in general use in the industry affected.

A statement of the considerations involved in the issuance of this regulation, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

AUTHORITY: Secs. 1 to 14, inclusive (§ 1426.258) issued under 56 Stat. 23, 765; 57 Stat. 566; Pub. Law 383, 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

SECTION 1. *Sales of Eastern poles and piling at higher than maximum prices prohibited.* (a) On and after September 26, 1944, regardless of any contract or other obligation except as provided in paragraph (c) of this section, no person shall sell or deliver, and no person shall buy or receive in the course of trade or business, any Eastern poles and piling covered by this regulation at prices higher than the maximum prices fixed by this regulation, and no person shall agree, offer, or attempt to do any of these things.

(b) Prices lower than the maximum prices, may, of course, be charged and paid.

(c) In any case where a maximum price having once been established in this regulation is reduced by subsequent amendment, sellers who have entered into firm contracts on the basis of the earlier ceilings may apply for special permission to complete shipment under such firm contracts without regard to the new ceiling, under the following rules and conditions:

(1) The permission, if granted, will allow completion of the contract within 60 days from the effective date of the action setting up new ceilings.

(2) The existence of a "firm contract" must be shown by the seller's submitting a copy of formal contract or copies of written order and acceptance covering specific items, quantities, and prices.

(3) The application must show that the items covered by the contract were actually being produced and had not been shipped on the effective date of the amendment which changes the maximum price.

(4) The seller must state in his application—and the permission, if granted, will be so limited—that all prices shown in the contract will be adhered to, even though the maximum price on some items included therein may have been increased by the amendment.

(5) Applications must be sent to the Lumber Branch, Office of Price Administration, at Washington, D. C. The Lumber Branch may grant or deny such applications by letter or telegram.

Note that the seller must apply for the special permission covered in this paragraph, and he may not go ahead on the basis of the contract prices unless and until he has received the authorization to do so.

SEC. 2. *Coverage of the regulation.* This regulation covers all sales and purchases of poles and piling of the species listed, produced in "Eastern" territory, as described below:

(a) *Products.* Eastern poles and piling.

(b) *Species.* All species commercially used for poles and piling produced within "Eastern" territory, as described below, with the exception of Northern White Cedar. (Maximum prices for Northern White Cedar poles will be found in Maximum Price Regulation 560.)

(c) *Territory.* "Eastern" territory is all that area within or east of Minnesota, Iowa, Nebraska, Kansas, Oklahoma (except the Panhandle-Cimarron, Texas, and Beaver Counties), and Texas (except West Texas—that part within or west of Lipscomb, Hemphill, Wheeler, Hollingsworth, Childress, Cottle, King, Stonewall, Fisher, Nolan, Coke, Tom Green, Schleicher, Sutton, Edwards, Kinney and Maverick Counties). Tables 1, 2, and 3 in Section 14 apply only to certain production zones described in the table headings; all other price tables apply to the entire territory.

(d) *Definitions.* (1) "Pole" means any round peeled or unpeeled section of a tree, longer than 14 feet, suitable for use to support transmission or communication lines at varying heights above the ground.

(2) "Piling" means the same as "pole" except that it must be suited for driving in the ground to form foundation for construction such as wharves, bulkheads, buildings, and the like.

(3) "Normal loading-out point" means the siding or point on a railroad, the booming and rafting grounds, or the barge landing at which the poles and piling may be sold and to which they can be most cheaply transported from the point of production for shipment by rail, raft, or barge.

SEC. 3. *Basic maximum prices.* The maximum prices for Eastern poles and piling are set out in section 14. These prices are established f. o. b. towable waters, f. o. b. barges at the barge landing, or f. o. b. cars at the railroad loading-out point which is the producer's "normal loading-out point" as defined in section 2 (d) (3).

The maximum producer's price which may be charged or paid shall be the price established for the zone in which the "normal loading-out point" of the material is located, subject only to additions for transportation permitted by section 4.

SEC. 4. *Transportation addition.* The transportation charges set forth below may be added to the maximum f. o. b. loading-out point price when the seller makes delivery.

Transportation from the point of production to the railroad loading-out point, barge loading point, or booming and rafting ground must, in every instance, be provided on the seller's account. Rail, barge and towing charges paid by the seller for transportation beyond the loading-out point may, in every case, be added. Truck charges may be added only when delivery is made by the seller to a destination other than a loading-out point and in such cases the charge must be reduced by the cost of trucking to the seller's nearest loading-out point. If the seller finds that by making transportation additions it is more profitable to sell at a loading-out point other than the one nearest to his point of production he has wrongly applied this section. All additions for transportation must be shown separately on the invoice.

(a) *Common or contract carrier.* (1) When estimated weights or guaranteed mean diameters are used, the appropriate published rate times the estimated weight or mean diameter is the proper transportation charge, even though the estimated weights or diameters may be higher than actual. Estimated weights higher than those set forth in section 14 may not be used. The estimated weights must be taken for the exact type of product actually ordered. To compute mean diameters add 1" to the top or butt diameter, whichever is the controlling factor, and increase or decrease that figure by 1" for each ten lineal feet. Add the top and butt diameters thus determined and divide by two to find the mean diameter.

The charge for transportation shall be evened out to the nearest quarter-cent per lineal foot, or 5¢ per pole, whichever is applicable.

(b) *Private truck.* (1) When shipment is by truck owned or controlled by the seller, the maximum permissible addition (on hauls involving any point outside metropolitan areas) shall be computed as 5 cents per 100 pounds for hauls not over 10 miles; 7 cents per 100 pounds for more than 10 but not over 20 miles; 9 cents per 100 pounds for more than 20 but not over 30 miles; and on hauls of more than 30 miles, for each mile over 30 two-tenths of a cent per 100 pounds to be added to the 30 mile charge. No addition is allowed for the return trip. In the case of poles and piling only, if the order is for less than a truck load a minimum charge for 10,000 pounds may be made.

* Copies may be obtained from the Office of Price Administration.

(2) A "metropolitan area" includes all territory within 10 miles of the city limits of any city having a population of 250,000 or more according to the census of 1940. On shipments by private truck entirely within a metropolitan area, the amount added for transportation may not be more than the published motor common carrier rate for such hauls times the estimated weights or other unit of measure used. If there is no published rate, then the actual cost of trucking may be added, that is, the seller's out-of-pocket expense in making delivery.

(c) *Averaging-out.* When a single order requires quotations of a single flat delivered price and fulfillment of the order contemplates delivery with a variation in pole or piling prices and/or a variation in freight rates, the seller may use a flat average delivered price, but must show on each invoice that the particular shipment is part of a large order for which a reconciliation invoice will be furnished.

Upon completion of the order the seller must render a final invoice showing the quantity of each shipment or delivery, the freight charge for each if sold on a delivered basis, the total amount due on the order at the agreed average prices, and a reconciliation of the total amount so computed with the maximum prices permitted by this regulation. Final payment and all necessary adjustments between buyer and seller are to be made upon the final reconciliation. Failure to make reconciliation invoice within 30 days of completion of the order for which an average price was quoted is as much a violation of the regulation as selling at an over-ceiling price.

SEC. 5. *Treated products.* (a) The maximum prices for Eastern primary forest products preservatively treated by pressure process are established by Maximum Price Regulation No. 491.[1]

(b) The maximum price for any Eastern primary forest product preservatively treated by non-pressure methods (except Northern White Cedar poles) shall be the maximum price established by the General Maximum Price Regulation[2] for each seller plus or minus an amount to cover any increased or decreased untreated cost resulting from the maximum prices established by this regulation. This amount shall be determined by each seller in the following manner:

Determine the difference between the highest untreated price f. o. b. loading-out point, paid in March 1942 by this seller of treated products and the maximum price established in this regulation for the same size, class, and grade of untreated product. If the buying price is increased by this regulation, add the difference to the seller's established price under the General Maximum Price Regulation for the treated product. If the buying price is decreased by this regulation, subtract the difference from the seller's established price under the General Maximum Price Regulation for the treated product. (If the seller of a treated product did not buy in March 1942, he should use his buying price in the first month prior to March 1942 in which he purchased the untreated product.)

SEC. 6. *Special pricing.* If a seller wishes to sell a species or specification of Eastern poles or piling not specifically priced in this regulation, or wishes to make charges for extras not specifically provided for, he shall apply to the Lumber Branch, Office of Price Administration, Washington, 25, D. C., for approval of a maximum price. He must provide the following information:

(a) The requested price;

(b) A complete description of the item for which price approval is desired;

(1) If a specification other than Navy 39P–14a Class 2 for piling or A. S. A. for poles, he shall furnish a copy of the specification.

(2) If any other extra is to be priced, he shall furnish a description of the extra for which an addition is requested.

(c) The price differential between the item to be priced and the most comparable item priced in the regulation, which existed in October 1941 or the first month preceding October 1941 in which both items were sold. The differential should be developed from the seller's own records, or if that is not possible, from the experience of other buyers and sellers.

(d) If no price differential exists, a detailed analysis of the comparative costs of supplying the two items shall be furnished.

As soon as the request has been filed, quotations and deliveries may be made at the requested price, but final payment may not be made until a price has been approved by the Office of Price Administration. Such approvals may be made by letter or telegram.

SEC. 7. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of shipment; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after shipment. Such authorization may be given when a request for a change in the applicable maximum price is necessary to promote distribution or production and it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration having authority to act upon the pending request for a change in price or to give the authorization.

The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

SEC. 8. *Exports and imports.* (a) The maximum price for export sales of Eastern poles and piling is governed by the Second Revised Maximum Export Price Regulation.[3]

(b) For poles and piling produced in Canada or Mexico and imported at points in "Eastern" territory in the United States, the maximum price is the appropriate price "f. o. b. normal loading-out point" established in this regulation, and such port of entry shall be regarded as the "normal loading-out point." Poles and piling of Canadian or Mexican origin entered at points in "Western" territory are subject to Maximum Price Regulation 555.[4]

SEC. 9. *Records.* All sellers of Eastern poles and piling products must keep records which will show a complete description of the item sold, the name and address of the buyer, the date of the sale, and the price. Buyers must keep similar records, including the name and address of the seller. These records must be kept for any month in which the seller or buyer sold or bought $1,000 worth of Eastern poles and piling. These records must be kept for inspection by the Office of Price Administration for the duration of the Emergency Price Control Act of 1942 or for two years, whichever is the shorter.

SEC. 10. *Applications for adjustment and petitions for amendment*—(a) *Government contracts.* See Procedural Regulation No. 6[5] for adjustment provisions on certain government contracts or subcontracts.

(b) *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1[6] issued by the Office of Price Administration.

SEC. 11. *Prohibited practices*—(a) *General.* Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the dollars-and-cents price is as much a violation of this regulation as an outright over-ceiling price. This applies to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying agreements, trade understandings, and the like. Sellers must maintain cash discounts and credit terms no less favorable to buyers than the cash discounts and credit terms they allowed on October 1, 1941, except that a discount longer than 2 percent is not regarded as a cash discount under this rule.

(b) *Specific practices.* The following are among the specific practices prohibited:

(1) Refusing to sell on a loading-out point basis and insisting on selling on a delivered basis.

(2) Quoting a gross price above the maximum price, even if accompanied by a discount the effect of which is to bring the net price below the maximum.

(3) Making the buyer take something he does not want in order to get what he does want.

(4) Selling or buying material under and according to the provisions of this regulation to be converted into products suitable for uses other than those set out in section 2 (d), "Definitions."

(c) *Purchasing commissions.* It is unlawful for any person to charge, receive or pay a commission for the service of

procuring, buying, selling, or locating Eastern poles and piling.

Sec. 12. *Enforcement.* Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for revocation of licenses provided for by the Emergency Price Control Act of 1942, as amended.

Sec. 13. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to

NOTES: Applying to Tables 1, 2, 3, 4, 5, and 6.

1. If a top diameter is specified, or where the top diameter controls, the butt size shall be determined by adding 1 inch for each 10 feet or fraction thereof.

2. To arrive at the maximum price for piling with a minimum diameter at a specified point more than 6 feet from the butt:

(a) Convert this diameter to a diameter 6 feet from the butt by adding 1" for each 10 feet or fraction thereof by which the distance from the butt to the specified point exceeds 6 feet.

(b) Select the maximum price in the tables applicable to the diameter 6 feet from the butt determined in (a) above.

For example: (i) A pile measuring 12" 7 feet from the butt would be figured as follows:

	Inches
Diameter 7' from butt	12
7' exceeds 6' by 1'.	
Add for 1' (fraction of 10')	1
Diameter 6' from butt	13

Maximum price found under column headed 14" minimum butt, which includes price for 13" 6 feet from the butt.

(ii) A 70' pile measuring 12" one quarter of the length from the butt would be figured as follows:

Diameter 17½' from the butt (¼ of 70')	12
17½' exceeds 6' by 11½'.	
Add for 10'	1
Add for 1½' (fraction of 10')	1
Diameter 6' from butt	14

Maximum price found under column headed 15" minimum butt, which includes price for 14" 6 feet from butt.

3. For all specified length groups below, the lengths will be fairly evenly distributed in consecutive lengths within the group.

(a) For orders where the specified lengths fall within each of 4 or more consecutive length groups, no addition.

(b) For orders where the specified lengths fall within each of 3 consecutive length groups, add 0.005 per lin. ft.

(c) For orders where the specified lengths fall within each of 2 consecutive length groups, add 0.01 per lin. ft.

(d) For orders of more than one length where the specified lengths fall entirely within one length group, add 0.015 per lin. ft.

(e) For single specified length orders, add 0.02 per lin. ft.

(f) For random length orders where the purchaser specifies restricted loading, the seller may add ⅔ of the proper specified length addition above. Additions allowed must be shown separately on invoices.

4. For Clean Peeled Pine, Cypress and Mixed Woods up to and including: 13" minimum butt, add 0.01 per lin. ft. 14" minimum butt and larger, add 0.02 per lin. ft.

5. For unpeeled Pine, Cypress, and Mixed Woods up to and including: 13" minimum butt, deduct 0.01 per lin. ft. 14" minimum butt and larger, deduct 0.02 per lin. ft.

6. For Clean Peeled Oak, add 0.04 per lin. ft.

7. For unpeeled Oak, deduct 0.02 per lin. ft.

8. Heading, Pointing or Chamfering, 45¢ or under 0.25 per pile. Over 45¢ 0.40 per pile.

9. For mixed orders of Pine and Cypress containing at least 25% Pine, the Cypress prices for the appropriate zone may be used and transportation may be computed using the Pine estimated weights.

10. For Northern Pine Piling produced in Northeastern Zone, the maximum prices and weights shown in Table 4 shall apply.

NOTES: Applying to Table 8. 1. In all specified length groups below, the lengths will be evenly distributed.

2. For any specification of pole other than those listed herein, the seller shall determine the size A. S. A. pole having the same or nearest larger circumference 6' from the butt. This price for an A. S. A. pole shall be the tentative price so determined for the specification pole to be priced. The tentative price so determined must be submitted to the Lumber Branch according to Section 6.

3. For specified length groups, 6 or more consecutive lengths in 5 foot multiples. No addition.

4. For specified length groups, of 4 or 5 consecutive lengths in 5 foot multiples add 0.005 per lin. ft.

5. For specified length groups, of 3 consecutive lengths in 5 foot multiples add 0.01 per lin. ft.

6. For specified length groups, of 2 consecutive lengths in 5 foot multiples add 0.015 per lin. ft.

7. For specified single length, add 0.02 per lin. ft.

8. For random length orders where the purchaser specifies restricted loading, the seller may add ⅔ of the proper specified length addition above. Additions allowed by this footnote must be shown separately on invoices.

9. *For clean peeled poles.*
Classes 1, 2, and 3 or top size equivalent, add 0.02 per lin. ft.
Classes 4 to 10 inclusive or top size equivalent, add 0.01 per lin. ft.

10. *Unpeeled poles.*
Classes 1, 2, and 3 or top size equivalent, deduct 0.02 per lin. ft.
Classes 4 to 10 inclusive or top size equivalent, deduct 0.01 per lin. ft.

11. Framing of poles including roofing and, if required, two gains and boring of holes therein.

All poles under 40' in length, regardless of class or top dimension—per pole	$0.15
For 40' length Class 6 or top dimension equivalent and smaller—per pole	.15
For 40' length Class 5 or top dimension equivalent and larger—per pole	.30
For all poles longer than 40', regardless of class or top dimension—per pole	.30
For each additional gain and boring of one hole therein—per gain	.06
For boring of each additional hole—per hole	.02

12. Continuous slab gain shall be considered as multiple gains and may be priced accordingly on basis of six cents for each twelve inches of slab-gained surface including the boring of hole therein.

13. *Cut back allowances.* When requirements of the buyer exceed the available supply of the seller, for one or more sizes or lengths of pole for delivery required, the seller may cut back the most similar size pole in the 5' longer length and may charge the maximum price for the size and length pole actually used. The additions for transportation, treatment, processing, etc., on such cut back poles, shall be those additions applicable to the size and length pole ordered by the buyer, plus an addition for inbound freight computed at the difference in estimated weights times the freight rate to the concentration yards. No addition may be made for the labor included in such cutting back operations. The seller shall keep a record of such sales and show this charge as separate item as on the invoices.

PENNSYLVANIA ANTHRACITE IN DESIGNATED COUNTIES IN PENNSYLVANIA

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator of the Office of Price Administration by §§ 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, it is ordered:

(a) *What this order does—(1) Dealers' maximum prices: Area covered.* If you are a dealer in "Pennsylvania anthracite," this order fixes the maximum prices which you may charge, and if you are a purchaser in the course of trade or business, this order fixes the maximum prices which you may pay, for certain sizes and quantities of "Pennsylvania anthracite" (hereinafter called simply "anthracite") delivered to or at any point in Commonwealth of Pennsylvania—Coal Area VIII. That area comprises four full counties and designated parts of four other counties in the Commonwealth of Pennsylvania, falling into four zones as follows:

Zone 1. Zone 1 includes all of Dauphin County except the City of Harrisburg, the Boroughs of Paxtang, Penbrook, and Steelton and the Townships of Lower Paxton, Susquehanna, and Swatara.

Zone 2. Zone 2 includes all of Mifflin and Juniata Counties: Perry County, except the Borough of Marysville; and Cumberland County, except the Boroughs of Camp Hill, Lemoyne, Mechanicsburg, New Cumberland, Shiremanstown, West Fairview and Wormleysburg, and the Townships of East Pennsboro, Hampden and Lower Allen.

Zone 3. Zone 3 includes all of Adams County; York County, except the City of York, the Boroughs of Dallastown, Dover, Jacobus, Loganville, Manchester, Mount Wolf, New Salem, North York, Seven Valleys, Spring Grove, West York and Yoe, and the Townships of Conewago, Dover, East Manchester, Jackson, Manchester, Newberry, North Codorus, Springetsbury, Springfield, Spring Garden, West Manchester and York.

Zone 4. Zone 4 includes all of Franklin County.

The excluded portions of the above counties which are included only in part are covered by Order No. 50 under Revised Maximum Price Regulation No. 122.

(2) *Schedules of prices, charges and discounts.* The applicable prices, authorized charges, and required discounts, from which you shall determine the maximum prices for designated sizes and quantities of anthracite delivered within Zones 1, 2, 3, and 4 are set forth in Schedule I, II, III, and IV, respectively.

(3) *To what sales this order applies.* If you are a dealer in anthracite, you are bound by the prices, charges and discounts, and by all other provisions of this order for all deliveries within Zones 1, 2, 3, and 4.

You shall determine the maximum price for "Direct-Delivery" sales, as hereinafter defined, by reference to the appropriate Schedule of this order covering the zone in which the purchaser takes physical possession or custody of the anthracite.

(b) *What this order prohibits.* Regardless of any contract or other obligation, you shall not:

(1) Sell or, in the course of trade or business, buy anthracite of the sizes and in the quantities set forth in the Schedule herein, at prices higher than the maximum prices computed as set forth in paragraph (c) of this order, although you may charge, pay, or offer less than maximum prices.

(2) Obtain any price higher than the applicable maximum price by:

(i) Changing the discounts authorized herein, or

(ii) Charging for any service which is not expressly requested by the buyer, or

(iii) Charging for any service for which a charge is not specifically authorized by this order, or

(iv) Charging a price for any service higher than the Schedule price for such service, or

(v) Using any tying agreement or requiring that the buyer purchase anything in addition to the fuel requested by him, except that a dealer may comply with requirements or standards with respect to deliveries which have been or may be issued by an agency of the United States Government.

(vi) Using any other device by which a higher price than the applicable maximum price is obtained, directly or indirectly.

(c) *How to compute maximum prices.* You must figure your maximum price as follows:

(1) *Use the schedule which covers your sale.* (Schedule I contains a separate table of prices for "direct-delivery" sales and "yard sales" within Zone 1. You will find Schedule I in paragraph (d). In like manner Schedules II, III, and IV contain separate tables of prices for similar sales in Zones 2, 3, and 4, respectively. You will find Schedule II in paragraph (e), Schedule III in paragraph (f), and Schedule IV in paragraph (g).

(2) Take the dollars-and-cents figure given in the applicable table of the applicable Schedule, for the sizes and quantity you are selling.

(3) Deduct from that figure the amount of the discount which you are required to give, as specified therein. Where a discount is required, you must state it separately on your invoice.

(4) If, at your purchaser's request, you actually render him a service for which this order authorizes a charge, you may add to the figure obtained as above no more than the maximum authorized service charge. You must state that charge separately on your invoice. The only authorized service charges are those provided for in the Schedules.

(d) *Schedule I.* Schedule I establishes specific maximum prices for certain sizes of anthracite, in certain specific quantities, delivered to or at any point within Zone 1. There is a separate table of prices for "direct-delivery" sales and "yard sales".

(h) *Commingling.* If you sell one size of anthracite commingled with another size of anthracite, your maximum price for the combination shall be the maximum price established in this order for the smallest of the sizes so commingled, except in the following situation. Where a purchaser requests that two or more sizes of anthracite be commingled in one delivery, then, and in that event, if those sizes are separately weighed at the point of loading, the dealer may commingle those sizes in the truck or other vehicle in which the delivery is made. The price for anthracite so commingled shall be calculated on the basis of the applicable per net ton price for each size in the combination, and the invoice shall separately state the price, so determined, for the quantity of each size in the combination.

(i) *Ex Parte 148 Freight Rate Increase.* Since the Ex Parte 148 Freight Rate Increase has been rescinded by the Interstate Commerce Commission, dealers' freight rates are the same as those of December 1941. Therefore, you may not increase any Schedule price on account of freight rates.

(j) *Addition of increase in suppliers' maximum prices prohibited.* You may not increase the specific maximum prices established by this order to reflect, in whole or in part, any subsequent increase to you in your supplier's maximum price for the same fuel. The specific maximum prices already reflect increases to you in your supplier's maximum prices occurring up to the effective date of this order. If increases in your supplier's maximum prices should occur after such date, as the result of any amendment to or revision of a maximum price regulation issued by the Office of Price Administration governing sales and deliveries made by such suppliers, the Regional Administrator will, if he then deems it to be warranted, take appropriate action to amend this order to reflect such increases.

(k) *Taxes.* If you are a dealer subject to this order you may collect, in addition to the specific maximum prices established herein, provided you state it separately, the amount of the Federal tax upon the transportation of property imposed by Section 620 of the Revenue Act of 1942 actually paid or incurred by you, or an amount equal to the amount of such tax paid by any of your prior suppliers and separately stated and collected from you by the supplier from whom you purchased. On sales to the United States or any agency thereof, or to the Commonwealth of Pennsylvania or any political subdivision thereof, you need not state this tax separately.

(l) *Adjustable pricing.* You may not make a price adjustable to a maximum price which will be in effect at some time after delivery of the anthracite has been completed; but the price may be adjustable to the maximum price in effect at the time of delivery.

(m) *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be filed with the Regional Administrator and acted upon by him.

(n) *Right of amendment or revocation.* The Regional Administrator or the Price Administrator may amend, revoke or rescind this order, or any provision thereof, at any time.

(o) *Applicability of other regulations.* If you are a dealer subject to this order, you are governed by the licensing provisions of Licensing Order 1. Licensing Order 1 provides, in brief, that a license is required of all persons making sales for which maximum prices are established. A license is automatically granted. It is not necessary to apply for the license. The license may be suspended for violations in connection with the sale of any commodity for which maximum prices are established. If your license is suspended, you may not sell any such commodity during the period of suspension.

(p) *Records.* If you are a dealer subject to this order, you shall preserve, keep, and make available for examination by the Office of Price Administration, a record of every sale of anthracite hereunder, showing the date, the name and address of the buyer, if known, the per net ton price charged, and the solid fuel sold. The solid fuel shall be identified in the manner in which it is described in the order. The record shall also state separately each service rendered and the charge made for it.

(q) *Posting of maximum prices: Sales slips and receipts.* (1) If you are a dealer subject to this order, you shall post all your maximum prices as set forth in the applicable Schedule or Schedules of this order) in your place of business in a manner plainly visible to and understandable by the purchasing public.

(2) If you are a dealer subject to this order, you shall, except for a sale of less than one-half ton, give each purchaser a sales slip or receipt showing your name and address, the kind, size, and quantity of the anthracite sold to him, the date of the sale or delivery and the price charged, separately stating the amount, if any, of the required discounts which must be deducted from, and the authorized service charges and the taxes, which may be added to, the specific maximum prices prescribed herein.

In the case of all other sales, you shall give each purchaser a sales slip or receipt containing the information described in the foregoing paragraph if requested by such purchaser or if, during December 1941, you customarily gave purchasers such sales slips or receipts.

(r) *Enforcement.* (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Harrisburg District Office of the Office of Price Administration, or with the Price Panel of the appropriate War Price and Rationing Board.

(s) *Definitions and explanations.* When used in this Order No. G-46, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(2) "Sell" includes sell, supply, dispose, barter, exchange, lease, transfer, and deliver, and contracts and offers to do any of the foregoing. The terms "sale", "selling", "sold", "seller", "buy", "purchase", and "purchaser" shall be construed accordingly.

(3) "Dealer" means any person selling anthracite of the sizes set forth in the Schedules herein, and does not include a producer or distributor making sales at or from a mine, a preparation plant operated as an adjunct of any mine, or a briquette plant.

(4) "Pennsylvania anthracite" means all coal produced in the Lehigh, Schuylkill and Wyoming regions in the Commonwealth of Pennsylvania.

(5) The sizes of "Pennsylvania anthracite" described as broken, egg, stove, nut, pea, buckwheat, rice, barley, and screenings shall refer to the same sizes of the same fuel as were sold and delivered in the Commonwealth of Pennsylvania—Coal Area VIII with such designations during December 1941. Under no circumstances, however, shall the anthracite contain an ash content in excess of the limits specified by Amendment No. 1 to Solid Fuels Administration for War Regulation No. 9.

(6) "Direct delivery", except with respect to sales in 100 lb. lots, means delivery to the buyer's bin or storage space by dumping or chuting directly from the seller's truck or other vehicle or, where such delivery to the buyer's bin or storage space is physically impossible, by discharging at the point nearest and most accessible to the buyer's bin or storage space and at which the coal can be discharged directly from the seller's truck. "Direct delivery" in 100 lb. lots shall mean depositing in buyer's bin or other storage space designated by buyer.

(7) "Carry" and "wheel" refer to the movement of coal to buyer's bin or storage space in baskets or other containers, or by wheelbarrow or barrel, from seller's truck or vehicle, or from the point nearest and most accessible to the buyer's bin or storage space at which the coal is discharged from seller's truck in the course of "direct delivery".

(8) "Yard sales" means sales accompanied by physical transfer to the buyer's truck or vehicle at the yard, dock, barge, car, or at a place of business of the seller other than at seller's truck or vehicle.

(9) Except as otherwise provided herein, or as the context may otherwise require, the definitions set forth in Sections 1340.255 and 1340.266 of Revised Maximum Price Regulation No. 122 shall apply to terms used herein.

(t) *Effect of order on Revised Maximum Price Regulation No. 122.* This Order No. G-46 shall supersede Revised Maximum Price Regulation No. 122, except as to any sales or deliveries of solid fuels not specifically subject to this order.

NOTE: The record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This Order No. G-46 shall become effective September 20th, 1944.

SURPLUS WAR PROPERTY ADMINISTRATION.

[Regulation 4]

SURPLUS AIRCRAFT AND RELATED PROPERTY

ESTABLISHMENT OF PRICING POLICY FOR DISPOSAL

Scope of regulation. By Regulation No. 1, the Reconstruction Finance Corporation was designated as the disposal agency for aircraft and property peculiar to aircraft in the United States, U. S. Territories and Possessions. The Foreign Economic Administration was designated as the disposal agency for property located in foreign territory.

The purpose of this regulation is to establish a pricing policy for the disposal, by the Reconstruction Finance Corporation and the Foreign Economic Administration, of surplus aircraft and property peculiar to aircraft.

In order to provide for the widest possible use of aircraft, disposal by lease, terminable installment sale or cash sale is authorized in certain instances as set forth in this regulation.

For pricing purposes, all property will be classified as belonging in one of the following categories:

Class A. Tactical aircraft, or planes useful only for military purposes.

Group 1. Aircraft designed and built to perform bombing, combat, reconnaissance and other tactical and military missions.

Group 2. Basic and advanced trainers.

Class B. Transport aircraft.

Group 1. Multi-engined aircraft of 17,500 lbs. gross weight and over, primarily suitable for transportation of passengers and/or cargoes over principal commercial or military air routes.

Group 2. Single and multi-engined aircraft of less than 17,500 lbs. but more than 9,000 lbs. gross weight, primarily suitable for feeder lines and executive transport uses.

Class C. Personal aircraft.

Group 1. Single and multi-engined aircraft, other than those in Class B, primarily suitable for private flying.

Group 2. Primary training aircraft.

Group 3. Miscellaneous types, such as gliders and rotary wing aircraft which cannot be classified in any other category.

Class D. Aircraft equipment and component parts.

Class E. Unabsorbed surplus. Aircraft and equipment deemed to have no substantial commercial aviation market, to be disposed of for educational and memorial purposes, or for non-aviation purposes, salvage or scrap.

Price policy. Class A. Class A aircraft are not generally suitable for public sale and will, for the most part, be placed in Class E.

Those Class A aircraft which are convertible to Class B types will be priced under the pricing policies established for Class B aircraft.

A limited number of Class A aircraft may be sought by friendly foreign nations. Prices should be established by government-to-government negotiation. All such negotiations must have the approval of the Department of State and the War and Navy Departments.

Class A aircraft which are sold for private or industrial flight purposes in the United States will be sold at prices which are not lower than the estimated sales value of salvageable component parts plus the estimated scrap value of unsalvageable residue.

Class B. A type price shall be established for each Class B passenger or cargo model. Type prices shall be determined in accordance with the following principles:

One model in Group 1 and one model in Group 2, currently in production, and in broadest general use will be selected as the "base model" for type price determination. The approximate average manufacturing cost of the "base model" during the first six months of 1944, will be established as the type price of the model selected as "base model." Type prices of other models in the same group will be established on a basis which, for the purpose of fixing reasonably competitive prices on all models in the same group, will give due consideration to the differences in (a) earning capacity, (b) latest date of manufacture, (c) cost of operation, and (d) estimated cost of manufacture, if manufactured during the first six months of 1944 in volume equal to that achieved in the case of "base model" during that period.

A schedule of type prices shall be filed with the Surplus War Property Administration.

Individual prices of Class B aircraft offered for sale or lease will be the type prices, less reasonable allowances for (a) cost of necessary repairs, (b) general wear and tear, and (c) cost of conversion.[2]

At the option of the purchaser, disposal may be made either by lease or terminable installment sale or cash sale. A principal difference between lease and terminable installment sale is that title passes in the case of the latter, but not in the case of the former. The right to terminate the lease or installment sale contract at any time, without penalty shall be vested only in the purchaser, except that the Government may reserve the right to terminate for failure of the lessee or purchaser to carry out the terms of the lease or the contract.

Annual rentals or installments should be based on type price and may be spread over a period not to exceed five years. Reasonable initial cost of repairs, general wear and tear and conversion[2] incurred by lessee or installment purchaser shall be credited to rental or installment payments in equal amounts during the period of the lease or installment purchase. At any time the lessee or purchaser should be permitted to acquire full title by paying the difference between individual aircraft price and rental or installments paid.

The foregoing pricing policy for Class B aircraft is provisional, and is designed to meet present conditions of short supply under which transport aircraft are allocated among applicants. The disposal agencies shall so notify each applicant for Class B aircraft, indicating the possibility of downward revision in future prices.

Class C. Ceiling prices will be established for all aircraft in Group 1 in accordance with the provisions of OPA regulations currently in effect. Aircraft in this group shall be offered, in the continental United States, for competitive bidding "where is," "as is" or at ceiling prices. Group 1 aircraft located in the United States which are offered for sale outside of the continental United States may be sold at prices approximating those currently being received in the United States for similar aircraft in comparable condition. Group 1 aircraft located outside the United States may be offered for competitive bidding or sold at prices approximating those currently being received in the United States for similar aircraft in comparable condition.

Aircraft in Group 2 may be offered for competitive bidding or at uniform model prices established from time to time and appropriately adjusted to reflect the relative condition of the individual aircraft. Group 2 aircraft will not be sold at prices lower than the estimated sales value of salvageable component parts plus the estimated scrap value of unsalvageable residue.

Aircraft in Group 3 may be offered for competitive bidding or sold at fixed prices established by the disposal agencies. In no event shall the sale price be lower than the estimated sales value of salvageable component parts plus the estimated scrap value of the unsalvageable residue.

Class D. Aircraft equipment and component parts shall, whenever practicable, be priced in accordance with normal trade practices, and shall, as a general rule, be distributed through normal trade channels.

Class E. Aircraft and property peculiar to aircraft in Class E, which are considered to have little or no commercial value, may be leased, loaned, donated or sold at nominal prices by the disposal agencies to non-profit educational institutions if the powers of the original owning agency permit such disposal, or if lease, loan or donation by the disposal agency concerned is authorized by Congress.

Aircraft and property peculiar to aircraft in Class E, which are considered to have some commercial value, may be leased to non-profit educational institutions at nominal rentals, or sold for non-aviation purposes or scrap at the best prices obtainable under warranties that the property sold will not again be utilized for flight purposes.

Commissions to manufacturers, dealers, et cetera. Disposal agencies are authorized to allow reasonable commissions to manufacturers and dealers when such commissions are justified by the services performed.

Exceptions. Cases for which no provision is made in the foregoing pricing regulations should be referred to the Surplus War Property Administration, which, by direct action without amendment to this Regulation, may authorize exceptions when, in its opinion, the public interest requires.

W. L. CLAYTON,
Administrator.

By G. T. BRIDGMAN,
Deputy Administrator.

GENERAL PULASKI'S MEMORIAL DAY

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS it is especially fitting at this time, when the vandals of the western world have been pushed back to their own frontiers, that we pay homage to the indomitable spirit of the Poles who were the first to take up arms against the aggression of our common foe; and

EXECUTIVE ORDER 9484

AUTHORIZING THE SECRETARY OF WAR TO TAKE POSSESSION OF AND OPERATE THE PLANTS AND FACILITIES OF THE FARRELL CHEEK STEEL COMPANY, LOCATED AT SANDUSKY, OHIO

WHEREAS, after an investigation, I find and proclaim that the plants and facilities of the Farrell Cheek Steel Company, located in and around Sandusky, Ohio, are equipped for the manufacture and production of articles and materials that are required for the war effort, or that are useful in connection therewith; that there are existing interruptions of the operation of said plants and facilities as a result of a labor disturbance; that the war effort will be unduly impeded or delayed by such interruptions; and that the exercise, as hereinafter specified, of the powers vested in me is necessary to insure, in the interests of the war effort, the operation of these plants and facilities;

NOW, THEREFORE, by virtue of the power and authority vested in me by the Constitution and laws of the United States, including section 9 of the Selective Training and Service Act of 1940 (54 Stat. 892), as amended by the War Labor Disputes Act (57 Stat. 163), as President of the United States and Commander in Chief of the Army and Navy of the United States, it is hereby ordered as follows:

1. The Secretary of War is hereby authorized and directed, through and with the aid of any persons or instrumentalities that he may designate, to take possession of the plants and facilities of the Farrell Check Steel Company, located in and around Sandusky, Ohio, and, to the extent that he may deem necessary, of any real or personal property and other assets wherever situated, used in connection with the operation thereof; to operate or to arrange for the operation of the plants and facilities in any manner that he deems necessary for the successful prosecution of the war; to exercise any contractual or other rights of the Farrell Check Steel Company and to continue the employment of, or to employ, any persons, and to do any other thing that he may deem necessary for, or incidental to, the operation of the said plants and facilities and the production, sale and distribution of the products thereof; and to take any other steps that he deems necessary to carry out the provisions and purposes of this Order.

2. The Secretary of War shall operate the said plants and facilities pursuant to the provisions of the War Labor Disputes Act, and during his operation of the plants and facilities shall observe the terms and conditions of the interim directive order, dated March 18, 1944, and the final directive order, dated April 1, 1944, of the Fifth (Cleveland) Regional War Labor Board, as amended by the directive order of the National War Labor Board, dated July 12, 1944, provided that the Secretary of War is authorized to pay the wage increases specified in said directive orders, which accrued from the effective dates specified in said directive orders to the date possession of said plants and facilities is taken under this Order, only out of the net operating income of said plants and facilities during the period of their operation by the Secretary of War. In the event that it appears to the Secretary of War that the net operating income of said plants and facilities will be insufficient to pay the foregoing accrued wage increases, the Secretary shall make a report to the President with respect thereto.

3. The Secretary of War is authorized to take such action, if any, as he may deem necessary or desirable to provide protection for the plants and all persons employed or seeking employment therein.

4. Possession, control, and operation of any plant or facility, or part thereof, taken under this order, shall be terminated by the Secretary of War within 60 days after he determines that the productive efficiency of the plant, facility, or part thereof prevailing prior to the existing interruptions of production, referred to in the recitals of this order, has been restored.

It is ordered, That the respondents American Association of Law Book Publishers, an unincorporated association; The American Law Book Company, a corporation, The W. H. Anderson Company, a corporation; Baker, Voorhis and Company, a corporation; Bancroft-Whitney Company, a corporation; Matthew Bender and Company, Inc., a corporation; Bender-Moss Company, a corporation; Clark Boardman Company, Ltd., a corporation; Bobbs-Merrill Company, a corporation; John Byrne and Company, a corporation; Dennis and Company, Inc., a corporation; The Harrison Company, a corporation; The Lawyers Co-Operative Publishing Company, a corporation; Little, Brown and Company, a corporation; The Michie Company, a corporation; National Law Book Company, a corporation; Public Utilities Reports, Inc., a corporation; The Frank Shepard Company, a corporation; Burdette Smith Company, a corporation; Soney and Sage Company, a corporation; Thomas Law Book Company, a corporation; Vernon Law Book Company, a corporation; Washington Law Book Company, a corporation; West Publishing Company, a corporation; Williamson Law Book Company, a corporation; Callaghan & Company, a corporation; and Fallon Law Book Company, a corporation, and their respective officers, agents, representatives, and employees, in connection with the offering for sale, sale, and distribution of law books and related legal publications in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from entering into, continuing, cooperating in, or carrying out, or directing, instigating, or cooperating in, any planned common course of action, mutual agreement, understanding, combination, or conspiracy between and among any two or more of said respondents or between any one or more of said respondents and others not parties hereto to do or perform any of the following acts or practices:

1. Establishing, fixing, or maintaining discounts, terms, or conditions of sale for law books and related legal publications or adhering to or promising to adhere to the discounts, terms, or conditions of sale so fixed.

2. Maintaining or adhering to the selling price, terms, and conditions of sale of law books and related publications fixed and established by the respondent who publishes such books.

3. Holding or participating in any meeting, discussion, or exchange of information among themselves or under the auspices of the respondent American Association of Law Book Publishers or any other medium or agency concerning proposed or future discounts, terms, or conditions of sale or concerning bids and price quotations in advance of the submission of such bids or price quotations to purchasing officials of the Federal Government or to awarding authorities of other governmental units or subdivisions or to any buyer of law books and related legal publications.

4. Arriving at the amount of any bid or the discount, terms, or conditions of sale to be submitted to purchasing officials of the Federal Government, to awarding authorities of other governmental units or subdivisions, or to any buyer of law books and related legal publications through agreement, understanding, or collusion with other bidders.

5. Establishing, fixing, or maintaining the rates of allowances to be made, used, and applied on books and other publications received in trade, or fixing and maintaining the prices, terms, or conditions of sale governing the resale of such law books and related legal publications taken in trade.

6. 8. Employing or utilizing American Association of Law Book Publishers or any other medium or central agency as an instrument, vehicle, or aid in performing or doing any of the acts and practices prohibited by this order.

It appearing to the Commission that the record herein does not directly and specifically raise any issue of the legality of joint publication ventures and that it is not necessary to determine any such issue in the present proceeding, *It is therefore further ordered*, That the order to cease and desist herein shall not be construed as prohibiting joint publishers of any specific law book, set of law books or related legal publication, from engaging in the cooperative activities otherwise prohibited by this order, provided that such activities are pursued in good faith and solely with respect to publishing and selling such jointly published law book, set of law books, or related legal publications in the usual and ordinary course of business and are not used for the purpose of evading the terms of the order. By this action the Commission does not now pass upon the legality or illegality of joint publication ventures as such, and this action is without prejudice to the Commission's right to institute a new proceeding at any time with respect to the legality of such ventures.

It is further ordered, That nothing herein contained shall be construed as prohibiting a parent corporation from directing the prices or terms at which any of its subsidiary corporations shall sell any law book or related legal publication published by the parent corporation or by any of its subsidiaries when such prices or terms have been arrived at by the parent corporation acting separately and independently of any competitor of the parent corporation or of any of its subsidiary corporations.

It is further ordered, That nothing in this order is to be construed as prohibiting any of said corporate respondents from entering into such contracts or agreements relating to the maintenance of resale prices as are not prohibited by the provisions of an Act entitled, "An Act to protect trade and commerce against unlawful restraints and monopolies," approved July 2, 1890 (the Sherman Act), as amended.

It is further ordered, That the complaint herein be, and it hereby is, dismissed as to George T. Bisel, an individual trading as George T. Bisel Company.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

Secretary.

PART 903—DELEGATIONS OF AUTHORITY

[Directive 27, as Amended Sept. 23, 1944]

PRIORITIES ACTION BY THE FOREIGN ECONOMIC ADMINISTRATION

§ 903.39 *Directive 27*—(a) *General rating authority.* (1) The Foreign Economic Administration may assign preference ratings up to and including AA-3 to the delivery, for export, of the following material:

(i) Any material included on any single application (other than Form FEA-471) if all of the material rated on the application has an aggregate value of less than $2500; and

(ii) Any material applied for on Form FEA-471 which is classifiable under a single Department of Commerce Schedule B Number, if all of the material classifiable under the same Schedule B Number has an aggregate value of less than $2500.

(2) As an exception to the rating authority given in subparagraph (1), ratings may not be assigned under subparagraph (1) to the following:

(i) Any material as to which there is in effect, at the time the application is acted upon, a Program Determination of the Requirements Committee or an approved Decision of a Division Requirements Committee of the War Production Board which establishes an approved quantity for the Foreign Economic Administration, except where and to the extent that the Program Determination or Decision specifically states that the rating authority given by this paragraph (a) may be used;

(3) In assigning ratings under this paragraph (a), the Foreign Economic Administration shall follow such processing instructions as the Program Vice Chairman may prescribe from time to time. Furthermore, the rating policies set forth in Program Determination No. 319 (Revised) and Program Determination No. 500–B (and in their amendments and superseding Program Determinations) must also be followed. (For example, material which is required by Program Determination No. 500–B to be rated lower than AA–3 on a domestic application must be assigned the lower rating on a comparable export application.)

(b) *Rating of programmed material.* In addition, the Foreign Economic Administration may assign preference ratings to the delivery of material for export to the extent authorized by a Program Determination of the Requirements Committee or an approved Decision of a Division Requirements Committee of the War Production Board, as transmitted to the Foreign Economic Administration by the War Production Board.

(c) *Form of assignment of ratings.* The Foreign Economic Administration shall assign ratings under this directive by endorsement of a legend substantially as shown below, to which may be added any further provisions which conform to War Production Board orders or regulations and which are authorized by the program determination or approved decision: "Under authority of the War Production Board, delivery of the material referred to herein is assigned a preference rating of ---------- Application and extension of rating shall be made in accordance with Priorities Regulation No. 3." The legend shall be endorsed on the export license (including release certificate where used), or on the Lend-Lease requisition or commitment letter to the procuring agency in the case of material being procured by or on behalf of the Foreign Economic Administration, or on other appropriate instrument approved for this purpose by the War Production Board.

(d) *General provisions.* (1) The Foreign Economic Administration may exercise the authority delegated in this directive through such of its officials as the Administrator of the Foreign Economic Administration may determine.

(2) The Foreign Economic Administration shall make to the Program Vice Chairman such monthly reports on the exercise of the authority granted by this directive as the Program Vice Chairman shall require from time to time.

(3) A true copy of every document on which a preference rating is assigned pursuant to the provisions of this directive shall be maintained by the Foreign Economic Administration for inspection by a representative of the War Production Board at any time.

(e) *Revocation of Priorities Directive No. 3.* Priorities Directive No. 3 is hereby revoked effective January 1, 1944.

(f) *Effective date.* This directive as amended September 23, 1944, shall become effective on October 1, 1944. Until that date, Directive 27 as amended August 9, 1944, shall remain in effect.

(Sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; WPB Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696)

Issued this 23d day of September 1944.

S. W. ANDERSON,
Program Vice Chairman.

INTERPRETATION 1

EFFECT ON OUTSTANDING RATINGS

Priorities Directive 3 was revoked by Directive 27 effective January 1, 1944. At the same time Order M–149 was also revoked. Nevertheless, ratings assigned by the Foreign Economic Administration (or its predecessors, the Board of Economic Warfare and the Office of Economic Warfare) before that date may still be applied and extended. § 944.4 (a) of Priorities Regulation 1, regarding the effect of revocation of a preference rating order, does not apply since the ratings were not assigned by those instruments but by the Foreign Economic Administration or its predecessors under specific authorizations from the War Production Board, which remain in effect. The method of application and extension is now provided by Priorities Regulation 3. (Issued Feb. 25, 1944.)

INTERPRETATION 2

LENGTH OF VALIDITY OF RATINGS ASSIGNED ON EXPORT LICENSES

A rating assigned by the Foreign Economic Administration, under the authority of Directive 27, by endorsing the required legend on an export license is valid for the life of the export license in the absence of any applicable rule or restriction set forth in an order or regulation of the War Production Board governing transactions in the material covered by the rating. This means that the rating must be applied and the material covered by the rating must have been delivered to the holder of the export license before the expiration of the life of the license. Otherwise, the procedure applicable when an individually assigned rating is revoked, provided in § 944.4a of Priorities Regulation 1, will be deemed applicable. On the other hand, if the rating has been applied and the material to which it has been applied has been delivered before the expiration of the life of the export license, its subsequent expiration will not affect the right of the supplier to extend the rating in order to replenish his inventory. Such extension is, of course, subject to the provisions of paragraph (h) (1) of Priorities Regulation 3.

Revocation of an export license on which a rating has been assigned by the Foreign Economic Administration revokes the rating, and § 944.4a of Priorities Regulation 1 is consequently applicable. Extension of the life of an export license, on the other hand, extends the period for which a rating assigned on the export license is valid. (Issued July 5, 1944.)

PART 1226—GENERAL INDUSTRIAL EQUIPMENT

[General Limitation Order L–314, as Amended Sept. 23, 1944]

LUBRICATION EQUIPMENT

The fulfillment of the requirements for the defense of the United States has created a shortage in the supply of materials used in the production of lubrication equipment, for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1226.127 *General Limitation Order L–314*—(a) *Definitions.* For the purposes of this order:

(1) "Lubrication equipment" means any new machinery, equipment, device, or appliance for dispensing grease, oil, or other lubricant, or for applying a lubricant to any machinery or equipment at any point requiring lubrication; including general and special purpose lubrication equipment, lubrication fittings, oil and grease cups and receptacles and hand oilers as well as furnishings, accessories, appliances, of the types defined in paragraph (c) (1) of this order. It includes repair parts for any of such equipment. The term "lubrication equipment" shall not, however, include any of the following types of equipment designed to be used exclusively for railway locomotives or railway track rails (i) hydrostatic lubricators for steam locomotive valve and cylinder lubrication or for steam locomotive auxiliaries; (ii) mechanical lubricators and lubricating system for steam locomotive valves, cylinders, chassis and running gear members and auxiliaries; (iii) mechanical lubricators for diesel electric and electric locomotive chassis and running gear members; (iv) journal lubricators for driving, engine truck, trailer truck or tender journals using either oil or grease as a lubricating medium; (v) rail and flange lubricators as used on railway track rails.

(2) "Manufacturer" means any person who constructs, manufactures, or assembles lubrication equipment for resale.

(3) [Deleted Sept. 23, 1944.]

(4) [Deleted Sept. 23, 1944.]

(b) [Deleted Sept. 23, 1944.]

(c) *Production restrictions.* (1) No manufacturer shall fabricate or assemble any of the following kinds of lubrication equipment:

(i) Metal shielded grease and oil barrel pumps.

(ii) Metal shielded portable grease pumps and transfers, except that metal shielding may be used in the manufacture of portable grease pumps designed to hold 25 to 50 pounds original grease containers, but only where such shielding acts as the support for the pumping mechanism.

(iii) Metallic wall batteries, compartments, liners and cabinets, whether for individual or multiple installation.

(iv) Metallic backgrounds, panels, shelving and display boards.

(v) Metallic hand gun carriers, gun boards, gun racks, service boards and gun carriages and carts which are not to be delivered to and for use by the Army, Navy, Maritime Commission, War Shipping Administration, the military forces of any Lend-Lease country, or the Veterans' Administration.

(vi) Metallic centerstands, centerwells, lubewells, service or job write-up desks, metal shielded waste oil drains, oil bars, motor oil dispensing cabinets and combination service outlet-waste oil drains.

(2) [Deleted Mar. 24, 1944]

(3) The limitations and restrictions of subparagraph (c) (1) above shall not apply to or prohibit the following:

(i) The completion of any piece of lubrication equipment, from component parts that were fabricated prior to March 24, 1944, and which constitute not less than 80% of the finished piece of equipment (according to the aggregate weight of such parts), if the manufacturer cannot reasonably anticipate that he can utilize such parts as maintenance or repair parts within six months after that date; or

(ii) The fabrication or assembly of parts to be sold for maintenance or repair of lubrication equipment, where such parts would not be interchangeable with the replaced parts, if manufactured in accordance with this order.

(4) No manufacturer shall fabricate or assemble maintenance or repair parts in any calendar quarter in an amount exceeding, in dollar resale value, 150 per cent of the dollar resale value of maintenance and repair parts sold by him during the corresponding calendar quarter in the period from July 1, 1940 to June 30, 1941. This limitation shall not apply to parts for direct use by the United States Army, Navy, Maritime Commission, War Shipping Administration, the Military Forces of any Lend-Lease country or the Veterans' Administration. As used in this paragraph (c), "maintenance" shall mean the upkeep of lubrication equipment in sound working condition, and "repair" shall mean the restoration without change of design of any portion of lubrication equipment to sound working condition when such portion has been rendered inoperative or unsafe or unfit for service by wear, or tear, damage, destruction, failure of parts, or other similar causes.

(d) *Conservation.* No manufacturer shall fabricate or assemble any lubrication equipment other than in accordance with the following restrictions:

(1) No chromium, bismuth, tin, zinc or nickel, or alloys thereof, shall be used in the fabrication of parts, finishes, or plating, except in solder or bearings, and except that:

(i) Repair parts for lubrication equipment which was fabricated prior to November 20, 1943, may be made of the same material as the part to be repaired or replaced if and to the extent that parts fabricated in accordance with the restrictions of this paragraph (d) would not be interchangeable with such existing parts because of the change in materials used.

(ii) [Deleted Dec. 20, 1943]

(iii) Zinc may be used for galvanizing, plating, and for die cast parts. (See, however, Conservation Order M–11–b for limitations on quantity.)

(iv) Chromium-stainless or chromium-nickel-stainless steel may be used for pump cylinder sleeves, pistons, valve seats or moving valve parts, and indicator rods which require free movement, for central pumping units in centralized lubricating systems.

(v) N. E. alloy steel may be used for cylinder sleeves, pistons, worm and drive shafts for central pumping units in centralized lubricating systems.

(vi) Nickel-copper alloy may be used in the manufacture of monel hydraulic fittings only for use aboard ships or amphibious equipment by the Army, Navy, Maritime Commission or War Shipping Administration where required by applicable specifications (other than performance specifications) of the agency for whose use the fittings are to be delivered.

(2) Rubber and synthetic rubber shall not be used except as permitted in Rubber Order R–1, as amended, or any relief granted pursuant to an appeal taken in accordance with the provisions of such order.

(3) Cadmium shall not be used except as permitted in General Preference Order M–65, as amended, or any relief granted pursuant to an appeal taken in accordance with the provisions of such order.

(4) [Deleted Sept. 23, 1944.]

(5) No metal except aluminum or magnesium shall be used (except in small hardware, such as bolts, nuts, screws, washers, cotter pins and metal corner reinforcements) in the fabrication of tool boxes or structural frames for portable grease service stations; and no metal other than rerolled rail, aluminum, magnesium or Bessemer steel shall be used in individual grease and oil containers or hose reels.

(6) The restrictions of this paragraph (d) do not apply to electric motors and switches, gas engines, and pressure gauges, or component parts of such motors, switches, engines, and gauges.

(e) [Deleted Mar. 24, 1944]

(f) *Miscellaneous provisions*—(1) *Applicability of regulations.* This order and all transactions affected hereby are subject to all applicable provisions of War Production Board regulations, as amended from time to time.

(2) [Deleted Mar. 24, 1944]

(3) *Other limitation orders.* Nothing in this order shall be construed to permit any person to sell, deliver, or otherwise transfer, or any manufacturer to purchase, receive delivery of, or otherwise acquire any raw materials, semi-processed parts, or finished products in contravention of the terms of any L or M order, or amendments or supplements thereto, or other regulation of the War Production Board effective at the date of any such sale, delivery or other transfer. Where the limitations imposed by any other L or M order are applicable to the subject matter of this order, the most restrictive limitation shall apply, unless otherwise specifically provided herein.

(4) *Violations.* Any person who wilfully violates any provision of this order, or who wilfully furnishes false information to the War Production Board in connection with this order, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance by the War Production Board.

(5) [Deleted Sept. 23, 1944.]

(6) *Communications.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, General Industrial Equipment Division, Washington 25, D. C. Ref: L–314.

(g) *Exceptions and appeals*—(1) *Production under Priorities Regulation 25.* Any person who wants to fabricate or assemble the kinds of lubrication equipment prohibited by paragraph (c) (1), and any person who wants to fabricate or assemble more maintenance or repair parts than the quota fixed in paragraph (c) (4) (including a person who has no quota under that paragraph) may apply for permission to do so as explained in Priorities Regulation 25. Similar applications may be made under that regulation by any person who wants to use metal in the fabrication of tool boxes or structural frames for portable grease service stations. Authorization under the regulation on an application will not waive the prohibition of paragraph (d) (5) against the use of metal other than rerolled rail, aluminum, magnesium or Bessemer steel in individual grease and oil containers or hose reels.

(2) *Appeals.* Any appeal from the restrictions of this order, other than the restrictions of paragraphs (c) (1), (c) (4) and (d) (5), should be made by filing a letter in triplicate referring to the particular provision appealed from and stating fully the grounds of the appeal. No appeal should be filed from the provisions of paragraphs (c) (1), (c) (4) or (d) (5) except in respect of any requested use of other metal than rerolled rail, aluminum, magnesium, or Bessemer steel in individual grease and oil containers or hose reels.

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 1, Direction 54, as Amended Sept. 23, 1944]

DEFERRED ALLOTMENTS

The following direction is issued pursuant to CMP Reg 1:

(a) *General.* This direction describes the operation of deferred allotments. These allotments and authorized controlled material orders based on them are identified with the letter "Z" as the initial letter of the CMP allotment symbol. In most cases, this symbol will be "Z–1". Deferred allotments and authorized controlled material orders based on them are exactly the same as regular allotments and authorized controlled material orders, except as provided in this direction or as may be provided under other regulations.

(b) *Treatment by a controlled material producer of authorized controlled materials orders based on deferred allotments.* (1) A controlled material producer must accept or reject an authorized controlled material order identified by the symbol "Z" in the same way that he must accept or reject any other authorized controlled material order. However, if after accepting orders identified by a "Z" symbol, he receives orders (other than "Z" orders), which he is otherwise required to accept but would be unable to accept because of the provision of paragraph (b) (2) (iii) or Direction 23 of CMP Regulation 1 (relating to the amount of orders that can be accepted), he must defer his most recently accepted "Z" orders to the extent necessary and accept the other order.

(2) A controlled material producer must defer production of his most recently accepted "Z" order to the extent necessary to make deliveries on time on other authorized controlled material orders or other orders which he is required to fill.

(3) If at the time a "Z" order is required to be deferred by paragraph (b) (1) or (b) (2) it is scheduled for delivery within less time than the "lead times" of Schedule III to CMP Regulation No. 1, the producer need not defer such order. For instance, if a steel producer receives an authorized controlled material order with an "N–1" symbol and, under the provisions of paragraphs (b) (1) and (b) (2) he would be required to defer a "Z" order for carbon pipe which is scheduled for delivery in less than 30 days (the lead time specified in Schedule III for carbon pipe) he need not defer such order.

(4) If a "Z" order is deferred because of the provisions of paragraph (b) (1) or (b) (2) of this direction, it may be scheduled for delivery in a later month only if a new "Z" order could be accepted for delivery in such a month under the provisions of this direction and paragraph (b) of CMP Regulation No. 1. However, if the order is scheduled for delivery in a later month and that month is in a later quarter, it is not necessary for the customer to make any change in his order or have an allotment valid for the later quarter. The provisions of paragraph (b) (4) of CMP Regulation 1 and paragraph (g) of Direction 23 to that regulation, relating to prior scheduling of past due orders, do not apply to "Z" orders.

(5) Whenever a controlled material producer finds that he will be unable to fill a "Z" order within the month promised he must promptly notify the customer, stating approximately when he expects to make delivery.

(c) *Deliveries from mill stock.* A controlled material producer must not fill from mill stock, including mill accumulations of rejected material, any "Z" order until he has filled all other orders which he has received calling for similar items which he is required to fill under CMP regulations. This paragraph does not apply to copper producers.

(d) *Deliveries of controlled material for further conversion to fill "Z" orders.* If a steel producer orders controlled material from another controlled material producer which he will convert into another controlled material form for delivery on a "Z" order, he must place his order by the use of the CMP allotment symbol (instead of the symbol "PC"). It is not necessary to obtain specific permission to use this symbol. The producer on which such an order is placed must treat it as a "Z" order under this direction, and may not schedule it as part of any production directive setting aside mill capacity for "further conversion" orders.

(e) *Reports to the War Production Board.* Producers shall treat "Z" orders separately on all reports required to be filed with the War Production Board.

(f) Treatment by steel producers of orders identified by the symbol "Z–1E" is explained in Direction No. 44 to CMP Regulation No. 1.

Issued this 23d day of September 1944.

Recording Secretary.

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 5, Direction 15, as Amended, Sept. 23, 1944]

USE OF MRO SYMBOL AND RATING TO BUY INSTALLATION MATERIALS WHERE AUTHORIZATION TO CONSTRUCT IS NOT REQUIRED UNDER L–41

The following direction is issued pursuant to C M P Reg. 5:

(a) *Installing or relocating machinery or equipment.* (1) Any person who has obtained machinery or equipment for use in a business listed on Schedule A of CMP Regulation 5 may use the MRO symbol and rating assigned to him for maintenance, repair, and operating supplies by the regulation to get materials to install or relocate such equipment under the following conditions: (i) Where construction (as defined in Order L–41) is involved, he may get materials needed for the installation or relocation of machinery or equipment which Direction 2 to L–41 permits him to install or relocate without getting an authorization under that order. (ii) Where construction is not involved, he may get up to $500 worth of materials needed to install any piece of machinery or equipment.

(2) Any person who has obtained machinery or equipment for use in a business which is not listed on Schedule A of CMP Regulation 5 may use the MRO symbol and a preference rating of AA–5 to get up to $500 worth of materials needed to install or relocate any piece of machinery or equipment which Direction 2 to L–41 permits him to install or relocate without getting an authorization under that order or in any case where construction (as defined in L–41) is not involved.

(b) Deleted Aug. 19, 1944.

(c) *MRO quota need not be charged.* A person buying installation materials under this direction need not charge the amount he spends for them against his MRO quota under paragraph (f) of the regulation.

(d) *Relation to minor capital addition provision of CMP Regulation No. 5.* The purchase of installation materials under this direction is not affected by the restrictions on purchases of minor capital additions under paragraph (b) (3) of CMP Regulation No. 5. This direction applies only in cases where machinery or equipment which is installed or relocated is acquired without using the MRO rating for a minor capital addition under paragraph (b) (3) of the regulation. Under this direction, it does not matter whether the machinery or equipment costs more than $500. However, if machinery or equipment is acquired with the MRO rating under paragraph (b) (3) of the regulation, installation materials are considered part of the same capital addition, in which case the total must not exceed $500 and the cost of the installation materials as well as cost of the machinery or equipment must be charged to the MRO quota.

(e) *Applications.* Where permission to install or relocate machinery is required by Order L–41, application for such permission should be made on the appropriate form indicated on Schedule C of Order L–41. Also, such form should be used in applying for priorities assistance to buy installation materials where they cannot be bought under this direction, even if permission to install or relocate is not required by Order L–41.

TEXTILES, CLOTHING AND LEATHER MACHINERY

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of textile, clothing and leather machinery for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3290.150 *General Limitation Order L–215*—(a) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board as amended from time to time.

Before filing WPB–1319, applicants should consult the current instructions booklet relating to this form.

(c) *Communications to the War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall unless otherwise directed, be addressed to: War Production Board, Textile, Clothing and Leather Bureau, Washington 25, D. C.

(d) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventory, purchases, production and sales.

The following direction is issued pursuant to General Conservation Order M–310:

Notwithstanding paragraph (e) (4) of General Conservation Order M–310, any cutting shoe manufacturer who had on September 1, 1944 more than sufficient Group I military soles cut by him to make all the deliveries required under his military orders for a period of thirty days from said date may release 50 percent of such excess for his own use in civilian shoes or for sale to any other person without restrictions.

PART 3291—CONSUMERS DURABLE GOODS

[Limitation Order L–52, as Amended Sept. 23, 1944]

BICYCLES AND BICYCLE PARTS

Section 3291.215 *General Limitation Order L–52* is hereby amended to read as follows:

§ 3291.215 *General Limitation Order L–52*—(a) *Definitions.* For the purposes of this order "bicycle" means any new foot pedal propelled, non-motor, two-wheeled vehicle.

Regardless of the restrictions contained in this paragraph a person who, as a result of having filed an appeal, has been granted permission to manufacture bicycles may continue to manufacture them to the extent that he was authorized. A person who was permitted to manufacture bicycles under Order L–52 before this amendment dated September 23, 1944 may continue to produce under that authorization until October 31, 1944.

(2) In addition to the production which may be authorized on Form GA–1850 under paragraph (b) (1), a person may produce or assemble bicycles to fill orders for delivery to or for the account of the Army or Navy of the United States. Bicycles manufactured to fill such orders may be made without regard to the restrictions contained in paragraphs (b) (3) and (b) (4).

(3) No bicycles shall be manufactured which (i) have a net weight greater than 42 pounds exclusive of tires and tubes: (ii) have a frame measurement from the center of the crank to the top of the saddle post staff of less than 18 inches.

(4) No bicycles or bicycle parts shall be manufactured which contain any crude rubber or metal other than iron, steel, aluminum, magnesium, or zinc except that (i) chromic acid may be used for plating on seat posts, handlebars and stems, cranks, pedals and adjusting nuts and screws; (ii) brass may be used if permitted by Order M–9–c; (iii) lighting and warning equipment may contain such material as is absolutely necessary to satisfy minimum safety requirements and for which there is no satisfactory substitute; (iv) casings and tubes of tires may contain such crude rubber as permitted by Rubber Order R–1, as amended from time to time; and (v) aluminum pigment may be used.

(5) No person shall produce or assemble the following bicycle accessories: Luggage carriers, tanks, truss rods, braced handlebars, and spring forks.

(c) *Violations.* Any person who willfully violates any provision of this order or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, materials under priority control and may be deprived of priorities assistance.

(d) *Exceptions and appeals*—(1) *Production under Priorities Regulation 25.* Any person who wants to produce or assemble more bicycles than the quotas fixed in paragraph (b) (1) or (b) (2) (including a person who has no quota under the order) may apply for permission to do so as explained in Priorities Regulation 25. Restrictions of paragraphs (b) (3), (b) (4), and (b) (5) relating to the production of bicycles and bicycle parts will still be applicable to any production which is authorized under Priorities Regulation 25.

(2) *Appeals.* Any appeal from the provisions of this order other than the quota restrictions of paragraphs (b) (1) or (b) (2) should be filed on Form WPB–1477 (in triplicate), with the War Production Board, Washington 25, D. C., Ref.: L–52. No appeal should be filed from the quota restrictions of paragraphs (b) (1) or (b) (2).

(e) *Applicability of other orders and regulations.* This order and all transactions affected by this order are subject to the applicable regulations of the War Production Board. If any other order of the War Production Board limits the use of any material in the production of bicycles and bicycle parts to a greater extent than does this order, the other order shall govern unless it states otherwise.

(f) *Communications.* All reports required to be filed hereunder and all communications concerning this order, shall, unless otherwise directed, be addressed to the War Production Board, Consumers Durable Goods Division, Washington 25, D. C., Ref.: L–52.

PART 1042—IMPORTS OF STRATEGIC MATERIALS

[General Imports Order M–63, as Amended Sept. 25, 1944]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain imported materials for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1042.1 *General Imports Order M–63*—(a) *Definitions.* For the purposes of this order:

(1) "Person" means any individual, partnership association, business trust, corporation, or any organized group of persons, whether or not incorporated.

(2) "Owner" of any material means any person who has any property interest in such material except a person whose interest is held solely as security for the payment of money.

(3) "Consignee" means the person to whom a material is consigned at the time of importation.

(4) "Import" means to transport in any manner into the continental United States from any foreign country or from any territory or possession of the United States (including the Philippine Islands). It includes shipments into a free port, free zone, or bonded custody of the United States Bureau of Customs (bonded warehouse) in the continental United States and shipments in bond into the continental United States for transshipment to Canada, Mexico, or any other foreign country.

(5) "Place of initial storage" means any warehouse, yard ground storage, or other place, to which the person making the entry or withdrawal from custody of the United States Bureau of Customs of material imported subject to this order directs or has directed that such material be transported from the port of entry to be held until disposed of pursuant to this order.

(6) Material shall be deemed "in transit" if it is afloat, if an on board ocean bill of lading has actually been issued with respect to it, or if it has actually been delivered to and accepted by a rail, truck, or air carrier, for transportation to a point within the continental United States.

(7) "Governing date" with respect to any material means the date when such material first became subject to General Imports Order M–63.

(b) *Restrictions on imports of materials*—(1) *General restriction.* No person, except as authorized in writing by the War Production Board shall purchase for import, receive, or offer to receive on consignment for import, or make any contract or other arrangement for the importing of, any material subject to this order after the governing date. The foregoing restrictions shall apply to the importation of any material subject to the order, regardless of the existence on the governing date or thereafter of any contract or other arrangement for the importation of such material. The materials subject to this order are those listed from time to time upon List I, List II, and List III attached hereto.

(2) *Authorization by War Production Board.* Any person desiring such authorization, whether owner, purchaser, seller, or consignee of the material to be imported, or agent of any of them, shall make application therefor in duplicate on Form WPB–1041 (formerly PD–222C) addressed to the War Production Board, Ref.: M–63, Washington 25, D. C. Unless otherwise expressly permitted, such authorization shall apply only to the particular material and shipment mentioned therein and to the persons and their agents concerned with such shipment; it shall not be assignable or transferable either in whole or in part.

(3) *Restrictions on financing of imports.* No bank or other person shall participate, by financing or otherwise, in any arrangement which such bank or person knows or has reason to know involves the importation after the governing date of any material subject to this order, unless such bank or person either has received a copy of the authorization issued by the War Production Board under the provisions of paragraph (b) (2) or is satisfied from known facts that the proposed transaction comes within the exceptions set forth in paragraph (b) (4).

(4) *Exceptions.* Unless otherwise directed by the War Production Board, the restrictions set forth in this paragraph (b) shall not apply:

(i) To the Foreign Economic Administration, U. S. Commercial Company, Commodity Credit Corporation, Metals Reserve Company, Defense Supplies Corporation, or any other United States governmental department, agency, or corporation, or any agent acting for any such department, agency or corporation; or

(ii) To any material of which any United States governmental department, agency, or corporation is the owner at the time of importation, or to any material which the owner at the time of importation had purchased or otherwise acquired from any United States governmental department, agency or corporation; or

(iii) To any material which on the governing date was in transit to a point within the continental United States.

(iv) [Deleted Mar. 30, 1944]

(v) To any material consigned as a gift or imported for personal use where the value of each consignment or shipment is less than $100.00; or to any material consigned or imported as a sample where the value of each consignment or shipment is less than $25.00; or to any used material in the category of household goods imported by the owner for his own personal use; or

(vi) To materials consigned as gifts for personal use by or to members of the Armed Services of the United States; or

(vii) To any material on List I or List II imported by any person under any contract or other arrangement made before, or in existence on the governing date and which, on December 28, 1942, was in transit to a point within the continental United States; or

(viii) To manufactured materials which are imported in bond solely for the purpose of having them repaired and then returned to the owner outside the continental United States; or

(ix) To materials which were grown, produced, or manufactured in the continental United States, and which were shipped outside the continental United States on consignment or pursuant to a contract of purchase, and which are now returned as rejected by the prospective purchaser; or

(x) To materials shipped into the United States in transit from one point in Mexico to another point in Mexico, or from one point in Canada to another point in Canada.

(c) *Restrictions on disposition of List I material.* Except as hereinafter specifically provided in paragraph (d) hereof:

(1) *Restrictions upon owners and consignees.* No owner or consignee of any material on List I which is imported after the governing date shall in any way, directly or indirectly:

(i) Dispose of any interest in such material;

(ii) Process or in any way change the physical condition of such material;

(iii) Transfer possession, or cause or permit a transfer of possession, of such material except to the port of entry and from the port of entry to the place of initial storage of such material; or

(iv) Change, or cause or permit a change of, the location of such material except to the port of entry and from the port of entry to the place of initial storage of such material.

Provided: That a consignee of such material may dispose of his interest in such material to the extent necessary to complete any commitment or contract made prior to the governing date. The person to whom he disposes of such interest shall be subject to all restrictions imposed upon owners by this order.

(2) *Restrictions upon banks and persons similarly situated.* No bank or other person which, as agent, pledgee, beneficiary under a trust receipt, or otherwise, has possession of or any interest in any written instrument evidencing any interest in any material on List I shall in any way, directly or indirectly, dispose of any such interest, or transfer possession, or cause or permit a transfer of possession, of such instrument, unless:

(i) Such material was imported before the governing date; or

(ii) Such person neither knows nor has reason to know that such material was imported after the governing date; or

(iii) Such disposition or transfer is necessary to permit a consignee to make a permissible disposition of material in accordance with subparagraph (1) of this paragraph (c); or

(iv) Such disposition or transfer is made to the owner of the material and such owner has complied with all the provisions of this order.

(d) *Permissible disposition of List I materials* — (1) *Transfer to governmental agency.* Nothing contained in this order shall prohibit an owner or consignee of any material on List I imported after the governing date, or a bank or other person having possession of, or an interest in, a written instrument evidencing an interest in such material, from disposing of, or making any arrangement to dispose of, any interest in such material to the Foreign Economic Administration, Commodity Credit Corporation, Metals Reserve Company, Defense Supplies Corporation, or any other United States governmental department, agency, or corporation.

(2) *Authorization by War Production Board.* Notwithstanding the provisions of paragraph (c), an owner or consignee of material on List I imported after the governing date or a bank or other person having possession of or an interest in a written instrument evidencing an interest in such material, may process such material or may dispose of any interest in such material or any such written instrument, or transfer possession or change the location thereof, or cause or permit such a transfer of possession or change of location, upon written authorization by the War Production Board. Any such person may make application in duplicate for such an authorization on Form WPB–1039 (formerly PD–222A), which form shall be addressed to the War Production Board, Ref.: M–63, Washington 25, D. C.

(3) *Exceptions.* The restrictions set forth in paragraph (c) shall not apply to any material after any United States governmental department, agency, or corporation becomes the owner thereof, and shall not apply to any material of which any United States governmental department, agency, or corporation is the owner at the time of importation, and shall not apply to any material purchased or otherwise acquired from any United States governmental department agency, or corporation.

(e) *Restrictions on disposition of List II or List III material.* Unless otherwise provided by the terms of the authorization issued pursuant to paragraph (b) (2), any material on List II or List III, which is imported in accordance with the provisions of this order after the governing date, may be sold, delivered, processed, consumed, purchased, or received without restriction under this order, but all such transactions shall be subject to all applicable provisions of the regulations of the War Production Board and to all orders and directions of the War Production Board which now or hereafter may be in effect with respect to such material.

(f) *Reports*—(1) *Reports on customs entry.* No material which is imported after the governing date, including materials imported by or for the account of the Foreign Economic Administration, U. S. Commercial Company, Commodity Credit Corporation, Metals Reserve Company, Defense Supplies Corporation, or any other United States governmental department, agency, or corporation, shall be entered through the United States Bureau of Customs for any purpose, whether for consumption, for warehouse, in transit, in bond, for re-export, for appraisal, or otherwise, unless the person making the entry shall file with the entry Form WPB–1040 (formerly PD–222B) in duplicate. The filing of such form a second time shall not be required upon any subsequent entry of such material through the United States Bureau of Customs for any purpose; nor shall the filing of such form be required upon the withdrawal of any material from bonded custody of the United States Bureau of Customs, regardless of the date when such material was first transported into the continental United States. Both copies of such form shall be transmitted by the Collector of Customs to the War Production Board, Division of Stockpiling and Transportation, Ref.: M–63, Washington 25, D. C.

(2) *Other reports.* All persons having any interest in, or taking any action with respect to, any material imported after the governing date, whether as owner, agent, consignee, or otherwise, shall file such other reports as may be required from time to time by the War Production Board.

(g) *Routing of communications.* All communications concerning this order shall, unless otherwise herein directed, be addressed to: War Production Board, Washington 25, D. C., Ref.: M–63.

(h) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or who furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority assistance. In addition, the War Production Board may direct the disposition and use of any material which is imported without authorization as required by paragraph (b).

(i) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(j) *Effect on liability of removal of material from order.* The removal of any material from the order shall not be construed to affect in any way any liability for violation of the order which accrued or was incurred prior to the date of removal.

Issued this 25th day of September 1944.

[3] Moved from List I 3/30/44.

N. S. C.—No separate class or commodity number has been assigned for the material as described by the Department of Commerce, Statistical Classification of Imports.

INTERPRETATION 1

No authorization under paragraph (b) of the order is necessary for the release or withdrawal of materials on List II or List III from a free port, a free zone, or the bonded custody of the United States Bureau of Customs (bonded warehouse) in the continental United States regardless of the date when such materials first entered such place. The actual importation, which is the subject of restriction under paragraph (b), is deemed to have occurred before the question of release or withdrawal arises. Also no authorization under paragraph (d) of the order is necessary for the subsequent disposition, processing, or shipment of such released or withdrawn List II and List III materials.

As to List I materials which are similarly situated, no authorization under paragraph (b) of the order is necessary for their release or withdrawal from free port, free zone, or bonded custody, but authorization under paragraph (d) of the order is necessary for their subsequent disposition, processing, or shipment unless they are shipped in bond to Canada, Mexico, or some other foreign country, in which event the foreign destination is deemed to be the place of initial storage as such term is used in the order; *Provided, however*, That List I materials which are imported in bond after July 2, 1942, can be shipped to Mexico, Canada, or some other foreign country without the express authorization required under paragraph (d) only if the import application filed under paragraph (b) stated that the material was being imported for the purpose of such export shipment. (Issued June 30, 1942, and amended Sept. 23, 1943.)

INTERPRETATION 2

The following official interpretation is hereby issued by the War Production Board with respect to the meaning of the term "in transit" as defined in paragraph (a) (6) of General Imports Order M-63 (§ 1042.1) as amended:

By amendment dated December 17, 1942, the definition of material "in transit" was changed by adding the following clause, "or if it has actually been delivered to and accepted by a rail, truck, or air carrier, for transportation to a point within the continental United States." The question has been raised as to the meaning of the term as applied to a case where the material on the governing date had been delivered to and accepted by a rail, truck, or air carrier on a through bill of lading for transportation to

a specified port and from thence by boat to a point within the continental United States.

The material in the stated case is not deemed to be in transit within the meaning of the term as used in the order. If the material is to be carried to the port of arrival in the continental United States by ship, the material must have been afloat, or an on board ocean bill of lading must have been issued with respect to it, on the governing date in order for it to be considered as having been in transit on such date.

Material which has been delivered to and accepted by a rail, truck, or air carrier on the governing date for transportation to a point within the continental United States is deemed to be in transit within the meaning of the term as used in the order only when the transportation specified in the bill of lading issued by such carrier calls for delivery of the material at the port of arrival in the continental United States by rail, truck, or air carrier, not by ship. (Issued March 5, 1943.)

INTERPRETATION 3

When by amendment of the order a material already on List II or List III is moved to List I and hence becomes subject to the restrictions of paragraph (c) covering the disposition, processing, transfer, or change of location of such material, the governing date for the application of such restrictions is the effective date of the amendment by which the material was moved to List I and not the date when such material first became subject to General Imports Order M-63 (Issued May 14, 1943.)

PART 3208—SCHEDULED PRODUCTS

[General Scheduling Order M-293, Direction 1 to Table 4 as Amended Sept. 25, 1944]

PURCHASERS OF INTERNAL COMBUSTION ENGINES TO FURNISH MANUFACTURERS INFORMATION REGARDING USE OF ENGINES

The following direction is issued pursuant to General Scheduling Order M-293:

The demand for internal combustion engines, the shipments of which are scheduled under War Production Board General Scheduling Order M-293, Table 4, is so large that it is necessary for the War Production Board to determine the relative urgency of shipments to be made by each manufacturer of these engines. In many instances the manufacturer does not have the necessary information in sufficient detail to inform the War Production Board as to the end use of the engines, as this information is known only to the purchaser and sometimes only to the customer of that purchaser. Unless purchase orders already placed and also future orders are properly identified, the War Production Board may be compelled to postpone delivery by the manufacturer or remove the orders entirely from the manufacturer's shipping schedule.

Consequently, in order that each manufacturer of internal combustion engines may be in a position to furnish the War Production Board with the required information, all purchasers of engines listed on Order M-293, Table 4, are directed to furnish immediately to the manufacturer of the engine the following information in respect to the items he has ordered:

1. The specific use the purchaser will make of the engine: for example—tractor, generator, pump, truck, combine, truck replacement, etc.

2. The program or project for which the engine is required: for example—farm machinery, advanced Naval base, heavy truck, truck replacement, etc.

3. Government contract number (if any) identifying the prime contract placed by the claimant agency for such program or project: for example—W-04-353-Eng-339 (this indicates Army Engineer Corps—Contract No. 339). NOBs-1161 (this indicates Navy—Bureau of Ships—Contract No. 1161).

4. The claimant agency sponsoring the program or project: for example—the Army, Navy, War Food Administration, Office of Defense Transportation, etc.

The foregoing information must also be furnished by purchasers in respect to all future orders for any engines listed on Order M-293, Table 4, at the time the orders are given the manufacturer. In giving the information, purchasers should furnish a separate statement for purchase orders involving different programs or covered by more than one government contract number.

If the purchaser of the engine does not have any part of the foregoing information, he may get it from his customer and the customer likewise, if he does not have the information, may get it from his customer.

This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 25th day of September 1944.

Recording Secretary.

(3) Zinc or zinc products may be used without restriction for plating any item covered by this order.

Equitable Distribution

(e) *Equitable distribution.* It is the policy of the War Production Board that items covered by this order not required to fill rated orders shall be distributed equitably. In making such distribution, due regard should be given to essential civilian needs, and there should be no discrimination in the acceptance or filling of orders as between persons who meet the seller's regularly established prices and terms of sale or payment. Under this policy every seller of the items, so far as practicable, should make available an equitable proportion of his merchandise to his customers periodically, without prejudice because of their size, location, or relationship as affiliated outlets. It is not the intention to interfere with established channels and methods of distribution unless necessary to meet war or essential civilian needs. If voluntary observance of the policy outlined is inadequate to achieve equitable distribution, the War Production Board may issue specific directions to named concerns. A failure to comply with a specific direction shall be deemed a violation.

General Provisions

(f) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(g) *Exceptions and appeals*—(1) *Production under Priorities Regulation 25.* Any person who wants to process more metal in the manufacture of any of the items (or parts thereof) listed on Schedule A than is permitted by Schedule A, or who wants to use any iron or steel to make an item listed on Schedule A for which he is not now permitted to use it, may apply for permission to do so as explained in Priorities Regulation 25. Any person may apply under Priorities Regulation 25 to obtain controlled material to make an item on Schedule A for which he is now permitted to use it, but he may still, of course, apply under other established War Production Board procedures for allotments of controlled material to make items listed on Schedule A in amounts permitted under Schedule A. The restrictions in paragraph (b) and Schedule A on the use of metal, except iron, steel, zinc and aluminum, apply to production authorized under Priorities Regulation 25.

(2) *Appeals.* No appeal should be filed from this order with reference to the use of iron, steel, zinc or aluminum in the manufacture of items (or parts thereof) listed on Schedule A. Appeals from other restrictions of this order may

be made by filing a letter in triplicate with the War Production Board, Washington 25, D. C., Ref. L–68, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(h) *Communications.* All communications concerning this order shall, unless otherwise directed in writing, be addressed to War Production Board, Textile, Clothing and Leather Division, Washington (25), D. C. Ref. L–68.

(i) *Violations.* Any person who wilfully violates any provision of this order, or who in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine and imprisonment. In addition any such person may be prohibited from making or obtaining further deliveries of, or from processing or using materials under priorities control and may be deprived of priorities assistance.

(j) *Records.* Each manufacturer of an item covered by this order shall preserve for at least two years complete and accurate records of inventories and receipts of each metal and alloy used, and of the production, deliveries, and inventories of each such item, classified according to the metal or alloy from which each such item was manufactured. The record-keeping provisions of this paragraph have been approved by the Bureau of the Budget under the Federal Reports Act of 1942.

Issued this 25th day of September 1944.

PART 3291—CONSUMERS DURABLE GOODS

[Limitation Order L–71, as Amended Sept. 25, 1944]

DRY CELL BATTERIES AND PORTABLE ELECTRIC LIGHTS OPERATED BY DRY CELL BATTERIES

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of materials and certain facilities used in the production of dry cell batteries, zinc shells for dry cell batteries and portable electric lights for defense for private account and for export and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3291.125 *Limitation Order L–71*—(a) *Definitions.* For the purpose of this order:

(1) "Circular C435" means Circular C435 of the National Bureau of Standards, issued February 18, 1942, entitled "American Standard Specification for Dry Cells and Batteries."

(2) "Dry cell battery" means any primary cell or assembly of cells in which the electrolyte is nonspillable and in which electric current is produced by electrochemical action.

(3) "Portable electric light" means any flashlight or other portable electric light operated by one or more dry cell batteries. It does not include bulbs, dry cell batteries, electric flares covered by L–158, aviation ground lighting equipment covered by L–235, aircraft lighting equipment covered by L–327, or devices specifically designed and built for use in military operations, marine navigation or lifesaving.

(4) "Manufacturer" means any person engaged in the business of making or assembling dry cell batteries, zinc shells for dry cell batteries or portable electric lights.

(b) *Restrictions on use of materials in the manufacture of portable electric lights.* No manufacturer shall use any metal or crude, reclaimed or synthetic rubber in the manufacture of portable electric lights or parts for portable electric lights, except

(1) Iron and steel, provided that no steel except tin mill blackplate rejects and wasters is used in the manufacture of tubes for flashlight cases.

(2) Aluminum.

(3) Copper and copper base alloy for plating current carrying parts other than cases.

(4) Tin in solder.

(5) Zinc for plating, electrical contact fittings and reflectors.

(6) Crude, reclaimed or synthetic rubber as permitted by Rubber Order R–1.

(c) *General restrictions on production and delivery.* (1) No manufacturer shall make or deliver any dry cell batteries or portable electric lights except according to a quota authorized by the War Production Board on Form WPB–2719 (formerly PD–880).

(2) Each manufacturer must file this form with the War Production Board on or before the 10th day of March, June, September and December, showing his proposed production and delivery.

(3) Manufacture of portable electric lights will be authorized to qualified manufacturers so that total production will not exceed the approved War Production Board program and so that production in any one plant or labor requirements therefor will not interfere with the war production in that plant or in any plant located in the same area.

(4) The War Production Board when assigning quotas on Form WPB–2719 (formerly PD–880) or at any other time, may direct any manufacturer in writing to distribute specified amounts of his production for certain purposes or for certain end uses. If at any time the War Production Board finds that the supply of zinc shells for the production of dry cell batteries authorized under paragraph (c) (1) is not sufficient to complete that production, it may direct any manufacturer of dry cell batteries to reduce or cancel his orders for zinc shells, or it may limit the number and type of zinc shells which may be received and used by such manufacturer.

(d) *Special restrictions on delivery.*
(1) [Deleted Sept. 25, 1944]
(2) [Deleted Sept. 25, 1944]

(3) No manufacturer shall sell any dry cell batteries knowing or having reason to believe that they will ultimately be used in a radio set designed primarily for the reception of broadcasts on standard wave lengths 550 to 1500 KC, except (i) Batteries having cells designated "D" in Table 1 of Circular C435 with modifications as permitted in section 2.2 of that circular, or larger sized cells than those designated "D", (ii) "C" batteries as described in Table 8 of Circular C435.

(e) *Special exemptions.* The restrictions contained in paragraphs (b) and (d) do not apply to the manufacture or sale of dry cell batteries or portable electric lights made to fill specific orders calling for delivery to or for the account of the Army, Navy, Maritime Commission, War Shipping Administration, Office of Scientific Research and Development, Panama Canal, Coast and Geodetic Survey, or orders approved by the Maritime Commission on Form WPB–646 (formerly PD–300).

(f) *Applicability of other orders and regulations.* This order and all transactions affected by this order are subject to the applicable regulations of the War Production Board. If any other orders of the War Production Board limits the use of any material in the production of dry cell batteries or portable electric lights to a greater extent than does this order, the other order shall govern unless it states otherwise.

(g) *Exceptions and appeals*—(1) *Production under Priorities Regulation 25.* Any person who wants to make more dry cell batteries or portable electric lights than he has been authorized to make on Form WPB–2719 under paragraph (c) (1), and any person who has received no such authorization may apply for permission to do so as explained in Priorities Regulation 25. Sale and other restrictions of the order and any direction to it, with the exception of the manufacturing restrictions of paragraph (c), must be complied with even when authorization to manufacture is obtained under Priorities Regulation 25.

(2) *Appeals.* Any appeal from the provisions of this order, other than the manufacturing restrictions of paragraph (c), should be filed on Form WPB–1477 (in triplicate) with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates. No appeal should be filed from the manufacturing restrictions of paragraph (c).

(h) *Violations.* Any person who wilfully violates any provisions of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making, or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(i) *Communications.* All reports required to be filed hereunder, and all communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Consumers Durable Goods Division, Washington 25, D. C., Ref: L–71.

(j) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports as the War Production Board may specify from time to time, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

Issued this 25th day of September 1944.

PART 3293—CHEMICALS

[General Allocation Order M–300, Schedule 53]

SILICA GEL (DESICCANT GRADE)

§ 3293.1053 *Schedule 53 to General Allocation Order M–300*—(a) *Definition.* "Silica gel" means any partially dehydrated form of silicic acid, excluding, however, silica gel manufactured specifically for catalytic purposes; silica gel predominately (more than 80 per cent) finer than 80 mesh; silica gel incorporated in, or forming a part of, any finished product or subassembly; and indicator gel.

(b) *General restrictions.* Silica gel is subject to allocation under General Allocation Order M–300 as an Appendix A material. The initial allocation date is November 1, 1944. The allocation period is the calendar month and the small order exemption is 550 pounds per person per month.

(c) *October shipments to be directed.* Deliveries for the month of October, 1944, may be directed on the basis of proposed shipping schedules approved by the War Production Board. On or before September 25, 1944, each producer of silica gel shall submit to the War Production Board a schedule of shipments proposed to be made during the month of October, 1944. These schedules may be changed from time to time as specifically directed by the War Production Board. Each schedule shall show the following data: Weight (in pounds), bag size, customer, shipping point, prime contract number, and customer's order number.

(d) *Suppliers' applications on WPB–2946.* Each supplier seeking authorization to deliver shall file application on Form WPB–2946 (formerly PD–601). Filing date is the 10th day of the month before the requested allocation month. Send three copies (one certified) to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M–300–53. The unit of measure is pounds. If a supplier requires silica gel for the purpose of manufacturing in his own plant component parts of any equipment, or indicator gel, he should specify himself as a customer on Form WPB–2946 and also submit Form WPB–2945 as provided in paragraph (e). An aggregate quantity may be requested on Form WPB–2946, without specifying customers' names, for delivery on exempt small orders. Fill in Table II.

(e) *Customers' applications on Form WPB–2945.* Each person seeking authorization to use or accept delivery shall file application on Form WPB–2945 (formerly PD–600). Filing date is the 5th day of the month before the requested allocation month. Send three copies (one certified) to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M–300–53, and one copy (reverse side blank) to the supplier. The unit of measure is pounds. In Column 1 specify container size requested and opposite in Column 2, the total poundage of silica gel for each size container. In Column 3 show prime Government contract number using two lines if necessary. In Column 4 fill in end use. If end use is "packaging," describe the material to be packaged. If end use is other than packaging, specify in terms of the following:

Ships allowance list	Refrigeration
Dehumidification of inactive ships	Export
	Inventory
Gas masks	Resale
Air conditioning	Other (specify)

In Table II specify container size in Column 11 and fill in remaining columns as indicated in heading showing all quantities in pounds of silica gel. Fill in Table III as indicated where applicable, specifying pounds of silica gel in Column 18, and container size in Column 19. Leave Tables IV and V blank. When necessary, Tables I, II and III may be extended on a separate sheet.

(f) *Budget Bureau approval.* The above reporting requirements have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(g) *Communications to War Production Board.* Communications concerning this schedule shall be addressed to War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M–300–53.

Issued this 25th day of September 1944.

PART 3294—IRON AND STEEL PRODUCTION

[General Preference Order M–21, as Amended Sept. 25, 1944]

§ 3294.71 *General Preference Order M–21*—(a) *Purpose and scope.* This is the basic order covering the distribution of steel and iron products. Other rules for distribution, as well as for production and use, are contained in other War Production Board orders and regulations, which must also be complied with, except to the extent that their provisions are inconsistent with this order. With respect to steel, attention is called particularly to the various CMP regulations and to other orders in the M–21 series.

(b) *Definitions.* For the purposes of this order:

(1) The word "steel" means carbon steel (including wrought iron) and alloy steel in the forms and shapes listed in Schedule I of CMP Regulation No. 1. The term includes material sorted or salvaged from scrap and sold for other than remelting purposes. The term also includes all types of rejected or second quality material and shearings except:

(i) When sold as scrap for remelting; or

(ii) When sold as scrap to a scrap dealer for sorting, processing or salvaging, or for resale for remelting.

The term does not include material which has been in use or service.

"Iron products" means iron castings, gray and malleable (rough as cast), including all items of ferrous foundry manufacture not classified as steel, except cast iron pipe.

(3) "Producer" means any person who produces steel or iron products.

(c) *Deliveries of iron products and steel forgings.* Iron products and carbon or alloy steel forgings may not be delivered except:

(1) On orders bearing a preference rating of AA–5 or higher; or

(2) As permitted under Priorities Regulation No. 13; or

(3) As specifically authorized or directed in writing by the War Production Board.

(d) *Deliveries of other steel.* Other steel may not be delivered except:

(1) As permitted under CMP Regulation No. 1 of CMP Regulation No. 4; or

(2) As permitted under Priorities Regulation No. 13 or Priorities Regulation No. 19; or

(3) To distributors as permitted under Order M–21–b–1 or M–21–b–2; or

(4) As specifically authorized or directed in writing by the War Production Board.

(e) *Iron products and steel forgings.* Iron products and carbon and alloy steel forgings are obtained on preference rated orders, and purchase orders for these products must be accompanied by a certification of the applicable rating in substantially the form set forth in Priorities Regulation No. 7.

(f) *Special directions.* The War Production Board may from time to time issue special directions to any person or persons as to the type, description, amount, source, or destination of steel or iron products to be produced, delivered, or acquired by such person or persons.

(g) *Producers' reports.* Each producer shall file with the War Production Board, Washington 25, D. C., Reference: M21, reports at such times and on such forms as may from time to time be prescribed, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(h) *Violations.* Any person who willfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priorities control and may be deprived of priorities assistance.

(i) *Appeals.* Any appeal from the provisions of this order shall be made by letter referring to the particular provision appealed from and stating fully the grounds of the appeal.

(j) *Communications.* All communications concerning this order shall, unless otherwise directed, be addressed to Steel Division, War Production Board, Washington 25, D. C., Ref: M–21.

Issued this 25th day of September 1944.

PART 3294—IRON AND STEEL PRODUCTION

[General Preference Order M–21–b–1, as Amended Sept. 25, 1944]

GENERAL STEEL PRODUCT DISTRIBUTORS

§ 3294.81 *General Preference Order M–21–b–1*—(a) *Purpose and scope.* This order tells how a distributor obtains deliveries of general steel products for his own stock or for direct delivery to his customers. The rules governing his purchases of merchant trade products are contained in General Preference Order M–21–b–2, and the rules governing his deliveries of all types of steel products to consumers are contained in CMP Regulation No. 4.

(b) *Definitions.* For the purposes of this order:

(1) "Steel" means carbon steel, alloy steel, and wrought iron, in the forms and shapes listed in Schedule I to CMP Regulation No. 1.

(2) "Alloy steel" means alloy steel as defined in Order M–21–a.

(3) "Carbon steel" means any steel (including wrought iron) other than alloy steel.

(4) "General steel product" means any of the steel products listed in Schedule A of this order.

(5) "Product group" means any of the 17 numbered groups of general steel products listed in Schedule A of this order.

(6) "Type" means (i) carbon steel, or (ii) stainless steel, or (iii) other alloy steel.

(7) "Base tonnage" of a distributor for any product group and type at any location means the tonnage of that product group and type certified to that distributor for that location by the War Production Board on form GA–996. In general, the base tonnage of any product group and type for any location will be the tonnage delivered by that distributor from his stock at that location during the first three months of 1941. In no event will a base tonnage be established for a distributor at any location except for product groups and types which he was regularly receiving into stock from producer on or before August 9, 1941.

(8) "Distributor" means any person (including a warehouse, jobber, dealer, or retailer) who is engaged in the business of regularly receiving steel into his stock for sale or resale in the form received, or after performing such operations as cutting to length, shearing to size, torch cutting or burning to shape, sorting and grading, pipe threading, or corrugating or otherwise forming sheets for roofing and siding; but a person who, in connection with any sale, bends, punches or performs any fabricating operation designed to prepare steel for final use or assembly shall not be deemed a distributor with respect to such sale. The term "distributor" excludes any person who purchases steel for resale who does not actually take physical delivery of the material into his stock for sale or resale at a location regularly maintained by him for such purpose. The activities of such a person are governed by the terms of Direction 48 to CMP Regulation No. 1.

(9) "Delivery" includes deliveries received on consignment.

(c) *Purchases for stock*—(1) *From a producer; only replacement orders permitted.* A distributor may not order general steel products for his stock from a producer except to replace general steel products delivered from his stock at one or more locations during the previous 90 days to consumers in accordance with CMP Regulation No. 4, or to other distributors in accordance with this order, plus scrap accumulated in the course of warehouse operations and actually sold to a scrap dealer or melter and reported to the War Production Board on Form WPB–2888, and which he has not previously replaced or ordered for replacement. A distributor may not, however, use any delivery from his stock on an order bearing the allotment symbol Z–1–E, or any delivery authorized by the War Production Board pursuant to an appeal filed by him under Direction 44 to CMP Regulation No. 1, to support a stock replacement order. Within these limits, a distributor may order any general steel product for his stock from any producer.

(2) [Deleted Sept. 25, 1944]

(3) *From another distributor; replacement orders.* A distributor may order general steel products for stock replacement from another distributor in the same manner and subject to the same restrictions as when he purchases from a producer.

(4) *From another distributor; salvaged and surplus steel.* In addition, a distributor may order for his stock from another distributor any general steel product items which the latter has in stock as surplus steel or has salvaged from material purchased as scrap. For the purposes of this paragraph only, "surplus steel" means any general steel product items which a distributor has in his stock that are not needed to fill any orders he has received calling for delivery within the next 30 days which he is required to fill under CMP regulations, or material which he has purchased for his stock from a holder of idle or excess inventories in accordance with paragraph (c) (5) of this order. Salvaged and surplus steel does not have to be ordered on a replacement basis, and previous deliveries from stock are not needed to support such an order. However, the distributor making such a delivery may not use it to support his own stock replacement order with a producer or another distributor.

(5) *From a holder of idle or excess inventories.* In addition, a distributor may order any idle or excess general steel products for his stock from a holder on a "special sale" as provided in Priorities Regulation No. 13, or from a producer as provided in Direction 44 to CMP Regulation No. 1. Such material does not have to be ordered on a replacement basis, and previous deliveries from stock are not needed to support such an order.

(6) *How to place orders.* Each distributor to whom the War Production Board has issued a GA–996 warehouse certificate shall file once with each of his producer suppliers of general steel products a copy of the front page of the GA–996 warehouse certificate most recently issued to him. The copy of the GA–996 certificate received by a producer from a distributor may be used by the producer to verify the existence of a base tonnage on any particular product group. Each purchase order for general steel products placed for shipment to a distributor's stock must bear the words, "For distributor's stock." On orders placed with producers for product groups for which the distributor has a base tonnage for the location where the material will be received into stock, he should also place the serial number assigned him on his GA–996 certificate; but this serial number must not be used on any other sort of order. In addition, an order placed under paragraph (c) (4) must bear the word "salvage" or "excess" to show that the order is for the sort of material described in that paragraph. This will constitute a representation to the seller and to the War Production Board that the purchase order complies in all respects with the requirements of this order. No other endorsement or form is required.

(7) *Status of orders for delivery to stock.* An order placed with a producer in accordance with this paragraph (c) and bearing the distributor's serial number, or an order placed with a holder of idle or excess inventories in accordance with Priorities Regulation No. 13, will be considered an authorized controlled material order. Any other order placed in accordance with this paragraph (c) may, but need not, be accepted; any part of the order which is accepted will be considered an authorized controlled material order.

(d) *Purchases for direct delivery to a customer*—(1) *Placing of orders.* A distributor who receives from a customer an order which he is permitted to fill under CMP Regulation No. 4 or under paragraph (c) above, or an order which has been specifically authorized by the War Production Board, and who wishes to arrange for direct delivery from a supplier to the customer, must furnish with his own purchase order a copy of the endorsement received by him from the customer including the customer's name, or a copy of the specific permission granted by the War Production Board. The distributor may not specify delivery to his own warehouse unless the order is for less than a minimum carload; and in the latter case, the material must be promptly redelivered by him to his customer. A distributor may not use any such sale to support an order for stock replacement.

(2) *Status of orders.* An order placed in accordance with this paragraph (d) may, but need not, be accepted by the supplier. Any part of the order which is accepted shall be considered an authorized controlled material order. If a producer rejects such an order designating shipment to a consumer when he has open space available to fill it, he must immediately notify the distributor in writing that he is prepared to fill an authorized controlled material order direct from the consumer or through another person.

(e) *Warehouse load directives.* A distributor may place orders in accordance with paragraph (c) for any general steel product with any producer. However, when necessary to secure an equitable distribution of any scarce general steel product, the War Production Board may direct producers to reserve each month a part of their production of such product to fill authorized controlled material orders bearing distributors' serial numbers. In order to take advantage of the tonnage reserved for any month, a distributor must submit his orders in accordance with paragraph (c) to a producer not later than the expiration date stated in the warehouse load directive. A producer may fill distributors' orders for that month received after the expiration date but may not reserve any space for them. A producer may not, until after the expiration date, schedule distributors' orders which do not bear a serial number.

(f) *Earmarked warehouse stocks.* The War Production Board may establish earmarked stocks of general steel products with any distributor. Deliveries to and from such stocks must be made in accordance with specific directions which will be issued to the distributor when the earmarked stock is established.

(g) *Establishing an initial stock.* This paragraph covers three groups: persons who have not previously been authorized to act as distributors of general steel products, distributors wishing to purchase for stock a product group which they have not previously handled, and

distributors who have not previously purchased general steel products from producers but who now wish to do so.

(1) *New distributors.* Hereafter, any person who wishes to become a distributor of any general steel product from stock at a location not in operation prior to April 1, 1944, may do so only by purchasing his entire working stock from holders of idle or excess inventories in accordance with paragraph (c) (5) of this order. Deliveries from such stock may be replaced in accordance with paragraph (c) of this order. The term "working stock" includes all of the tonnage deemed necessary by the distributor to maintain operations at the new location at a satisfactory level under this order. Each location established by any person pursuant to this paragraph (g) (1) shall hereafter be considered a separate distributor subject to all of the terms of this regulation even though the location may only represent the addition of another unit to a group operated by one distributor.

(2) *New product lines or sources of supply.* A distributor wishing to add a new general steel product group to his stock, or any distributor who wishes to place orders with producers for the first time may do so by placing orders in the manner authorized by paragraph (c) of this order.

(h) *General provisions*—(1) *Reports.* Each distributor must file a quarterly report on form WPB–2888 for each location at which his total base tonnage of general steel products, or his receipts of general steel products into stock from producers during the quarter, exceeds 150 tons. In addition, if his base tonnage of tool steel (product group No. 7) for any location, or his receipts of tool steel into stock at any location from producers during the quarter, exceed 25 tons, he must file this report. Each report must be filed in duplicate with the Bureau of the Census, Washington 25, D. C., on or before the 15th day of January, April, July and October. Each distributor, even though he is not required to file this report, must maintain for at least two years a record of his shipments from stock, receipts into stock, and inventory of each product group on hand at the end of each calendar quarter. This record must be available for inspection at any time by authorized representatives of the War Production Board.

(2) *Appeals.* Any appeal from this order must be made by letter referring to the particular provision appealed from and stating fully the grounds for the appeal. In emergency cases, appeal may be made by telegraph.

(3) *Communications to War Production Board.* All appeals or other communications concerning this order should be addressed to the Warehouse Branch, Steel Division, War Production Board, Washington 25, D. C., References: M-21-b-1.

(4) *Violations.* Any distributor or other person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(5) *Special instructions.* The War Production Board may from time to time issue instructions to distributors with respect to making, withholding, accepting or refusing deliveries.

This amended order shall become effective October 1, 1944.

NOTE: The record keeping and reporting provisions of this order have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

Issued this 25th day of September 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 3294—IRON AND STEEL PRODUCTION

[General Preference Order M-21-b-2, as Amended Sept. 25, 1944]

MERCHANT TRADE PRODUCTS DISTRIBUTORS

§ 3294.86 *General Preference Order M-21-b-2*—(a) *Purpose and scope.* This order tells how a distributor obtains deliveries of merchant trade products for his own stock or for direct delivery to his customers. The rules governing his purchases of general steel products are contained in Order M-21-b-1, and the rules governing his deliveries of all types of steel products to consumers are contained in CMP Regulation No. 4.

(b) *Definitions.* (1) "Steel" means carbon steel, alloy steel, and wrought iron, in the forms and shapes listed in Schedule 1 to CMP Regulation No. 1.

(2) "Merchant trade products" means any of the steel products listed in Schedule I of this order.

(3) "Product group" means any of the 12 numbered groups of merchant trade products listed in Schedule I of this order.

(4) "Base period" means

(i) For merchant trade products in product groups 20–23, inclusive, the calendar year 1940.

(ii) For merchant trade products in product groups 24–31, inclusive, the 12 months ending June 30, 1941.

(5) "Base tonnage" of a distributor for any product group at any location means the tonnage of that product group delivered by producers to his stock at that location during the base period, or such other tonnage as may be specifically established by the War Production Board. By the use of Form WPB–2889 a distributor can shift his base tonnage for any product group from one producer to another.

(6) "Distributor" means any person (including a warehouse, jobber, dealer, or retailer) who is engaged in the business of regularly receiving steel into his stock for sale or resale in the form received, or after performing such operations as cutting to length, shearing to size, torch cutting or burning to shape, sorting and grading, pipe threading, or corrugating or otherwise forming sheets for roofing and siding; but a person who, in connection with any sale, bends, punches or performs any fabricating operation designed to prepare steel for final use or assembly shall not be deemed a distributor with respect to such sale. The term "distributor" excludes any person who purchases steel for resale who does not actually take physical delivery of the material into his stock for sale or resale at a location regularly maintained by him for such purpose. The activities of such a person are governed by the terms of Direction 48 to CMP Regulation No. 1.

(7) "Delivery" includes deliveries received on consignment.

(8) "Minimum carload" means a carload weighing not less than 40,000 lbs.

(c) *Purchases for stock*—(1) *From a producer; only replacement orders permitted.* A distributor may not order merchant trade products for his stock from a producer except to replace merchant trade products which he delivered from his stock at one or more locations during the previous 12 months to consumers in accordance with CMP Regulation No. 4 or to other distributors in accordance with this order, and which he has not previously replaced or ordered for replacement. A distributor may not, however, use any delivery from his stock on an order bearing the allotment symbol Z–1–E, or any delivery authorized by the War Production Board pursuant to an appeal filed by him under Direction 44 to CMP Regulation No. 1, to support a stock replacement order. Within these limits, a distributor may order any merchant trade product for his stock from any producer. When placing orders with producers a distributor should, so far as possible, specify deliveries in not less than minimum carload quantities in order to save transportation.

(2) *From another distributor; replacement orders.* A distributor may order merchant trade products for stock replacement from another distributor in the same manner and subject to the same restrictions as when he purchases from a producer.

(3) *From another distributor; salvaged and surplus steel.* In addition, a distributor may order for his stock from another distributor any merchant trade steel product items which the latter has in stock as surplus steel or has salvaged from material purchased as scrap. For the purposes of this paragraph only, "surplus steel" means any merchant trade steel product items which a distributor has in his stock that are not needed to fill any orders he has received calling for delivery within the next 30 days which he is required to fill under CMP regulations, or material which he has purchased for his stock from a holder of idle or excess inventories in accordance with paragraph (c) (4) of this order. Salvaged and surplus steel does not have to be ordered on a replacement basis, and previous deliveries from stock are not needed to support such an order. However, the distributor making such a delivery may not use it to support his own stock replacement order with a producer or another distributor.

(4) *From a holder of idle or excess inventories.* In addition, a distributor may order any idle or excess merchant trade steel products for his stock from a holder on a "special sale" as provided in Priorities Regulation No. 13, or from a producer as provided in Direction 44 to CMP Regulation No. 1. Such material does not have to be ordered on a replacement basis, and previous deliveries from stock are not needed to support such an order.

(5) *How to place orders.* Each order for merchant trade products for shipment to a distributor's stock must bear the words "For distributor's stock." In addition, an order placed under paragraph (c) (3) must bear the word "salvage" or "excess" to show that the order is for the sort of material described in that paragraph. This will constitute a representation to the seller and to the War Production Board that the purchase order complies in all respects with the requirements of this order. No other endorsement or form is required.

(6) *Status of orders for delivery to stock.* An order placed with a producer in accordance with this paragraph (c) for delivery of a merchant trade product to stock at a location where the distributor has a base tonnage for that product group with that producer, or an order placed with a holder of idle or excess inventories in accordance with Priorities Regulation No. 13, will be considered an authorized controlled material order. Any other order placed in accordance with this paragraph (c) may, but need not, be accepted; any part of the order which is accepted will be considered an authorized controlled material order.

(d) *Purchases for direct delivery to a customer*—(1) *Placing of orders.* A distributor who receives from a customer an order which he is permitted to fill under CMP Regulation No. 4 or under paragraph (c) above, or an order which has been specifically authorized by the War Production Board, and who wishes to arrange for direct delivery from a supplier to the customer, must furnish with his own purchase order a copy of the endorsement received by him from the customer including the customer's name, or a copy of the specific permission granted by the War Production Board. The distributor may not specify delivery to his own warehouse unless the order is for less than a minimum carload; and in the latter case, the material must be promptly redelivered by him to his customer. A distributor may not use any such sale to support an order for stock replacement.

(2) *Status of orders.* An order placed in accordance with this paragraph (d) may, but need not, be accepted by the supplier. Any part of the order which is accepted shall be considered an authorized controlled material order. If a producer rejects such an order designating shipment to a consumer when he has open space available to fill it, he must immediately notify the distributor in writing that he is prepared to fill an authorized controlled material order direct from the consumer or through another person.

(e) *Warehouse load directives.* A distributor may place orders in accordance with paragraph (c) for any merchant trade product group with any producer. However, when necessary to secure an equitable distribution of any scarce merchant trade product, the War Production Board may direct producers to reserve each calendar quarter a part of their production of such product to fill authorized controlled material orders from distributors for whom they have a base tonnage covering a specific location or locations. In order to take advantage of any such reserved tonnage, a distributor must submit his orders in accordance with paragraph (c) to the producer then holding his base tonnage, not later than the expiration date stated in the warehouse load directive. A producer may fill distributors' orders for that quarter received after the expiration date, but may not reserve any space for them. A producer must consider the first orders for any product group received from any distributor for delivery in a particular calendar quarter as applicable to the tonnage of such product group reserved for that distributor during that quarter. In addition to the tonnage of any product group which a distributor may order against the amount reserved for him by a warehouse load directive, he may place other properly supported orders for that product group with the same or any other producer in accordance with paragraph (c). However, a producer may not schedule such orders for delivery until after his obligations under the warehouse load directive have been filled, or unless when the order is received he knows that he will have material for shipment to distributors over and above the tonnage required to satisfy his warehouse load directive.

(f) *Earmarked warehouse stocks.* The War Production Board may establish earmarked stocks of merchant trade products with any distributor. Deliveries to and from such stocks must be made in accordance with specific directions which will be issued to the distributor when the earmarked stock is established.

(g) *Establishing an initial stock.* This paragraph covers three groups: persons who have not previously been authorized to act as distributors of merchant trade products, distributors wishing to purchase for stock a product group which they did not handle during the base period, and distributors who did not purchase merchant trade products from producers during the base period but who now wish to do so.

(1) *New distributors.* Hereafter, any person who wishes to become a distributor of any merchant trade product from stock at a location not in operation prior to April 1, 1944, may do so only by purchasing his entire working stock from holders of idle or excess inventories in accordance with paragraph (c) (4) of this order. Deliveries from such stock may be replaced in accordance with paragraph (c) of this order. The term "working stock" includes all of the tonnage deemed necessary by the distributor to maintain operations at the new location at a satisfactory level under this order. Each location established by any person pursuant to this paragraph (g) (1) shall hereafter be considered a separate distributor subject to all of the terms of this regulation even though the location may only represent the addition of another unit to a group operated by the distributor.

(2) *New product lines or sources of supply.* A distributor wishing to add a new merchant trade product group to his stock, or any distributor who wishes to place orders with producers for the first time may do so by placing orders in the manner authorized by paragraph (c) of this order.

(h) *General provisions*—(1) *Reports.* Each distributor who has a base tonnage for any of the following groups of merchant trade products at any one location in excess of that shown below must file with the Bureau of the Census, Washington, D. C., a quarterly report for such location in duplicate on Form WPB–2892.

	Net tons
Pipe (product groups 20–21)	240
Tin and terne plate (product group 22)	240
Galvanized, lead coated, or painted sheets and strip, including roofing and siding, valley, ridge roll, and flashing (product group 23)	240
Wire products (product groups 24–31)	240

This report must also be filed by a distributor for any of his warehouses which during the quarter receives into stock from producers over 100 tons of merchant trade products. Each distributor, whether or not he is required to file this report, must maintain for a period of not less than two years a record of his shipments from stock, receipts into stock, and inventory of each product group on hand at the end of his fiscal year. This record must be available for inspection at any time by authorized representatives of the War Production Board.

(2) *Appeals.* Any appeal from this order must be made by letter referring to the particular provision appealed from and stating fully the grounds for the appeal. In emergency cases, appeal may be made by telegraph.

(3) *Communications to War Production Board.* All appeals or other communications concerning this order should be addressed to the Warehouse Branch, Steel Division, War Production Board, Washington 25, D. C., Reference: M-21-b-2.

(4) *Violations.* Any distributor or other person who wilfully violates any provisions of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(5) *Special instructions.* The War Production Board may from time to time issue instructions to distributors with respect to making, withholding, accepting or refusing deliveries.

This amended order shall become effective October 1, 1944.

NOTE: The record keeping and reporting provisions of this order have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

Issued this 25th day of September 1944.

PART 4500—POWER, WATER, GAS, AND CENTRAL STEAM HEAT

[Utilities Order U-1, Direction 2, as Amended Sept. 25, 1944]

Direction 2 to Utilities Order U-1 as heretofore amended is hereby amended to read as follows:

(a) *What this direction does.* This direction makes applicable the simplified procedures provided for in the June 1944 revision of application Form WPB-2774, to authorizations issued to producers on Form WPB-2774 before the revised application form came into use. It also authorizes use of the simplified allotment procedure for all authorizations on WPB-2774 whether issued before or since June 10, 1944, even though such authorizations made allotments for specific quantities and quarters, and regardless of the size of such allotments.

(b) *Provisions applicable only to WPB-2774 authorizations in effect on June 10, 1944.* The following special provisions are hereby made applicable to all WPB-2774 authorizations issued to electric, water, gas, or central steam heat producers and in effect on June 10, 1944, even though contrary provisions appear on the face of such authorizations:

(1) The applicant may use for the job authorized in his approved WPB-2774 application only materials and equipment of the kind, type, size, and capacity listed in section III of his application and approved by the War Production Board, but he may use such materials and equipment in quantities required, irrespective of the quantities authorized on WPB-2774, except that transformers, poles, crossarms and meters must not be used in quantities which exceed those specifically approved on the application. No change may be made in the kind, type, size, and capacity of the materials and equipment listed in section III of the application and approved by the War Production Board, unless an amendment is filed and specific approval obtained. Nor may more materials and equipment be used than are required for the construction or installation authorized.

(2) The applicant is authorized to use the abbreviated allotment number U-2 for the purchase of controlled materials and Class A products to the extent authorized for use by paragraph (b) (1), above.

(3) The preference rating AA-3 is hereby assigned for the purchase of quantities of equipment and materials (other than controlled materials) additional to those rated for purchase in the approved application, to the extent that such additional quantities are authorized for use by paragraph (b) (1) above; except that the rating must not be used to purchase transformers, poles, crossarms and meters in quantities which exceed those specifically rated for purchase on the application.

(4) The provisions of this paragraph (b) do not apply to authorizations which were revoked or on which all authorized work was completed prior to July 18, 1944. Nor do such provisions set aside or supersede any specific exceptions or conditions which were made in the blank space below section V of any approved WPB-2774 application.

(5) References herein to "section III" and "section V" of Form WPB-2774 may be considered to mean "section C" and "section E", respectively, on an edition of Form WPB-2774 prior to that of February 21, 1944.

(c) *Provisions applicable only to WPB-2774 authorizations issued since June 10, 1944.* Producers may use the abbreviated allotment number U-2 for the purchase of all controlled materials and Class A products authorized for use in paragraph 1 of section V of WPB-2774 authorizations issued since June 10, 1944, irrespective of quantities of controlled materials allotted in section IV of such authorizations and quarters for which such allotments were made. Other provisions of WPB-2774 authorizations issued since June 10, 1944, are not affected by this Direction.

(d) *Provisions applicable to all WPB-2774 authorizations issued prior to the effective date of this amendment.* (1) Producers are authorized, without making a formal return to the War Production Board, to cancel on their books controlled materials balances remaining from specific allotments.

(2) The abbreviated allotment number and preference rating assigned herein may not be used to order materials and equipment available in the applicant's inventory in excess of minimum requirements. The allotment number and preference rating may be used to replace materials and equipment in inventory, but only to the extent that inventory has been reduced below minimum requirements.

(3) The abbreviated allotment number and preference rating assigned herein must not be used to order materials and equipment earlier or in greater quantity than is required for the construction or installation authorized.

(4) Orders for controlled materials placed pursuant to this Direction must show the abbreviated allotment number U-2 and must specify the month in which delivery is requested. Orders for Class A products shall be placed as provided in Direction 4, CMP Regulation 6. Orders for materials and equipment other than controlled materials to which the preference rating assigned herein is applied must also show the abbreviated allotment number U-2 for identification purposes.

TIRES, TUBES RECAPPING AND CAMELBACK

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Ration Order No. 1A is amended in the following respects:

The name of the first manufacturer to whom the replenishment portion is surrendered shall be inserted in the blank, and the replenishment portion may thereafter be used for replenishment only by him. Replenishment portions which are not used by the manufacturer for that purpose must be retained as his record.

When a manufacturer is unwilling or unable to transfer a tire in exchange for a replenishment portion which has been marked void in accordance with this subparagraph, he shall forward it (or the entire certificate received from a consumer), to the District Director serving the area in which the manufacturer's premises are located with a letter stating the number, type and grade of tires which have not been transferred thereon. The District Director shall thereupon issue Part B of OPA Form R-2 to the dealer, or a certificate on OPA Form R-2 to the consumer, from whom the manufacturer received the original certificate or replenishment portion, for the number, type and grade of tires not transferred by the manufacturer. The District Director shall retain the voided certificate or replenishment portion, and shall inform the manufacturer when the new certificate or replenishment portion has been issued to the consumer or dealer.

"Mass distributor" means any dealer who sells tires and tubes manufactured for him under his own brand or trade mark, and whose sales volume in 1941 exceeded 50,000 tires or 100,000 tubes.

(b) Every dealer who is required to take an inventory under paragraph (a) shall file a report on OPA Form R-17 in accordance with the instructions thereon for each of his establishments to which the form is mailed by the Office of Price Administration.

PART 1601—AUTHORITY AND ORGANIZATION FOR RENEGOTIATION

SUBPART C—ORGANIZATION AND FUNCTIONS OF THE PRICE ADJUSTMENT BOARDS AND SECTIONS

Sections 1601.132 (b) and 1601.133 (b) are amended to read as follows:

§ 1601.132 *War Department organization.* * * *

(b) *Organization and functions of War Department Price Adjustment Sections.* There has been established a Price Adjustment Section in each of the Technical Services of the Army Service Forces and in the Army Air Forces. The Army Services Forces have Sections in the Technical Services of Chemical Warfare, Engineers, Ordnance, Quartermaster, Signal Corps, Surgeon General, and Transportation. With the exception of the Price Adjustment Section of Chemical Warfare, located in Baltimore, the main Sections of the Technical Services are located in Washington. Headquarters for renegotiation in the Army Air Forces are shared by Washington and Wright Field, Dayton, Ohio. District Price Adjustment Sections have been established by the Technical Services and the Army Air Forces at various procurement centers, and this decentralization allows renegotiation to be conducted close to the location of the company involved. In the office of the War Department Power Procurement Officer, there has been established an Utilities Price Adjustment Section. [RR 132.2]

§ 1601.133 *Navy Department organization.* * * *

(b) *Services and Sales Renegotiation Section.* In the Office of the General Counsel, Navy Department, there is established a Services and Sales Renegotiation Section which specializes in the renegotiation of sales agents and brokers. This section has its headquarters in Washington and divisional offices in Washington, New York, Chicago and Los Angeles. [RR. 133.2]

PART 1603—DETERMINATION OF RENEGOTIABLE BUSINESS AND COSTS

SUBPART A—FISCAL YEAR BASIS FOR RENEGOTIATION AND EXEMPTIONS

Section 1603.301 (c) is amended by the addition of subparagraph (3) as set forth below:

§ 1603.301 *Fiscal year basis for renegotiation.* * * *

(c) *Renegotiation on a completed contract fiscal year basis; construction contracts.* * * *

(3) If the completed contract method of accounting is used for the purposes of renegotiation for any fiscal year, and if a different method of accounting was used for the purposes of renegotiation for a prior fiscal year, the provisions of § 1603.302 will be considered, and any amounts received or accrued and any costs paid or incurred which were included in such previous renegotiation will be excluded from consideration. The authority conferred by this paragraph upon the Department to which a contractor has been assigned for renegotiation to approve a request that the completed contract method of accounting be used for the purposes of renegotiation is not limited by the provisions of § 1603.301 (d). [RR. 301.3]

SUBPART D—METHODS FOR SEGREGATING SALES BETWEEN RENEGOTIABLE AND NON-RENEGOTIABLE BUSINESS

Section 1603.323 is amended to read as follows:

§ 1603.323 *Segregation with respect to contracts with RFC subsidiaries.* In connection with prime contracts between a contractor and Defense Plant Corporation, Metals Reserve Company, Defense Supplies Corporation or Rubber Reserve Company, a segregation of sales and allocation of costs is necessary in order that excessive profits, if any, attributable to such contracts may be computed. Such segregation shall not be necessary in cases in which the total amounts received or accrued under such prime contracts with any of the above named subsidiaries of the Reconstruction Finance Corporation do not exceed $50,000, since in any such case no separate determination of excessive profits under such prime contracts will be made. (See § 1605.502 (e) and note to article 4 of the Standard Form of Agreement, Form I, § 1607.741 (a), requiring repayment of such profits to the RFC Price Adjustment Board.) [RR 323]

SUBPART E—MANDATORY EXEMPTIONS AND EXCLUSIONS FROM RENEGOTIATION

Section 1603.344 (d) (2) (iii) is amended to read as follows:

§ 1603.344 *Contracts and subcontracts for certain raw materials and agricultural materials.* * * *

(d) *Profits from increment in value of excess inventories.* * * *

(2) *Interpretation and application.* * * *

(iii) *Time for determining excess inventory.* Accounting for the purposes of determining excess inventory will commence as of the beginning of the month, four weeks period, or other similar period of accounting employed by the contractor or subcontractor, in which the contractor or subcontractor entered into the first contract with a Department or subcontract under which any part of the amounts received or accrued were subject to renegotiation. Subsequently, excess inventory will be determined as of the beginning of each month, four weeks period, or other similar accounting period in which the contractor or subcontractor enters into contracts with a Department or subcontracts under which the amounts received or accrued are subject to renegotiation. If no excess inventory is found to exist at the beginning of the month, it shall be deemed that none existed throughout the month. If excess inventory is found to exist at the beginning of the month, transactions within that month shall not be deemed to increase the amount of such excess inventory as computed at the beginning of the month, until new computations at the beginning of the succeeding month shall be made. It will not be necessary to calculate actual physical inventories and orders on hand at the beginning of each month; a cumulative calculation may be made by applying the purchases made and orders taken in each month to the position at the beginning thereof, until the date of the succeeding physical inventory. The Department may in its discretion allow a contractor or subcontractor to deviate in individual cases from the monthly basis described above, if available records are considered to be such that some other basis (daily, weekly, etc.) will more accurately bring out the facts in the case. Whatever basis is approved must be used consistently throughout the fiscal year.

SUBPART B—PERMISSIVE EXEMPTIONS FROM RENEGOTIATION

1. Section 1603.352 (b) is amended to read as follows:

§ 1603.352 *Contracts and subcontracts where profits determinable when price established.* * * *

(b) *Exemptions.* (1) In the opinion of the War Contracts Price Adjustment Board, the profits from the following contracts or portions thereof can be determined with reasonable certainty when the contract price is established, and such contracts or portions thereof are accordingly exempted from the provisions of the Renegotiation Act to the extent herein provided:

(i) Contracts and subcontracts for the purchase or lease of any interest in real estate (see § 1603.335 (a)), or

(ii) Contracts for the purchase of capital assets, where the sale of such assets is not a part of or connected with the ordinary course of business of the vendor,

(iii) Contracts for the purchase of vessels and their equipment, other than contracts for the construction of vessels,

(iv) Such portion of contracts for the lease of vessels and their equipment, which provides (as in bareboat charters), for a rental for the bare use of the vessel and its equipment (herein called the "use rate"), or which provides (as in time charters) for a use rate, as distinguished from compensation for the services to be rendered by the contractor under the time charter (herein called the "service rate"), provided that where the time charter contains no segregation of the contract price between the use rate and the service rate, the apportionment of the contract price between the use rate and the service rate may be made by the Department conducting the renegotiation. In connection with such apportionment consideration may be given to the Report of the Advisory Board on Just Compensation, established by the President on October 15, 1943, by Executive Order 9387, which report dated December 7, 1943, established rules of general applicability for the guidance of the War Shipping Administration in determining just compensation to be paid for all vessels requisitioned, purchased, chartered or insured by the said Administration, and General Order 37 of the War Shipping Administration (8 F.R. 3806), and any supplements and amendments thereto, to the extent the same may be applicable to such vessels and their equipment. Nothing contained in this subdivision shall be deemed to exempt from renegotiation contracts commonly known as "space charters" or the service rate in time charters, regardless of whether the vessel involved was requisitioned by the Government or any agency thereof.

(2) The words "when the contract price is established" in subsection (i) (4) (B) of the Renegotiation Act and in the preceding subdivision of this paragraph are a qualification upon the scope of the exemption, and contemplate that the contract or subcontract price shall be established at the time the contract or subcontract is entered into. Accordingly, this exemption extends only to contracts and subcontracts under which the price is a fixed or determinable amount at the time the contract or subcontract is entered into, and does not apply to any contract or subcontract under which the price, at the time the contract or subcontract is entered into, is contingent upon a subsequent event or is thereafter to be determined by reference to a variable element (as, for example, the lessee's sales or profits).

(3) For an exemption relating to certain contracts and subcontracts involving electric power, gas, transportation and communications and subcontracts thereunder, see § 1608.842. [RR 352.2]

2. In § 1603.356 paragraph (b) (1) (ii) and (iii) are amended, and paragraph (c) is added, as follows:

§ 1603.356 *Subcontracts as to which it is not administratively feasible to determine and segregate profits.* * * *

(b) *Exemption.* (1) * * *

(ii) Subcontracts directly or indirectly under any modifying instrument of the general type described in § 1603.346 (b) (3) (regardless of whether such modifying instrument is exempted under that subparagraph) which modifies a contract to which the provisions of § 1608.346 (b) are applicable; and

(iii) Subcontracts for the construction of a building, structure, improvement or other similar facility directly or indirectly under any modifying instrument of the general type described in § 1603.355 (c) (3) (regardless of whether such modifying instrument is exempted from renegotiation under § 1603.355 (c)).

* * * * *

(c) *Cross reference.* For an exemption of subcontracts under certain public utility contracts, see § 1608.842 (e). [RR 356.3]

SUBPART H—COSTS ALLOCABLE AND ALLOWABLE AGAINST RENEGOTIABLE BUSINESS

1. Subparagraph (3) of § 1603.381 (d) is amended by changing "are" in the second sentence to "have been" so that the subparagraph, as amended, reads as follows:

§ 1603.381 *Statutory provisions and general regulations.* * * *

(d) *Profit, cost allocation and allowance; general.* * * *

(3) *Tax deductions.* Costs allocable to renegotiable business shall be determined in accordance with the principles set forth above. Where the full amount of an item of cost is allocable to renegotiable business, it shall be allowed in the amount estimated by the War Contracts Board, or any agency to which its functions have been delegated, to be allowable as a deduction or exclusion under Chapters 1 and 2E of the Internal Revenue Code. No such item of cost shall be allowable in an amount less than or in excess of that which is estimated to be deductible or excludible from income under the Internal Revenue Code, and all items of cost shall be attributed to the fiscal year in which they are allow-

able in the determination of taxable income under said Code. Where only a portion of an item of cost is allocable to renegotiable business, the War Contracts Board, or any agency to which its functions have been delegated, shall estimate the total amount allowable to the contractor, as a deduction or exclusion under Chapters 1 and 2E of the Internal Revenue Code and the portion of this estimated amount which is allocable to renegotiable business in accordance with the principles set forth above shall be allowed as a cost of renegotiable business. Where it is clear that a contractor's deductions and exclusions under the Internal Revenue Code result in allowable costs of renegotiable business which are either high or low on a comparative basis, this circumstance shall be considered in connection with the factor of the "reasonableness of costs" of the contractor and the determination of the amount of the profit adjustment to be required of the contractor.

2. Section 1603.388 (a) (3) is amended to read as follows:

§ 1603.388 *Other costs, expenses and reserves.* • • •

(a) *Patent royalties.* • • •

(3) In determining excessive profits of a licensee upon renegotiation for a period in which royalty accruals are subject to an order under the Royalty Adjustment Act, the Departments will give full effect to the rates or amounts of royalties fixed in the Royalty Adjustment Act order as fair and just under the conditions of wartime production. No allowance will be made in renegotiation for royalties paid or accruing during that period in excess of the amounts permitted to be paid under the order.

PART 1604—DETERMINATION AND ELIMINATION OF EXCESSIVE PROFITS

SUBPART B—RECOVERY OF EXCESSIVE PROFITS ALREADY REALIZED

Section 1604.422 (d) is amended to read as follows:

§ 1604.422 *Recovery by voluntary payment.* • • •

(d) *Interest.* (1) No renegotiation agreement when originally made shall require the payment of interest on installments of the refund which are not in default thereunder and which are provided to be payable within the time prescribed in paragraph (b).

(2) In cases of default, interest accrues and is payable upon each payment due under an agreement from and after the due date thereof, whether or not the agreement contains a contract provision for the payment of interest. The rate shall be that provided by law in the District of Columbia as the rate which is applicable in the absence of express contract as to the rate of interest. (See §§ 1605.502 (e) (8) and 1608.807.) [RR 422.4]

SUBPART D—RENEGOTIATION AND TAXES

1. Paragraph (e) of § 1604.442 is added as set forth below:

§ 1604.442 *Renegotiation after filing of Federal tax returns.* • • •

(e) *Determination of Federal tax credit for sole proprietor, partnership and joint venture in community property states.* If a portion of the excessive profits received or accrued by a sole proprietor, partner, or joint venturer, was included in the Federal income tax return of his or her spouse by virtue of the community property laws of the state in which they are domiciled, the tax credit allowed under section 3806 will include the amount, as determined by the Internal Revenue Agent in Charge, by which the spouse's tax is decreased by the elimination of the excessive profits. In such cases, both the husband and the wife should submit to the Internal Revenue Agent in Charge a written request for a determination of tax credit. (See §§ 1604.442 (b), 1607.732 and 1607.733.) [RR 442.5]

2. Section 1604.444 is amended to read as follows:

§ 1604.444 *Special allocations of excessive profits elimination required for Federal tax purposes.* (a) If the basis upon which the renegotiation has been conducted differs from the basis upon which the contractor has filed his Federal tax returns, the excessive profits to be eliminated must, for purposes of a proper computation of the allowable tax credit under section 3806 of the Internal Revenue Code, be allocated to the contractor's taxable year or years for which such excessive profits were reported as income in such tax returns. This is especially significant in cases where the renegotiation has been conducted on a completed contract basis although the contractor has used the cash receipts and disbursements or the percentage of completion method of accounting for Federal tax purposes in reporting his income from some or all of the contracts covered by the renegotiation. In such a case, the allocation will not be made by prorating the adjusted contract price after renegotiation to the years involved on the basis of receipts or accruals under the contract reported for tax purposes for such years, respectively, but will be made by prorating the excessive profits to those taxable years for which the contract profits reported for tax purposes exceeded non-excessive profits on the contract, as measured by the over-all margin of profit allowed on the contract. After such allocation the ratio of retained renegotiable profits to adjusted sales for each year to which excessive profits are allocated should be the same. The contractor's tax returns for the year involved and such supplementary data as may be pertinent to an analysis of the contractor's taxable income for each such year will be used as the basis of such allocation.

(b) Where a renegotiation is conducted on a consolidated basis, excessive profits to be eliminated must be allocated between the entities so consolidated. (See § 1603.311.)

(c) The allocation of excessive profits is to be made by the agency conducting the renegotiation and not by the contractor. The contractor may, however, furnish or be required to furnish such supplementary information in explanation of the sources of taxable income as reported for any year as may be pertinent to such allocation.

(d) Special allocations of excessive profits to be eliminated under (a) and (b) above should appear in the renegotiation agreement or in the order determining excessive profits and also in any request to an Internal Revenue Agent in Charge for tax credit computations. [RR 444]

PART 1605—AGREEMENTS AND STATEMENTS

SUBPART A—AGREEMENTS AND CLEARANCES

In § 1605.502, paragraph (d) (4) is added and paragraph (e) (1) is amended to read as follows:

§ 1605.502 *Standard form of agreement.* • • •

(d) *Article 3: Tax credit under section 3806 of the Internal Revenue Code.* • • •

(4) If the renegotiation is concluded with a partnership, the form of tax credit clause should be appropriately modified. In § 1607.741 (b) (3) (iii) is a form of partnership tax credit clause which may be used when it is appropriate in view of the facts. Should less than all the partners sign the renegotiation agreement (see § 1605.502 (1) (3) and (6)) such clause will have to be appropriately modified. [RR 502.4]

(e) *Article 4: Terms of payment.* (1) The schedule of the payments to be made will be set forth in Article 4. A suggested form of such schedule is set forth in § 1607.741 (b) (5). The Department which has conducted the renegotiation will also provide, in this article, for the place of payment. In the event that the profits agreed in Article 1 to be eliminated are derived in part from prime contracts with Defense Plant Corporation, Metals Reserve Company, Defense Supplies Corporation and Rubber Reserve Company, or any of such corporations, and the total amounts received or accrued under such prime contracts exceed $50,000, the payment provision, in accordance with the footnote to Article 4 on the standard form, will require payment of the excessive profits under such prime contract to the RFC Price Adjustment Board. In cases in which the total amounts received or accrued under prime contracts with any of the above named subsidiaries of the RFC do not exceed $50,000, it shall not be necessary to make a separate determination of the profits derived from such contracts and the entire refund shall be payable as though no contracts with the RFC subsidiaries were involved.

PART 1607—FORMS FOR RENEGOTIATION

SUBPART B—FORMS RELATING TO OPERATION OF RENEGOTIATION

Paragraphs 1 (b) and 3 (b) of the form in § 1607.723 are amended to read as follows:

§ 1607.723 *Contractor's request for renegotiation on completed contract basis.* • • •

1. • • •

(b) that all of the contractor's construction contracts with a Department as that term is defined in the Renegotiation Act of 1943 and all of the contractor's construction subcontracts under a contract with such a Department which have been completed or terminated within said fiscal year are as follows:

If such situation exists, insert here—"to the extent of $_____, less the prorata portion of the tax credit, if any, applicable thereto, and by check to the order of and forwarded to the Reconstruction Finance Corporation Price Adjustment Board, 811 Vermont Avenue, Washington 25, D. PART 160—GRAZING LEASES

FILING OF PETITIONS FOR RENEWALS

Section 160.13 of the regulations authorizing the issuance of grazing leases is amended to read as follows:

§ 160.13 *Filing of petitions for renewals.* A lessee who desires to continue to lease the lands involved must file in triplicate a petition for renewal of the lease on Form 4-725. The petition should be filed approximately ninety days prior to the expiration of the existing lease and may include a request for the consolidation of other outstanding grazing leases held by the lessee. No filing fee will be required in connection with the petition for such renewals. The filing of a petition for renewal does not confer on the lessee any preference right to a renewal. The timely filing of a petition will, however, authorize the exclusive grazing use of the lands by the lessee in accordance with the terms of the prior lease pending final action on the petition.

OFFERING OF CERTIFICATES

SEPTEMBER 25, 1944.

I. *Offering of certificates.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions, at par, from the people of the United States for certificates of indebtedness of the United States, designated ⅞ percent Treasury Certificates of Indebtedness of Series G-1945, in exchange for Treasury Certificates of Indebtedness of Series F-1944, maturing October 1, 1944.

II. *Description of certificates.* 1. The certificates will be dated October 1, 1944, and will bear interest from that date at the rate of ⅞ percent per annum, payable semiannually on April 1 and October 1, 1945. They will mature October 1, 1945, and will not be subject to call for redemption prior to maturity.

2. The income derived from the certificates shall be subject to all Federal taxes, now or hereafter imposed. The certificates shall be subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The certificates will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer certificates with interest coupons attached will be issued in denominations of $1,000, $5,000, $10,000, $100,000 and $1,000,000. The certificates will not be issued in registered form.

5. The certificates will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States certificates.

III. *Subscription and allotment.* 1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Treasury Department, Washington. Banking institutions generally may submit subscriptions for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies.

2. The Secretary of the Treasury reserves the right to reject any subscription, in whole or in part, to allot less than the amount of certificates applied for, and to close the books as to any or all subscriptions at any time without notice; and any action he may take in these respects shall be final. Subject to these reservations, all subscriptions will be allotted in full. Allotment notices will be sent out promptly upon allotment.

IV. *Payment.* 1. Payment at par for certificates allotted hereunder must be made on or before October 2, 1944, or on later allotment, and may be made only in Treasury Certificates of Indebtedness of Series F-1944, maturing October 1, 1944, which will be accepted at par, and should accompany the subscription.

V. *General provisions.* 1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective Districts, to issue allotment notices, to receive payment for certificates allotted, to make delivery of certificates on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive certificates.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

[Docket No. G-576]

HANLEY AND BIRD

NOTICE OF APPLICATION

SEPTEMBER 22, 1944.

Notice is hereby given that on September 12, 1944, Hanley and Bird, a partnership having its principal offices in Bradford, Pennsylvania, filed with the Federal Power Commission an application pursuant to section 7 (b) of the Natural Gas Act, authorizing the abandonment and removal of certain gas transmission facilities described in such application to consist of approximately eight miles of 8⅝-inch pipe line extending from the Woodhull natural gas field in the State of New York through the southern portion of Steuben County, New York, to Elkland, Pennsylvania, approximately ¾ of a mile south of the New York-Pennsylvania State line.

In the application it is stated that the production of natural gas in the Woodhull field has materially decreased; that the gas presently produced by applicant is transported to Elkland, where it is sold and delivered to North Penn Gas Company; that there is available capacity in other pipe lines emanating from the Woodhull field for the transportation of natural gas produced by the applicant; that applicant has made arrangements with the New York State Natural Gas Corporation for the transportation and delivery to North Penn Gas Company of the gas now transported through the facilities sought to be abandoned.

Any person desiring to be heard or to make any protest with reference to this application should on or before the 10th day of October 1944, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the provisional rules of practice and regulations under the Natural Gas Act.

FEDERAL TRADE COMMISSION.

[Docket No. 5217]

B. F. SHRIVER CO.

COMPLAINT AND NOTICE OF HEARING

The Federal Trade Commission, having reason to believe that the party respondent named in the caption hereof and hereinafter more particularly designated and described, since June 19, 1936, has violated and is now violating the provisions of subsection (c) of section 2 of the Clayton Act (U.S.C. Title 15, sec. 13) as amended by the Robinson-Patman Act, approved June 19, 1936, hereby issues its complaint, stating its charges with respect thereto as follows:

PARAGRAPH 1. Respondent B. F. Shriver Company is a corporation organized and existing under the laws of the State of Maryland, with its principal office and place of business located at Westminster, Maryland. The respondent also operates plants located at Westminster and New Windsor, Maryland, and Littlestown, Pennsylvania.

PAR. 2. Respondent B. F. Shriver Company is now engaged and for many years prior hereto has engaged in the business of packing, canning, distributing and selling canned corn, peas, beans, lima beans, succotash, tomatoes, asparagus, beets, and other vegetable products (all of which are hereinafter called vegetable products), in its own name and for its own account for resale, directly to buyers located in States other than the State in which respondent is established. As a result of respondent's instructions, such vegetable products are shipped and transported across State lines to such buyers, who are located in various States of the United States other than the State where the respondent is established.

The respondent, to distinguish its vegetable products from the vegetable products sold by competitors and to facilitate sales, utilizes registered trademarks and brands for the various types and grades of vegetable products it sells. Among and representative of respondent's brands are:

Blue Ridge.	New Windsor.
A No. I.	World's Favorite.
Lady Host.	Shriver.

PAR. 3. The respondent, since June 19, 1936, in connection with the interstate sale and distribution of vegetable products has been and is now paying or granting or has paid or granted, directly or indirectly, commissions, brokerage or other compensation or allowances or discounts in lieu thereof to buyers of said vegetable products sold under its own labels, unlabeled and under buyers' labels.

PAR. 4. The respondent, since June 19, 1936, has distributed and sold and distributes and sells vegetable products directly to certain buyers in interstate transactions as aforesaid and has paid to such buyers commission or brokerage fees on purchases made by them in their respective names and for their respective accounts. The respondent's method of distribution and sale, as hereinafter described, is representative of the sales methods of a number of East Coast distributors.

The buyers above referred to customarily designate themselves as "brokers," "merchandise brokers," or as "primary distributors," although they are known to the trade as "buying brokers" or "speculative brokers." Such "buying brokers" or "speculative brokers" customarily operate by placing orders for merchandise with those sellers, and only with those sellers, who will grant and pay them commissions or brokerage fees on their own purchases. Some such buyers are large scale buyers and sellers of vegetable products distributed under their own private brands, which brands usually show the name and address of the buyer, but not of the packer, and identify the merchandise as being the product of the particular buyer who owns the label.

Some such buyers customarily purchase their private brand vegetable products from respondent and many other sellers and often during a given season, after shopping the market, will purchase such commodities under the same private brands from several competing sellers, placing their orders where they are able to secure the most favorable prices and terms.

Such buyers place their order for merchandise with respondent and other sellers, who, on receiving and accepting such orders, deliver the merchandise to a common carrier for delivery, but require that the buyer pay the purchase price as a condition precedent to the delivery of the merchandise. If such merchandise is lost or damaged in transit, such buyers file claims in their own names and collect damages from the carrier for their own account.

On receipt of the merchandise, such buyers insure such merchandise and warehouse it in their own warehouses or in public warehouses, and thereafter generally utilize the warehouse receipts covering the merchandise, together with the insurance contract, as collateral or security to obtain bank loans.

Such buyers mask these buying operations under the fictionalized designation of "brokers," "merchandise brokers," or "primary distributors," for the sole purpose of coloring the name and method of their buying operations in order to collect commissions or brokerage fees from respondent and from other sellers who will pay such buyers commissions or brokerage fees on their own purchases, notwithstanding the fact that it is well known to be the custom of such buyers to invoice and sell such merchandise in their own names, for their own accounts, at their own prices, and on their own terms, and to assume full and complete credit risks.

PAR. 5. The acts and practices of the respondent in promoting sales of vegetable products by paying to buyers, directly or indirectly, commissions, brokerage or other compensation and allowances or discounts in lieu thereof, as set forth above, are in violation of subsection (c) of section 2 of the Clayton Act, as amended.

Wherefore, the premises considered, the Federal Trade Commission on this 18th day of September, A. D., 1944, issues its complaint against said respondent.

Notice is hereby given you, B. F. Shriver Company, a corporation, respondent herein, that the 27th day of October, A. D., 1944, at 2 o'clock in the afternoon, is hereby fixed as the time, and

the offices of the Federal Trade Commission in the City of Washington, D. C., as the place, when and where a hearing will be had on the charges set forth in this complaint, at which time and place you will have the right, under said act, to appear and show cause why and order should not be entered by said Commission requiring you to cease and desist from the violations of the law charged in the complaint.

You are notified and required, on or before the twentieth day after service upon you of this complaint, to file with the Commission an answer to the complaint. If answer is filed and if your appearance at the place and on the date above stated be not required, due notice to that effect will be given you. The rules of practice adopted by the Commission with respect to answers or failure to appear or answer (Rule IX) provide as follows:

In case of desire to contest the proceeding the respondent shall, within twenty (20) days from the service of the complaint, file with the Commission an answer to the complaint. Such answer shall contain a concise statement of the facts which constitute the ground of defense. Respondent shall specifically admit or deny or explain each of the facts alleged in the complaint, unless respondent is without knowledge, in which case respondent shall so state.

Failure of the respondent to file answer within the time above provided and failure to appear at the time and place fixed for hearing shall be deemed to authorize the Commission, without further notice to respondent, to proceed in regular course on the charges set forth in the complaint.

If respondent desires to waive hearing on the allegations of fact set forth in the complaint and not to contest the facts, the answer may consist of a statement that respondent admits all the material allegations of fact charged in the complaint to be true. Respondent by such answer shall be deemed to have waived a hearing on the allegations of fact set forth in said complaint and to have authorized the Commission, without further evidence, or other intervening procedure, to find such facts to be true.

Contemporaneously with the filing of such answer the respondent may give notice in writing that he desires to be heard on the question as to whether the admitted facts constitute the violation of law charged in the complaint. Pursuant to such notice, the respondent may file a brief, directed solely to that question, in accordance with Rule XXIII.

In witness whereof, The Federal Trade Commission has caused this, its complaint, to be signed by its Secretary, and its official seal to be hereto affixed, at Washington, D. C., this 18th day of September A. D. 1944.

By the Commission.

Secretary.

OHIO-MIDLAND LIGHT AND POWER CO. AND ASSOCIATED ELECTRIC CO.

MEMORANDUM OPINION AND ORDER DENYING REHEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 21st day of September, A. D. 1944.

On September 7, 1944, we issued an order granting and permitting an application-declaration to become effective with respect to a proposed sale by Associated Electric Company (Aelec) of all the securities and indebtedness of Ohio-Midland Light and Power Company (Ohio-Midland), its wholly-owned subsidiary, under section 12 (d) of the Public Utility Holding Company Act of 1935. Ohio-Midland Light and Power Company, — S. E. C. — (1944), Holding Company Act Release No. 5266. The proposed purchasers are three rural electric cooperatives operating in Ohio.

Petitions for rehearing have been filed by certain villages in the area served by Ohio-Midland, and by Columbus and Southern Ohio Electric Company, alleging in substance that the purchasers intend, upon obtaining the Ohio-Midland securities, to effect a reorganization in contravention of the law of Ohio and without the approval of the Public Utilities Commission of that State. The petitioning villages state that they have filed a complaint with the Ohio commission requesting it to take jurisdiction and to prohibit the transactions contemplated by the purchasers.

The situation presented by the petitions is not substantially different from that existing at the time of our order of September 7. In our opinion accompanying that order we noted that three suits to enjoin the purchase of Ohio-Midland were pending in the Ohio courts. We pointed out that our order would not have the effect of requiring the transactions to be carried out in contravention of the Ohio law, since we determined only that the proposed sale by Aelec, a registered holding company, met the standards prescribed by the Holding Company Act; and we emphasized that we were not passing on the authority of the purchasers to make the purchase. Their proposed acquisition of Ohio-Midland securities is not subject to the provisions of section 10 or any other section of the act.

This determination of ours under the statute we administer in no way conflicts with or affects the jurisdiction of the Ohio commission, any more than it affects the issues pending in the Ohio courts. We see no basis under the act for withholding our approval of the sale by Aelec, upon the allegations in the petitions for rehearing. Accordingly,

It is ordered, That the petitions for rehearing be and hereby are denied.

By the Commission.

CONSOLIDATED ELECTRIC AND GAS CO., ET AL.

NOTICE OF FILING AND ORDER FOR AND CONSOLIDATION OF HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 22d day of September A. D. 1944.

In the matters of Consolidated Electric and Gas Company, Pottsville Gas Company, File No. 70-955, and John H. Ware, 3rd, File No. 70-963.

Notice is hereby given that Consolidated Electric and Gas Company ("Consolidated"), a registered holding company, Pottsville Gas Company ("Pottsville"), a gas utility company and a subsidiary of Consolidated, and John H. Ware, 3rd, of Oxford, Pennsylvania, have filed with this Commission applications or declarations (or both), pursuant to the applicable provisions of the Public Utility Holding Company Act of 1935 and the rules and regulations issued by this Commission thereunder.

All interested persons are referred to said documents which are on file in the office of the Commission, for a statement of the transactions therein proposed, which may be summarized as follows:

Consolidated proposes to sell to Ware (or his nominee) all of Consolidated's investment in Bangor Gas Company ("Bangor") and Citizens Gas Company ("Citizens"), gas utility companies engaged in the manufacture and distribution at retail of manufactured gas in the municipalities and environs of Bangor, Stroudsburg and East Stroudsburg, Pennsylvania, respectively, for a basic sales price of $250,000 in cash, subject to certain adjustments to the date of sale. It is stated in the filings that all of the outstanding securities of Bangor and Citizens are owned by Consolidated, except an issue of First Mortgage Bonds, 4%, due 1962 of Citizens outstanding in the principal amount of $93,000 and owned by an insurance company.

Consolidated also proposes to cause Pottsville, a gas utility serving Pottsville and environs, to sell all of its properties and assets to said Ware for a basic sales price of $271,000 in cash, subject to certain adjustments to the date of sale. It is stated by the applicants or declarants that Consolidated owns all of the outstanding securities of Pottsville, and that certain indebtedness consisting of a 6% Demand Note in the principal amount of $9,100 owing by Pottsville to Consolidated will be surrendered to Pottsville for cancellation as a capital contribution to Pottsville immediately following the sale of the property and assets of Pottsville. It is further proposed that the proceeds of Pottsville's sale of assets will be delivered to Consolidated as the sole stockholder upon the liquidation of Pottsville.

Consolidated further proposes that since all of the securities of Bangor, Citizens and Pottsville which are owned by Consolidated are pledged under the lien of the indenture securing Consolidated's Collateral Trust Bonds, Consolidated will deposit the cash proceeds received as a result of the sales of the securities of Bangor and Citizens, and of the liquidation of Pottsville, under the lien of said Indenture. Such deposit will be made in connection with the release of such securities from pledge. Consolidated will surrender to Pottsville in connection with its liquidation all of its outstanding common stock, which will then be cancelled, and Pottsville will thereupon be dissolved.

The funds delivered as aforesaid to the Trustee under the Indenture securing the Consolidated Bonds will be used to effect the retirement of Consolidated Bonds. Consolidated will purchase such bonds in the open market or from holders thereof but without solicitation, and at the lowest price obtainable, and in no event in excess of the price Consolidated would pay in the open market, and will surrender such purchased Bonds to said Trustee for cancellation against the withdrawal from such deposited funds of cash equal to bond cost, in accordance with the terms of said Indenture.

Consolidated requests that the Commission find the proposed sale of the securities of Bangor and Citizens owned by Consolidated appropriate to effectuate the provisions of section 11 (b) of the Act and requests that an order approving the proposed transactions contain appropriate recitals and specifications as described in sections 371 (b), 371 (f) and 1808 (f) of the Internal Revenue Code.

The filings designate sections 9 (a) (2), 9 (b) (2), 10, 12 (b), 12 (c), 12 (d), and 12 (f) of the act and Rules U-42, U-43, U-44, U-45, and U-46 issued thereunder as applicable to the proposed transactions.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said matters and that said applications or declarations (or both) shall not be granted or permitted to become effective except pursuant to further order of this Commission; and

It further appearing to the Commission that the issues presented by the applications or declarations (or both) of Consolidated and Pottsville (File No. 70-955) and of Ware (File No. 70-963) involve common questions of law and fact and should be consolidated and heard together;

It is ordered, That the proceedings in these matters be and they hereby are consolidated and that a consolidated hearing under the applicable provisions of the act and rules of the Commission promulgated thereunder be held on October 3, 1944 at 11:00 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania, in such room as the hearing room clerk in Room 318 will at that time advise. All persons desiring to be heard or otherwise wishing to participate in the proceedings shall file with the Commission on or before September 30, 1944, a written request relative thereto, as provided by Rule XVII of the rules of practice of the Commission.

It is further ordered, That the Secretary of the Commission shall serve notice of the aforesaid hearing by mailing copies of this order by registered mail to Consolidated Electric and Gas Company, Pottsville Gas Company, Bangor Gas Company, Citizens Gas Company, and John H. Ware, 3rd; and that notices of said hearing be given to all other persons by publication of this order in the FEDERAL REGISTER.

It is further ordered, That Robert P. Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at such hearing. The officer so designated is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That, without limiting the scope of the issues presented by said applications or declarations (or both), particular attention will be directed at the hearing to the following matters and questions:

(1) Whether the consideration to be received for the securities of Bangor and Citizens and the assets of Pottsville is reasonable;

(2) Whether the proposed acquisitions by Ware comply with the requirements of section 10 of the act;

(3) Whether the proposed use of the proceeds of the sale of said securities and assets in the acquisition of Consolidated's Collateral Trust Bonds in the open market is in conformity with the applicable sections of the Act;

(4) Generally, whether in any respect, the proposed transactions are detrimental to the public interest or to the interest of investors or consumers or will tend to circumvent any provisions of the act or the rules and regulations promulgated thereunder;

(5) Whether, if the proposed transactions are authorized, the imposition of terms and conditions is necessary and appropriate in the public interest or for the protection of investors and consumers and, if so, what terms and conditions should be imposed.

By the Commission.

In the matter of Denis J. Driscoll and Willard L. Thorp, trustees of Associated Gas and Electric Corporation, the United Coach Company, Associated Utilities Corporation, Associated Real Properties, Inc., The Railway and Bus Associates, Dover Casualty Insurance Co., File No. 70-940.

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 23d day of September, 1944.

Notice is hereby given that, pursuant to the provisions of the Public Utility Holding Company Act of 1935, an amendment has been filed to the joint applications-declarations previously filed with this Commission by Denis J. Driscoll and Willard L. Thorp, Trustees of Associated Gas and Electric Corporation ("Agecorp"), a registered holding company; The United Coach Company ("United Coach"), a subsidiary of Agecorp; Associated Utilities Corporation ("Aucorp"), a registered holding company and a subsidiary of Agecorp; Dover Casualty Insurance Co. ("Dover") and Associated Real Properties, Inc. ("Areal"), both subsidiaries of Aucorp; and The Railway and Bus Associates ("Railway"), a subsidiary of Areal. All interested persons are referred to said joint applications-declarations and the amendment thereto which are on file in the office of the Commission for a statement of the purpose and nature of the transactions as now proposed, which may be summarized as follows:

(1) Subject to obtaining an appropriate order from the District Court of the United States for the Southern District of New York, Agecorp will donate all the common stock of its wholly-owned subsidiary, United Coach, to Aucorp, another wholly-owned subsidiary;

(2) United Coach will file a certificate of dissolution with the Secretary of the State of Delaware and, in connection therewith, Aucorp will surrender to United Coach for cancellation all the shares of common stock of United Coach. United Coach will thereafter, as promptly as may be practicable, distribute to Aucorp all its assets, or the proceeds thereof, subject to all its liabilities other than its liability to make distributions to Aucorp as its sole stockholder at the date of dissolution. Such distribution will be made in cash or in kind except that no distribution in kind of the common stock of Schenectady Rapid Transit, Inc., will be made except upon further application to this Commission for an appropriate order authorizing the distribution of such stock by United Coach and the acquisition thereof by Aucorp;

(3) Aucorp will purchase from Areal, its wholly-owned subsidiary, 166 shares of beneficial interest in Railway for a consideration of $1,000;

(4) Railway will thereupon be liquidated pursuant to a program whereby it will from time to time and as promptly as may be practicable deliver to Aucorp as liquidating dividends all the assets of Railway or the proceeds thereof, subject to all its liabilities other than its liability to make distribution to Aucorp. Such distribution will be made in cash or in kind except that no distribution in kind of the common stock of Schenectady Railway Company will be made except upon further application to this Commission for an appropriate order authorizing the distribution of such stock by Railway and the acquisition thereof by Aucorp. Aucorp will surrender for cancellation to Railway the 166 shares of beneficial interest in Railway which Aucorp will acquire as set forth in the preceding paragraph;

(5) Dover, having outstanding 2,500 shares of common stock, will purchase 1,600 shares for retirement from Aucorp for a consideration of $450,000 and correspondingly reduce its capital from $700,000 to $250,000. Dover will pay for said shares in part by delivering to Aucorp, at the market value thereof at the date of delivery, $200,000 principal amount of 3¾% income debentures, due 1978, and $125,000 principal amount of 8% bonds, due 1940, of Agecorp; and the balance of the purchase price will be paid by Dover to Aucorp in cash;

(6) Agecorp, holding a 2% convertible obligation, due 1963, of Aucorp, amounting to $82,747,814.66 at July 1, 1944, will receive from Aucorp, as payment on account, $3,300,000 in cash; the securities of Agecorp which Aucorp will acquire, as set forth in paragraph (5) above; and certain other securities and indebtedness of Agecorp, Associated Gas and Electric Company, The Mohawk Valley Company, and NY PA NJ Utilities Company, having an aggregate carrying value of $26,527,252.76;

(7) Subject to obtaining an appropriate order from the District Court of the United States for the Southern District of New York, Agecorp will make a cash donation to NY PA NJ Utilities Company in the sum of $4,000,000 to be used by the latter to discharge its bank loan of like amount from Guaranty Trust Company of New York;

(8) Subject to obtaining an appropriate order from the District Court of the United States for the Southern District of New York, Agecorp will donate to Aucorp, as a contribution to capital surplus, $50,500,000 principal amount of the 2% convertible obligation, due 1963, of Aucorp; and

(9) Aucorp will thereupon effect an accounting reorganization by (a) restating its then assets at amounts at which such assets are estimated to be worth, (b) closing out its then surplus deficit to its capital surplus account created as indicated in the preceding paragraph, and (c) creating a reserve for contingencies from the balance remaining in such capital surplus.

It is stated in the applications-declarations that the purposes of the proposed transactions, as summarized above, are to simplify the corporate structure of the Agecorp holding company system by eliminating unnecessary corporate entities and the transfer of the ownership of substantial amounts of securities to their issuers or to more logical owners. In addition, it is stated, NY PA NJ Utilities Company will be enabled to discharge its outstanding bank loan. It is further stated that the proposed program will facilitate the consummation of the plan of reorganization of Agecorp and Associated Gas and Electric Company.

Applicants-declarants have designated sections 9 (a), 10, 12 (b) and 12 (f) of the act and Rules U-42, U-43, and U-45 as applicable to the proposed transactions and state that no Federal or state commission other than this Commission has jurisdiction over the proposed transactions.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a further hearing be held with respect to such matters and that the Trial Examiner designated to preside being engaged in another matter and unable to preside at said hearing:

It is ordered, That the hearing on such matters under the applicable provisions of said act and the rules of the Commission thereunder be reconvened on the 29th day of September, 1944, at 10:00 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. It is further ordered, That Robert P. Reeder, an officer of the Commission, be and hereby is designated to preside at such reconvened hearing in the place and stead of and with the same powers and duties as the trial examiner hereinbefore designated to preside at said hearing.

It is further ordered, That, without limiting the scope of the issues presented by said filings, particular attention will be directed at such reconvened hearing to the following matters and questions:

1. Whether the various proposed acquisitions will serve the public interest by tending towards the economical and efficient development of an integrated public utility system or systems;

2. Whether the considerations to be paid and received in connection with the various transactions, including all fees, commissions and other remuneration, are fair and reasonable.

3. The propriety of the proposed accounting treatment of the several transactions on the books of the respective applicants and declarants; and

4. Generally, whether the proposed transactions are in all respects in the public interests and in the interest of investors and consumers and consistent with all applicable requirements of the act and the rules thereunder, or, if not, whether and what modifications or terms and conditions should be required or imposed to satisfy the statutory standards.

It is further ordered, That notice of this reconvened hearing be given to applicants-declarants and to all other interested persons; said notice to be given to applicants-declarants and to the New York Public Service Commission by registered mail and to all other persons by general release of this Commission, which shall be distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935, and by publication in the FEDERAL REGISTER.

SECTION 1. *Control of hiring and solicitation of workers.* All hiring and solicitation of workers in, or for work in, Region III shall be conducted in accordance with the provisions of this employment stabilization plan.

SEC. 2. *Establishment, approval, and adaptation of area plans.* (a) *General.* All existing area employment stabilization plans shall, by not later than September 15, 1943, be amended by Area Directors in consultation with their Management-Labor Manpower Committees, so as to include the minimum standards set forth in this Employment Stabilization Plan. Existing area employment stabilization plans thus amended shall be submitted to the Regional Director for his approval. Any existing area plans not so amended and approved by October 15, 1943, shall cease to have operative effect on and after that date, and this Regional Plan shall be effective in such areas.

(b) *New area plans.* New area employment stabilization plans, in addition to those already amended and approved by September 15, 1943, may be established in accordance with the minimum standards of this plan for any WMC administrative area designated by the Regional Director for such purpose.

(c) *Adaptation to meet regional or local conditions.* This plan and any area plan may be adapted as the need arises to meet changing regional or area conditions by the Regional or Area Manpower Director after consultation with the appropriate Management-Labor Manpower Committee: *Provided,* That such adaptations are not in conflict with minimum national standards as set forth in Regulation 7 and with regional standards set forth in this plan: *And provided further,* That such adaptations are approved by the Regional Director.

(d) *Labor-Management Manpower Committee.* Regional and Area Management-Labor Manpower Committees are hereby authorized to consider questions of policy standards and safeguards in connection with the establishment and administration of this plan and of area plans, and to make recommendations on these subjects to Regional or Area Directors.

SEC. 3. *Minimum standards*—(a) *General.* A new employee, who during the preceding 60-day period was engaged in an essential or locally needed activity, may be hired only if such hiring would aid in the effective prosecution of the war. Such hiring shall be deemed to aid in the effective prosecution of the war only if:

(1) Such individual is hired for work in an essential or locally needed activity or for work to which he has been referred by the United States Employment Service, and

(2) Such individual presents a statement of availability from his last employment in an essential or locally needed activity, or is referred by the United States Employment Service of the War Manpower Commission, or is hired with its consent, as provided herein.

(b) *Issuance of statements of availability by employers.* An individual whose last employment is or was in an essential or locally needed activity shall receive a statement of availability from his employer if:

(1) He has been discharged, or his employment has been otherwise terminated by his employer, or

(2) He has been laid off for an indefinite period, or for a period of seven or more days, or

(3) Continuance of his employment would involve undue personal hardship, or

(4) Such employment is or was at a wage or salary or under working conditions below standards established by State or Federal law or regulation, or

(5) Such employment is or was at a wage or salary below a level established or approved by the National War Labor Board (or other agency authorized to adjust wages or approve adjustments thereof) as warranting adjustment, and the employer has failed to adjust the wage in accordance with such level or to apply to the appropriate agency for such adjustment or approval thereof.

(c) *Issuance of statements of availability by United States Employment Service.* (1) A statement of availability shall be issued promptly to an individual when any of the circumstances set forth in subsection (b) is found to exist in his case. If the employer fails or refuses to issue a statement, the United States Employment Service of the War Manpower Commission, upon finding that the individual is entitled thereto, shall issue a statement of availability to the individual.

(2) A statement of availability shall be issued by the United States Employment Service to any individual in the employ of an employer who, the War Manpower Commission finds, after notice, hearing and final decision, has not complied with any War Manpower Commission Employment Stabilization Plan, regulation or policy, and for so long as such employer continues his non-compliance after such finding.

(d) *Referral in case of under-utilization.* If an individual is employed at less than full time or at a job which does not utilize his highest recognized skill for which there is a need in the war effort, the United States Employment Service may, upon his request, refer him to other available employment in which it finds that the individual will be more fully utilized in the war effort.

(e) *Workers who may be hired only upon referral by the United States Employment Service.* A new employee may not be hired solely upon presentation of a statement of availability, but may be hired only upon referral by, or with the consent of, the United States Employment Service when:

(1) The new employee has not lived or worked in the locality of the new employment throughout the preceding 30-day period.

(2) The new employee's last regular employment was in agriculture and he is to be hired for non-agricultural work: *Provided,* That no such individual shall be referred to non-agricultural work except after consultation with a designated representative of the War Food Administration: *And provided,* That such an individual may be hired for non-agricultural work for a period not to exceed six weeks without referral or presentation of a statement of availability.

(3) The new employee is a male worker.

(f) *Exclusions.* No provision of the employment stabilization plan shall be applicable to:

(1) The hiring of a new employee for agricultural employment;

(2) The hiring of a new employee for work of less than seven days' duration, or for work which is supplementary to the employee's principal work; but such work shall not constitute the individual's "last employment" for the purposes of the program, unless the employee is customarily engaged in work of less than seven days' duration;

(3) The hiring of an employee in any Territory or possession of the United States, except Alaska and Hawaii;

(4) The hiring by a foreign, State, county, or municipal government, or their political subdivisions, or their agencies and instrumentalities, or the hiring of any of their employees, unless such foreign, State, county, or municipal government, or political subdivision or agency or instrumentality has indicated its willingness to conform, to the maximum extent practicable under the Constitution and laws applicable to it, with the program;

(5) The hiring of a new employee for domestic service, or to the hiring of a new employee whose last regular employment was in domestic service;

(6) The hiring of a school teacher for vacation employment or the rehiring of a school teacher for teaching at the termination of the vacation period.

(g) *Appeals.* Any worker or employer may appeal from any act or failure to act by the War Manpower Commission under this employment stabilization plan, in accordance with regulations and procedures of the War Manpower Commission.

(h) *Content of statements of availability.* A statement of availability issued to an individual pursuant to this plan shall contain only the individual's name, address, social security account number, if any, the name and address of the issuing employer, or War Manpower Commission officer and office, the date of issuance, a statement as to whether or not the individual's last employment was in a critical occupation, and such other information not prejudicial to the employee in seeking new employment as may be authorized or required by the War Manpower Commission.

(i) *Solicitation of workers.* No employer shall advertise or otherwise solicit for the purpose of hiring any individual if the hiring of such an individual would be subject to restrictions under this employment stabilization plan, except in a manner consistent with such restrictions.

(j) *Hiring.* The decision to hire or refer a worker shall be based on qualifications essential for performance of or suitability for the job, and shall be made without discrimination as to race, color, creed, sex, national origin, or except as required by law, citizenship.

(k) *Representation.* Nothing contained in this plan shall be construed to restrict any individual from seeking the advice and aid of, or from being represented by, the labor organization of which he is a member or any other representative freely chosen by him, at any step in the operation of this plan.

(l) *General referral policies.* No provision in the program shall limit the authority of the United States Employment Service to make referrals in accordance with approved policies and instructions of the War Manpower Commission.

SEC. 4. *Existing contracts.* Nothing in this plan shall be construed to prejudice existing seniority rights of an employee under any agreement with his employer.

SEC. 5. *Advertising.* Advertising for employees:

(a) Shall not be of a nature which will have a disruptive effect upon the labor market in a particular area, including either the publication of wage rates which induce turnover and piracy or the solicitation of workers by employers outside an area except through arrangements with the United States Employment Service of the War Manpower Commission.

(b) Should state clearly that employees now employed in essential activity cannot be considered without a statement of availability.

(c) Should state clearly that before employers hire employees possessing skills which appear on the list of critical occupations, clearance must be obtained from the United States Employment Service.

SEC. 6. *Advance notice of lay-offs.* Employers are required when possible to provide at least three days advance notice to the United States Employment Service whenever a lay-off of ten or more employees will occur and such notice shall contain a statement as to the number of employees to be laid off by occupation.

SEC. 7. *Limited statements of availability.* Limited statements of availability specifying a particular date on which employees shall be returned to their previous employer shall be issued by the United States Employment Service of the War Manpower Commission, whenever, in the judgment of the appropriate Area Manpower Director, the best interests of the war effort will be served by such action, provided that such action is agreeable to both the employer and employees involved, and provided further, that such limited statements of availability shall not be issued for a period longer than 3 months.

SEC. 8. *Request to remain on or return to a job.* The United States Employment service of the War Manpower Commission shall request any employee to return to or remain on his job and shall request any employer to retain such employee in his employ:

(a) Pending any determination on the employee's request for a statement of availability.

(b) Pending decision on the employee's appeal from a determination denying him a statement of availability.

(c) Upon a final determination that the employee is not entitled to a statement of availability.

SEC. 9. *Optional provisions.* Area Manpower Directors after consultation with their Management-Labor Manpower Committees and approval by the Regional Director may include in Area Employment Stabilization Plans optional provisions such as those outlined in § 907.5 of Regulation 7, which are designed to meet special manpower needs in the localities affected, but, except as authorized in § 907.5 (a) (5) of Regulation 7, no such provision shall conflict with section 3 of this plan or with any State or Federal law.

SEC. 10. *Definitions.* As used in this plan:

(a) "Agriculture" means those farm activities carried on by farm owners or tenants on farms in connection with the cultivation of the soil, the harvesting of crops, or the raising, feeding, or management of livestock, bees, and poultry, and shall not include any packing, canning, processing, transportation or marketing of articles produced on farms unless performed or carried on as an incident to ordinary farming operations as distinguished from manufacturing or commercial operations.

TITLE 32—NATIONAL DEFENSE

Chapter IX—War Production Board

Subchapter B—Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–622]

SUN-RA FROZEN FOODS, INC.

Sun-Ra Frozen Foods, Inc., a Missouri corporation with its principal place of business in Kansas City, Missouri is engaged in the sale of frozen foods and in the manufacture, sale and servicing of refrigeration systems and equipment. Between March 31, 1943 and August 31, 1943, the corporation applied the ratings assigned under Preference Rating Order P–126 together with the serial number assigned thereunder to another company to at least thirteen separate orders for the purchase of refrigeration equipment and parts of the value of $1,000, which equipment and parts were not used for emergency repair service but which were incorporated into and delivered with new refrigeration systems in violation of Preference Rating Order P–126 and General Limitation Order L–38. Between March 27, 1943 and May 30, 1943, the corporation manufactured or assembled twenty-three frozen food cabinets of the value of $7,000, without authorization from the War Production Board and in violation of General Limitation Order L–38. Between August 2 and August 18, 1943, the company sold and delivered one new reach-in-refrigeration system of the value of $859.50 and one new 1½ H. P. compressor of the value of $350, on orders which were not authorized orders, in violation of General Limitation Order L–38. On or about August 2, 1943, the corporation began and thereafter continued construction of a frozen food locker plant without authorization from the War Production Board. The estimated cost of this construction was approximately $1,700, which amount exceeded the limit of $1,000 permitted by Conservation Order L–41 and was in violation of that order. The responsible officers of the Sun-Ra Frozen Foods, Inc., were aware of the provisions of General Limitation Order L–38, Preference Rating Order P–126, and Conservation Order L–41, and its actions constituted willful violations of these orders.

These violations have diverted critical materials to uses not authorized by the War Production Board and have hampered and impeded the war effort of the United States. In view of the foregoing, *it is hereby ordered*, That:

§ 1010.622 *Suspension Order No. S–622.* (a) Sun-Ra Frozen Foods, Inc., shall not for two months from the effective date of this order apply or extend any preference ratings regardless of the delivery date named in any purchase order to which such ratings may be applied or extended.

(b) Sun-Ra Frozen Foods, Inc., shall cancel immediately all preference ratings which it has applied or extended to orders which have not yet been filled, except that if it has extended a customer's rating to get an item for delivery without a change in form to that customer (as distinct from replacing it in inventory) it need not cancel the rating, provided the item when received is promptly delivered to the customer whose rating was extended.

(c) All preference ratings presently outstanding in connection with orders for delivery of materials to Sun-Ra Frozen Foods, Inc., or placed prior to the termination date of this order are void and shall not be given any effect by suppliers of Sun-Ra Frozen Foods, Inc., or by any other person. This does not apply to material already delivered or in transit for delivery to it on the effective date of this order.

(d) Sun-Ra Frozen Foods, Inc., shall not for two months from the effective date of this order:

(1) Receive or accept delivery of any new refrigeration systems, units or parts as defined in Limitation Order L–38. This does not apply to material in transit for delivery to it on the effective date of this order.

(2) Deliver any new refrigeration systems or parts, except to the extent of delivering or using parts taken from its inventory in emergency repair service.

(3) Put into process or continue processing any materials in the manufacture of refrigeration systems or parts.

(4) Manufacture, fabricate or assemble any refrigeration systems or parts.

(e) All specific authorizations (on form WPB–1319) or otherwise, for the delivery of any material to Sun-Ra Frozen Foods, Inc., which is to be delivered before the termination date of this order, are cancelled and shall not be given any effect by suppliers of Sun-Ra

Frozen Foods, Inc., or by any other person. This does not apply to material already delivered or in transit for delivery to it on the effective date of this order.

(f) The restrictions and prohibitions contained herein shall apply to Sun-Ra Frozen Foods, Inc., its successors or assigns or persons acting in its behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

(g) Nothing contained in this order shall be deemed to relieve Sun-Ra Frozen Foods, Inc., its successors or assigns, from any restrictions, prohibitions or provisions contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(h) This order shall take effect on September 25, 1944, and shall expire on November 25, 1944.

PART 1226—GENERAL INDUSTRIAL EQUIPMENT

[Order L-292, Interpretation 3]

TRANSITION FROM ONE YEARLY QUOTA SCHEDULE TO THE NEXT

The following interpretation is issued with respect to Order L-292:

Production quotas for various items of food processing machinery, based upon each manufacturer's base period use of controlled materials, are established by Quota Schedules I, II, III, VI, VII and VIII for the year ending September 30, 1944, and by Schedules I-A, II-A, III-A, VI-A, VII-A, and VIII-A for the year beginning October 1, 1944 and ending September 30, 1945.

Each manufacturer producing items (new machines or parts for new machines) subject to any of these quota schedules for the year ending September 30, 1944, and continuing in production under the corresponding quota schedule for the next year must ascertain how much of the controlled materials on hand, in process or completed on September 30, 1944 are to be charged against his quota under the applicable schedule for the year ending on that date, and how much of such materials must be charged against his quota under the schedule applicable to the year commencing October 1, 1944, in order to determine how much additional production he is permitted during the remainder of the latter year under the schedule which applies to it.

For the purposes of the schedules mentioned, controlled materials are to be considered as having been "used" during the year ending September 30, 1944 only if they have been actually put into process or actually installed or assembled. Being put into process does not include minor initial operations, such as painting, and does not include any shearing, cutting, trimming, or other operation unless such initial operations are part of a continuous fabricating or assembling operation. Neither does it include operations such as inspection, testing and ageing, nor segregating or ear-marking for a specific job or operation.

For example, if a manufacturer who uses wire or rod cuts a sufficient quantity of it to length at one time to maintain his operations for a considerable period of time, the cut pieces remain as inventory until processed into another form or until assembled or installed; and such cut pieces on hand at the end of the year may not be considered as having been "used" during that year, and if they are used during the following year they are to be charged against the quota for the following year.

Similarly, if a manufacturer shears steel sheet and stocks it in sheared form, such stock does not thereby become "used", unless such shearing is a part of a continuous fabricating or assembling operation which is already being carried on at the end of the year.

Material which is still to be treated as in inventory, in accordance with interpretation 1 to CMP Regulation 2, at the end of the year, cannot be treated as having been "used" during that year.

Issued this 26th day of September 1944.

SPECIAL MRO RULE FOR INTERNATIONAL, POINT-TO-POINT RADIO COMMUNICATION CARRIERS

The following direction is issued pursuant to CMP Reg. 5:

(b) The cost of materials for any one project undertaken under this direction must not exceed $2,500.00. The following interpretation is issued with respect to Limitation Order L-239:

The phrase "direct fill factory pack" as used in that paragraph means ice cream which is poured into individual containers at the ice cream factory in a semi-frozen or semi-fluid state from a spout and then put into a cold hardening process. It does not include ice cream that has been sliced from a large block of ice cream which has been cold hardened prior to slicing.

PART 1351—FOOD AND FOOD PRODUCTS

[FPR 1,[1] Amdt. 10 to Supp. 7]

PACKED FRUITS, BERRIES AND VEGETABLES OF THE 1944 AND LATER PACKS

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.[2]

Supplement 7 to Food Products Regulation No. 1 is amended in the following respects:

1. The table in section 1 (a) is amended by adding item 11 to read as follows:

Column 1 Item No.	Column 2 Product	Column 3 Section	Column 4 Section	Column 4 Appendix
•	•	•	•	•
11	Bartlett pears, halves (peeled), quarters (peeled), and diced, (California only).	5	16	E

2. In section 16, Appendix E is added to read as follows:

APPENDIX E—BARTLETT PEARS, HALVES (PEELED), QUARTERS (PEELED), AND DICED

Explanation of how maximum prices are figured for packed Bartlett pears, halves (peeled), quarters (peeled), and diced. This appendix includes the specific pricing provisions for packed Bartlett pears, halves (peeled), quarters (peeled), and diced, produced in the state of California. It does not apply to these styles of pack of Bartlett pears produced in states other than California, nor does it apply to packed spiced, whole or pickled Bartlett pears, or Bartlett pear compote, produced in any area.

Conversions for grade, for syrup differential, and for container type and size under subparagraph (2), (3) or (4) of section 5 (a) of this supplement are to be made in the same order and in the same manner as those for packed apricots. The explanation at the beginning of Appendix B of this section applies to this appendix for that purpose.

How conversions are made for style of pack. A processor who during the base period sold Bartlett pears, halves (peeled), or quarters (peeled), but did not sell Bartlett pears, diced, and is now pricing the latter style, must convert for style of pack by adding to his constructed price $.06 per dozen, in the case of No. 2½ cans, or $.20 per dozen in the case of No. 10 cans. Similarly, a processor who during the base period sold Bartlett pears, diced, but did not sell Bartlett pears, halves (peeled), or quarters (peeled), and is now pricing one of the latter styles, must convert for style of pack by subtracting from his constructed price $.06 per dozen, in the case of No. 2½ cans, or $.20 per dozen, in the case of No. 10 cans. In either case this is done after application of the limitations of the price range to the constructed price and conversion for grade (see step 8 in the explanation at the beginning of Appendix B).

This amendment shall become effective September 25, 1944.

Issued this 25th day of September 1944.

CHESTER BOWLES,
Administrator.

For the reasons set forth in the accompanying statement of considerations, and by virtue of the authority vested in me by the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328, I find that the issuance of this amendment, establishing maximum prices for the designated style of packed Bartlett pears grown in California, based on a raw fruit cost of $80.00 per ton, is necessary to aid in the effective prosecution of the war.

FRED M. VINSON,
Economic Stabilization Director.

Apricots.
Figs
Peaches (including nectarines).
Pears.
Prunes.
Grapes (raisins) and zante currants.

(c) This supplement supersedes the provisions of Maximum Price Regulations Nos. 227 [2] and 475 [3] as to sales of the 1944 and later crops.

(d) This supplement becomes effective on September 30, 1944.

SEC. 2. *Applicability of Food Products Regulation No. 1.* Important: Not all of the provisions affecting maximum prices for the specified dried fruits are stated in this supplement. Those which are not specifically set forth here are stated in Food Products Regulation No. 1, and they are just as much a part of this supplement as if they were printed here. The "explanation of the regulation" is also a part of this supplement.

The particular sections of Food Products Regulation No. 1 which are applicable to this supplement are listed at appropriate places in the following provisions (in each case, the section number set forth in parenthesis is the appropriate section number of Food Products Regulation No. 1). When any applicable section of the regulation is amended, the amendment also is applicable to this supplement.

SEC. 3. *Definitions.* (a) When used in this supplement, the term:

"Dried fruit" means fruit from which the major portion of moisture has been removed by natural or artificial drying.

"1944 crop" means that pack of the dried fruit being priced which is processed from fruit produced in the calendar year 1944.

"Person" (section 1.1 of FPR 1).

"Processor" (sec. 1.2 of FPR 1). For this purpose, "process" means to grade; clean; sort; process with water, steam, chemicals or compressed air; sterilize; fumigate; or prepare for shipping the kind of dried fruit being priced. However, the term "processor" does not include a grower, dehydrator, or a dry-yard operator when he sells or delivers dried fruits to a processor.

"Distributor" (sec. 1.3 of FPR 1).

"Primary distributor" (sec. 1.5 of FPR 1).

"Wholesaler" and "retailer" (sec. 1.6 of FPR 1).

"Ultimate consumer" (sec. 1.7 of FPR 1).

"Item" (sec. 1.8 of FPR 1).

"Container type" (sec. 1.9 of FPR 1).

"Sale" (sec. 1.10 of FPR 1).

"Price" (sec. 1.11 of FPR 1).

"Net delivered cost" (sec. 1.12 of FPR 1).

"Records" (sec 1.14 of FPR 1).

ARTICLE II—PRICING PROVISIONS

SEC. 4. *Processor's maximum prices for dried fruits.* (a) The processor's maximum prices, f. o. b. factory, for dried fruits, shall be as follows:

(1) *Apricots.* (i) The processor's maximum prices, f. o. b. factory, for dried apricots packed in wood boxes containing 25 to 30 pounds, for sales of sizes standard to jumbo, inclusive, and of slabs and whole pitted apricots shall be as follows:

Slabs and whole pitted	618.40	590.62	562.84	649.32	620.15	590.98

(ii) In sales to government procurement agencies of a variety and size or style of dried apricots of higher than commercial quality, a premium not to exceed $10.00 per ton may be charged in addition to the maximum price otherwise named above. On sales to government procurement agericies of a variety and size or style of dried apricots of lower than commercial quality, the maximum price otherwise named above is reduced by $5.00 per ton.

(iii) A maximum price for another grade, variety, or size or style shall be figured from that listed above for the most comparable item by adding or subtracting, as the case may be, the same differential in dollars and cents which existed in the processor's maximum prices in 1942. The maximum price for another container size shall be figured from that listed above for the same grade, variety, and size or style by adding 120% of the dollar-and-cents differential which existed in the processor's maximum prices in 1942 when the differential is to be added, and by subtracting 80% of the dollars-and-cents differential which existed in the processor's maximum prices in 1942 when the differential is to be subtracted.

(2) *Peaches (including nectarines).* (i) The processor's maximum prices, f. o. b. factory, for dried peaches (including nectarines) packed in wood cases containing 25 to 30 pounds shall be as follows:

Grade and variety	Government sales, per ton	Other sales, per ton
Choice yellow freestones	$500.81	$526.85

(ii) Maximum prices for other grades, varieties, sizes and container sizes of dried yellow freestone peaches shall be figured by the use of differentials from the maximum price listed above in the same manner as provided above for dried apricots in section 4 (a) (1) (iii). Maximum prices for dried clingstone peaches shall be 5¼ cents per pound less than the maximum prices for the corresponding sizes and grades of dried yellow freestone peaches. Maximum prices for dried nectarines shall be the same as the maximum prices for the corresponding sizes and grades of dried yellow freestone peaches.

(3) *Pears.* (i) The processor's maximum prices, f. o. b. factory, for dried pears packed in wood boxes containing 25 to 30 pounds, shall be as follows:

Grade	Government sales, per ton	Other sales, per ton
Extra choice Lake County	$470.38	$493.97
Choice Northern	439.58	461.56

(ii) Maximum prices for other grades, varieties, sizes and container sizes of dried pears shall be figured by the use of differentials from the maximum prices listed above in the same manner as provided above for dried apricots in section 4 (a) (1) (iii).

(4) *Prunes.* (i) The processor's maximum prices, f. o. b. factory, for dried prunes packed in wood boxes containing 25 to 30 pounds shall be as follows:

(ii) The "packed point" above shows the number of packed prunes per pound in the packs for which the maximum prices are listed. The maximum price for any count between two packed points shall be figured by adding to the maximum price named for the next higher packed point (smaller fruit), $1.00 per ton for each whole point by which the count being priced is lower than that "packed point." Maximum prices for prunes in other container sizes shall be figured by the use of a differential from the maximum prices listed above in the same manner as provided above for dried apricots in section 4 (a) (1) (iii).

(iii) The maximum prices per ton, f. o. b. factory, for pitted prunes shall be as follows:

	Cents per pound
Black Missions	14
Adriatics	19½
Calimyrnas	28

(vi) The processor's maximum prices, f. o. b. factory, for graded tray-dried Kadota figs, packed in boxes or sacks, shall be ½ cent per pound less than the maximum price for the same grade of Adriatic figs in bulk, and for graded natural Kadota figs, packed in boxes or sacks, one cent per pound less than the maximum price for the same grade of Adriatic figs in bulk.

(vii) The processor's maximum prices, f. o. b. factory, for packaged figs, in packages for which no maximum prices have otherwise been established by this supplement, shall be figured as follows: If the variety, grade, and style of pack are the same as a package for which a maximum price is established by this supplement, but there is a difference in weight, the maximum prices for the package being priced and the package for which a maximum price has been established shall be in the same relationship to each other as the weights of the packages are to each other. If the package being priced differs in grade or style of pack from a package of the same variety for which a maximum price has been established, the maximum prices of the packages shall be in the same proportionate relationship as they were in 1942.

(viii) If a seller sells figs which he manufactures into fig paste or sliced figs for the buyer, the sale shall be treated as a sale of the product as finally delivered to the buyer.

(b) Maximum prices per ton may be converted to maximum prices per pound by dividing by 2000.

(c) Maximum prices per pound for brands which were nationally advertised in 1941, of the dried fruits in the container sizes specified below, shall be figured by adding a premium to the maximum prices per pound figured under the foregoing paragraphs of this section, as follows:

Dried fruits	Container sizes	Premium per lb.
		Cent
Prunes	1 lb. and 2 lb. cartons	1/4
Apricots	11 oz. cartons	1/4
Peaches	11 oz. cartons	1/4

(d) All maximum prices, except those for sales to government procurement agencies, include brokerage.

(e) Differentials used to figure maximum prices shall be the same amount in dollars and cents for sales to government procurement agencies or other sales. In figuring maximum prices for sales to government procurement agencies, differentials shall be added to or subtracted from maximum prices established for sales to government procurement agencies. In figuring maximum prices for other sales, the same differential shall be added to or subtracted from the maximum prices established for other sales.

However, differences in brand shall be ignored.

21.5 The Panel.
21.6 The Board.

*Copies may be obtained from the Office of Price Administration.

[1] 9 F.R. 8990, 9514, 9901.

§ 21.1 *General provisions; jurisdiction.* In accordance with the Secretary of the Navy's precept of July 22, 1944, the Navy Department Board of Review, Discharges and Dismissals, hereinafter known as the Board, has been established within the Navy Department to review, upon its own motion, or upon request by or on behalf of the individual former officer or enlisted man or woman, or if deceased, by the surviving spouse, next of kin or legal representative concerned, or if incompetent, by the guardian, the type and nature of discharge or dismissal certificate or other documentary evidence of discharge or dismissal of former member of the naval service, except a discharge or dismissal by reason of the sentence of a general court-martial. The scope of the review shall be to determine whether, under reasonable standards of naval law and discipline, the type and nature of the discharge or dismissal should be changed, corrected or modified, and, if so, to decide what change, correction or modification should be made. The Board has no authority to revoke any discharge or dismissal, to reinstate any person in the military service subsequent to his discharge or dismissal, or to recall any person to active duty.

§ 21.2 *Procedure*—(a) *Request for review.* (1) The petitioner should submit a written request for a review to the Board, with the certificate of discharge or dismissal in question, if available, and such other statements or affidavits as he desires to present.

(2) The request should state in brief: (i) the type of discharge or dismissal received; (ii) the full name, former rank or rating and the service or file number of the person whose discharge or dismissal is in question; (iii) the place to which any notices in connection with the review may be sent; (iv) the basis of the claim for review; (v) what action is desired of the Board; and (vi) whether the petitioner desires the review on basis of petition and accompanying papers or whether he desires to appear in person before the Board and/or be represented by counsel. (If counsel is desired, the petitioner should designate such counsel by name.)

(3) When the request for review is submitted by a surviving spouse, next of kin, legal representative or guardian, satisfactory evidence of the required relationship must be submitted.

(4) No request for review of a discharge or dismissal shall be valid unless filed within fifteen years after such discharge or dismissal or within fifteen years from June 22, 1944, whichever be the later.

(b) *Review on own motion.* (1) The Board shall not conduct a review on its own motion without first transmitting a written notice to the person concerned or, if such person is deceased, to his surviving spouse, next of kin, legal representative or guardian, by registered mail, return receipt requested.

(2) Such notice shall state that a review of the type and nature of this discharge or dismissal is to be held by the Board, and shall advise the addressee of his right to appear before the Board, in person or by counsel, and to present evidence before the Board in the manner herein prescribed.

(c) *Methods of presenting case.* The petitioner may present his case:

(1) By letter with certificate of discharge or dismissal, if available and affidavits.

(2) In person, with or without counsel.

(3) By counsel.

(d) *Counsel.* The term "counsel," as used herein, shall include members of the bar in good standing and accredited representatives of veterans' organizations recognized by the Veterans' Administration under section 200 of the act of June 29, 1936 (Public Law 844, 74th Congress).

(e) *Witnesses.* (1) The Board shall require that all testimony be given under oath or by affirmation.

(2) Witnesses shall be subject to examination and/or cross-examination as appropriate, by the Members of the Board, the petitioner, his counsel, or by the Government Representative.

(3) The testimony of witnesses may be presented either in person or by affidavits.

(f) *Expenses.* No expense of any nature whatsoever incurred by the petitioner, his counsel, his witnesses, or by any other person on his behalf, shall be paid by the Government.

(g) *Notice of hearing.* The Board shall give a petitioner at least thirty days' written notice of the time and the place of the hearing. Such time shall be computed from the time of mailing of the notice. The petitioner may waive such time limit and an earlier hearing date may be set by the Secretary of the Panel.

(h) *Continuances.* A continuance may be granted by the Board on its own motion, or at the request of the petitioner or Government Representative, when such continuance appears necessary in order to insure a full and fair hearing.

(i) *Failure of petitioner to appear.* A petitioner who requests a hearing and who, after being duly notified of the time and place of hearing, fails to appear at the appointed time, either in person or by counsel, thereby waives his right to be present and cannot thereafter take exception to the findings or conclusions arrived at in his absence.

(j) *Evidence.* (1) The Board, in its review, shall consider as evidence all available records of the Navy Department, the Marine Corps or the Coast Guard, together with such evidence as may be submitted by the petitioner and/or his counsel.

(2) The Board shall not be restricted by legal rules of evidence.

(3) Secret and/or confidential records in possession of the Board of Review will not be disclosed.

(k) *Records.* Records of the Board shall be open to the Veterans' Administration.

(l) *Withdrawal.* The Board may, at its discretion and for good cause shown, permit the petitioner to withdraw his request for review without prejudice at any time before the Board begins its deliberations.

§ 21.3 *Action by the Board*—(a) *Deliberations.* (1) After a full and fair review of the evidence, the Board shall deliberate in closed session, and shall be governed in its action by the vote of a majority of the Board.

(2) No persons other than members of the Board shall be present at or participate in its deliberations.

(3) Members not concurring may file a minority report.

(4) The findings, conclusions, decision and order shall be signed by the concurring majority members.

(b) *Findings.* The findings of the Board shall include:

(1) Type and nature of discharge or dismissal certificate or other documentary evidence of discharge or dismissal which was issued to the person concerned upon separation from the Naval Service.

(2) Basis for such type and nature of discharge or dismissal as disclosed by records in the custody of the Navy Department.

(3) Circumstances surrounding the discharge or dismissal as disclosed by all evidence considered by the Board.

(4) Such other ultimate facts as may be necessary and pertinent to the issue.

(c) *Conclusions.* The Board, on the basis of its findings, shall prepare written conclusions as to whether the type or nature of the discharge given should be changed, corrected or modified.

(d) *Decision.* The Board shall next record its decision. The nature of any change, correction or modification to a certificate of discharge or dismissal shall be specified with particularity.

(e) *Order.* A written order based on the decision shall be prepared for transmittal to the Chief of Navy Personnel, the Commandant of the Marine Corps or the Commandant, U. S. Coast Guard, as appropriate.

(f) *Record of proceedings.* When the Board has concluded its proceedings, the Secretary of the Panel shall prepare a complete original record thereof. Such record shall include the request for review, a transcript of the hearing, if any; affidavits, papers and documents considered by the Board; all briefs and written arguments filed in the case; the findings, conclusions, decision and order of the Board; any minority report prepared by dissenting members of the Board, and all other papers and documents necessary to reflect a true and complete history of the proceedings. The record will be authenticated by the Secretary of the Panel as being true and complete.

§ 21.4 *Review by the Secretary of the Navy*—(a) *Transmittal of record.* The original record of the proceedings in each case shall be transmitted forthwith by the President of the Board of Review, Discharges and Dismissals, to the Secretary of the Navy for final review.

(b) *Action by the Secretary of the Navy.* (1) The Secretary of the Navy will take such action in each case as he determines to be appropriate, including the return of the record to the Board for further consideration when deemed necessary.

(2) The procedure of the Board on such further consideration will conform as nearly as practicable to that heretofore prescribed, except that the scope of the action of the Board will be limited to the matters specified by the Secretary of the Navy in the directive ordering such reconsideration.

(3) The Secretary of the Navy, after his final action, will return all records to the Board of Review. After recording the final action in the journal, the Board will notify the petitioner of the action taken in his case, then forward all records to the Chief of Naval Personnel, Commandant of the Marine Corps, or Commandant, U. S. Coast Guard, whichever the case may be, for the following administrative acts:

(i) Carry out the order of the Board of Review in respect to the discharge or dismissal in question.

(ii) Place copies of the Board's order and of the record of proceedings in the service record. A reference shall be made in the copy of the Board's report of all enclosures or exhibits which are to be filed elsewhere.

(iii) Place all records in their proper files for safe custody.

§ 21.5 *The Panel*—(a) *Members.* (1) The Panel shall consist of all members of the several Boards of Review and of all officers detailed to the Office of the Board of Review.

(2) Members of the Panel shall report to and be responsible to the president of the Panel.

(b) *Changes in.* Additions to and other changes in the membership of the Panel shall be made as circumstances warrant, with the approval of the Secretary of the Navy.

(c) *Meetings.* Meetings of the Panel may be called by the president of the Panel. The Panel will meet in Washington at such times and places as designated by the president.

(d) *Administrative regulations.* The Panel shall, from time to time, initiate such changes in the Administrative Regulations and Procedures as may be deemed advisable, for the approval of the Secretary of the Navy.

(e) *Duties of Panel officers*—(1) *President.* (i) The president of the Panel shall, from time to time, constitute Boards charged with the review functions over discharges and dismissals of Navy, Marine Corps and Coast Guard personnel, as required by section 301 of Public Law 346, 78th Congress.

(b) *Bar.* A light blue, red, white, gold, and navy blue silk ribbon bar pin, one and three-eighths inches long by one-half inch wide, will be awarded to each person to whom the Merchant Marine Meritorious Service Medal is awarded to be worn in lieu of the medal.

In the event that such representative of the deceased is located in a foreign country, the award may be delivered to the Secretary of State of the United States for future presentation.

[Docket No. G-580]

NATURAL GAS INVESTIGATION

ORDER INSTITUTING INVESTIGATION

SEPTEMBER 22, 1944.

It appearing to the Commission that:

(1) There are many complex and difficult problems related to the conservation and utilization of natural gas which numerous parties appearing before the Commission have urged should be considered in a proper discharge of the Commission's duties and responsibilities under the Natural Gas Act.

(2) The Commission in its 1940 annual report to Congress directed attention to certain of these problems and suggested the necessity for further investigation and additional legislation.

(3) Following submission of the above report and extensive hearings with respect to H. R. 5249, a bill to amend section 7 of the Natural Gas Act, the Committee on Interstate and Foreign Commerce of the House of Representatives reported the bill favorably. In its report (H. Rep. No. 1290, 77th Cong., 1st Sess., p. 3) the Committee pointed out that by these amendments to the act "the door is opened to the consideration by the Commission of the effect of construction and extensions upon the interests of producers of competing fuels and competitive transportation interests." In so doing, the committee deleted certain provisions of the proposed bill with the statement that "the increasingly important problems raised by the desire of several States to regulate the use of natural gas produced therein in the interest of consumers within such States, as against the Federal power to regulate interstate commerce in the interest of both interstate and intrastate consumers, are deemed by the committee to warrant further intensive study and probably a more detailed and comprehensive plan for the handling thereof than that which would have been provided by the stricken subsection."

(4) On February 7, 1942, the amendments to section 7 of the Natural Gas Act became effective and, as the Supreme Court of the United States held in *Federal Power Commission, et al.* v. *Hope Natural Gas Company*, 320 U. S. 591, 612, (1944), "considerations of conservation are material to the issuance of certificates of public convenience and necessity," under that section, as amended.

(5) Governors, regulatory commissions, and officials of certain gas-producing States have intervened in proceedings before the Commission and have advanced various contentions with respect to the exportation of natural gas from such States for consumption in areas where other energy resources are available, divergent views being expressed by the representatives of such States.

(6) Representatives of coal, railroad, labor, and other interests concerned with the production or transportation of competing fuels have intervened in proceedings held by the Commission under section 7, as amended, and have presented evidence on the economic, sociological, and technological aspects of fuel competition, and have strongly urged the Commission either to deny requested certificates of public convenience and necessity or to attach restrictions which would substantially limit the uses for which natural gas might be sold.

(7) Representatives of natural-gas companies in such proceedings have emphasized the amount of the investments heretofore made to supply markets which include domestic, commercial, industrial, and other uses of natural gas, and have contended that curtailment of the loads to industrial customers would substantially impair their ability to render adequate service to other consumers at reasonable rates. They have contended also that new or additional sources of supply are necessary to maintain adequate service in areas whose original source of supply has been or is being exhausted but where large investments in pipe lines and distribution facilities have been made.

(8) Proceedings before the Commission have shown that it is principally in the field of direct industrial sales from interstate pipe lines that natural gas comes into direct competition with other fuels, the rates at which such sales are made not being subject to regulation under the Natural Gas Act.

(9) Proceedings before the Commission have disclosed that in the industrial areas of the United States large investments have been made in plant facilities designed for the utilization of natural gas in industrial processes, and that the conversion of such facilities, or the installation of new facilities, to utilize fuels other than natural gas will require large expenditures of money, time, and materials, and may effect substantial changes in the method of operation, cost of production, and end products of many industrial establishments.

(10) The Commission, in discharging its duties and responsibilities under the act, has obtained extensive data and information with respect to various aspects of the problems involved in the conservation and utilization of natural gas, but such data and information are not sufficiently complete for adequate consideration of such problems.

The Commission finds that:

To aid in carrying out its authority and responsibilities under the Natural Gas Act, particularly sections 7, 11 and 14 thereof, including the prescribing of rules and regulations thereunder, and to obtain information to serve as a basis for determining whether further legislation should be recommended to Congress, it is appropriate in the public in-

terest that an investigation be instituted with respect to matters involved in the conservation and utilization of natural gas as hereinafter provided.

The Commission orders that:

(A) An investigation be and hereby is instituted into the extent and probable life of natural gas reserves; present and prospective measures for preventing waste and prolonging the life of such reserves; the present and probable future utilization of natural gas for domestic, commercial and industrial purposes; the extent, character and results of the competition of natural gas with other fuels; and such related matters as may be helpful in the administration of the Natural Gas Act or in determining what additional legislation, if any, should be recommended.

(B) The procedure to be followed in said investigation and the date and location of hearings shall be prescribed by subsequent order or orders of the Commission.

(C) A copy of this order be published in the FEDERAL REGISTER and sent to the Governors and regulatory and conservation commissions of each of the States, the Interstate Oil Compact Commission, each natural gas company, the coal, railroad and labor organizations, and other interested parties, and such persons be invited to file with the Commission, on or before October 31, 1944, statements of their views and suggestions concerning the matters to be covered in this investigation and the procedure which should be followed.

By the Commission.

Secretary.

Maximum prices for sales by processors and other sellers are now established by section 2.4, Maximum Price Regulation 445.

The products described are used in the fortification of wine and in the blending of other alcoholic beverages. Under the circumstances, purchasers are unable to procure supplies until the issuance of the announced price, and difficulties in securing supplies threaten to delay operations of winery purchasers until too late for the current grape harvest and, in the case of rectifiers, until too late to supply fall markets in the normal manner.

Section 7.11 of Maximum Price Regulation 445 provides for the issuance of an adjustable pricing order permitting deliveries at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. The Price Administrator has found that authority to use adjustable pricing for sales of the products named, pending issuance and effective date of the announced price change, is necessary to promote production and distribution of the products. He has further found such authorization will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. Therefore, in accordance with section 7.11, Maximum Price Regulation 445, *It is ordered,* that:

(a) Processors of, and dealers in bulk domestic grape spirits, bulk domestic spirits fruit, neutral brandy, and high proof and high wine made from any fruits or berries except grapes, may make sales and deliveries thereof and purchasers may buy and receive such products at prices to be adjusted upward after delivery to amounts not in excess of maximum prices established by final action to be taken by price regulation or amendment providing adjustments in maximum prices for those products. Prior to the effective date of such final action, no payment for those products shall be made or received in excess of maximum prices prevailing at the date of delivery.

(b) This order shall be revoked without further action by the Price Administrator upon the effective date of a price regulation or amendment increasing maximum prices for sales of the products described. It may be revoked or amended by the Price Administrator at any time.

This order shall become effective September 26, 1944.

Issued this 25th day of September 1944.

CHESTER BOWLES,
Administrator.

(iii) *Carry up or down stairs.* If buyer requests such service, the dealer may not charge more than $1.00 per ton therefor.

(d) *Ex parte 148 freight rate increase; transportation tax*—(1) *The freight rate increase.* Since the ex parte 148 freight rate increase has been rescinded by the Interstate Commerce Commission, the dealer's freight rates are the same as those of December, 1941; therefore, no dealer may increase any price specified herein on account of freight rates.

(2) *The transportation tax.* Only the transportation tax imposed by section 620 of the Revenue Act of 1942 may be collected, in addition to the maximum prices set by this order. It may be collected only if the dealer states such tax separately from the price of the coal on the invoice. (The tax need not be stated separately on sales to the United States or any agency thereof—see amendment 12 to Revised Maximum Price Regulation No. 122.) No part of this tax may be collected in addition to the maximum prices specified on sales of one-quarter ton or lesser amounts of coal, or on sales of any quantity of bagged coal.

(e) *Addition of increases in supplier's prices prohibited.* The maximum prices set by this order may not be increased by a dealer to reflect increases in his purchase cost or in his supplier's maximum prices occurring after the effective date hereof, but increases in the maximum prices set hereby, to reflect such increases are within the discretion of the Administrator or of the Regional Administrator of Region IV.

If such petition is filed with the Regional Administrator, action thereon shall be taken by him. When such a petition is filed with the Regional Administrator, all requirements of Revised Procedural Regulation No. 1, relative to the filing of such petitions, are applicable except the place of filing specified therein.

(h) *Applicability of other regulations*—(1) *Licensing and registration.* Every dealer subject to this order is subject to the licensing and registration provisions of sections 15 and 16 of the General Maximum Price Regulation. These sections provide, in brief, that a license is required of all persons selling, at retail, commodities for which maximum prices are established. A license is automatically granted. It is not necessary to apply for a license, but a dealer may later be required to register. A license may be suspended for violations in connection with the sale of any commodity for which maximum prices are established. If a dealer's license is suspended, he may not sell any such commodity during the period of suspension.

(2) *Effect of this order on Revised Maximum Price Regulation No. 122.* To the extent applicable, the provisions of this order supersede the provisions of Revised Maximum Price Regulation No. 122.

(i) *Records and reports.* Every person making sales of solid fuels for which maximum prices are established by this order shall keep a record thereof showing the date, the name and address of the buyer, if known, the per net ton price charged, and the solid fuel sold. The solid fuel shall be identified in the manner in which it is described in this order. This record shall also separately state each service rendered and the charge made therefor.

(1) It is not necessary that these records or your maximum prices be filed with the War Price and Rationing Board.

(j) *Posting of maximum prices; sales slips and receipts.* (1) Each dealer subject to this order shall post all the maximum prices set hereby for all of his types of sales. He shall post his prices in his place of business in a manner plainly visible to, and understandable by, the purchasing public. He shall also keep a copy of this order available for examination by any person inquiring as to his prices for solid fuels.

(2) Every dealer selling solid fuels for the sale of which a maximum price is set by this order shall, within 30 days after the date of delivery of the fuel, give to the buyer a statement showing: the date of the sale, the name and address of the dealer and of the buyer, the kind, size, and quantity of the solid fuel sold, the price charged, and separately stating any item which is required to be separately stated by this order. This paragraph (j) (2) shall not apply to sales of quantities of less than one-quarter ton or to sales of bagged coal unless the dealer customarily gave such a statement on such sales.

(3) In the case of all other sales, every dealer who during December, 1941 customarily gave buyers sales slips or receipts shall continue to do so. If a buyer requests of a seller a receipt showing the name and address of the dealer, the kind, size, and quantity of the solid fuel sold to him, or the price charged, the dealer shall comply with the buyer's request as made by him.

(k) *Enforcement.* (1) Persons violating any provisions of this order are subject to the civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violations of this order are urged to communicate with the nearest District Office of the Office of Price Administration.

(l) *Definitions and explanations.* When used in this order the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons or legal successor or representative of any of the foregoing, and includes the United States, any other government, or any agency or subdivision of any of the foregoing.

Pursuant to the Emergency Price Control Act of 1942, as amended, and § 1499.3 (e) (2) of the General Maximum Price Regulation, and for the reasons set forth in the accompanying opinion, this order is issued.

All provisions of this order and their effect upon business practices, cost practices, or methods, or means or aids to distribution in the industry or industries affected have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, aids or methods established in the industry or industries affected, have been included in the order unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the order or of the act. To the extent that the provisions of this order compel or may operate to compel changes in business practices, cost practices or methods, or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention or evasion of this order or of the Emergency Price Control Act of 1942, as amended.

(a) *Geographical applicability.* This order shall apply only to sales in Region VII of the Office of Price Administration made in that part of the State of Idaho lying south of the northern boundary of Idaho County, and the County of Malheur in the State of Oregon.

(b) *Prohibition.* On and after the effective date of this order, all wholesale dealers in beverages are hereby authorized to sell Ballantine's XXX Ale purchased from P. Ballantine and Sons, Newark, New Jersey, delivered to retailers at a maximum selling price at wholesale, of $3.85 per case of twenty-four 12 oz. bottles, providing that 60¢ per case as bottle deposit shall be refunded to the purchaser upon return of the empty bottles to the respective wholesaler from whom purchased.

(c) *Records.* All wholesalers affected by this order shall keep this order, or a copy thereof, in their respective selling establishments, where it shall be open to inspection by the public at all reasonable times.

(d) *Taxes.* Wholesalers affected by this order may not add taxes to the maximum prices provided in paragraph (b). Existing taxes have already been taken into account in establishing these prices.

(e) *Evasion.* The maximum price established by this order shall not be evaded, whether by direct or indirect methods in connection with an offer, solicitation, agreement, sale or trade of, or relating to the sale of Ballantine's XXX Ale alone, or in connection with any other commodity, or by way of commission, service, transportation, or any charge or discount, premium, or other privilege or by tying-agreement or by other trade understanding, or otherwise.

(f) *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under Price Control, are applicable to the Nagel Beverage Company and all other wholesale beverage companies in the State of Idaho. Such sellers' licenses may be suspended for the violation of this order. No steps need be taken by the seller to procure this license. If said license is suspended, no sale of the commodity covered by this order may be made during such period of suspension.

(g) *Applicability of other regulations.* Except insofar as the same are inconsistent with or contradictory to the terms and provisions of this order, all the terms and provisions of the General Maximum Price Regulation shall remain in full force and effect as to the establishment affected by this order.

(h) *Enforcement.* Any person violating a provision of this order will be subject to the criminal penalties, civil enforcement actions, suits for triple damages, and proceedings for suspension of license provided by the Emergency Price Control Act of 1942, as amended.

(i) *Right to revoke or amend.* This order may be revoked, amended, corrected or modified at any time by the Regional Administrator.

SECURITIES AND EXCHANGE COMMISSION.

[File Nos. 54-103, 59-68, 70-842]

TIDE WATER POWER CO., ET AL.

NOTICE OF FILING AND ORDER FOR HEARING AND CONSOLIDATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 23d day of September 1944.

In the matters of Tide Water Power Company, File No. 54-103; Tide Water Power Company, Respondent, File No. 59-68; General Gas & Electric Corporation, File No. 70-842.

Notice is hereby given that an application for approval of a "Plan of Recapitalization" has been filed with this Commission under section 11 (e) of the Public Utility Holding Company Act of 1935, by Tide Water Power Company ("the Company"), a subsidiary of General Gas & Electric Corporation, a registered holding company; and

All interested persons are referred to said application which is on file in the offices of the Commission for a statement of the transactions proposed in said "Plan of Recapitalization", which may be summarized as follows:

The plan proposes that all of the outstanding First Mortgage 5% Bonds of the Company, due 1979, aggregating $6,065,500 principal amount, shall, by call for redemption at 104% of the principal amount thereof, be paid off and retired from cash in the treasury and from the proceeds of the issue and sale, for cash, of $4,500,000 principal amount of new First Mortgage 3½% Bonds to mature in 1974 and 10,000 shares of new no par $5 Preferred Stock, having an aggregate stated value of $1,000,000. It is proposed that said refunding of the outstanding bonds, together with the issuance of said new bonds and $5 Preferred Stock shall be consummated without awaiting approval or enforcement of the plan as a whole.

It is also proposed in said plan that all of the outstanding 115,789 shares of Common Stock of the Company, held by General Gas & Electric Corporation, and all of the outstanding 23,858 shares of $6 Preferred Stock shall be retired and cancelled and in exchange therefor there shall be issued 98,893 shares of new Common Stock without par value. Said plan further provides that the holders of the present $6 Preferred Stock of the Company shall receive four shares of such new Common Stock for each share of $6 Preferred Stock, including accumulated and unpaid dividends thereon, aggregating $38 per share at June 30, 1944, and that General Gas & Electric Corporation shall receive 3,461 shares of such new Common Stock for its present holdings of all the outstanding Common Stock.

It is further proposed, in conjunction with said plan, to restate the plant and property of the company on the basis of estimated original cost thereof, as at June 30, 1944, by a write-down in the amount of $2,796,225.72; to reduce the reserve for retirements (depreciation), as at the same date, by $633,808.99, to be credited to earned surplus; to eliminate by a charge to earned surplus $501,007.72 of fixed capital and other suspense presently being amortized; and to eliminate the capital surplus and the resulting earned surplus deficit as at the same date, June 30, 1944.

The consummation of the plan is stated by the company to be dependent upon (1) the plan having been found by the Securities and Exchange Commission to be necessary to effectuate the provisions of section 11 (b) of the act and to be fair and equitable to the persons affected thereby and to have been approved by the Commission and found by a Federal court to be fair and equitable and appropriate to effectuate the provisions of section 11 of the act; (2) the change and reclassification of the existing Preferred Stock proposed in the plan having become binding upon the holders of all shares of such stock; (3) necessary authorization having been given for the plan and for the issuance of the new stock by regulatory commissions; and (4) a ruling having been made by the appropriate tax authorities to the effect, or the company having otherwise been satisfied, that the changes in and reclassification of the existing Preferred Stock into Common Stock will not result in the recognition, under the United States Internal Revenue Code, of gain or loss to the present holders of such Preferred Stock.

It is further proposed that the plan shall be carried out by corporate proceedings either to amend the certificate of incorporation of the company, to transfer the assets of the company to a new corporation organized for the purposes of the plan or to effect the consolidation or merger of the company with a new corporation organized for the purposes of the plan, or through a Federal court of competent jurisdiction acting under section 18 of the act, in a proceeding instituted by the Securities and Exchange Commission at the request of the company, pursuant to section 11 (e) of the act, or, wholly or in part, in any two or more of said methods.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said proposed "Plan of Recapitalization" and that said plan should not be effectuated except pursuant to further order of the Commission; and

The Commission having heretofore instituted proceedings (designated as File No. 59-68), under sections 11 (b) (2), 12 (c), 15 (f) and 20 (a) of the act, with respect to Tide Water Power Company; and a declaration (designated as File No. 70-842) having been filed with this Commission pursuant to section 12 (d) of the act and Rule U-44 thereunder, by General Gas & Electric Corporation; and the Commission having, on January 7, 1944, consolidated said proceedings (designated as File No. 59-68) and the proceedings in respect of said declaration (designated as File No. 70-842); and it appearing that the matters involved in said consolidated proceedings are related to, and that the evidence already offered therein may have a bearing upon, the matters to be considered in the proceedings with respect to said proposed "Plan of Recapitalization", and that substantial savings of time and expense will result if, as requested by the Company, all of such proceedings are consolidated;

It is hereby ordered, That said consolidated proceedings, designated as File Nos. 59-68 and 70-842, be, and they hereby are, consolidated with the proceedings in respect of said "Plan of Recapitalization", designated as File No. 54-103; and

It is further ordered, That a hearing on such plan under the applicable provisions of said act and the rules of the Commission thereunder be held on October 10, 1944, at 10:30 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such date the hearing room clerk in room 318 will advise as to the room in which such hearing will be held. All persons desiring to be heard or otherwise wishing to participate in said proceedings should notify the Commission in the manner provided by Rule XVII of its rules of practice on or before October 7, 1944.

It is further ordered, That Willis E. Monty, or any other officer or officers of the Commission designated by it for that purpose, shall preside at the hearings in such matters. The officer so designated to preside at such hearings is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That, without limiting the scope of the issues presented in said consolidated proceedings, attention will be directed at the public hearing to the following matters and questions:

1. Whether the plan, as proposed or as it may be modified, is necessary to effectuate the provisions of section 11 (b) of the act and is, in all respects, fair and equitable to the persons affected thereby;

2. The propriety of the proposed accounting treatment on the books of the company;

RECRUITMENT AND PLACEMENT, AMENDMENT

§ 18.4 *Recruitment and placement.* • • •

(d) *Selection.* The nominating or appointing officer shall, with sole reference to merit and fitness, make selections for appointment to each vacancy from not more than the highest three names available for appointment on the certificate: *Provided*, That the appointing officer need not consider any eligible who has been within his reach in connection with three separate appointments or against whom objection shall be made and sustained for any of the reasons stated in § 18.2 (c) of this part. The second and any additional vacancies shall be filled in like manner.

An appointing officer who passes over an eligible granted five- or ten-point preference under these regulations and tentatively selects a nonpreference eligible shall file with the Commission his reasons in writing for so doing and the Commission shall determine the sufficiency or insufficiency of such submitted reasons. The nonpreference eligible tentatively selected may not legally be appointed until the appointing officer has considered the findings of the Commission as to the sufficiency or insufficiency of the reasons submitted for passing over the preference eligible. Upon receipt of a finding of the Commission that the reasons for passing over a preference eligible are sufficient, the nonpreference eligible tentatively selected may be appointed. If the Commission finds that the reasons submitted are insufficient the appointing officer may (1) submit additional information in support of his reasons, in which case the appointment of the nonpreference eligible may not be made until the appointing officer receives the findings of the Commission on the additional information; or (2) consider the findings of the Commission as to the insufficiency and appoint either the preference eligible or the tentatively selected nonpreference eligible. A copy of the appointing officer's reasons and the Commission's findings shall, upon request, be sent to the eligible or his designated representative. If upon certification reasons deemed sufficient by the Commission for passing over his name shall three times have been given by appointing officers, certification of his name for appointment will thereafter be discontinued, prior notice of which shall be sent to the eligible. Any eligible who has been within reach in connection with three separate appointments in his turn, and any preference eligible who has been passed over three times for reasons deemed sufficient by the Commission, may be subsequently selected, subject to the approval of the Commission, from the certificate on which his name last appeared if the condition of the list has not so changed as to place him in other respects beyond reach of certification.

PART 970—MILK IN THE CLINTON, IOWA, MARKETING AREA

ORDER REGULATING THE HANDLING OF MILK IN CLINTON, IOWA, MARKETING AREA

970.12 Agents.

AUTHORITY: §§ 970.0 to 970.12, inclusive, issued under 48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U.S.C. 1940 ed. 601 et seq.

§ 970.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR, Cum. Supp., 900.1 et seq.) a public hearing was held upon a proposed marketing agreement and proposed order regulating the handling of milk in the Clinton, Iowa, marketing area. Upon the basis of the evidence introduced in such hearing and the record thereof, it is hereby found that:

(1) The issuance of this order regulating the handling of milk in the said marketing area, and all the terms and

conditions of this order, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in the said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8 (e) of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the said order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The said order regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in the said tentatively approved marketing agreement, upon which a hearing has been held; and

(4) The handling of all milk sold or disposed of in the marketing area, as defined herein, is in the current of interstate commerce, or directly burdens, obstructs or affects interstate commerce in milk and its products.

(b) *Additional findings.* (1) It is hereby found and proclaimed in connection with the execution of a marketing agreement and the issuance of an order regulating the handling of milk in the said marketing area, that the purchasing power of such milk during the pre-war period August 1909–July 1914 cannot be satisfactorily determined from available statistics of the Department of Agriculture, but that the purchasing power of such milk for the period August 1924–July 1929 can be satisfactorily determined from available statistics of the Department of Agriculture and the period August 1924–July 1929 is the base period to be used in connection with the said marketing agreement and this order in determining the purchasing power of such milk.

(2) It is hereby found that the necessary expenses of the market administrator for the maintenance and functioning of such agency will amount to approximately $3,600 per year; and the pro rata share of such expenses to be paid by each handler is hereby approved in the maximum amount of 5 cents per hundredweight on all milk received from producers and produced by such handler during each delivery period.

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping milk covered by this order) of at least 50 percent of the volume of milk which is marketed within the said marketing area refused or failed to sign the tentatively approved marketing agreement regulating the handling of milk in the said marketing area; and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign such tentatively approved marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order is the only practical means pursuant to the act to advance the interests of the producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of approval of the order and who, during the month of June 1944 (which month is hereby determined to be a representative period), were engaged in the production of milk for sale in the said marketing area.

It is hereby ordered, That such handling of milk in the Clinton, Iowa, marketing area as in the current of interstate commerce or as directly burdens, obstructs, or affects interstate commerce shall from the effective date hereof be in compliance with the terms and conditions of this order.

§ 970.1 *Definitions.* The following terms shall have the following meanings:

(g) "Producer-handler" means any person who is both a producer and a handler and who receives no milk from other producers: *Provided,* That (1) the maintenance, care, and management of the dairy animals and other resources necessary to produce the milk are the personal enterprise of and at the personal risk of such person in his capacity as a producer, and (2) the processing, packaging, and distribution of the milk are the personal enterprise of and at the personal risk of such person in his capacity as a handler.

(2) Investigate and report to the War Food Administrator complaints of violations of the provisions hereof.

(5) Obtain a bond with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator.

(6) Publicly disclose to handlers and producers, unless otherwise directed by the War Food Administrator, the name

of any person who, within 15 days after the date upon which he is required to perform such acts, has not (i) made reports pursuant to § 970.5 or (ii) made payments pursuant to § 970.8.

(7) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions hereof.

(8) Pay, out of the funds provided by § 970.9, (i) the cost of his bond and of the bonds of such of his employees as handle funds entrusted to the market administrator, (ii) his own compensation, and (iii) all other expenses necessarily incurred in the maintenance and functioning of his office.

(9) Promptly verify the information contained in reports submitted by handlers.

§ 970.3 *Classification of milk*—(a) *Basis of classification.* All milk, skim milk, or cream purchased or received by a handler or caused to be diverted by a cooperative association to a plant from which no milk is disposed of as Class I milk in the marketing area shall be reported by the handler and shall be classified by the market administrator in the classes set forth in (b) of this section.

(b) *Classes of utilization.* Subject to the conditions set forth in (a) and (d) of this section, the classes of utilization of milk shall be as follows:

(1) Class I milk shall be all milk, skim milk, or cream disposed of in the form of milk, skim milk, buttermilk, flavored milk and milk drinks, and cream, for consumption as cream (including any cream product in fluid form containing 6 percent or more butterfat), and all milk not specifically accounted for as Class II milk.

(2) Class II milk shall be all milk, skim milk, and cream used to produce a milk product other than those specified in Class I milk and milk accounted for as actual plant shrinkage: *Provided*, That allowance for such plant shrinkage shall not exceed 3 percent of the total receipts of milk from producers.

(c) *Responsibility of handlers.* In establishing the classification of milk as required in (b) of this section, the burden rests upon the handler who receives milk from producers to account for the milk and to prove to the market administrator that such milk should not be classified as Class I milk.

(d) *Transfers of milk and cream.* (1) Milk, skim milk, and cream shall be classified as Class I milk when moved from the plant of a handler (i) to the plant of another handler who receives milk from producers: *Provided*, That if such milk, skim milk, or cream was utilized in Class II, it shall be classified accordingly subject to verification by the market administrator; (ii) to the plant of a handler who receives no milk from producers other than milk of his own production; and (iii) to the plant of a person, other than a handler, who distributes milk, skim milk, or cream in fluid form for consumption as such.

(2) Milk, skim milk, and cream received at the plant of a handler from sources other than producers or other handlers shall be Class II milk except for such milk in excess of the total Class II utilization of the receiving handler.

(3) Milk, skim milk, and cream, disposed of by a handler to the plant of a person, other than a handler, who does not distribute milk, skim milk, or cream for consumption in fluid form shall be classified as Class II milk.

(e) *Computation of the milk in each class.* For each delivery period, the market administrator shall compute in the case of each handler the amount of milk in each class as defined in (b) of this section as follows:

(1) Determine the total pounds of milk received as follows: add into one sum the total pounds of milk, skim milk, and cream received from (i) producers; (ii) the handler's own farm production; (iii) other handlers; and (iv) other sources.

(2) Determine the total pounds of butterfat received as follows: multiply by its average butterfat test the weight of the milk, skim milk, and cream received from (i) producers; (ii) the handler's own farm production; (iii) other handlers; and (iv) other sources. Add together the resulting amounts.

(3) Determine the total pounds of milk in Class I as follows: (i) convert to pounds the total quantity of milk, skim milk, and cream disposed of in each of the several products of Class I; (ii) add together the resulting amounts; and (iii) if the quantity of milk so computed when added to the pounds of Class II milk computed pursuant to (5) (iv) of this paragraph is less than the total pounds of milk received in accordance with (1) of this paragraph, an amount equal to the difference shall be added to the sum obtained in (ii) of this subparagraph.

(4) Determine the total pounds of butterfat in Class I as follows: (i) multiply the actual weight of each of the several products of Class I by its average butterfat test; (ii) add together the resulting amounts; and (iii) if the quantity of butterfat so computed, when added to the pounds of butterfat in Class II computed pursuant to (6) (iv) of this paragraph is less than the total pounds of butterfat received in accordance with (2) of this paragraph, an amount equal to the difference shall be added to the sum obtained in (ii) of this subparagraph.

(5) Determine the total pounds of milk in Class II as follows: (i) compute the total pounds of milk, skim milk, and cream which were used to produce each of the several products of Class II; (ii) add together the resulting amounts; (iii) subtract the total pounds of milk computed pursuant to (3) (ii) of this paragraph and the total pounds of milk computed pursuant to (ii) of this subparagraph from the total pounds of milk computed pursuant to (1) of this paragraph, which resulting quantity up to 3 percent of the total receipts of milk from producers, shall be allowed as plant shrinkage for the purposes of this paragraph; and (iv) add together the result obtained in (ii) of this subparagraph and the amount of plant shrinkage allowed pursuant to (iii) of this subparagraph.

(6) Determine the total pounds of butterfat in Class II as follows: (i) multiply the actual weight of each of the several products of Class II by its average butterfat test; (ii) add together the resulting amounts; (iii) subtract the total pounds of butterfat computed pursuant to (4) (ii) of this paragraph and the total pounds of butterfat computed pursuant to (ii) of this subparagraph from the total pounds of butterfat computed pursuant to (2) of this paragraph, which resulting quantity up to 3 percent of the total receipts of butterfat from producers shall be allowed as plant shrinkage for the purposes of this paragraph; and (iv) add together the result obtained in (ii) of this subparagraph and the amount of plant shrinkage allowed pursuant to (iii) of this subparagraph.

(7) Determine the classification of milk of producers as follows: (i) subtract from the pounds of milk in each class the pounds of milk, skim milk, and cream received from other handlers and allocated to each class in accordance with (d) of this section; (ii) subtract from the remaining pounds of milk in Class II the total pounds of milk, skim milk, and cream, except emergency milk, received from sources other than producers, own farm production, and other handlers: *Provided*, That if the quantity of milk, skim milk, and cream, so received, is greater than the remaining quantity of Class II milk of such handler, an amount equal to the difference shall be subtracted from the remaining pounds of Class I milk; (iii) subtract pro rata from the remaining pounds of milk in each class the total pounds of milk which were received from the handler's own farm production and emergency milk; (iv) if the remaining quantity of milk is greater than, or contains a greater quantity of butterfat than the handler reported having received from producers, an amount equal to the difference shall be subtracted pro rata from the remaining pounds of milk or butterfat in each class; and (v) the result shall be known as the "net pooled milk" in each class.

§ 970.4 *Minimum prices*—(a) *Class prices.* Each handler shall, subject to the provisions of (b) of this section, pay at the time and in the manner set forth in § 970.8 not less than the prices set forth in this section per hundredweight of milk received during each delivery period at such handler's plant or caused by such handler to be delivered to a plant from which no milk is disposed of in the marketing area.

(1) For Class I milk—the price shall be 50 cents per hundredweight more than the price resulting from the following computation by the market administrator: determine the average of the basic or field prices per hundredweight ascertained to have been paid for milk of 3.5 percent butterfat content received during the period beginning with the 16th day of the previous month and ending with the 15th day of the then current month at the plants listed in this subparagraph: *Provided*, That if the price so determined is less than the price computed by the market administrator in accordance with the following formula, such formula price shall be used in lieu of the above-stated price: (i) multiply by 6 the average wholesale price per pound of 92-score butter at Chicago for the delivery period as reported by the United States Department of Agriculture (or such other Federal agency as may be authorized to perform this price reporting function); (ii) add 2.4 times the average weekly prevailing price of the cheese known as "Twins" during said delivery period on the Wisconsin Cheese Exchange at Plymouth, Wisconsin (in the absence of such prices the prevailing price of "Twins" at Chicago as reported by the United States Department of Agriculture, or such other Federal agency as may be authorized to perform this price reporting function, shall be used); (iii) divide the resulting sum by 7; (iv) add 30 percent thereof; and (v) multiply the result by 3.5.

Dean Milk Company, Pearl City, Illinois
Dean Milk Company, Pecatonica, Illinois

(2) For Class II milk, the price shall be the result of the following computation by the market administrator: multiply by 3.5 the average wholesale price per pound of 92-score butter at Chicago as reported by the United States Department of Agriculture (or such other Federal agency as may be authorized to perform this price reporting function) during the delivery period in which such milk was received, add 20 percent thereof and add any plus amount resulting from the following calculation: Subtract 6 cents from the average price per pound of casein and multiply such result by 2.3. The price per pound of casein to be used shall be the average of the carlot prices for unground casein f. o. b. drying plants in the Chicago area as reported by the United States Department of Agriculture (or such other Federal agency as may be authorized to perform this price reporting function) during the delivery period in which such milk was received.

(b) *Butterfat differentials to handlers.* (1) If the average butterfat content of the milk of producers disposed of as Class I by any handler computed pursuant to § 970.3 (e) is more or less than 3.5 percent, such handler shall add to the Class I price per hundredweight computed pursuant to (a) (1) of this section for each one-tenth of 1 percent that the average butterfat content of such Class I milk is above 3.5 percent, or shall subtract from such Class I price for each one-tenth of 1 percent that the average butterfat content of such Class I milk is below 3.5 percent, an amount computed by the market administrator as follows: to the average wholesale price per pound of 92-score butter at Chicago as reported by the United States Department of Agriculture (or such other Federal agency as may be authorized to perform this price reporting function) for the delivery period during which such milk was received, add 20 percent, divide the result obtained by 10, and add 1.0 cent.

(2) If the average butterfat content of the milk of producers disposed of as Class II by any handler computed pursuant to § 970.3 (e) is more or less than 3.5 percent, such handler shall add to the Class II price per hundred weight computed pursuant to (a) (2) of this section for each one-tenth of 1 percent that the average butterfat content of such Class II milk is above 3.5 percent, or shall subtract from such Class II price for each one-tenth of 1 percent that the average butterfat content of such Class II milk is below 3.5 percent, an amount computed by the market administrator as follows: to the average wholesale price per pound of 92-score butter at Chicago as reported by the United States Department of Agriculture (or such other Federal agency as may be authorized to perform this price reporting function) for the delivery period during which such milk was received, add 20 percent, and divide the result obtained by 10.

(c) *Emergency price provision.* (1) Whenever the provisions hereof require the market administrator to use a specific price (or prices) for milk or any milk product for the purposes of determining class prices or for any other purpose, the market administrator shall add to the specified price the amount of any subsidy or other similar payment being made by any Federal agency in connection with the milk or product, associated with the price specified: *Provided*, That if for any reason, the price specified is not reported or published as indicated, the market administrator shall use the applicable maximum uniform price established by regulations of any Federal agency plus the amount of any subsidy or other similar payment: *Provided*, That if the specified price is not reported or published and there is no applicable maximum uniform price or if the specified price is not reported or published and the War Food Administrator determines that the market price is below the applicable maximum uniform price, the market administrator shall use a price determined by the War Food Administrator to be equivalent to or comparable with the prices specified.

(2) Whenever the War Food Administrator finds and announces that the Class I price computed for any delivery period pursuant to (a) of this section is not in the public interest, the Class I price for such delivery period shall be the same as the Class I price for the previous delivery period: *Provided*, That if the War Food Administrator for two consecutive delivery periods finds and announces that the Class I price computed pursuant to (a) of this section is not in the public interest, he shall, upon request of interested parties and pursuant to the applicable provisions of the act, issue notice of and opportunity for a hearing upon a proposed amendment to this section of the order.

§ 970.5 *Reports of handlers*—(a) *Periodic reports.* (1) On or before the 5th day after the end of each delivery period each handler, with respect to all milk or milk products which were, during such delivery period, (i) received from producers; (ii) received from other handlers; (iii) received from such handler's own farm production; (iv) received from any other sources; or (v) caused to be delivered to a plant from which no milk is disposed of in the marketing area, shall report to the market administrator, in the detail and on forms prescribed by him, as follows:

(a) The receipts at each plant from producers who are not handlers;

(b) The receipts at each plant from any other handler, including any handler who is also a producer;

(c) The receipts at each plant from such handler's own farm production;

(d) The receipts at each plant from any other source;

(e) The utilization of all milk and milk products disposed of;

(f) The quantity of milk and milk products on hand; and

(g) The respective butterfat content of each of the above.

(2) On or before the 5th day after the end of each delivery period, the receipts at each plant of emergency milk as follows: (i) the amount of such milk and the average butterfat content thereof; (ii) the date or dates upon which such milk was received during the delivery period; (iii) the plant from which such milk was shipped; (iv) the prices paid or to be paid for such milk; (v) the utilization of such milk; and (vi) such other information with respect thereto as the market administrator may request.

(b) *Reports as to producers.* Each handler shall report to the market administrator within 10 days after the market administrator's request with respect to any producer and with respect to a period of time designated by the market administrator: (i) the name and address; (ii) the total pounds of milk received; (iii) the average butterfat test of milk received; and (iv) the number of days upon which milk was received.

(c) *Reports of payments to producers.* On or before the 20th day after the end of each delivery period, each handler shall submit to the market administrator his producer pay roll for such delivery period, which shall show for each producer (i) the net amount of such producer's payments with the prices, deductions, and charges involved, and (ii) the total volume of milk received from such producer or caused by the handler to be delivered to a plant from which no milk is disposed of in the marketing area and the average butterfat test of such milk.

(d) *Reports of producer-handlers and handlers whose sole sources of supply are receipts from other handlers.* Producer-handlers and handlers whose sole sources of supply are receipts from other handlers shall report to the market administrator at such time and in such manner as the market administrator may request.

(e) *Verification of reports and payments.* The market administrator shall verify all reports and payments of each handler by audits of such handler's rec-

ords and the records of any other handler or person upon whose disposition of milk such handler claims classification. Each handler shall keep adequate records of receipts and utilization of milk and shall, during the usual hours of business, make available to the market administrator or his representative such records and facilities as will enable the market administrator to:

(1) Verify the receipts and disposition of all milk required to be reported pursuant to this section and, in the case of errors or omissions, ascertain the correct figures;

(2) Weigh, sample, and test for butterfat content the milk received from producers and any product of milk upon which classification depends; and

(3) Verify the payments to producers prescribed in § 970.6.

§ 970.6 *Application of provisions—*(a) *Handlers who receive no milk from producers.* Sections 970.4, 970.7, 970.8, 970.9, and 970.10 shall not apply to the handling of milk by handlers (1) whose sole sources of supply are receipts from other handlers or (2) who are producer-handlers pursuant to section 1 (g) as verified by the market administrator in the manner provided in (b) of this section.

(b) *Producer-handlers.* Handlers shall furnish to the market administrator for his verification, subject to review by the War Food Administrator, evidence of their qualifications as producer-handlers pursuant to § 970.1 (g), as of the effective date hereof, and they shall furnish evidence of subsequent changes made in the manner of producing or distributing their milk that affect their qualification as producer-handlers; such verification by the market administrator shall be made within 15 days of the date of receipt of the evidence and shall be effective retroactively to the effective date of the provisions hereof in cases verified within 45 days of such effective date and shall be effective retroactively to the first day of the delivery period during which verification is made in subsequent cases.

(c) *Emergency milk.* During any delivery period when the market administrator determines that the supply of milk available to any handler from producers and handlers is not sufficient to fulfill the Class I requirements of such handler, such handler, after giving notice to the market administrator of his intention to purchase milk from other than such sources, may secure milk from emergency sources on terms and conditions other than those provided in § 970.4 hereof. Emergency milk shall be reported to the market administrator by the receiving handler separately from milk received from producers and handlers in accordance with § 970.5 (a) (2). The person from whom the handler received such milk shall not be considered a handler with respect to milk disposed of in the marketing area under the circumstances described in this paragraph.

(d) *Milk received from other sources.* If a handler has disposed of milk, skim milk, or cream, except emergency milk, which was received from sources other than producers, his own farm production, or other handlers, as Class I milk within the marketing area, the market administrator, in determining the net pool obligation of the handler pursuant to § 970.7 (a), shall add an amount equal to the difference between the value of such milk at the Class I price and the value of such milk at the Class II price. This provision shall not apply if the handler can prove to the market administrator that such milk, skim milk, or cream was used only to the extent that milk of producers was not available.

(e) *Payment for excess milk or butterfat.* If a handler, after subtracting receipts from his own farm production, receipts from other handlers, and receipts from sources determined as other than producers or other handlers, has disposed of milk or butterfat in excess of the milk or butterfat which, on the basis of his reports, has been credited to his producers as having been delivered by them, the market administrator in computing the net pool obligation of such handler pursuant to § 970.7 (a) shall add an amount equal to the value of such milk or butterfat in accordance with its utilization by the handler as determined pursuant to § 970.3 (e) (7) (iv).

§ 970.7 *Determination of uniform price to producers—*(a) *Net pool obligation of handlers.* The net pool obligation of each handler for milk received from producers during each delivery period shall be a sum of money computed for such delivery period by the market administrator as follows: multiply the pounds of net pooled milk in each class computed pursuant to § 970.3 (e) by the class prices computed pursuant to § 970.4 (a) subject to the butterfat differentials set forth in § 970.4 (b), add together the resulting amounts, and add the value of any payments required to be made pursuant to paragraphs (d) and (e) of § 970.6.

(b) *Computation of the uniform price.* For each delivery period the market administrator shall compute the uniform price per hundredweight of milk as follows:

(1) Combine into one total the net pool obligations of all handlers computed pursuant to (a) of this section who made the reports prescribed by § 970.5 and who made the payments prescribed by § 970.8 for the previous delivery period;

(2) Add an amount equal to not less than one-half the cash balance in the producer-settlement fund;

(3) Subtract, if the average butterfat content of the net pooled milk of all handlers whose reports are included in this computation is greater than 3.5 percent, or add, if such average butterfat content is less than 3.5 percent, an amount computed as follows: multiply the amount by which the average butterfat content of such milk varies from 3.5 percent by the butterfat differential computed pursuant to § 970.8 (c), and multiply the result by the total hundredweight of net pooled milk of all handlers whose reports are included in this computation;

(4) Divide the resulting sum by the total quantity of net pooled milk of all handlers whose reports are included in this computation; and

(5) Subtract not less than 4 cents nor more than 5 cents per hundredweight of milk for the purpose of retaining in the producer-settlement fund a cash balance to provide against errors in reports and payments or delinquencies in payment by handlers. The result shall be known as the "uniform price" per hundredweight for milk of producers containing 3.5 percent butterfat.

(c) *Announcement of prices.* On or before the 9th day after the end of each delivery period, the market administrator shall notify all handlers and make public announcement of the computation, pursuant to (b) of this section, of the uniform price per hundredweight of milk, of the Class I and Class II prices computed pursuant to § 970.4 (a), of the butterfat differentials to handlers computed pursuant to § 970.4 (b) and of the butterfat differential to producers computed pursuant to § 970.8 (c).

(d) *Notification of handlers.* On or before the 9th day after the end of each delivery period, the market administrator shall notify each handler of the amount of his net pool obligation and of the amount by which such handler's net pool obligation is greater or less than the sum required to be paid producers by such handler pursuant to § 970.8 (a).

§ 970.8 *Payments for milk—*(a) *Time and method of payment.* Each handler shall make payment, subject to the butterfat differential set forth in (c) of this section, after deducting the amount of the payments made pursuant to (b) of this section for milk purchased or received from producers by such handler during each delivery period as follows:

(1) To each producer, except as set forth in (2) of this paragraph, on or before the 15th day after the end of the delivery period during which such milk was purchased or received, at not less than the uniform price per hundredweight computed pursuant to § 970.7 (b).

(2) To a cooperative association for milk which it causes to be delivered to a handler from producers and for which such cooperative association collects payments, on or before the 12th day after the end of the delivery period during which such milk was purchased or received, of a total amount equal to not less than the sum of the individual payments otherwise payable to such producers under (1) of this paragraph.

(b) *Half delivery period payments.* (1) On or before the last day of each delivery period, each handler shall, except as set forth in (2) of this paragraph, make payment to each producer for the approximate value of the milk of such producer which, during the first 15 days of the delivery period, was received by such handler.

(2) At least 3 days before the end of each delivery period, each handler shall make payment to a cooperative association for milk which it causes to be delivered to a handler from producers and for which such cooperative association collects payments for the approximate value of the milk which such cooperative association caused to be delivered to such handler during the first 15 days of the delivery period.

(c) *Butterfat differential to producers.* If, during the delivery period, any handler has purchased or received from any producer milk having an average butterfat content other than 3.5 percent, such handler, in making the payments prescribed in (a) (1) and (2) of this section, shall add to the uniform price per hundredweight paid to such producer for each one-tenth of 1 percent of average butterfat content in milk above 3.5 percent not less than, or shall deduct from the uniform price per hundredweight paid to such producer for each one-tenth of 1 percent of average butterfat content in milk below 3.5 percent not more than, an amount computed by the market administrator as follows: to the average wholesale price per pound of 92-score butter at Chicago as reported by the United States Department of Agriculture (or such other Federal agency as may be authorized to perform this price reporting function) add 20 percent, and divide the resulting sum by 10.

(d) *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to (e) and (g) of this section and out of which he shall make all payments to handlers pursuant to (f) and (g) of this section: *Provided,* That the market administrator shall offset any such payment due to any handler against payments due from such handler.

(e) *Payments to the producer-settlement fund.* On or before the 12th day after the end of each delivery period, each handler shall pay to the market administrator for payment to producers through the producer-settlement fund the amount by which the net pool obligation of such handler is greater than the sum required to be paid producers by such handler pursuant to (a) of this section.

(f) *Payments out of the producer-settlement fund.* (1) On or before the 15th day after the end of each delivery period, the market administrator shall pay to each handler for payment to producers the amount by which the sum required to be paid producers by such handler pursuant to (a) of this section is greater than the net pool obligation of such handler.

(2) If the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available. No handler who, on the 15th day after the end of each delivery period, has not received the balance of such reduced payment from the market administrator shall be deemed to be in violation of (a) of this section if he reduces his payments to producers by not more than the amount of the reduction in payment from the producer-settlement fund.

(g) *Adjustments of errors in payments.* Whenever verification by the market administrator of reports or payments of any handler discloses errors in payments to the producer-settlement fund made pursuant to (e) of this section, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 5 days of such billing make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler pursuant to (f) of this section, the market administrator shall, within 5 days, make such payment to such handlers. Whenever verification by the market administrator of the payment by a handler to any producer discloses payment to such producer of an amount which is less than is required by this section, the handler shall make up such payment to the producer not later than the time of making payment to producers next following such disclosure.

§ 970.9 *Marketing service—*(a) *Deductions for marketing services.* Except as set forth in paragraph (b) of this section, each handler shall deduct an amount not exceeding 5 cents per hundredweight (the exact amount to be determined by the market administrator, subject to review by the War Food Administrator) from the payments made to producers pursuant to § 970.8 with respect to all milk received by such handler during each delivery period from producers, and shall pay such deductions to the market administrator on or before the 15th day after the end of such delivery period. Such moneys shall be used by the market administrator to verify weights, samples, and tests of milk received by handlers from producers during the delivery period and to provide such producers with market information, such services to be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) *Producers' cooperative association.* In the case of producers for whom a cooperative association, which the War Food Administrator determines to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," is actually performing, as determined by the War Food Administrator, the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions from the payments to be made to such producers as may be authorized by such producers and, on or before the 15th day after the end of each delivery period, pay over such deductions to the cooperative association rendering such services of which such producers are members.

§ 970.10 *Expense of administration—*(a) *Payments by handlers.* As his pro rata share of the expense of the administration hereof, each handler, on or before the 15th day after the end of each delivery period, shall pay to the market administrator a sum not exceeding 5 cents per hundredweight with respect to all milk received during such delivery period from producers or from a producers' cooperative association or produced by such handler, the exact sum to be determined by the market administrator subject to review by the War Food Administrator: *Provided,* That such handler which is a cooperative association shall pay such pro rata share of expense of administration on only that milk of producers received by such association or caused to be delivered by such association to a plant from which no milk is disposed of in the marketing area.

(b) *Suits by market administrator.* The market administrator may maintain a suit in his own name against any handler for the collection of such handler's pro rata share of expense set forth in this section.

§ 970.11 *Effective time, suspension, or termination—*(a) *Effective time.* The provisions hereof, or any amendment hereto, shall become effective at such time as the War Food Administrator may declare and shall continue in force until suspended or terminated, pursuant to paragraph (b) of this section.

(b) *Suspension or termination.* The War Food Administrator may suspend or terminate this order or any provision hereof, whenever he finds that this order or any provision hereof, obstructs, or does not tend to effectuate the declared policy of the act. This order shall terminate, in any event, whenever the provisions of the act authorizing it cease to be in effect.

(c) *Continuing power and duty of the market administrator.* If, upon the suspension or termination of any or all provisions hereof, there are any obligations arising hereunder the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided,* that any such acts required to be performed by the market administrator shall, if the War Food Administrator so directs, be performed by such other person, persons, or agency as the War Food Administrator may designate.

(1) The market administrator, or such other person as the War Food Administrator may designate, shall (a) continue in such capacity until discharged by the War Food Administrator, (b) from time to time account for all receipts and disbursements, and, when so directed by the War Food Administrator, deliver all funds or property on hand, together with the books and records of the market administrator, or such person, to such person, as the War Food Administrator may direct, and (c) if so directed by the War Food Administrator, execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant hereto.

(d) *Liquidation after suspension or termination.* Upon the suspension or

termination of any or all provisions hereof, the market administrator, or such person as the War Food Administrator may designate shall, if so directed by the War Food Administrator, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions hereof, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 970.12 *Agents.* The War Food Administrator may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions hereof.

Issued at Washington, D. C., this 20th day of September 1944, to be effective on and after the 1st day of October 1944.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Administration

[Docket No. FDC-41]

PART 120—TOLERANCES FOR POISONS IN FOOD

TOLERANCES FOR FLUORINE SPRAY RESIDUE ON APPLES AND PEARS

By virtue of the authority vested in the Federal Security Administrator by provisions of the Federal Food, Drug, and Cosmetic Act (secs. 406, 701; 52 Stat. 1046, 1055; 21 U.S.C. 346, 371, 1940 ed.); the Reorganization Act of 1939 (53 Stat. 51 ff.; 5 U.S.C. 133–133v (Supp. V. 1939); and Reorganization Plans No. I (53 Stat. 1423) and No. IV (54 Stat. 1234); and upon the basis of evidence of record at the hearing duly held pursuant to the notice issued on May 1, 1944 (9 F.R. 4654), and after consideration of exceptions filed to the proposed order issued by the Acting Federal Security Administrator on August 10, 1944 (9 F.R. 9754), the following order is hereby promulgated:

Findings of fact. 1. Fluorine is a gaseous chemical element. It and many of its compounds, among which are cryolite and other insecticides, are poisonous and deleterious substances. The fluorine in such compounds, even in small quantities, interferes with fundamental processes of living cells. Individuals vary in their susceptibility to its toxic effects.

2. When fluorine compounds are taken into the body in small amounts, most, if not all, of the fluorine is excreted, but when intake exceeds excretion storage of fluorine in the body results. When storage of fluorine occurs, injury to health may be anticipated. Fluorine is stored primarily in the bones and teeth, and its deleterious effects are most easily detected in those tissues. These effects are mottling of the enamel of the teeth, and abnormalities, including osteosclerosis, of the bones of the pelvis and the lumbar region of the spine, and of the tendenous insertions of bones.

3. During their production apples and pears are subject to a number of insect pests, and different kinds of sprays are used to control different kinds of insects. Unless the insects are controlled by sprays the fruit becomes wormy and unmarketable. The codling moth causes the greatest difficulty and requires the most spraying for effective control.

4. For control of the codling moth, sprays made from lead arsenate or from cryolite are the only ones that are effective and practical. To these mineral oil is commonly added and acts in part as a codling moth ovicide. In the Northwest, where a large proportion of the apple and pear crops are produced, lead arsenate and cryolite are equally effective, whether used alone or in split schedules using lead arsenate for some sprays and cryolite for others. The methods and equipment used are the same for both types of spray. There are certain disadvantages in the use of lead arsenate spray which do not accompany the use of cryolite spray.

5. The effectiveness of spray programs depends on the completeness of coverage of the fruit with the insecticide and the amount thereof which adheres to the fruit. Complete and sufficient coverage is obtained by repeating the sprays, and by adding oil and other materials to the spray. The number of sprays required depends on the season, geographic location, local situations, the time of ripening of the fruit, and the care used in applying the spray. A spray schedule effective for apples is also effective for pears. Ordinarily from 1 to 6 sprays are required for pears and 4 to 9 sprays are required for apples. Occasionally more than 9 sprays are required for apples.

6. The amount of fluorine in spray residue remaining on apples and pears at time of harvest increases with the number of fluorine sprays used, the decreasing length of time elapsing between the last of such sprays and harvest, and the use of substances which cause greater adherence of the spray to the fruit. The proportion of fluorine remaining on apples ranges from a few milligrams per kilogram to over 50 milligrams per kilogram. (One milligram per kilogram is approximately equivalent to .007 grain per pound.) It is possible, therefore, for one fruit to bear more than 7 milligrams of fluorine.

7. The spray residue remains on the surface of the fruit and most of it can be removed by washing processes in common use in the industry. One process uses only one washing and rinsing operation. In such process dilute hydrochloric acid is used as the washing solution. This process is efficient in removing spray residues from apples and pears grown under light spray schedules. In another process two washing and rinsing operations are used. In this process the fruit is first washed in a sodium silicate or soda ash solution and then in a dilute hydrochloric acid solution. This process is efficient in removing spray residues from such fruits grown under a heavy spray schedule or when oils and stickers are added to the spray material, or when the spraying is continued late into the growing season. In both washing processes the spray residue is removed more effectively when the washing solutions are heated. The heating of the solutions tends to cause injury to the fruit which increases as the heat is increased. When the solutions are not heated to over 100° Fahrenheit, the amount of injury to the fruit is not material. The washing processes for apples are at least equally effective for pears. Efficient washing usually removes spray residue to such extent that the fluorine remaining on apples and pears is about 5 milligrams or less per kilogram without risk of excessive injury to the fruit. It can be reduced in practically all lots to 7 milligrams per kilogram without such risk.

8. Mottling from fluorine results only when intake of toxic amounts occurs during the process of growth and calcification of the teeth. In man the teeth are in the process of calcification during the first 12 years. Mottling differs greatly in degree. Very mild degrees disclose chalky white spots without translucency. As the degree of severity increases the spots are more noticeable, become stained with a brownish color, and the enamel becomes brittle and pitted. When the ficurine intake is very low teeth are produced that are less resistant to caries than teeth produced on a somewhat higher fluorine intake. However, the margin between optimum and toxic amounts is very narrow. The toxic effect of fluorine increases as the intake is increased regardless of whether it is ingested in food or water or both. At the lower levels of fluorine intake that produce toxic effects there are no material differences in the absorption, toxicity, and storage of the fluorine of the various fluorine compounds, including cryolite. At materially higher levels the absorption and storage decrease with the decreasing solubility of such compounds.

9. Fluorine compounds may enter the body by ingestion in water and food and by industrial exposure. The water supplies of several million persons in the United States contain 1 part per million or more of fluorine. The areas having such water supplies are distributed widely over the country. About a half million persons live in areas where the fluorine content of the water is 5 parts per million or more. Fluorine is a natural component of many common foods, and in the process of cooking food in fluorine-bearing water some of the fluorine in the water is transferred to the food. However, the amount of fluorine added to the diet by cooking is not significant unless the fluorine content of the water is very high. Industrial exposure is to mists, dusts, and fumes containing fluorine. A substantial number of persons are subjected to such exposure. The exposure of some of these persons is such that they are storing fluorine. The record does not show in what proportion of those exposed storage is occurring.

10. When children ingest a sufficient amount of fluorine during the critical age period mottling results. The amount of drinking water ordinarily consumed by children during this period ranges from 390 cubic centimeters to 1,600 cubic centimeters per day. Such mottling occurs when the drinking water contains 1 part per million of fluorine or more. The ordinary adult daily diet, when the fluorine content of the water used in cooking is 0.3 part per million or less, contains approximately 0.5 milligram and not more than 1 milligram of fluorine. It is probable, therefore, that mottling of the enamel of the teeth results from a daily ingestion of somewhat less than 2 milligrams of fluorine.

11. The amount of apples and pears eaten as fresh fruit varies with the individual consumer and season of the year. Many persons consume few or no apples or pears and some consume many. Apples vary in size, but ordinarily weigh from 1/7 to 1/10 of a kilogram each. The record does not disclose the proportions of apples and pears that are peeled before consumption.

12. Whether the toxicity of fluorine to man is affected by or affects the toxicity of other substances is not known. Fluorine is rendered more toxic to rats by desiccated thyroid and the thyrotropic hormone of the anterior pituitary gland, and its toxicity is additive to that of cadmium. There is some industrial and consumer exposure to cadmium.

Conclusions. 1. Fluorine and many of its compounds, including those used as insecticides for apples and pears, are poisonous and deleterious substances.

2. The addition of fluorine-containing sprays to apples and pears is required in the production of a large proportion of such fruits and residues thereof are unavoidable.

3. With efficient spraying and the efficient use of the washing processes so far developed it is not practicable to reduce the fluorine remaining as such residue on apples and pears below 7 milligrams per kilogram of fruit.

4. A considerable portion of the population is exposed to quantities of fluorine compounds that are toxic or near-toxic and any added amount of fluorine increases the hazard or degree of injury to which they are subjected. It is necessary for the protection of public health that the fluorine remaining as insecticidal residue on apples and pears shall be as low as is practicable.

§ 120.1 *Fluorine; Limit for the quantity remaining as insecticidal residue on apples and pears.* The quantity of fluorine remaining as insecticidal residue on apples and pears is hereby limited to not more than 7 milligrams of fluorine, calculated as F, per kilogram of each such fruit.

TITLE 29—LABOR

Chapter VIII—Commissioner of Internal Revenue

[T. D. 5406]

PART 1002—STABILIZATION OF SALARIES

MISCELLANEOUS AMENDMENTS

Treasury Decision 5295 (29 C.F.R., Part 1002), relating to the stabilization of salaries under the Act of October 2, 1942, is amended as follows:

PARAGRAPH 1. Section 1002.9 is amended by striking out the second sentence of the first paragraph and inserting in lieu thereof the following: "If an approval or determination made by such regional officer is subsequently modified or reversed by the Commissioner, such approval or determination shall be deemed to have been continuously in effect from its original date until the first day of the payroll period following reversal or modification, or until such other date as the Commissioner may provide in his ruling."

PAR. 2. Section 1002.10 is amended by inserting immediately before the next to the last sentence the following: "Jurisdiction, in the case of individuals who are compensated solely on a percentage basis, depends upon the amount of total compensation received by the employee for the employer's last accounting year

ended prior to the proposed adjustment. If the total compensation of the employee for the employer's next preceding accounting year is in excess of $5,000, any change in the rate of percentage in subject to the jurisdiction of the Commissioner."

PAR. 3. Section 1002.13 is amended by striking out the last sentence of the ninth paragraph and inserting in lieu thereof the following:

Employers who, prior to October 3, 1942, had an established plan of granting vacations with pay, may continue to grant vacations with pay in accordance with such established plan without obtaining prior approval. Pay in lieu of vacation does not require the prior approval of the Commissioner if computed in accordance with a vacation plan established prior to October 3, 1942, or in accordance with a plan approved thereafter by the Commissioner. Vacation pay and pay in lieu of vacation computed on the basis of the current work week may be paid without prior approval.

The adoption of a vacation plan or a change in an established vacation plan which increases the amount of vacation pay requires approval.

PAR. 4. Section 1002.14 is amended by striking out the second paragraph and inserting in lieu thereof the following two paragraphs:

Where an employer had, prior to October 3, 1942 customarily paid a salary or salaries on a fixed percentage basis, or had entered into a contractural agreement prior to that date to pay a salary or salaries on a fixed percentage basis, such employer may continue to pay, without the approval of the Commissioner of Internal Revenue, such salary or salaries determined in accordance with such custom or agreement, provided no change has been made in the percentage or method of determining the amount payable.

Employers who have customarily paid bonuses or other additional compensation may continue to pay such bonuses or other additional compensation without prior approval, subject to the following limitations:

(1) If an employee's base salary has not been increased since October 3, 1942 (in the case of salaries in excess of $5,000 per annum), or October 27, 1942 (in the case of salaries of $5,000 or less per annum), as the case may be, the employer may pay the employee a bonus in an amount which does not exceed the higher of the following:

(i) The dollar amount of the bonus paid on any basis other than a fixed percentage basis for the employer's last accounting year ended prior to October 3, 1942. (See subparagraph (5)), or

(ii) The dollar amount of bonus paid on any basis other than a fixed percentage basis authorized under the Salary Stabilization Regulations for the employer's first accounting year ending after October 3, 1942, provided the bonus does not exceed 50 per cent of the employee's base salary. Approval is necessary if the bonus exceeds 50 per cent of the employee's salary. (See subparagraph (5)).

(2) If an employee's base salary has been increased since October 3, or 27, 1942, as the case may be, the employer may pay the employee a bonus not to exceed the same fixed dollar amount of bonus paid him for the employer's first accounting year ending after October 3, 1942, provided the bonus does not exceed 20 per cent of his present salary. (See subparagraph (5)).

(3) If an employer, prior to October 3, 1942, has regularly paid an employee a bonus based upon a fixed percentage of salary (exclusive of bonuses and additional compensation) and the percentage has not been changed, the employer may pay the employee a bonus determined by such percentage of salary, even though the amount of bonus may be increased due to an increase in salary (exclusive of bonuses and additional compensation) authorized under these regulations.

(4) If the employer had, prior to October 3, 1942, customarily paid bonuses on a fixed percentage basis or had entered into a contractual agreement prior to that date to pay bonuses on a fixed percentage basis, the employer may pay a bonus determined in accordance with such custom or agreement, provided no change has been made in either the percentage or method of determining the bonus fund, and no change has been made in the percentage or method of determining the amount payable to each employee. The payment of bonuses out of a fund based on a fixed percentage of profits, sales or the like (whether or not the percentage has been changed since October 3, 1942), where the amount to be distributed to the individual employee is at the discretion of the employer, or his representative, is governed by the provisions of subparagraphs (1) and (2) above.

(5) If an employee's bonus is determined on a fixed percentage basis authorized under the regulations, the payment of any amount in excess of the bonus determined under the fixed percentage plan may not be made without prior approval, notwithstanding the provisions of subparagraph (1) and (2) above.

PAR. 5. Section 1002.14 is amended by striking out the first example in the fifth paragraph and inserting in lieu thereof the following:

The X Corporation began business in 1940. As of July 1, 1942, pursuant to a corporate resolution duly passed in January 1942, all of its salaried employees received more than $5,000 per annum. No approval of the Commissioner is required to increase the salary of the employee who is promoted in November 1942 from a salesman to a general manager and who receives a salary which is not in excess of the minimum of the salary rate range previously established for the position of general manager or in excess of 15 percent above the employee's salary at the time of promotion, whichever is greater. In no case may the salary be paid in excess of the maximum of the salary rate range without approval.

[SEAL] HAROLD N. GRAVES,
Acting Commissioner of Internal Revenue.

Approved: September 26, 1944.

JOHN L. SULLIVAN,
Acting Secretary of the Treasury.

PART 1226—GENERAL INDUSTRIAL EQUIPMENT

[Conservation Order M-28, as Amended Sept. 27, 1944]

DICHLORODIFLUOROMETHANE

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of dichlorodifluoromethane for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 1226.27 *Conservation Order M-28.*—(a) *Definitions.* For the purpose of this order:

(1) "F-12 gas" means dichlorodifluoromethane (sometimes called "freon-12").

(2) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency or any organized group of persons whether incorporated or not.

(3) "Producer" means any person engaged in the production of F-12 gas.

(4) "Supplier" means any person to the extent that he is engaged in the business of distributing F-12 gas to persons using the same for installation in refrigerating or air conditioning systems. The term shall include an equipment manufacturer to the extent that he engages in the sale of F-12 gas which has not been installed in such systems. "System" means any "system" as defined in General Limitation Order L-38.

(5) "Equipment manufacturer" means any person to the extent that he uses F-12 gas for charging new refrigerating or air conditioning systems or parts of systems manufactured by him. It does not include affiliates, subsidiaries, branches, divisions or sections or an enterprise, if not actually engaged in the manufacture of systems or refrigerant containing parts of systems.

(6) "Insecticide manufacturer" means any person to the extent that he uses F-12 gas in the production of insecticide.

(7) "User" means any person who installs F-12 gas in a refrigerating or air-conditioning system, other than an equipment manufacturer. It includes suppliers, service agencies, owners or lessees, to the extent that they engage in installing F-12 gas in any system.

(8) "Contract agent" means any person to whom or for whose account F-12 gas is delivered by a producer for distribution to suppliers.

(If the same person, or two or more branches, divisions or sections of the same enterprise, acts in two or more capacities as contract agent, supplier, equipment manufacturer, or insecticide manufacturer, the particular provisions of this order which apply to the respective activities must be followed, to the extent to which the various provisions are applicable to each activity.)

(b) *Systems for which no deliveries are permitted.* (1) No person (including users, dealers, and other suppliers, and producers) shall deliver, or accept delivery of, any F-12 gas for use in, or for resale for use in any new or used system which is of a type referred to in List A. Exceptions from this restriction may be authorized in the following cases (although this does not preclude appeals under paragraph (f) (4) in other cases):

(i) When the major portion of the space to be air conditioned is used as a radio broadcasting studio, auditorium, hotel, restaurant, cafeteria, school, office or office building, or department store, and one of the following conditions exists: The building is "windowless" or one in which the windows cannot be opened for ventilation (such as glass brick, or glass set in a fixed frame which was built into the surrounding wall in an immovable way); or the rooms needing air conditioning are interior ones having no other means of adequate ventilation and are either served by a separate system or constitute a major portion of the space regularly occupied by persons and are served by one central system; or

(ii) When the system is used to air condition a room or rooms in a single family residence or a single apartment and its continued operation is essential to protect the life or restore the health of a person suffering from a serious ailment or disease and under care of a licensed physician, and a statement to that effect by such physician is also furnished with the application referred to below.

Application for WPB permission to get F-12 gas for such a use should be made by the owner or operator of the system by letter in duplicate (or in an emergency, by wire confirmed immediately by letter) to War Production Board, General Industrial Equipment Division, Washington 25, D. C., Ref. M-28 giving the address and a description of the building(s) in which the system is located and stating the extent to which the system comes within either of the cases described above, the quantity of F-12 gas needed, and the name and address of the probable supplier. The authorization, if granted, will be sent to the applicant, who should show it to his supplier when requesting delivery, in addition to furnishing the certification required under paragraph (c) (2) below.

(2) No person (including users, dealers, and other suppliers, and producers), shall deliver, or accept delivery of, any F-12 gas for use in, or for resale for use in any new or used system of any type (not in List A) unless the system must be operated under one or more of the following conditions:

(i) Where an air-cooled condenser is used and the ambient temperature is 110° F or higher; or

(ii) Where the saturated refrigerant temperature corresponding to the suction pressure is less than minus 10° F; or

(iii) Where aluminum or magnesium alloys or rubber (except synthetic rubber) have been used in construction of the system and come in contact with the refrigerant, and are not easily replaceable; or

(iv) Where the system is for use aboard ship, or outside of the continental United States by the Army, Navy, Maritime Commission or War Shipping Administration; or

(v) Where the total operating charge required to operate the system is ten (10) pounds or less of F–12 gas and the system was in operation on November 12, 1943, and is used for food preservation or for storage of penicillin, blood serum, blood for plasma, blood plasma, biologicals and bacteriologicals; or

(vi) Where the use of no Group 2 or Group 3 refrigerants, as defined in the American Standard Safety Code for Mechanical Refrigeration, ASRE Circular No. 15, ASA–B9–1939, as approved by the American Standards Association April 20, 1939, is permitted by that Code; or

(vii) Where the system is used in a sealed railroad car or sealed bus.

(The above restrictions apply not only to systems used for ordinary civilian purposes, but also to those owned, operated, or used within the continental United States by the Army, Navy, Maritime Commission or War Shipping Administration, including post exchanges and ships service stores, other than those used aboard ships.)

(3) Attention is called to paragraph (c) (2), which prohibits a supplier from delivering F–12 gas except on certified orders.

(c) *Deliveries by suppliers.* (1) No supplier or any other person (except a producer) shall deliver any F–12 gas for export outside of the continental United States, or for use by any of the following non-retail users (or to any ship yard or other person for use in a system to be delivered to any of them), namely: The Army, Navy, Maritime Commission, War Shipping Administration, post exchanges, ships service departments and activities, equipment and insecticide manufacturers, for new or used systems, or for use in insecticide, without specific authorization from the War Production Board. Subject to the foregoing restriction, any supplier or any other person (except a producer) may deliver F–12 gas to any other person, for use in any new or used system not referred to on List A of this order, if it must be operated under one or more of the conditions stated in (b) (2) (i) to (b) (2) (vii) both inclusive.

No person shall accept from a supplier or other person any delivery of F–12 gas which is prohibited by the restriction in this order.

(2) Whenever the owner of a system or any other user wishes to obtain F–12 gas for installation in a system or systems for which deliveries by suppliers are permitted under this order, he may place his order with any supplier for the minimum quantity, which the available cylinder or cylinders permit, necessary to bring the charge in the system or systems up to a normal operating charge. He must certify his order, or the vendor's delivery receipt, by a certificate endorsed on or attached to it, showing that the F–12 gas is to be used for such purposes only, and that he is not holding any empty cylinders not owned by him, which shall be in substantially the following form:

> The undersigned purchaser certifies to the seller and the War Production Board that he does not have any F–12 gas cylinders not owned by him, which have been empty for more than 15 days; and that the F–12 gas covered by this order will not be used or resold for any purposes not permitted by Order M–28.

The standard certification in the form described in Priorities Regulation 7 cannot be used instead of that described above. Such certificate, which must be signed by the purchaser or his authorized official, will constitute a representation that what is stated in it is true. A supplier must not deliver any F–12 gas except under certified orders; and he must not make delivery under any order which is certified if he knows, or has any reason to believe that the certificate furnished with such order is untrue, incomplete, or inaccurate. In such a case the supplier must reject the order, and should explain why he is doing so, so that the prospective purchaser can comply with this order. Each supplier must keep all accepted orders and certificates which he receives, for a period of two years, for inspection by the War Production Board. (Certificates in the form required by this order before its amendment on November 12, 1943, may continue to be used for 30 days after that date, in place of the above form.)

This restriction shall not prevent a person who services several systems for which deliveries are permitted by this order from purchasing a cylinder of F–12 gas from a supplier, if the amount purchased is the smallest quantity practicable considering the sizes of the standard commercial cylinders and the amount needed in his current operations.

(3) No "standby charge" or any other quantity of F–12 gas, over and above that needed to bring the total charge in a system or systems up to the normal operating charge, shall be delivered to or accepted by any person for use in a system which he owns, leases, or operates (except the Army, Navy, Maritime Commission or War Shipping Administration): except, however, that a "standby charge" may be maintained for a system which is operated primarily for one of the following purposes: air conditioning or refrigeration for the production and storage of penicillin, or blood serum; or refrigeration for the storage of blood for plasma, or the production or storage of blood plasma.

(d) *Deliveries by producers.* Each producer shall hold his entire inventory of F–12 gas, together with all additional quantities produced or otherwise obtained by him from time to time, for delivery under such orders and for such uses as may be authorized or directed from time to time by the War Production Board. No deliveries of F–12 gas shall be made by a producer except pursuant to specific authorizations or directions heretofore or hereafter issued by the War Production Board.

(e) The provisions of this order shall be followed by every producer, contract agent, supplier, user, equipment manufacturer, insecticide manufacturer, and any other person buying, selling or delivering F–12 gas, without any regard to any preference ratings which have been assigned or which may hereafter be assigned to particular contracts or orders.

(f) *Miscellaneous provisions.*—(1) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as issued and amended from time to time.

(2) *Reports.*[1] (i) Each equipment manufacturer who wishes to secure delivery of F–12 gas during any month for charging systems or parts produced by him, or for factory repair and charging of sealed or hermetic condensing units, shall file with the War Production Board, on or before the 15th day of the preceding month a report on Form WPB–3326, prepared in accordance with the instructions for such form.

(ii) Any person wishing to secure F–12 gas during any month for ultimate uses (such as testing coaxial cable for leaks) other than the charging of new or used refrigeration or air conditioning systems or parts or use in insecticide, shall file with the War Production Board, on or before the 20th day of the preceding month, a report by letter, in triplicate, showing the minimum amount required for the month, the purpose for which required, and the amount used during the preceding calendar month for that purpose.

(3) *Violations.* Any person who willfully violates any provisions of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, materials under priority control, and may be deprived of priorities assistance.

(4) *Appeals.* Any appeal from the provisions of this order, or any direction thereunder, shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(5) *Communications.* All reports to be filed and other communications concerning this order should be addressed to: War Production Board, General Industrial Equipment Division, Washington 25, D. C., Ref. M–28.

Issued this 27th day of September 1944.

INTERPRETATION 1

[Interpretation 1 revoked November 12, 1943]

INTERPRETATION 2

(a) *Quantities which may be obtained by system owner.* Subparagraphs (c) (2) permits the owner (or lessee) of a refrigerating or air conditioning system (not on List A) who does his own installation of F–12 gas, to place his order for the minimum quantity "which the available cylinder or cylinders permit", necessary to bring the charge in his system up to a normal operating charge.

The standard commercial cylinders are generally available in sizes which contain four pounds, ten pounds, twenty-five pounds, and one hundred forty-five pounds of the gas, and a particular supplier may not have all four sizes in stock at all times. Questions will therefore arise as to the number and sizes of cylinders which the owner of a system is permitted to obtain, if the particular supplier with whom his purchase order is first placed should not happen to have the sizes of cylinder from which the minimum quantity needed by the system can be furnished the owner.

In such a case, the owner of the system should make a reasonable effort to obtain the minimum quantity which he needs, from some other supplier in his locality, rather than purchase an excessive quantity from the first supplier upon whom he calls. While the order does not prescribe rigid rules as to exactly what effort the purchaser should make in every case, it is required that he do whatever is practicable, under his particular conditions, to obtain the minimum quantity which he needs, and no more.

Where he is located in a large community in which there are a number of suppliers, he should contact several, if necessary in order to obtain the quantity needed. If he happens to be located in a small community where there is only one supplier who cannot furnish the exact quantity needed and the F–12 gas must be obtained immediately in order to avoid spoilage of a substantial quantity of food, the restriction would not prevent him from obtaining a larger amount, if that is unavoidable without letting his food spoil.

As a guide to the number and size of cylinders which should normally be obtained, for the different quantities of F–12 gas which may be needed in different cases, the following table is furnished:

Pounds of F–12 gas required	Amounts which should be ordered			
	Number of cylinders			
	4 pounds	10 pounds	25 pounds	145 pounds
0–4	1			
5–9		1		
10–14	1	1		
15–24		2 or	1	
25–29	1		1	
30–39	1	1	1	
40–49	1	2	1	
50–59		1	2	
60–69		2	2	
70–79	1		3	
80–89	1	1	3	
90–110		1	4	
111–145				1
146–170			1	1
171–195			2	1
196–220			3	1
221–245			4	1
246–290				2
291–315			1	2
316–340			2	2
341–365			3	2
366–390			4	2
391–435				3

The above interpretation applies only where the system owner buys his F–12 gas from a supplier, and installs it himself. If he has a service shop install the gas, the shop will always be able to furnish no more than the amount actually needed, from its service cylinders, and there will be no problem.

(b) *Installation of F–12 gas in systems or parts held by equipment manufacturers or dealers.* Paragraph (b) (1) prohibits deliveries of F–12 gas for systems on List A; (b) (2) prohibits deliveries for any other system, unless it must be operated under one or more of the conditions specified. These restrictions are intended to prevent deliveries of F–12 gas where there is a sale or other delivery of the gas. They prevent an equipment manufacturer or other person from delivering F–12 gas in any new or used system or refrigerant-containing parts if charged with F–12 gas furnished by him after the effective date of the applicable restriction, for any prohibited use.

These restrictions do not prevent the withdrawal and reinstallation of F–12 gas in the course of repairing a used system or refrigerant-containing part, where no additional F–12 gas is added to what was already in the system or part.

Neither do they restrict the delivery of new or used systems or refrigerant-containing parts which had already been charged at the time the applicable restrictions became effective nor do they prevent the owner or lessee of any installed system who had F–12 gas in his possession on the effective date of the applicable restriction from charging the system with such gas, or having someone else do this charging for him, where no tranafer of possession or ownership is involved. PART 3291—CONSUMERS DURABLE GOODS

[Limitation Order L–30–d, Direction 1, as Amended Sept. 27, 1944]

ALUMINUM PRESSURE CANNERS

The following direction is issued pursuant to Limitation Order L–30–d:

(a) *What this direction does.* In order to provide for the production of aluminum pressure canners for the 1944 and 1945 canning seasons this direction tells what types of pressure canners may be made, who may make them and how many may be made.

(b) *Definition of "pressure canners".* As used in this direction, "pressure canner" means any device commonly known as a pressure cooker or pressure canner which may be used for canning food products under steam pressure, and which is equipped with a dial, indicating or weighted gauge, a venting device and a safety valve.

(c) *Production of pressure canners—(1) Authorized list of manufacturers.* The following manufacturers may produce or assemble during the periods specified, at their plants at the addresses indicated, aluminum pressure canners in quantities not exceeding the number indicated opposite their names:

[NOTE: Table amended Sept. 27, 1944.]

	Jan. 31 to Sept. 30, 1944	Oct. 1 to Dec. 31, 1944	Jan. 1 to Mar. 31, 1945	Apr. 1 to June 30, 1945
Burpee Can Sealer Co., Barrington, Ill.	40,500	35,000	35,000	35,000
National Aluminum Manufacturing Co., Peoria, Ill.	56,500	23,000	23,000	23,000
Wisconsin Aluminum Foundry Co., Manitowoc, Wis.	12,500	15,000	15,000	15,000
Pressure Cooker Co., Denver, Colo.	2,614	500	500	500
National Pressure Cooker Co., Eau Claire, Wis.	259,000	130,000	130,000	130,000
Lakeside Aluminum Co., Minneapolis, Minn.	19,886	6,500	6,500	6,500

(2) *Restriction on aluminum permanent mold castings.* No person may make any aluminum permanent mold castings for the aluminum pressure canners to be produced under this direction without first obtaining the written specific authorization of the War Production Board. Applications for authorization to make such castings should be made by letter to the War Production Board, Washington 25, D. C., Ref: L–30–d, Direction 1. Each applicant should submit complete information as to the availability of his facilities for making castings in the light of his present and potential war work and the manpower situation in his plant and in the area where it is located. The War Production Board will not issue any authorization to produce permanent mold castings if the Board finds that such production will interfere with the production and delivery of war orders, and the Board intends to change or revoke any authorization if later conditions show that such interference is likely.

(3) *Additional production.* The War Production Board may add additional manufacturers to those listed above or increase the quantities specified to the extent that materials, facilities and manpower are available and additional pressure canners are needed to meet requirements. Any person desiring to produce aluminum pressure canners in addition to those mentioned above should apply by letter to the War Production Board, Washington 25, D. C., Ref: L–30–d, Direction 1. Each applicant should submit full details of the pressure canners he proposes to make, including a bill of materials on Form CMP–1, and illustrations, designs or samples when practicable. He should also submit complete information as to the availability of his facilities for this production in the light of the war work which he is doing and the manpower situation in his plant and in the area where his plant is located. A CMP–4B application for any controlled materials needed should accompany any application under this paragraph.

(4) *Revision of quotas.* If the War Production Board finds that any manufacturer will be unable to produce his quota of pressure canners because of interference with war orders or for any other reason, the Board intends to reduce his quota and transfer the excess to another manufacturer.

(d) *What types of pressure canners may be made; sizes and permissible metals—(1) Size.* Pressure canners made under this direction may be made in any size or sizes with a capacity of 7 or more 1 qt. glass jars, but may not have a smaller capacity.

(2) *Materials which may be used.* The body, cover and insets for preparing food must be made of aluminum or aluminum alloy. Carbon steel may be used in any other parts or attachments, including wire racks. Alloy steel may be used in locking devices and safety and relief valves only. Copper and copper base alloy may be used in indicating gauges, safety and relief valves and blow-out plugs only. Tin may be used in plating wire racks only. These provisions supersede any provisions in Orders L–30–c, M–9–c, M–43 and M–126, which would prevent the use of these materials. In all other respects the use of materials in pressure canners must conform to applicable conservation orders.

(e) *Reports.* (1) Beginning March 10, 1944, each manufacturer shall file by the 10th day of each month, a report by letter with the War Production Board, Washington 25, D. C., Ref: L–30–d, Direction 1, stating the number of pressure canners which he made in the preceding calendar month by sizes.

(2) The reporting provisions in this Direction have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 27th day of September 1944.

Recording Secretary.

Vinyl Polymer Restrictions

(b) *General provisions.* (1) Vinyl polymers are subject to the provisions of General Allocation Order M–300 as Appendix A materials. The initial allocation date is November 1, 1942, when these materials first became subject to allocation under Order M–10 (revoked). The allocation period is the calendar month.

(2) The small order exemption for all purposes except experimental purposes is 50 pounds (weight of resin content) per person per month. No person shall use vinyl polymers under this exemption during any month in which he has received the same kinds of vinyl polymers on specific allocation.

(3) The small order exemption for experimental purposes is 200 pounds (weight of resin content) per person per month. This may be received in addition to allocated quantities. However, the total quantity of all kinds of vinyl polymers which may be received or used under the experimental and non-experimental small order exemptions shall not exceed 200 pounds per person per month.

(4) There shall be no limitation on duration of authority for use under this schedule, notwithstanding Order M–300 (paragraph (v) of the order as amended June 6, 1944).

(5) Authorization to use vinyl polymers for any purpose carries with it authorization to perform all intermediate operations.

(6) Vinyl polymers may be delivered prior to November 30, 1944, and may be used at any time in accordance with specific authorizations issued on the basis of applications filed in the form heretofore prescribed in Order M–10 (revoked).

Scrap Exemptions

(c) *Scrap re-run exemption.* A person may re-run vinyl polymef scrap without further authorization for the same authorized purpose for which he first ran the vinyl polymer.

(d) *Disposition of scrap stocks.* Application and specific authorization shall not be required for delivery by any person of vinyl polymer scrap to, and acceptance of delivery by, any person purchasing such scrap for resale as scrap without further processing except cleaning and sorting. The person accepting delivery shall not use or process the scrap except to clean and sort it, and shall not redeliver it, without authorization under this schedule.

Applications for Vinyl Polymers

(e) *Applications by suppliers on WPB–2946.* Each supplier seeking authorization to deliver vinyl polymers (including scrap) shall file application on Form WPB–2946 (formerly PD–601). Filing date (date of receipt by War Production Board in Washington, D. C.), is the 25th day of the month before the proposed delivery month. File separate sets of forms for each different type or grade of vinyl polymer. Send three certified copies to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M–300–54. Unit of measure is pounds, resin content basis. In Column 1 list each customer who is not ordering under small order exemption. Without specifying individual customers' names, an aggregate quantity may be requested for all exempt orders for 50 pounds or less, and a separate aggregate quantity for all exempt orders for between 50 and 200 pounds (these totals include the supplier's own exempt small use). Suppliers who purchase vinyl polymer scrap for resale without processing shall fill in only Columns 8, 10, 12 and 13 in Table II. Suppliers who produce vinyl polymers or vinyl polymer compounds from raw materials for resale shall fill in all columns of Table II as indicated.

(f) *Customers' applications on WPB–2945.* Each person seeking authorization to use or accept delivery (except in exempt quantities) of vinyl polymers, including scrap, shall file application on Form WPB–2945 (formerly PD–600).

Filing date (date of receipt by War Production Board in Washington, D. C.) is the 15th day of the month before the requested allocation month. File separate sets of forms for each type or grade of vinyl polymer. Send three certified copies to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M–300–54. Under "name of chemical" specify the requested vinyl polymer (in terms of trade name or number or as "scrap"—do not specify compound designation). It is not necessary to fill in Column 1. Unit of measure is pounds of contained resin and not pounds of compound.

In Column 2 specify quantity requested (resin basis). Fill in Column 3 in terms of the following:

Wire and cable.
Coated fabric.
Coated paper.
Coated foil.
Lacquer.
Adhesive.
Filaments.
Rigid sheet.
Unsupported film (specify gauge).
Other product (specify).
Resale (in same form).
Export (in same form).

For military end uses show whether for Army, Navy, Aircraft, Lend-Lease or Maritime Commission. Show either industrial or civilian for non-military applications. It will not be necessary to specify customer if information in Column 3 and Column 4 clearly indicates primary product and end use.

If the material requested is to be resold or exported in the form in which it is purchased, specify "Resale" or "Export" in Column 3 and specify in Column 4 "Upon further authorization" or "Exempt small orders" for resale, and in the case of export specify end use and export license number; if Lend-Lease, specify only the contract number. Leave Columns 9 and 10 blank. Fill in Table II as indicated and leave Tables III, IV and V blank.

Each person filing application under the paragraph to accept delivery of vinyl polymers from a supplier shall advise the supplier in writing, by copy of WPB–2945 application, so that the supplier may enter his name as a proposed customer on the supplier's WPB–2946 application.

(g) *Bureau of the Budget approval.* The above reporting requirements have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(h) *Communications to War Production Board.* Communications concerning this schedule shall be addressed to War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M–300–54.

Issued this 27th day of September 1944.

PART 3296—SAFETY AND TECHNICAL EQUIPMENT

[General Limitation Order L-39, as Amended Sept. 27, 1944]

FIRE PROTECTIVE, SIGNAL AND ALARM EQUIPMENT

The fulfillment of requirements for the defense of the United States has created shortages in the supplies of materials entering into the production of fire protective, signal and alarm equipment, for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3296.1 *General Limitation Order L-39*—(a) *Definitions.* For the purpose of this order:

(1) "Fire protective equipment" means: sprinkler systems, couplings, playpipes and allied fittings, fire hose, fire hydrants, fire pumps, hose dryers, hose racks, indicator posts, lightning protection systems, piped extinguishing systems, portable fire extinguishers including back pack types, foam generators, stirrup pumps, water spray nozzles, and all other fire protective equipment for preventing or extinguishing fires, excepting self-propelled motorized fire apparatus and auxiliary units including trailer, skid, front mounted and portable apparatus.

(2) "Signal and alarm equipment" means the following types of equipment:

(i) All types of signal or alarm systems or equipment designed for protective purposes, such as: fire, police and burglar alarm systems, watchmen's time recording systems, intrusion systems, and boundary protection systems, whether such systems are central station, proprietary, auxiliary or local; recording locks; and portable watch clocks.

(ii) All types of paging and call systems (other than intercommunicating systems), such as doctor and nurse call systems and factory paging systems.

The term does not include air raid warning devices.

(3) "Dry-pendant sprinkler head" means a sprinkler head for use in a pendant position on a dry pipe system and permanently attached to an extension nipple so as to exclude water from the nipple.

(4) "Incendiary bomb control equipment" means any pump, device, instrument, or material designed for the removal, control or extinguishment of incendiary bombs.

(5) "Stirrup pump" means a manually operated pump used to draw water or other liquid from a separate container to extinguish or control fires.

(6) "Air raid warning device" means any siren, whistle, horn, diaphone, signal or device used or intended for use to warn or signal civilians in connection with air raids or other war hazards.

(7) "Copper base alloy" means any alloy in the composition of which the weight of copper equals or exceeds 40 percent of the weight of all metal in the alloy.

(b) *General restrictions*—(1) *Restrictions on use of scarce materials.* Except as provided in paragraph (c) of this order, no person shall incorporate in any fire protective, signal or alarm equipment, air raid warning device, or parts thereof, any bismuth, cadmium, chromium, copper, monel metal, nickel, tin, or alloy of any such metals, asbestos, rubber or synthetic rubber, except to the extent permitted in Appendix A hereof.

(2) [Deleted July 13, 1944]

(3) *Restrictions on foam extinguishers.* No person shall purchase or accept delivery of any foam extinguisher except for use in the protection of inflammable liquids, and no person shall sell or deliver any foam extinguisher which he knows or has reason to believe will be used in violation of this paragraph (b) (3).

(4) *Restrictions on manufacture of alkali metal (loaded stream) extinguishers.* No person shall in any quarter complete the manufacture of any type of alkali metal salt solution (loaded stream) extinguishers in excess of 25 percent of the total of such type (irrespective of size) manufactured by such person during the twelve month period ending November 30, 1941, except to fill purchase orders or contracts from any agency or government listed in subdivisions (i), (ii), and (iii) of this paragraph (b) (4). In determining the number of extinguishers manufactured during said twelve month base period ending November 30, 1941, extinguishers manufactured to fill contracts or purchase orders from, or for delivery to any of the following shall be excluded:

(i) The Army or Navy of the United States, the Veterans' Administration, United States Maritime Commission, War Shipping Administration, Panama Canal, Coast and Geodetic Survey, Coast Guard, Civil Aeronautics Authority, National Advisory Committee for Aeronautics, the Office of Scientific Research and Development;

(ii) The Government of any of the following countries: the United Kingdom, Canada, and other dominions, Crown Colonies and protectorates of the British Empire, Belgium, China, Greece, the Kingdom of the Netherlands, Norway, Poland, Russia, and Yugoslavia;

(iii) Any agency of the United States Government for delivery to or for the account of any country listed above or any other country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(5) *Restrictions on manufacture of stirrup pumps.* No person shall manufacture any stirrup pump, or part thereof, except to fill purchase orders from the Army or Navy of the United States, the Veterans' Administration, the United States Maritime Commission, War Shipping Administration, Defense Supplies Corporation, or from any agency of the United States Government for delivery to or for the account of the government of any country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(6) *Restriction on manufacture of soda-acid fire extinguishers.* No person shall manufacture any soda-acid fire extinguisher.

(7) *Restrictions on sale and delivery of signal and alarm equipment and air raid*

warning devices. (i) No person shall sell, deliver or install any signal and alarm equipment costing $200 or more or any air raid warning device costing $25 or more except to fill the following kinds of orders:

(*a*) Orders from or for the account of the Army or Navy of the United States, the Veterans' Administration, the United States Maritime Commission or the War Shipping Administration;

(*b*) Orders for equipment (signal and alarm equipment and air raid warning devices) the delivery of which has been specifically authorized by the War Production Board on Form WPB–1319. (Any person receiving specific authorization on Form WPB–1319 must notify his supplier by placing on his purchase order the following certification, in addition to the certification in Priorities Regulation 7: "Delivery approved on Form WPB–1319, case no. —, under Order L–39". The supplier may get delivery of the equipment from his supplier to fill the order, if necessary, by placing the same certification on his order.)

(*c*) Orders for equipment the delivery of which has been specifically authorized on Form GA–1456.[1] (A person receiving an authorization for this equipment on Form GA–1456 must notify his supplier by placing on his purchase order the following certification, in addition to the certification in Priorities Regulation 7: "Delivery approved on Form GA–1456 under Direction 1 to CMP Regulation 6". The supplier may get delivery of the equipment from his supplier to fill the order, if necessary, by placing the same certification on his order.)

Cost is determined under this paragraph by taking the installed cost to the purchaser. If the equipment is leased rather than sold, cost is determined by taking the price which would be charged to the building owner if the equipment were installed and sold outright.

(ii) [Revoked Feb. 16, 1944]

(iii) In conjunction with the granting of specific authorization to receive signal or alarm equipment or air raid warning devices on Form WPB–1319, the War Production Board may also assign preference ratings to the authorized deliveries on such form. Any preference rating so assigned shall be applied and extended only in accordance with the terms of Priorities Regulation 3.

[1] Authorization on Form GA–1456 is issued for approved construction projects upon application on Form WPB–617, and persons needing signal and alarm equipment or air raid warning devices for use in a project should ask for the equipment on their project application. However, when a person wishes only to get this equipment for installation in an existing structure and no other construction is involved, he should follow these rules:

1. If the cost of installation materials is not more than $500, the application should be filed on Form WPB–1319.

2. If the cost of installation materials is more than $500, the application should be filed on Form WPB–617.

"Installation materials" include such items as wire, tubing and conduit used to install the equipment in the structure, but of course the equipment itself is not included.

(8) *Restriction on the manufacture of signal or alarm equipment.* Except upon specific authorization by the War Production Board, no person shall manufacture, install, deliver or accept delivery of any smoke, fire, or intrusion detector employing photo-electric principles, except to fill purchase orders from a purchaser listed in paragraph (b) (4) of this order and unless such item is for use on board ship.

(9) *Restrictions on the manufacture of air raid warning devices.* No person shall manufacture, sell, purchase, deliver, install or accept delivery of any air raid warning device which requires for its operation a motor in excess of three (3) horse power.

(10) *Restrictions on sale and delivery of cotton rubber-lined fire hose.* No person shall sell or deliver any new cotton rubber-lined fire hose except to fill the following kinds of orders:

(i) Orders bearing a preference rating of AA–5 or higher;

(ii) Orders which had been placed prior to August 23, 1943, and which bear a preference rating of A–9 or higher; or

(iii) Orders from distributors. (Distributors may sell or deliver only to persons to whom sale or delivery is authorized to be made by this paragraph (b) (10).)

No person shall purchase or accept delivery of any cotton rubber-lined fire hose if he knows or has reason to believe that the sale or delivery of such hose is prohibited by this paragraph.

(11) *Restrictions on manufacture of incendiary bomb control equipment.* Effective thirty days after January 20, 1943, no person shall manufacture any incendiary bomb control equipment, except when and to the extent authorized by the War Production Board, or to the extent permitted by paragraph (b) (5) of this order.

(c) *Exceptions to paragraph (b) (1).* The restrictions of paragraph (b) (1) shall not apply to:

(1) Brass fire hose couplings, provided that such couplings are delivered to or for the account of:

(i) The Army or Navy of the United States, the Veterans' Administration, the United States Maritime Commission or the War Shipping Administration, and are for use on board ship; or

(iv) Any person for use on board ships warranted by the United States Maritime Commission.

(2) Carbon dioxide extinguishers manufactured in accordance with specifications of the Army or Navy of the United States, the United States Maritime Commission, or the War Shipping Administration.

(d) *Representations on orders from government agencies.* Any purchase order or contract from any agency or government named in subparagraphs (i), (ii), or (iii) of paragraph (b) (4) of this order shall constitute a representation that the conditions exist under which such purchase order or contract may be filled within the terms of this order. Said representation may be relied upon by the person with whom the purchase order or contract is placed and by his subcontractors and suppliers.

(e) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(f) *Exceptions and appeals*—(1) *Production under Priorities Regulation 25.* Any person who wants to manufacture more fire protective, signal and alarm equipment than is permitted under paragraphs (b) (4), (b) (5), (b) (8) and (b) (11) (including a person who cannot manufacture such equipment under this order), or who wants to manufacture any soda-acid fire extinguishers prohibited by paragraph (b) (6), or any air raid warning devices requiring a motor in excess of three horsepower (prohibited by paragraph (b) (9)), may apply for permission to do so as explained in Priorities Regulation 25. A person may still apply for authorization under paragraphs (b) (8) for signal or alarm equipment and (b) (11) for incendiary bomb control equipment, if he desires. The restrictions on delivery contained in paragraphs (b) (3), (b) (7) and (b) (10) and the restrictions on use of material in paragraph (b) (1) continue to apply to fire protective, signal and alarm equipment authorized under Priorities Regulation 25.

(2) *Appeals.* Any appeal from the provisions of this order other than the restrictions of paragraphs (b) (4), (b) (5), (b) (6), (b) (8), (b) (9) and (b) (11) shall be made by filing a letter in triplicate with the War Production Board, Washington 25, D. C., Ref: L–39, referring to the particular provision appealed from and stating fully the grounds of the appeal. No appeal should be filed from the provisions of the above paragraphs.

(g) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(h) *Correspondence.* Reports to be filed and other communications concerning this order shall be addressed to the War Production Board, Safety and Technical Equipment Division, Washington 25, D. C., Ref.: L–39.

Issued this 27th day of September 1944.

[MPR 200,[1] Amdt. 16]

RUBBER HEELS, RUBBER HEELS ATTACHED, AND ATTACHING OF RUBBER HEELS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation 200 is amended in the following respects:

1. In § 1315.1403 paragraphs (a) and (b) are amended and paragraph (c) is added, to read as follows:

(a) *Reports.* A manufacturer who introduces a new brand name for a heel or who wishes to have a certain brand name reclassified shall file a report and six pairs of the heel with the Office of Price Administration, Washington, D. C. This report shall include the following:

(1) The abrasion index and tensile strength of the heel.

(2) The classification in which he wishes the brand name to be placed.

(3) A statement indicating that all heels produced or sold by him that bear that brand name will equal or exceed the quality of the sample heels submitted.

(4) Where the manufacturer wishes a brand name reclassified, the report shall also include a statement that the reclassified heel will be marked with its appropriate V symbol (or with some other symbol or mark which must be described), as well as with its brand name, so that the reclassified heel may be readily distinguishable by the trade and by the public from the heel bearing that brand name produced under its former classification.

(b) *Approval or denial of requests for classification or reclassification.* After receipt of the report and samples, the Office of Price Administration will either classify or reclassify the heel by amending the regulation or will deny the request for classification or reclassification.

A brand name shall not be reclassified unless the reclassified heel is marked with its appropriate V symbol or in some other manner approved by the Office of Price Administration that will make the reclassified heel readily distinguishable from the heel of the same brand name produced under its former classification. This distinguishing symbol or mark shall be included in the reclassified brand name. Notwithstanding any other provision of this section, the Office of Price Administration may approve reclassification of a brand name without any such distinguishing symbol or mark if it is satisfied that no heels of the brand name's former classification are in any of the channels of trade.

(c) *Sales of heels with new or reclassified brand names.* A new heel whose brand name is to be classified or a heel whose brand name is to be reclassified may not be sold or delivered until the regulation has been amended listing such brand name in its appropriate classification. After reclassification, a heel's brand name without the V symbol or other distinguishing mark, shall continue to be listed in the same price category as before until the Office of Price Administration is satisfied that none of the heels of the brand name's former classification are in any branches of the trade.

2. In § 1315.1405 (a) (1) (ii) the brand names Columbia, Fleetwood, Fleetwood 60, and Tauko are respectively amended to read as follows:

Columbia (V–1)
Fleetwood (V–1)
Fleetwood 60 (V–1)
Tauko (V–1)

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[RO 1A,[1] Amdt. 68]

TIRES, TUBES, RECAPPING AND CAMELBACK

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Ration Order No. 1A is amended in the following respects:

1. Sections 1315.302 (d), 1315.509, 1315.510 and 1315.602 (c) are revoked.

2. Section 1315.804 (j) is amended to read as follows:

(j) *Transfer of new truck tires by manufacturers without certificate.* A manufacturer may transfer new truck tires to any dealer without certificate by complying with the provisions of this paragraph. These transfers may be made only from a tire manufacturing establishment or a "regional branch" as defined in § 1315.804 (f).

(1) He may transfer a new truck tire with a cross-section size 7.50 or smaller or one with a cross-section size 8.25 or larger without certificate, only if the tire manufacturing establishment or "regional branch" from which the transfer is to be made has no valid replenishment portions on hand from dealers covering unfilled orders for new truck tires in the same cross-section size group (7.50 or smaller, 8.25 or larger) as that in which the tires which the manufacturer intends to transfer without certificate fall.

(2) A manufacturer who transfers new truck tires under this paragraph shall send a shipping memorandum to the dealer who is acquiring the tires showing the manufacturer's name and the address of his shipping point, the dealer's name and address (specifying the county), the date of the shipment and the number and sizes of the new truck tires being shipped. Shipping memoranda which the manufacturer sends to dealers under this paragraph shall not include any tires for which the manufacturer has received replenishment portions, and each such memorandum shall contain the following statement: "A copy of this has been sent to the OPA Inventory Branch."

(3) A manufacturer shall mail to the OPA Inventory Branch, Empire State Building, New York, New York, once each week clear copies of the shipping memoranda covering the shipments made during the preceding calendar week under this paragraph. He shall with each mailing enclose a summary of the number of shipping memoranda being forwarded, the number of new truck tires by cross-section size group covered by these shipping memoranda and a signed certification stating the following: "I certify that the shipping memoranda enclosed cover all shipments made during the week under § 1315.804 (j) of Ration Order No. 1A and that the information contained herein is true and correct."

(4) A manufacturer may not under this paragraph transfer to a dealer more than 50 new truck tires in a cross-section size group (7.50 or smaller, 8.25 or larger), nor may he transfer any new truck tires in a cross-section size group if he knows or has reason to believe that the dealer has already acquired 100 new truck tires in that size group from manufacturers under this paragraph. A dealer may not under this paragraph acquire more than 50 new truck tires in a cross-section size group from a single manufacturer nor more than 100 new truck tires in a cross-section size group from all manufacturers.

(5) A manufacturer may not transfer tires under this paragraph to an establishment unless the dealer has certified on his order that he was in the business of selling truck tires from that establishment on July 29, 1944. A dealer may not under this paragraph acquire tires for an establishment where he did not engage in the sale of truck tires on July 29, 1944.

This amendment shall become effective September 28, 1944.

PART 1351—FOOD AND FOOD PRODUCTS

[FPR 3, Supp. 3]

SOYBEAN PRODUCTS

In the judgment of the Price Administrator, it is necessary and proper to revise the maximum prices established for the soybean products covered, prior hereto, by Maximum Price Regulation 443, in certain minor respects, to establish maximum prices for soybean millfeed, and to reissue the existing regulation as a supplement to Food Products Regulation No. 3. Accordingly, this supplement supersedes Maximum Price Regulation 443 insofar as that regulation establishes maximum prices for sales of soybean products as that term is defined herein.

Such specifications and standards as are used in this supplement were, prior to such use, in general use in the trade or industry.

A statement of the considerations involved in the issuance of this supplement, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

They include any mixture of soybean by-products and one or more other soybean products. Soybean by-products are sometimes referred to as soybean mill feed.

"Freight allowance from Decatur, Illinois" means the appropriate one of the allowances listed below:

(a) When the point to which it is figured is within the switching limits of Decatur, Illinois—$1.00 per ton.

(b) When the point to which it is figured is any point in the area east of the Illinois-Indiana state line, thence on or north of the Ohio River to Kenova, West Virginia, thence on or north of the Norfolk and Western Railway to Roanoke, Virginia, thence on or north of the Virginia Railway from Roanoke, Virginia, to Norfolk, Virginia—The carload flat rate on grain products from Decatur, Illinois.

(c) When the point to which it is figured is any point other than one of those listed in the above paragraphs (a) and (b)—The carload flat rate on soybean oil meal from Decatur, Illinois.

"Extraction method" means that method of processing soybeans whereby ground beans are cooked and the oil content of the cooked product reduced by the use of solvents to 1% or less on a commercial basis.

(e) Interpretations, protests and petitions for amendment, sec. 2.8 of Food Products Regulation No. 3.

ARTICLE II—PRICING PROVISIONS

SEC. 6. *Base per ton prices for soybean products.* Base prices for all soybean products are set forth below. These prices depend upon the giving and fulfilling of a guarantee of minimum protein content. "Standard protein content" for soybean oil meal, oil cake, sized cake and pellets is 44 per cent when those products are the result exclusively of the extraction method of production, and 41 per cent when any other method or combination of methods is used. "Standard protein content" for soybean by-products (soybean millfeed) is 15 per cent.

The base prices set forth in this section are for sales or deliveries of 60,000 pounds or more, for carload shipments, and for pool carlots. In the event you deliver a less than carload lot of any soybean product, you may add $1.00 per ton to the price listed below in arriving at your base price.

(a) If you guarantee, at the time of sale, that the lot will contain, at a minimum, the standard protein content, and you fulfill such guarantee by delivering a lot with at least that protein content, your base price, at any point, is the freight allowance to such point plus the appropriate one of the following:

Oil meal and oil cake [1]	$45.00
Sized cake and pellets	46.50
Soybean by-products	30.00

[1] For soybean oil meal which is manufactured by a special process different from that used in manufacturing soybean oil meal for feed, and which is sold by the processor to a manufacturer of adhesives for further processing into adhesives, use a price of $48.00. If soybean oil meal is thus specially produced and either sold to a manufacturer of adhesives by someone other than the processor, or sold by the processor to anyone other than a manufacturer of adhesives, the $45.00 price is applicable for such oil meal.

(b) If you guarantee, at the time of sale, that the lot will contain, at a minimum, any specified protein content less than the standard protein content for the commodity, and you fulfill such guarantee by delivering a lot with at least the minimum protein content guaranteed, you determine your base price by deducting from the price for the commodity listed in paragraph (a) above, 55 cents per ton for each one-half unit of protein or fraction thereof by which the actual protein content of the lot is under the standard for the commodity.

(c) If, at the time of sale, you guarantee any minimum protein content, and you deliver a lot that falls short of your guarantee, you determine your base price by dividing the base price that would be applicable if the guarantee had been fulfilled by the number of units guaranteed, and multiply that result by the number of full units of protein in the lot, but not by more than the number of units in the standard protein content for the commodity.

(d) If, at the time of sale, you do not guarantee any minimum protein con-

tent, you determine your base price at any point by multiplying the actual number of full units of protein in the lot by $1.05 and adding the freight allowance to that point, except that in no case may the price exceed that set forth in paragraph (a) for the same commodity at the same point sold with a guarantee of standard protein content.

(c) *Base prices for importers.* The base price for an importer at any point is the same as the base price for any other person selling and delivering the same commodity under the same circumstances.

SEC. 7. *Maximum prices for sales by processors.* If you are a processor, you figure your maximum per ton price, bulk, for all sales of soybean products by adding to the appropriate base price the applicable maximum markup, if any.

(a) *Base price.* The appropriate base price is the base price for the point at which you deliver to your customer, as set forth in section 6 of this supplement.

(b) *Maximum markup.* As a processor you are not permitted to add a maximum markup in figuring the maximum price for the sale of any lot unless you have unloaded such lot into a warehouse or store operated by you as a separate place of business not located at the production plant, and you sell from such warehouse or store. If, as to any lot, you comply with this requirement, you may add the appropriate one of the following markups:

	Per ton
If you sell to a feeder from a store	$4.50
In all other cases	1.50

SEC. 8. *Maximum prices for sales by trucker-merchants.* Section 3.2 of Food Products Regulation No. 3, which provides a pricing method for trucker-merchants, is applicable to this supplement.

(a) *Your supplier's maximum price.* Section 3.2 refers to "your supplier's maximum price on the sale to you." It is defined in section 1.14 of Food Products Regulation No. 3. If you are the importer, "your supplier's maximum price on the sale to you" is the base price for the point of entry.

(b) *Hauling allowance.* Section 3.2 of Food Products Regulation No. 3 also refers to "hauling allowance". That term is defined in section 1.21 of Food Products Regulation No. 3. If you are the importer, you may consider only the distance from the point of entry to the point at which you deliver to your customer, in determining the amount of the hauling allowance.

SEC. 9. *Maximum prices for sales by jobbers and car door sellers.* If you are a jobber or a car door seller, you figure your maximum per ton price, bulk, for all sales of soybean products by adding to the appropriate base price, the applicable maximum markup, if any.

(a) *Base price.* The appropriate base price is the base price for the point at which you deliver to your customer, as set forth in section 6 of this supplement.

(b) *Maximum markup*—(1) *Jobbers.* If no other jobber has already handled the same lot, you may add one of the following maximum markups:

	Per ton
For deliveries in pool car lots	$1.00
For all other deliveries	.75

(2) *Car door sellers.* If you are a car door seller, you may add a maximum markup of $3.50 per ton. If you purchased the lot you are pricing from a jobber, you may also add $.75 per ton, which represents his lawful markup on the sale to you.

SEC. 10. *Maximum prices for sales by wholesalers and retailers.* Section 3.4 of Food Products Regulation No. 3, which provides a pricing method for wholesalers and retailers, and section 3.5 of Food Products Regulation No. 3, which provides base prices for wholesalers and retailers, are applicable to this supplement.

(a) *Base prices.* The base prices referred to in section 3.4 are the base prices set out in section 3.5 of Food Products Regulation No. 3. However, as a wholesaler or retailer of soybean products, in figuring these wholesale and retail base prices, you must make one substitution in connection with "your supplier's maximum price" and the specified transportation cost. As to any soybean products which you bought as a lot of 60,000 pounds or more, or as a carload shipment, or which you received as part of a pool car lot, you may not use your supplier's maximum price on the sale to you plus transportation cost as specified in section 3.5; you must substitute in its place the appropriate base price for the soybean product at your warehouse or store. This base price is determined under section 6 of this supplement. In the case of any such substitution, you may, if you purchased such a lot from a jobber, add $1.00 or $.75 per ton, whichever represents the jobber's markup on the sale to you. You must make this substitution regardless of which method of figuring a wholesaler's or retailer's base price you use.

(b) *Maximum markups.* This regulation aims to prevent the inclusion in any maximum price of more than one markup for any class of seller. As a retailer you can always add a retailer's maximum markup, since a seller can qualify as a retailer only when he is selling a particular lot to a person who will use the lot and will not resell it. It is therefore impossible for two retailers to handle the same lot. As a wholesaler, however, you are permitted to add the maximum markup set out below in figuring the maximum price for the sale of any lot, only if no other wholesaler has already handled the lot. On this condition the following maximum markups may be added.

	Per ton
Wholesaler	$2.50
Retailer	5.50

SEC. 11. *Maximum prices for sales by government agencies, including the Commodity Credit Corporation.* The maximum price which a government agency, including the Commodity Credit Corporation, may charge is the same price the processor could charge for the same sale.

SEC. 12. *Charges for sacks and sacking.* Section 3.6 of Food Products Regulation No. 3, dealing with increases for sacks and section 3.7 of Food Products Regulation No. 3, dealing with charges for sacking, are applicable to this supplement.

This supplement shall become effective on the 2d day of October 1944.

NOTE: The record-keeping provisions of this regulation have been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

EXCESS PROFITS TAX

RELIEF BECAUSE OF INADEQUATE EXCESS PROFITS CREDIT

Subchapter E of Chapter 2 of the Internal Revenue Code imposes an excess profits tax on corporations for taxable years beginning after December 31, 1939. Under the provisions of this subchapter, excess profits are measured by comparing the earnings for the current taxable year with a statutory excess profits credit.

Section 722 of Subchapter E reflects the recognition by Congress of the desirability and necessity of granting relief in meritorious cases to corporations which bear an excessive tax burden because of an inadequate excess profits credit. This section provides for the recomputation of excess profits tax on the basis of a reconstructed excess profits credit.

As required by section 722 (g) the following lists, containing the cases arranged alphabetically by internal revenue districts, show the name and address of each corporation to which relief has been allowed, business, taxable years involved, excess profits credit before al-

lowance of relief, increase in excess profits credit claimed, increase in excess profits credit allowed, decrease in excess profits tax, and increase in income tax. No allowances under section 722 have been made by The Tax Court of the United States as of June 30, 1943.

In order to determine the relief granted and the relevant data required to be published, intermediate computations of the excess profits tax and the income tax showing the amounts of taxes which would have been due without the benefits of section 722 were made. Comparison of the pertinent items and figures appearing in the application for relief and the tax computations after the allowance of relief with those appearing in the intermediate tax computations developed the required data.

Explanations of certain of the items, as displayed in their respective column headings of the lists, and the data evolved, follow:

Business in which engaged, column 2. The business in which taxpayer is engaged is that reported in the income tax return of the corporation for the taxable year or years involved, therefore, it does not necessarily correspond with the business during the base period. In those instances where the return for the year involved failed to disclose the nature of business, information from other sources was utilized. Moreover, since the nature of business shown usually represents a general description of the predominant business activity, it does not necessarily represent or reflect the business activity with respect to which an inadequate excess profits credit was established.

Excess profits credit before allowance of relief, column 4. The excess profits credit before allowance of relief is the credit originally claimed by the taxpayer, as corrected, whether based on income or capital.

Increase in the amount of excess profits credit claimed by taxpayer, column 5. The increase in the amount of excess profits credit claimed by taxpayer is the excess of the credit based on the constructive income claimed by the taxpayer over the credit before allowance of relief shown in column 4.

Increase in the amount of excess profits credit allowed, column 6. The increase in the amount of excess profits credit allowed is the excess of the recomputed credit based on constructive income finally allowed over the credit before allowance of relief shown in column 4.

Gross reduction in the excess profits tax, column 7; gross increase in the income tax, column 8. The gross reduction in the excess profits tax and the gross increase in the income tax resulting from the operation of section 722 are the differences between the gross taxes which would have been due without the benefits of section 722 and the gross taxes due after relief had been granted. The gross excess profits tax is the tax due prior to the deferment under section 710 (a) (5), the foreign tax credit under section 729, the credit for debt retirement under section 783, and the adjustment under section 734. The gross income tax is the tax due prior to the foreign tax credit under section 131.

The changes in the income and excess profits taxes shown reflect the effect of the increases attributable to section 722 in the unused excess profits credit carried forward from prior taxable years as well as the effect of the increase in unused excess profits credit carried back from subsequent taxable years to the extent that claims with respect to carrybacks and with respect to section 722 were allowed within the same fiscal year.

While the decrease in excess profits tax is directly related to the increase in excess profits credit allowed, a number of factors serve to invalidate a comparison of the relationship of these two items applicable to a corporation for different taxable years or to different corporations for the same taxable year. Among the most important factors affecting this comparison are (1) increase in excess profits tax rates, (2) changes in rate structure from a graduated to a flat rate system, (3) effect of unused excess profits credits of prior and subsequent years attributable to section 722, (4) variation of provisions applicable to fiscal years, (5) limitation of excess profits tax to the amount by which 80 percent of net income exceeds the income tax, applicable to certain taxable years, and (6) relation of excess profits before the application of section 722 to the increase in excess profits credit allowed.

For taxable years beginning after December 31, 1940, a portion of the amount by which the excess profits tax is reduced by reason of the application of section 722 is offset by an increase in income tax. This offset arises from the provisions which permit the deduction of the income subject to excess profits tax (or excess profits tax in certain taxable years) in arriving at income subject to income tax.

SECTION 1. *Purpose of order.* Order No. G-1 under General Order 50 issued by the District Director of the Charlotte District Office of the Office of Price Administration on the 30th day of June, 1944, was issued for the purpose of establishing specific maximum prices for malt and cereal beverages, including those commonly known as ale, beer and near-beer, either in containers or on draught when sold or offered for sale at retail by any eating or drinking establishment, either for consumption on the premises or when carried away. SEC. 3. *Ceiling prices.* (a) On and after August 21, 1944, if you operate an eating or drinking establishment, you may not sell or offer for sale any beverage subject to this order at prices higher than the applicable ceiling prices listed in the appendices hereof. You may, of course, charge lower prices at any time.

(b) If you sell any beverage subject to this order which is not specifically listed herein, and if you believe that the maximum price specified herein for such beverage is not appropriate to such beverage, you may make application to the Charlotte District Office of the Office of Price Administration requesting that such beverage be specifically included in the appendices hereof. With or without such application, the Charlotte District Office of the Office of Price Administration may, at any time, and from time to time, add new or unlisted beverages, brands, types or sizes together with maximum prices for same to the lists set forth in the appendices hereof.

(c) You may not add any taxes to your ceiling prices set forth in the appendices hereof except those specifically provided therein, as all other taxes were taken into consideration in establishing the ceiling prices for each group of sellers.

SEC. 4. *How to figure your ceiling prices.* (a) This order divides eating and drinking establishments into three different groups and gives each group a different ceiling price. The group to which you belong depends on your legal ceiling prices in effect during the base period of April 4–10, 1943. You must figure the group to which you belong on the basis of your correct legal ceiling prices for that period.

(b) The group to which you belong depends on your legal ceiling prices for the beverages subject to this order in effect during the base period of April 4–10, 1943. If your legal ceiling prices for various brands and types of beverages subject to this order vary so that your ceiling prices on some brands or types seem to place you in one particular group and ceiling prices on others seem to classify you into a different group, you must classify yourself into the particular group representative of the prices at which the greater number of your sales were made. For the purpose of determining your classification as herein provided, no consideration may be given to sales of beverages listed in appendices other than Appendix A hereof. You must figure the group to which you belong as follows:

(1) *Group 1–B.* Your establishment belongs to Group 1–B if, during the base period of April 4–10, 1943, your legally established ceiling prices for beverages subject to this order were the same as, or more than, the prices listed in Appendix A hereof for Group 1–B establishments.

(2) *Group 2–B.* Your establishment belongs to Group 2–B if, during the base period of April 4–10, 1943, your legally established ceiling prices for beverages subject to this order were the same as, or more than, the prices listed in Appendix A hereof for Group 2–B establishments, but were less than those provided in Appendix A for Group 1–B establishments.

(3) *Group 3–B.* Your establishment belongs to Group 3–B if, during the base period of April 4–10, 1943, your legally established ceiling prices for beverages subject to this order were less than the prices listed in Appendix A hereof for Group 2–B establishments. All establishments not in operation during the base period of April 4–10, 1943, and all establishments which begin operating after the effective date of this order also belong to Group 3–B.

(c) If your eating or drinking establishment was not in operation during the base period of April 4–10, 1943, but was in operation prior to the effective date of this order, and, if the nearest similar eating or drinking establishment of the same type is one which is properly classified in Group 1–B or Group 2–B, you may, but not later than the first day of October, 1944, file an application with the Charlotte District Office of the Office of Price Administration, requesting that your establishment be reclassified into the same group to which its nearest similar eating or drinking establishment of the same type belongs. Until your application is acted upon, and unless your establishment is reclassified, it must retain the classification of a Group 3–B seller, and must observe the ceiling prices as provided for that group in the appendices hereof. All such applications for reclassification must contain the following information:

(1) Name and address of the establishment and of its owner or owners.

(2) A description of the establishment showing its type (such as night club, hotel, restaurant, tavern) and the date it began operating.

(3) The selling prices by brand name of all beverages sold since the beginning of its operation.

(4) The names of the three nearest eating and drinking establishments of the same type, and their group number as determined under this order.

(5) Any other information pertinent to such application or which may be requested by the Office of Price Administration.

(d) If your eating and drinking establishment begins operation after the effective date of this order, you are classified as a Group 3–B seller and may not sell or offer for sale beverages subject to this order at prices higher than those set forth for Group 3–B sellers in the appendices hereof. However, if your nearest eating and drinking establishment of the same type is one which is properly classified as a Group 1–B or Group 2–B seller, you may, within and not later than 30 days from the time you begin operating, file an application with the Charlotte District Office, requesting that your establishment be reclassified into the same group in which its nearest eating and drinking establishment of the same type belongs. Until your application is acted upon and unless your establishment is reclassified, it must retain the classification of Group 3–B and must observe the ceiling prices as provided for that group in the appendices hereof. All such applications for reclassification must contain the same information required by paragraph (c) of this section.

(e) After you have figured your proper group number under this section and have filed the required statement with your War Price and Rationing Board as provided in section 5, you may not change your group classification except as otherwise provided by this order.

SEC. 5. *Filing with War Price and Rationing Board.* (a) When you have figured your proper group under section 4 above, you must, on or before September 15, 1944, file with your War Price and Rationing Board a signed statement with the name and address of your establishment, its type (such as night club, hotel, restaurant, tavern) and the group

to which it belongs. Thereupon the War Price and Rationing Board will send you a card bearing your group number. If you begin operating your establishment after the effective date of this order, you must likewise file said signed statement in this manner as soon as you begin operating.

(b) If you are now in operation and have not filed the signed statement showing the group number to which you belong as provided in paragraph (a) above, you must do so immediately. If you have failed to file said signed statement as herein required you are hereby classified as a Group 3–B seller and you may not sell or offer for sale any beverage subject to this order at prices higher than the applicable ceiling prices listed for Group 3–B sellers in the appendices hereof. Failure to file said signed statement as herein provided is a violation of this order and also subjects you to the other penalties herein provided.

SEC. 6. *Modification of prices.* After you have determined your group and have put into effect the ceiling prices provided in this order for that group, the Office of Price Administration District Director for the District in which your establishment is located may direct you to charge lower ceiling prices:

(a) If, on the basis of your April 4–10, 1943 legal ceiling prices, this order, properly applied, requires you to be placed into a group with lower ceiling prices.

(b) If, as a result of speculative, unwarranted, or abnormal increases, contrary to the purpose of the Emergency Price Control Act, as amended, your legal ceiling prices on April 4–10, 1943 were excessive in relation to the legal ceiling prices of other comparable establishments in the District.

SEC. 7. *Exempt sales.* The following sales are exempt from the operation of this order. However, unless they are otherwise exempt from price control, they shall remain subject to the appropriate maximum price regulation or order:

(a) Sales by persons on board common carriers (when operated as such), including railroad dining cars, club cars, bar cars, and buffet cars, or sales otherwise governed by Restaurant Maximum Price Regulation 1 (Dining Car Regulation).

(b) Sales by public and private hospitals insofar as they serve to patients.

(c) Sales by eating cooperatives formed by members of the armed forces (as, for example, officers' mess) operated as a non-profit cooperative (where no part of the net earnings inures to the benefit of any individual) which sells food items or meals on a cost basis (or as near thereto as reasonable accounting methods will permit), and substantially all sales of which are made to members of the armed forces who are members of the cooperative.

(d) Sales where the beverages subject to this order are included in, and sold as part of, a meal and where the price of such beverage is included in the price of the meal. (Such sales remain under Restaurant Maximum Price Regulation 2.)

(e) Sales by the War Department or the Department of Navy of the United States through such Departments' sales stores, including commissaries, ships' stores ashore, and by stores operated as army canteens, post exchanges, or ships' activities.

(f) Bona fide private clubs insofar as such clubs sell only to members or bona fide guests of members. Whenever such clubs sell to persons other than members or bona fide guests of members, such clubs shall be considered for all sales an eating or drinking establishment and subject to this order. No club shall be considered to be exempt as a private club, within the meaning of this subparagraph, unless such club is a non-profit organization and is recognized as such by the Bureau of Internal Revenue and unless its members pay dues (more than merely nominal in amount), are elected to membership by a governing board, membership committee or other body, and unless it is otherwise operated as a private club.

No club organized after the effective date of this order shall be exempt unless and until it has filed a request for exemption with the District Office of the Office of Price Administration of the area in which it is located, furnishing such information as may be required, and has received a communication from such office authorizing exemption as a private club.

SEC. 8. *Evasion.* If you are an operator of an eating or drinking establishment, you must not evade the ceiling prices established by this order by any type of scheme or device; among other things (this is not an attempt to list all evasive practices) you must not:

(a) Institute any cover, minimum, bread and butter, service, corkage, entertainment, check-room, parking or other special charges which you did not have in effect on any corresponding day during the seven-day period from April 4–10, 1943, or

(b) Increase any cover, minimum, bread and butter, service, corkage, entertainment, check-room, parking or other special charges which you did have in effect on any corresponding day during the seven-day period from April 4–10, 1943, or

(c) Require as a condition of sale of a beverage the purchase of other items or meals, except that during the hours from 11:30 a. m. to 1:30 p. m. and the hours from 6:00 p. m. to 8:00 p. m., any eating or drinking establishment which derives not less than 70% of its gross revenue from the sales of prepared food items (not including beverage items) sold for consumption on the premises may refuse to sell beverages subject to this order for consumption on the premises during those hours to persons who do not also purchase food items.

SEC. 9. *Records and menus.* If you are an operator of an eating or drinking establishment subject to this order, you must observe the requirements of General Order 50, as well as Restaurant Maximum Price Regulation No. 2, either as revised and amended or as may be revised and amended, with reference to the filing and keeping of menus and the preservation and keeping of customary and future records. Among other provisions of General Order 50, are the following:

(a) Preserve all existing records relating to prices, cost and sales of food items, meals and beverages;

(b) Continue to prepare and maintain such records as have been ordinarily kept;

(c) Keep for examination by the Office of Price Administration two copies of each menu used by the establishment each day, or a daily record in duplicate of the prices charged for food items, beverages and meals. If the establishment has customarily used menus, it must continue to do so.

SEC. 10. *Posting of prices.* If you are an operator of an eating or drinking establishment, you must post and keep posted, the ceiling prices of the beverages subject to this order sold by your establishment, either by:

(a) Supplying the customers menus or bills of fare showing the beverages subject to this order which are sold by the establishment; and showing the brand name, quantity and ceiling price of each kind and type of bottled beverage, and the quantity and ceiling price of all beverages sold on draught, or

(b) Posting a sign giving the same information as required on menus or bills of fare by subparagraph (a) above. Such a sign must be posted in the establishment at a place where it can easily be read by the customers. If you prefer you may use a similar sign furnished by the Office of Price Administration.

(c) No establishment which fails to comply with the posting requirements of this section may sell any beverage subject to this order at a higher price than provided for Group 3–B sellers in the appendices hereof during such time as such establishment is not in compliance with this section.

SEC. 11. *Posting of group number.* (a) If you operate an eating or drinking establishment selling at retail beverages subject to this order, you must post, and keep posted, in the premises a card or cards clearly visible to all purchasers showing the group number of your establishment as classified under this order. The card must read "OPA–1B", "OPA–2B", or "OPA–3B", whichever is

applicable. You may use the card or cards furnished you for this purpose by the War Price and Rationing Board.

(b) No establishment which fails to comply with the posting requirements of this section may sell any beverage subject to this order at a higher price than provided for Group 3–B sellers in the appendices hereof during such time as such establishment is not in compliance with this section.

SEC. 12. *Receipts and sales slips.* Regardless of whether or not receipts have customarily been issued, upon request by any customer at the time of payment, a receipt containing a full description of the beverage sold and the price of same must be issued. Such receipts must show the date of issue and bear the signature of the person issuing same. If you have customarily issued receipts or sales slips, you may not now discontinue the practice.

SEC. 13. *Operation of several places.* If you own or operate more than one place selling beverages subject to this order, you must do everything required by this regulation for each place separately.

SEC. 14. *Enforcement.* If you violate any provision of this regulation, you are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspensions of licenses, provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 15. *Licensing.* The provisions of Licensing Order No. 1 licensing all persons who make sales under price control, are applicable to all sellers subject to this order. If you are a seller subject to this order, your license is suspended for violation of the license or of the order. If your license is suspended, you may not, during the period of suspension, make any sale for which your license has been suspended.

SEC. 16. *Relation to other maximum price regulations.* This order supersedes the provisions of Maximum Price Regulation No. 259 and the General Maximum Price Regulation insofar as such provisions were applicable to sales at retail by eating and drinking establishments of beverages subject to this order. Sales of beverages subject to this order when sold as part of a meal and when the price of same is included in the price of the meal remain subject to the provisions of Restaurant Maximum Price Regulation 2.

SEC. 17. *Definitions.* (a) "Malt beverage" is any malt beverage produced either within or without the Continental United States, and includes those commonly designated as beer, lager beer, ale, porter and stout.

(b) "Cereal beverage" is any beverage produced from cereals either within or without the Continental United States and commonly known as "near-beer".

(c) "On draught" means dispensed by a seller at retail from any container of ⅛ barrel or larger size.

(d) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(e) "Sales at retail" or "Selling at retail" means a sale or selling to an ultimate consumer other than an industrial or commercial user.

(f) "Eating or drinking establishment" shall include any place, establishment or location, whether temporary or permanent, in which any prepared food item or meal, or any beverage is sold for immediate consumption on the premises or to be carried away without substantial change in form or substance. However, grocery and other stores that do not sell food items or meals, or beverage for immediate consumption on the premises are specifically excluded from this definition.

(g) "Other definitions". Unless the context otherwise requires, the definitions set forth in Section 302 of the Emergency Price Control Act of 1942, as amended, and in § 1499.20 of the General Maximum Price Regulation, shall apply to the other terms used herein.

SEC. 18. *Transfers of business or stock in trade.* If the business assets, or stock in trade of any establishment are hereafter sold or otherwise transferred, or have been sold or transferred subsequent to April 10, 1943, and the transferee carries on the business or continues to sell malt beverages covered by this order in the same location, the maximum prices of the transferee shall be the same as those to which its transferor would have been subject if no such transfer had taken place, and its obligations to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available or turn over to the transferee all records of transaction prior to the transfer which are necessary to enable the transferee to comply with the record-keeping requirements of this order. If there is a lapse of business operations in connection with such a transfer for a period of sixty days, selling prices shall be determined as provided in section 4 for a new seller.

SEC. 19. *Changes in location.* If any establishment is hereafter moved to a new location, the establishment shall be considered a new seller under this order and shall determine its ceiling prices under the provisions of section 4.

SEC. 20. *Petitions for amendment.* Any person dissatisfied with any of the provisions of this order may request the Office of Price Administration to amend the order. Such petition for amendment must be filed in pursuance of the provisions of Revised Procedural Regulation No. 1, except that the petition for amendment shall be directed to, filed with, and acted upon, by the District Director of the Charlotte District Office.

SEC. 21. *Revocation and amendment.* This order may be revoked, amended, or corrected at any time.

SEC. 22. *Effective date.* This order shall become effective on August 21, 1944.

NOTE: The reporting and record keeping requirements of this order have been approved by the Bureau of the Budget and in accordance with the Federal Reports Act of 1942.

[Raleigh Rev. Order G-1 Under Gen. Order 50]

MALT AND CEREAL BEVERAGES IN DESIGNATED COUNTIES IN NORTH CAROLINA

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the District Director of the Raleigh, North Carolina District Office of Region IV of the Office of Price Administration by General Order No. 50, issued by the Administrator of the Office of Price Administration, and Region IV Revised Delegation Order No. 17, issued May 5, 1944, it is hereby ordered:

SECTION 1. *Purpose of order.* Order No. G-1 under General Order 50 issued by the District Director of the Raleigh, North Carolina District Office of the Office of Price Administration on the 27th day of June, 1944, was issued for the purpose of establishing specific maximum prices for malt and cereal beverages, including those commonly known as ale, beer and near-beer, either in containers or on draught when sold or offered for sale at retail by any eating or drinking establishment, either for consumption on the premises or when carried away. Order No. G-1 under General Order 50 is redesignated Revised Order No. G-1 under General Order 50, and is revised and amended as herein set forth and issued for the same purpose and for the further purpose of clarifying and strengthening the order.

SEC. 2. *Geographical applicability.* The provisions of this order extend to all eating and drinking places or establishments located within the limits of the following named counties in the State of North Carolina: Alamance, Beaufort, Bertie, Bladen, Brunswick, Camden, Carteret, Caswell, Chatham, Chowan, Columbus, Craven, Cumberland, Currituck, Dare, Duplin, Durham, Edgecombe, Franklin, Gates, Granville, Greene, Halifax, Harnett, Hertford, Hoke, Hyde, Johnston, Jones, Lee, Lenoir, Martin, Moore, Nash, New Hanover, Northampton, Onslow, Orange, Pamlico, Pasquotank, Pender, Perquimans, Person, Pitt, Sampson, Scotland, Tyrrell, Robeson, Vance, Wake, Warren, Washington, Wayne and Wilson.

SEC. 3. *Ceiling prices.* (a) On and after September 11, 1944, if you operate an eating or drinking establishment, you may not sell or offer for sale any beverage subject to this order at prices higher than

the applicable ceiling prices listed in the appendices hereof. You may, of course, charge lower prices at any time.

(b) If you sell any beverage subject to this order which is not specifically listed herein, and if you believe that the maximum price specified herein for such beverage is not appropriate to such beverage, you may make application to the Raleigh North Carolina District Office of the Office of Price Administration requesting that such beverage be specifically included in the appendices hereof. With or without such application, the Raleigh, North Carolina District Office of the Office of Price Administration may, at any time, and from time to time, add new or unlisted beverages, brands, types or sizes together with maximum prices for same to the lists set forth in the appendices hereof.

(c) You may not add any taxes to your ceiling prices set forth in the appendices hereof except those specifically provided therein, as all other taxes were taken into consideration in establishing the ceiling prices for each group of sellers.

SEC. 4. *How to figure your ceiling prices.* (a) This order divides eating and drinking establishments into three different groups and gives each group a different ceiling price. The group to which you belong depends on your legal ceiling prices in effect during the base period of April 4–10, 1943. You must figure the group to which you belong on the basis of your correct legal ceiling prices for that period.

(b) The group to which you belong depends on your legal ceiling prices for the beverages subject to this order in effect during the base period of April 4–10, 1943. If your legal ceiling prices for various brands and types of beverages subject to this order vary so that your ceiling prices on some brands or types seem to place you in one particular group and ceiling prices on others seem to classify you into a different group, you must classify yourself into the particular group representative of the prices at which the greater number of your sales were made. For the purpose of determining your classification as herein provided, no consideration may be given to sales of beverages listed in appendices other than Appendix A hereof. You must figure the group to which you belong as follows:

(1) *Group 1B.* Your establishment belongs to Group 1B if, during the base period of April 4–10, 1943, your legally established ceiling prices for beverages subject to this order were the same as, or more than, the prices listed in Appendix A hereof for Group 1B establishments.

(2) *Group 2B.* Your establishment belongs to Group 2B if, during the base period of April 4–10, 1943, your legally established ceiling prices for beverages subject to this order were the same as, or more than, the prices listed in Appendix A hereof for Group 2B establishments, but were less than those provided in Appendix A for Group 1B establishments.

(3) *Group 3B.* Your establishment belongs to Group 3B if, during the base period of April 4–10, 1943, your legally established ceiling prices for beverages subject to this order were less than the prices listed in Appendix A hereof for Group 2B establishments. All establishments not in operation during the base period of April 4–10, 1943, and all establishments which begin operating after the effective date of this order also belong to Group 3B.

(c) If your eating or drinking establishment was not in operation during the base period of April 4–10, 1943, but was in operation prior to the effective date of this order, and if the nearest similar eating or drinking establishment of the same type is one which is properly classified in Group 1B or Group 2B, you may, but not later than the first day of October, 1944, file an application with the Raleigh, North Carolina District Office of the Office of Price Administration, requesting that your establishment be reclassified into the same group to which its nearest similar eating or drinking establishment of the same type belongs. Until your application is acted upon, and unless your establishment is reclassified, it must retain the classification of a Group 3B seller, and must observe the ceiling prices as provided for that group in the appendices hereof. All such applications for reclassification must contain the following information:

(1) Name and address of the establishment and of its owner or owners.

(2) A description of the establishment showing its type (such as night club, hotel, restaurant, tavern) and the date it began operating.

(3) The selling prices by brand name of all beverages sold since the beginning of its operation.

(4) The names of the three nearest eating and drinking establishments of the same type, and their group number as determined under this order.

(5) Any other information pertinent to such application or which may be requested by the Office of Price Administration.

(d) If your eating and drinking establishment begins operation after the effective date of this order, you are classified as a Group 3B seller and may not sell or offer for sale beverages subject to this order at prices higher than those set forth for Group 3B sellers in the appendices hereof. However, if your nearest eating and drinking establishment of the same type is one which is properly classified as a Group 1B or Group 2B seller, you may, within and not later than 30 days from the time you begin operating, file an application with the Raleigh, North Carolina District Office, requesting that your establishment be reclassified into the same group in which its nearest eating and drinking establishment of the same type belongs. Until your application is acted upon and unless your establishment is reclassified, it must retain the classification of Group 3B and must observe the ceiling prices as provided for that group in the appendices hereof. All such applications for reclassification must contain the same information required by paragraph (c) of this section.

(e) After you have figured your proper group number under this section and have filed the required statement with your War Price and Rationing Board as provided in section 5, you may not change your group classification except as otherwise provided by this order.

SEC. 5. *Filing with War Price and Rationing Board.* (a) When you have figured your proper group under section 4 above you must, on or before September 11, 1944, file with your War Price and Rationing Board a signed statement with the name and address of your establishment, its type (such as night club, hotel, restaurant, tavern) and the group to which it belongs. Thereupon the War Price and Rationing Board will send you a card bearing your group number. If you begin operating your establishment after the effective date of this order, you must likewise file said signed statement in this manner as soon as you begin operating.

(b) If you are now in operation and have not filed the signed statement showing the group number to which you belong as provided in paragraph (a) above, you must do so immediately. If you have failed to file said signed statement as herein required, you are hereby classified as a Group 3B seller and you may not sell or offer for sale any beverage subject to this order at prices higher than the applicable ceiling price listed for Group 3B sellers in the appendices hereof. Failure to file said signed statement as herein provided is a violation of this order and also subjects you to the other penalties herein provided.

SEC. 6. *Modification of prices.* After you have determined your group and have put into effect the ceiling prices provided in this order for that group, the Office of Price Administration District Director for the District in which your establishment is located may direct you to charge lower ceiling prices:

(a) If, on the basis of your April 4–10, 1943 legal ceiling prices, this order properly applied, requires you to be placed into a group with lower ceiling prices.

(b) If, as a result of speculative, unwarranted, or abnormal increases, contrary to the purpose of the Emergency Price Control Act, as amended, your legal ceiling prices on April 4–10, 1943 were excessive in relation to the legal ceiling prices of other comparable establishments in the District.

SEC. 7. *Exempt sales.* The following sales are exempt from the operation of this order. However, unless they are otherwise exempt from price control, they shall remain subject to the appropriate maximum price regulation or order:

(a) Sales by persons on board common carriers (when operated as such), including railroad dining cars, club cars, bar cars, and buffet cars, or sales otherwise governed by Restaurant Maximum Price Regulation 1 (Dining Car Regulation).

(b) Sales by public and private hospitals insofar as they serve to patients.

(c) Sales by eating cooperatives formed by members of the Armed Forces (as, for example, officers' mess) operated as a non-profit cooperative (where no part of the net earnings inures to the benefit of any individual) which sells food items or meals on a cost basis (or

as near thereto as reasonable accounting methods will permit), and substantially all sales of which are made to members of the Armed Forces who are members of the cooperative.

(d) Sales where the beverages subject to this order are included in, and sold as part of, a meal and where the price of such beverage is included in the price of the meal. (Such sales remain under Restaurant Maximum Price Regulation 2.)

(e) Sales by the War Department or the Department of Navy of the United States through such Departments' sales stores, including commissaries, ships' stores ashore, and by stores operated as army canteens, post exchanges, or ships' activities.

(f) Bona fide private clubs insofar as such clubs sell only to members or bona fide guests of members. Whenever such clubs sell to persons other than members or bona fide guests of members, such clubs shall be considered for all sales an eating or drinking establishment and subject to this order. No club shall be considered to be exempt as a private club, within the meaning of this subparagraph, unless such club is a nonprofit organization and is recognized as such by the Bureau of Internal Revenue and unless its members pay dues (more than merely nominal in amount), are elected to membership by a governing board, membership committee or other body, and unless it is otherwise operated as a private club.

No club organized after the effective date of this order shall be exempt unless and until it has filed a request for exemption with the District Office of the Office of Price Administration of the area in which it is located, furnishing such information as may be required, and has received a communication from such office authorizing exemption as a private club.

SEC. 8. *Evasion.* If you are an operator of an eating or drinking establishment you must not evade the ceiling prices established by this order by any type of scheme or device; among other things (this is not an attempt to list all evasive practices) you must not:

(a) Institute any cover, minimum, bread and butter, service, corkage, entertainment, check-room, parking or other special charges which you did not have in effect on any corresponding day during the seven-day period from April 4–10, 1943, or

(b) Increase any cover, minimum, bread and butter, service, corkage, entertainment, check-room, parking or other special charges which you had in effect on any corresponding day during the seven-day period from April 4–10, 1943, or

(c) Require as a condition of sale of a beverage the purchase of other items or meals, except that during the hours from 11:30 a. m. to 1:30 p. m. and the hours from 6:00 p. m. to 8:00 p. m., any eating or drinking establishment which derives not less than 70% of its gross revenue from the sales of prepared food items (not including beverage items) sold for consumption on the premises may refuse to sell beverages subject to this order for consumption on the premises during those hours to persons who do not also purchase food items.

SEC. 9. *Records and menus.* If you are an operator of an eating or drinking establishment subject to this order you must observe the requirements of General Order 50, as well as Restaurant Maximum Price Regulation No. 2, either as revised and amended or as may be revised and amended, with reference to the filing and keeping of menus and the preservation and keeping of customary and future records. Among other provisions of General Order 50, are the following:

(a) Preserve all existing records relating to prices, cost and sales of food items, meals and beverages;

(b) Continue to prepare and maintain such records as have been ordinarily kept;

(c) Keep for examination by the Office of Price Administration two copies of each menu used by the establishment each day, or a daily record in duplicate of the prices charged for food items, beverages and meals. If the establishment has customarily used menus, it must continue to do so.

SEC. 10. *Posting of prices.* If you are an operator of an eating or drinking establishment you must post and keep posted, the ceiling prices of the beverages subject to this order sold by your establishment, either by:

(a) Supplying the customers menus or bills of fare showing the beverages subject to this order which are sold by the establishment; and showing the brand name, quantity and ceiling price of each kind and type of bottled beverage, and the quantity and ceiling price of all beverages sold on draught, or

(b) Posting a sign giving the same information as required on menus or bills of fare by subparagraph (a) above. Such a sign must be posted in the establishment at a place where it can easily be read by the customers. If you prefer you may use a similar sign furnished by the Office of Price Administration.

(c) No establishment which fails to comply with the posting requirements of this section may sell any beverage subject to this order at a higher price than provided for Group 3B sellers in the appendices hereof during such time as such establishment is not in compliance with this section.

SEC. 11. *Posting of group number.* (a) If you operate an eating or drinking establishment selling at retail beverages subject to this order you must post, and keep posted, in the premises a card or cards clearly visible to all purchasers showing the group number of your establishment as classified under this order. The card must read "OPA 1B", "OPA 2B", or "OPA 3B", whichever is applicable. You may use the card or cards furnished you for this purpose by the War Price and Rationing Board.

(b) No establishment which fails to comply with the posting requirements of this section may sell any beverage subject to this order at a higher price than provided for Group 3 sellers in the appendices hereof during such time as such establishment is not in compliance with this section.

SEC. 12. *Receipts and sales slips.* Regardless of whether or not receipts have customarily been issued, upon request by any customer at the time of payment, a receipt containing a full description of the beverage sold and the price of same must be issued. Such receipts must show the date of issue and bear the signature of the person issuing same. If you have customarily issued receipts or sales slips you may not now discontinue the practice.

SEC. 13. *Operation of several places.* If you own or operate more than one place selling beverages subject to this order, you must do everything required by this regulation for each place separately.

SEC. 14. *Enforcement.* If you violate any provision of this regulation you are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspensions of licenses, provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 15. *Licensing.* The provisions of Licensing Order No. 1 licensing all persons who make sales under price control, are applicable to all sellers subject to this order. If you are a seller subject to this order your license is suspended for violation of the license or of the order. If your license is suspended you may not, during the period of suspension, make any sale for which your license has been suspended.

SEC. 16. *Relation to other maximum price regulations.* This order supersedes the provisions of Maximum Price Regulation No. 259 and the General Maximum Price Regulation insofar as such provisions were applicable to sales at retail by eating and drinking establishments of beverages subject to this order. Sales of beverages subject to this order when sold as part of a meal and when the price of same is included in the price of the meal remain subject to the provisions of Restaurant Maximum Price Regulation 2.

SEC. 17. *Definitions.* (a) "Malt beverage" is any malt beverage produced either within or without the Continental United States, and includes those commonly designated as beer, lager beer, ale, porter and stout.

However, grocery and other stores that do not sell food items or meals, or beverage for immediate consumption on the premises are specifically excluded from this definition.

(g) "Other definitions". Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, and in § 1499.20 of the General Maximum Price Regulation, shall apply to the other terms used herein.

SEC. 18. *Transfers of business or stock in trade.* If the business assets; or stock in trade of any establishment are hereafter sold or otherwise transferred, or have been sold or transferred subsequent to April 10, 1943, and the transferee carries on the business or continues to sell malt beverages covered by this order in the same location, the maximum prices of the transferee shall be the same as those to which its transferor would have been subject if no such transfer had taken place, and its obligations to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available or turn over to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record-keeping requirements of this order. If there is a lapse of business operations in connection with such a transfer for a period of sixty days, selling prices shall be determined as provided in section 4 for a new seller.

SEC. 19. *Changes in location.* If any establishment is hereinafter moved to a new location, the establishment shall be considered a new seller under this order and shall determine its ceiling prices under the provisions of section 4.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the District Director of the Roanoke (Virginia) District Office of the Office of Price Administration by section 16 of Restaurant Maximum Price Regulation No. 2, it is hereby ordered.

Section 1. *Posting requirements.* If you own or operate an eating or drinking establishment, you must, on or before August 16, 1944, show on a poster to be supplied by the Office of Price Administration, your lawful ceiling prices for 40 food items, and meals, as set forth in this order.

(a) First list on the poster as many of the food items and meals listed in Appendix A of this order, as you offer for sale and your ceiling prices for each. If you find in Appendix A several tables of food items and meals, choose the table most applicable to your establishment.

The alien may apply simultaneously for more than one of these three reliefs.

The alien shall be warned that any statements made by him in such applications may be considered as evidence in any proceedings to determine his right to enter, reenter, pass through, or reside in the United States, and that false answers to any of the questions in such applications may bar him from the relief which he requests. Any such applications shall then be introduced into evidence and made a part of the record.

Section 150.6 (h) is amended to read as follows:

(h) *Hearing; order in which evidence shall be presented.* The presiding inspector or examining inspector, when interrogating the alien at the hearing, shall develop in order (1) the facts relating to alienage and nationality; (2) the facts relating to the charges in the warrant of arrest or to any additional charges applicable; (3) the facts relating to the alien's eligibility for any relief applied for under paragraph (g) of this section; (4) the personal history data required by paragraph (j) of this section; and (5) other pertinent information not already obtained for the record.

Chapter IX—War Production Board

Subchapter B—Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-634]

ALLAN H. W. HIGGINS AND LOU C. HIGGINS

Allan H. W. Higgins and his wife, Lou C. Higgins, in November 1943 began construction at 6 Joy Street, Boston without authorization from the War Production Board. The premises at 6 Joy Street was a large four story house which had been most recently occupied as a one-family residence. The construction first initiated by the respondents was limited to the first floor and was for the purpose of preparing an apartment for the respondents' personal use. The construction thus initiated exceeded the $200 limitation imposed by Conservation Order L-41. In January 1944 the respondents decided to convert the upper floors into nine or ten additional apartments for the purpose of leasing to others. The construction initiated in January 1944 was greatly in excess of the $1000 limitation permitted by Conservation Order L-41. Allan H. W. Higgins and Lou C. Higgins were aware of War Production Board restrictions on construction and doing this construction without authorization constituted wilful violations of Conservation Order L-41. These violations of Conservation Order L-41 have diverted critical materials to uses not authorized by the War Production Board and have hampered and impeded the war effort of the United States. In view of the foregoing, it is hereby ordered that:

§ 1010.634 *Suspension Order No. S-634.* (a) Neither Allan H. W. Higgins nor Lou C. Higgins their successors or assigns, nor any other person, shall do any construction on the premises at 6 Joy Street, Boston, Massachusetts, including putting up or altering the structure, unless hereafter specifically authorized in writing by the War Production Board and the Federal Housing Administration.

(b) Nothing contained in this order shall be deemed to relieve Allan H. W. Higgins or Lou C. Higgins, their successors and assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 27th day of September 1944.

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 5, as Amended Sept. 25, 1944]

MAINTENANCE, REPAIR AND OPERATING SUPPLIES

§ 3175.5 *CMP Regulation 5*—(a) *Purpose and scope.* (1) The purpose of this regulation is to provide a uniform procedure for obtaining maintenance, repair and operating supplies, both in the case of controlled materials obtained by use of allotment symbols under the Controlled Materials Plan and in the case of materials or products obtained by preference ratings. Persons requiring maintenance, repair and operating supplies, in any form, in such quantities as are available from warehouses or distributors under CMP Regulation No. 4, or at retail without preference ratings or allotments, may obtain the same without using the procedure provided in this regulation, but subject to all applicable limitations in War Production Board regulations and orders.

(2) The provisions of this regulation shall not apply to any governmental agency (other than Claimant Agencies) or to any institution, as the same are defined in paragraphs (b) (1) and (b) (2) of CMP Regulation No. 5A, regardless of whether it is engaged in the production of any product or in any activity or service listed in any schedule attached to this regulation or not. Procedures for the obtaining of maintenance, repair and operating supplies by such governmental agencies and by such persons and institutions are provided under CMP Regulation No. 5A. This regulation is also inapplicable to certain purchases by Claimant Agencies or for export as more fully provided in paragraph (g).

(3) [Deleted Feb. 26, 1944]

NOTE: Canadians will obtain MRO in the United States under Canadian Order PO 5 B.

(b) *Definitions.* Maintenance, repair and operating supplies and minor capital additions (which are sometimes collectively referred to as "MRO") have the following meanings in this regulation and in other War Production Board regulations and orders unless otherwise indicated:

(1) "Maintenance" means the minimum upkeep necessary to continue a facility in sound working condition, and "repair" means the restoration of a facility to sound working condition when the same has been rendered unsafe or unfit for service by wear and tear, damage, failure of parts or the like: *Provided*, That neither maintenance nor repair shall include the improvement of any plant, facility or equipment, by replacing material which is still usable, with material of a better kind, quality or design, except as provided in paragraph (b) (3) of this regulation.[1]

(2) "Operating supplies" means any materials or products which are normally carried by a person as operating supplies according to established accounting practice and are not included in his finished product, except that materials included in such product which are normally chargeable to operating expense may be treated as operating supplies. The term also includes such items as hand tools purchased by their employer for sale to his employees for use only in his business, in those cases where they would constitute operating supplies under established accounting practice if issued to employees without charge.[2]

(3) Minor capital additions may be obtained under the procedures provided for in this regulation for obtaining maintenance, repair and operating supplies where the cost of the minor capital addition does not exceed $500 (excluding the purchaser's cost of labor[3]) for any one complete capital addition. The term "one complete capital addition" includes a group of items customarily purchased together and all items which would normally be purchased as part of a single project or plan. No capital addition shall be subdivided for the purpose of coming within this paragraph, and where the capital addition involves construction, authorization to construct must be obtained to the extent required by Conservation Order L-41 or by any other applicable order or regulation of the War Production Board.[4]

(4) Production materials required by a manufacturer for physical incorporation in his products, which products he sells for use as maintenance, repair or operating supplies, may be obtained as provided in CMP Regulation No. 1 and in CMP Regulation No. 3, and such production materials shall not be deemed maintenance, repair or operating supplies, as to such manufacturer.

(c) *Controlled materials.* (1) Subject to the quantity restrictions contained in paragraph (f) of this regulation, any person engaged in the business of producing any product or conducting any business listed in Schedule A, requiring delivery of any controlled material, for maintenance, repair or operating supplies in the conduct of such business,[5] may obtain the same by placing on his delivery order substantially the following certification (or the alternative form of certification provided in CMP Regulation No. 7), signed manually or as provided in Priorities Regulation No. 7:

CMP allotments symbol MRO—The undersigned certifies, subject to the criminal penalties for misrepresentation contained in section 35 (A) of the United States Criminal Code, that the controlled materials covered by this order are required for essential maintenance, repair or operating supplies, to be used for a purpose listed in Schedule I or Schedule II of CMP Regulation No. 5 and that delivery thereof will not result in a violation of the quantity restrictions contained in paragraph (f) of said regulation.

An order bearing such certification shall constitute an authorized controlled material order.

(2) [Deleted Feb. 26, 1944]

(3) [Deleted Feb. 26, 1944]

(d) *Preference ratings for maintenance, repair and operating supplies.* (1) Subject to the quantity restrictions contained in paragraph (f) of this regulation, orders calling for delivery of maintenance, repair or operating supplies other than controlled materials (regardless of whether such supplies be Class A products, Class B products, or other products or materials) are hereby assigned preference ratings as indicated in Schedule A for maintenance or repair of facilities required for producing any product or conducting any business listed in that schedule or for necessary operating supplies for such production or business.

(i) [Deleted Sept. 28, 1944.]

(ii) [Deleted Sept. 28, 1944.]

(iii) [Deleted Sept. 28, 1944.]

(2) A preference rating of AA-5 is hereby assigned for necessary maintenance or repair of facilities required for producing any product or conducting any business not listed in Schedule A, or for necessary operating supplies for any such purpose.

NOTE: Subparagraph (3), formerly (2), redesignated Sept. 28, 1944.

(3) A preference rating assigned under this paragraph (d) shall be applied only by use of the following certification (or the alternative form of certification provided in CMP Regulation No. 7), signed manually or as provided in Priorities Regulation No. 7:

Preference rating ..... (specify rating)—MRO. The undersigned certifies, subject to the criminal penalties for misrepresentation contained in section 35 (A) of the United States Criminal Code, that the items covered by this order are required for essential maintenance repair or operating supplies; that this order is rated and placed in compliance with CMP Regulation No. 5; and that the delivery requested will not result in a violation of the quantity restrictions contained in paragraph (f) of said regulation.

(e) *Plants engaged in several activities.* If a single plant or operating unit is engaged in several activities which are not all listed on the same schedule (or if some are so listed and others are unlisted), and it is impracticable to apportion requirements for maintenance, repair and operating supplies between such activities, the principal activity alone shall be considered for purposes of determining whether controlled materials may be obtained under paragraph (c) of this regulation and also for determining which preference ratings may be applied under paragraph (d).

(f) *Quantity restrictions.* A person who uses the MRO rating or symbol assigned by this regulation must not buy any more material and products than is permitted under this paragraph.

(1) *General quota.* A person must not order for delivery[6] in any calendar quarter MRO (maintenance, repair and operating supplies) costing more than one-

fourth of what he spent for MRO in 1942 (or his fiscal year ending nearest to December 31, 1942).

(2) *Seasonal quota.* A person engaged in a seasonal business must not order MRO for delivery[1] in any calendar quarter in an amount more than the amount he spent for MRO in the corresponding quarter of 1942. A person may choose either the seasonal quota explained in this paragraph or the general quota explained in sub-paragraph (1) above, but he may not afterwards change to the other quota without special authorization by the War Production Board.

(3) *Quota for new businesses.* In the case of a plant or other operating unit which was not in operation during the base periods mentioned in subparagraphs (1) or (2) above, the person operating the plant may take as a quota the amount he spent for MRO during the first quarter of 1943 (or during the part of the quarter the plant was in operation) reasonably adjusted for seasonal or other variable factors. However, he must first notify the War Production Board, in writing, of the base which he is taking, why he is selecting that base, and what adjustments he has made. In the case of a plant starting operations after February 28, 1943, MRO may be bought under this regulation in the minimum amounts necessary for operation up to $5,000 per quarter. If more than this amount is needed, application may be made to the War Production Board as provided in paragraph (f) (8).

(4) *When increased quotas can be used as a base.* If a person's quota has been increased by specific authorization of the War Production Board pursuant to application, he may continue to operate on the basis of the increased quota. However, if a substantial part of the increase was to take care of an abnormal situation, as for example, where he required a large amount of special tools and equipment in order to produce a new product, he may not use that increased quota as a base.[1]

(5) *How to figure the quota.* In figuring his quota, a person must include every expenditure during the base period which he charged to a maintenance, repair or operating supplies account. He must not include any expenditure which was charged to a capital account. In each quarter he must charge against his quota (i) everything he buys for MRO, whether he uses the MRO rating and symbol, or another rating or symbol, or no rating; and (ii) material and products he buys for minor capital additions for which he uses the MRO rating or symbol. (Note, that in deciding whether a single capital addition falls within the cost limits of paragraph (b) (3), the cost of all material and products must be included whether a preference rating or symbol is used or not). In figuring his quota, a person may at his option exclude the cost of his own labor, or the cost of any item on List A or B of Priorities Regulation No. 3, as long as he excludes cost of such items both from the computation of the quota and from charges against the quota.

(6) *Records.* Each person who is subject to this paragraph (f) must figure his quota and must keep his computation and supporting work sheets in his files for two years after his last purchase under the regulation. He must indicate on his computation any election which he makes under this paragraph (f), and in the case of paragraph (f) (3) "Quota for new businesses" or (f) (4) "When increased quotas can be used as a base", he must indicate the base which he selects. He must also maintain a record of his expenditure for a period of not less than two years.

(7) *Treatment of separate plants.* A person who has several plants or other operating units which maintain separate records of maintenance, repair and operating supplies shall treat each of them separately for purposes of complying with the provisions of this paragraph (f).

(8) *Applications for increased quota.* In any case where the quota provided in this paragraph (f) is not enough for necessary operations, a person may apply for a larger quota by letter in triplicate sent to the War Production Board, Washington 25, D. C., Reference: CMP Regulation 5, stating the relevant facts. Direction No. 18 explains what facts should be set forth in the letter of application.

(9) *Persons who use less than $5,000 a year worth of MRO not limited.* The quantity restrictions in this paragraph (f) shall not apply to persons whose aggregate requirements of maintenance, repair and operating supplies do not exceed $5,000 per year.

(10) *Further reports and limitations in special cases.* The War Production Board may, by further regulations or orders, require specified persons or classes of persons to file applications or reports regarding their requirements of maintenance, repair and operating supplies and may prescribe specific quantitative limits for the same, either larger or smaller than the limits provided above in this paragraph (f).

(g) *Special provisions for Claimant Agencies, exports and ship repairs.* Maintenance, repair, and operating supplies required for export (except to the extent authorized under Direction 20), or by Claimant Agencies as regular procurement items covered by specific programs (except for the purposes mentioned in Schedule A), or material required for ship repairs programmed by the Maritime Commission, shall not be obtained under this regulation, but, if they are controlled materials or Class A products, shall be obtained only by the use of allotments in the same manner as production materials under CMP Regulation No. 1, and, if they are other materials or products, shall be obtained only by such preference ratings as may be specifically assigned for the purpose.

(g–1) *Use of customer's or tenant's MRO symbol and rating.* (1) Any person (such as a service repair shop) engaged in the business of doing maintenance or repair work, or the installing of minor capital additions, for others may use the same allotment symbol and preference rating (including any allotment symbol or preference rating assigned for MRO by CMP Regulation 5A or any P or U order) to obtain materials needed in the performance of the work which his customer would be entitled to use if the customer did the work himself. The cost of materials used in the performance of maintenance or repair work, or the installing of minor capital additions, shall be treated as expenditures of the customer for the purpose of computing his quantity restrictions under paragraph (f). A person engaged in such business may, instead, request an allotment of controlled materials and a preference rating by applying to the War Production Board on Form CMP-4B, but, if he does so, he must use that method exclusively and may not use a customer's rating or symbol.

(2) A landlord may use his tenant's allotment symbol and rating to obtain maintenance, repair and operating supplies (including controlled materials) for the leased property if the tenant is engaged in the production of a product or in a business listed in Schedule I or II or if the tenant is assigned a rating or symbol for MRO CMP Regulation 5A or by any P or U order; but if the same property is occupied by several tenants and the supplies are not for the exclusive benefit of a single tenant the landlord may only use a tenant's rating if 75 percent or more of the leased property is leased to tenants on Schedule I or II and, in such case, if any are on Schedule II, he can only use the AA–2 rating.

(3) A person who leases equipment to others which he agrees to keep in good order may use either his own or his customer's rating and symbol (regardless of whether the rating is assigned by this regulation or CMP Regulation 5A or any order in the P or U series) to get materials needed to repair and maintain the equipment.

(h) *Restrictions on use of MRO symbol, rating, and materials*—(1) *Use of symbol and rating.* No person shall use the MRO symbol or the preference rating assigned to him by this regulation to get anything except materials which he needs for essential maintenance, repair or operating supplies, or minor capital additions as permitted by paragraph (b) (3). If he is assigned different ratings by this regulation for different businesses and it is practicable to segregate his purchases, he must not use a higher rating to get material for a purpose for which he is assigned a lower rating. If it is not practicable for him to segregate his purchases, paragraph (e) explains what rating he may use.

(2) *Use of material.* If a person has bought material under this regulation for MRO and then finds that he has another use for it, he may use the material for the other purpose if a preference rating or allotment symbol is assigned to him by any certificate or order for that purpose. However, if he uses the material for another use he may not replace it in inventory by use of the rating or symbol assigned by this regulation. If he replaces it, he must use the rating or symbol assigned for the purpose for which the materials were used. Also, if he uses material bought under this regulation for another use, his records must be adequate to show that his purchases of material are substantially proportionate to his authorized uses. For example, a manufacturer has a rating of AA–2 under this regulation for MRO and also has a rating of AA–3 for a construction project. He may take lumber from his MRO inventory which he bought on the AA–2 rating and use it on the construction job, but if he replaces it in his inventory he must use the AA–3 rating for this purpose, so that he will not, in effect, have filled both his MRO and his construction requirements at the AA–2 rating. Exchanges of this kind may be made only where the material is acquired in good faith for use as MRO. The manufacturer may not use the AA–2 ratings to get lumber if he is getting it specifically for use in the construction project.

(i) *Inventory restrictions.* Nothing in this regulation shall be deemed to authorize any person to receive any delivery of maintenance, repair or operating supplies if acceptance thereof would increase his inventory above a practicable working minimum as provided in § 944.14 of Priorities Regulation No. 1 or would exceed the inventory limitations prescribed for such person by CMP Regulation No. 2, or by any other applicable regulation or order of the War Production Board.

(j) *Additional assistance in individual cases.* Any person requiring maintenance, repair or operating supplies who is unable to obtain them with the rating assigned to him by this regulation, and any person requiring any controlled material for maintenance, repair or operating supplies who is not listed in Schedule A and who is unable to obtain it from a warehouse or distributor under CMP Regulation No. 4 may apply to the nearest local office of War Production Board on Form WPB–541 (formerly PD–1A) for a higher rating, or the right to use the MRO symbol to obtain controlled materials. Application for an increase in the quantity of expenditures for maintenance, repair and operating supplies permitted by paragraph (f) of this regulation shall, however, be filed in the manner specified in subparagraph (8) of paragraph (f).

(k) *Effect on other orders and procedures.* (1) The preference ratings and allotment symbols assigned by this regulation may be used by any person, unless he is engaged in an activity or business which is covered by an order in the P or U series which specifically provide that the ratings assigned by CMP Regulation No. 5 may not be used.

(2) [Deleted Feb. 26, 1944]

(3) [Deleted Feb. 26, 1944]

(4) When an order in the "E", "L" or "M" series assigns a specific preference rating to deliveries of any particular material to be used by a particular industry or for a specific purpose, such preference rating shall control and the preference ratings hereby assigned may not be applied.

(5) Nothing in this regulation shall be construed to relieve any person from complying with any applicable priorities regulation or order of the War Production Board (including orders in the "E," "L" and "M" series) or with any order of any other competent authority.

(l) *Industry reclassification.* Any person who is of the opinion that the business activity in which he is engaged should be assigned a higher preference rating for its MRO than it is assigned by this regulation may apply to have such higher rating assigned by filing a letter, in triplicate, with the appropriate Industry Division setting forth the relevant facts and the reasons why he considers such request should be granted.

The War Production Board may assign the higher rating to such activity by appropriate amendment to Schedule A or, in special cases, may permit the applicant to operate under this regulation to the same extent as though his business activity were so listed in Schedule A.

(m) *Records.* Each person acquiring maintenance, repair or operating supplies pursuant to this regulation shall keep and preserve, for a period of not less than two years, accurate and complete records of all such supplies so acquired, and used, which shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(n) *Communications.* All communications concerning this regulation should be addressed to: War Production Board, Washington 25, D. C., Ref: CMP Regulation No. 5.

(o) *Restriction on use of ratings.* The preference rating assigned by this regulation cannot be used to get any of the items shown on List A or B of Priorities Regulation No. 3.

(p) *Penalties for misrepresentation.* The placing of any order bearing a certification or symbol as provided by this regulation shall constitute a representation, subject to the criminal penalties of section 35 (A) of the United States Criminal Code (18 U. S. C. 80), that the person placing the order is entitled, under the terms of this regulation to use of the symbol or preference rating indicated thereon.

Issued this 28th day of September 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

Interpretation 1: Obsolete Sept. 28, 1944.

Interpretation 2

A person who is permitted to get controlled materials under paragraph (c) (1) of CMP Regulation No. 5 for maintenance, repair and operating supplies is not entitled to use the MRO symbol for purposes of allotting controlled materials to others. For example, a manufacturer of a product listed in Schedule A of the regulation requires a spring as a repair part. He may use the MRO symbol to place an authorized controlled material order for steel which he will fabricate into the spring which he requires, but if he buys the spring from a spring manufacturer, he may not make an allotment with the MRO symbol to the spring manufacturer. The spring manufacturer receives his allotment direct from the War Production Board as provided in paragraph (k-1) of CMP Regulation No. 1. (Issued April 20, 1943.)

Interpretation 3

NOTE: Interpretation 3 superseded by subsequent amendments.

Interpretation 4

NOTE: Interpretation 4 was revoked Nov. 19, 1943.

Interpretation 5

GENERAL OFFICES, BRANCH OFFICES, SALESROOMS, ETC.

The ratings and symbol assigned by CMP Regulation No. 5 to a particular business may be used to obtain maintenance, repair and operating supplies for general offices, branch offices, salesrooms and other facilities essential to the conduct of the business. (Issued May 20, 1943.)

Interpretation 6

COMMON CARRIERS

Persons engaged in "public transportation" are included in Schedule A of CMP Regulation No. 5. This term includes any person who holds himself out to the general public as engaged in transportation, regardless of how he is classified under any Federal or State statute. Any person who would be considered a common carrier under common law is included within the term.

A private or contract carrier is not included. (Issued May 20, 1943.)

Interpretation 7

MANUFACTURE AND DISTRIBUTION OF FOOD PRODUCTS

(a) "Industrial food manufacturing, processing, packaging, preservation and storage" is included in Schedule A of CMP Regulation No. 5 and persons engaged in such occupation are entitled to use a rating of AA-1 and the MRO symbol in purchasing maintenance, repair and operating supplies needed in connection with the conduct of their business.

(b) Distribution of food products, as distinct from their production, does not constitute industrial food manufacturing or processing under Schedule A and is not included elsewhere in Schedule A of the regulation. Persons engaged in selling food products which they do not produce are only entitled to use the AA-5 rating to obtain maintenance, repair and operating supplies for their business.

(c) In those cases where a person is engaged in both producing and distributing food products he may, under paragraph (e) of the regulation, obtain his entire maintenance, repair and operating supply requirements at the rating assigned to the principal activity in which he is engaged where, and only where, it is impracticable to apportion requirements to his several activities. (Issued May 27, 1943.)

Interpretation 8

CAPITALIZED REPAIRS

Products or materials needed for repairs or replacements which are capitalized cannot be obtained under CMP Regulation No. 5 [§ 3175.5] except to the extent permitted by paragraph (b) (3) of the regulation relating to minor capital additions costing less than $500. (Issued July 17, 1943.)

Interpretation 9

RELATIONSHIP BETWEEN CMP REGULATION NO. 5 AND CONSERVATION ORDER L-41

(a) Order L-41 requires War Production Board authorization before beginning any construction work except in those cases where the order expressly states that authorization is not necessary.

(b) CMP Regulation No. 5 (§ 3175.5) may not be used to get materials or products for any construction work of the type which requires authorization under Order L-41, unless the authorization specifically says that CMP Regulation No. 5 may be used.

(c) In those cases where specific War Production Board authorization is not required before beginning construction, and where the materials needed for the construction cost no more than $500, CMP Regulation No. 5 may be used to buy materials and products needed for the construction. (Issued July 29, 1943.)

Interpretation 10

CONCRETE AND AGGREGATES

The term "products for structural use not elsewhere listed" appearing under "Building Materials" on Schedule A of CMP Regulation No. 5 includes light-weight aggregates, ready-mixed concrete and pre-mixed bituminous concrete. (Issued Nov. 9, 1943.)

Interpretation 11

PURCHASER'S COST OF LABOR FOR MINOR CAPITAL ADDITIONS

Interpretation No. 11 to CMP Regulation No. 5 is amended to read as follows: (a) Paragraph (b) (3) of CMP Regulation No. 5 permits the use of the MRO symbol and rating to get materials or equipment for a minor capital addition, where the cost of the minor capital addition does not exceed $500 "excluding the purchaser's cost of labor."

(b) This means that the cost of the materials or equipment going into the minor capital addition must not exceed $500. The cost of labor for the manufacture of the materials or equipment must be included in figuring their cost. The cost of labor used in construction or installation of the minor capital addition need not be included.

(c) This applies whether the owner of the plant uses his own employees to do the construction or installation work or hires an independent contractor to supply this construction or installation labor.

(d) It also applies where the owner of the plant gets an independent contractor to furnish the materials and the labor for the job, and where the owner of the plant buys a machine or other article and has the seller do the work of installation.

(e) Direction 15 to CMP Regulation 5 explains the rules for buying $500 worth of materials needed for installation or relocation of equipment which is not bought by use of the MRO rating or symbol. In that case, the same principles apply in determining what labor costs are to be included. Issued May 22, 1944.)

Interpretation 12

INCREASED QUOTAS FOR SEASONAL SUBDIVISIONS

(a) Paragraph (f) (4) of CMP Regulation No. 5 as amended on February 26, 1944, permits the use of a specific quota authorization as an increased quota for all following quarters. Thus if a particular company's quota has been increased by specific authorization during the fourth quarter of 1943 from $100,000 to $125,000 the company has a quota for each succeeding quarter of $125,000.

(b) In the case of a person operating under a seasonal quota under paragraph (f) (2), his quarterly quota varies from quarter to quarter based on the similar quarter of 1942. Consequently, when a seasonal quota has been increased by specific authorization for any one quarter, that increase does not increase all succeeding quarters, but may only be used as an increased quota during the same quarter of the following year. Thus if a company operating on a seasonal basis had a quota during the third quarter of 1943 of $10,000, and during the fourth quarter of 1943 of $50,000 and received an increase of the fourth quarter's quota from $50,000 to $60,000, its quota for the third quarter of 1944 would remain at $10,000, although its fourth quarter quota of 1944 would become $60,000.

(c) Where a company has received succeeding special authorizations increasing a quota, and where it is not on a seasonal basis, the last special authorization determines the company's quota during each following quarter. (Issued April 10, 1944.)

Interpretation 13

STAVES, HEADING, AND HOOPS

(a) Persons manufacturing wooden staves, heading, and hoops for barrels are included under the item "logging operations, saw mills, veneer mills, plywood mills, planing mills, shingle mills, and dry kilns operated in connection with saw mills" appearing in Schedule A of the regulation. They are, therefore, entitled to use the allotment symbol MRO and the preference rating AA-1 in buying MRO.

(b) Persons who make barrels as such are engaged in manufacturing "containers, all types except fibre containers, gas cylinders and ton containers, and nailed wooden boxes and crates" which appears in Schedule A of CMP Regulation 5. They may use, therefore, the MRO symbol and preference rating AA-2 in buying MRO. A person who makes both staves and barrels must segregate his purchases, unless impracticable to do so as explained in paragraph (e) of the regulation. (Issued April 18, 1944.)

Interpretation 14

PLANTS ENGAGED IN SEVERAL ACTIVITIES

Where a plant is engaged for the majority of a year principally in the production of a certain item listed in a schedule of CMP Regulation No. 5, and for a brief period during that year produces an item listed in another schedule of CMP Regulation No. 5, or produces an item which is unlisted, that plant, pursuant to paragraph (e) of CMP Regulation No. 5, may at all times use the rating assigned to the principal activity to procure maintenance, repair and operating supplies.

Example. A distillery which is producing industrial alcohol under Order M-69 may use the AA-1 MRO rating, assigned in Schedule A under Chemicals and Allied Products for the procurement of maintenance, repair and operating supplies. If that distillery has been authorized to operate its facilities exempt from the provisions of paragraph (b) and (e) of Order M-69 for the month of August, 1944, it may continue to use the AA-1 MRO rating for maintenance, repair and operating supplies. Similarly, if an industrial alcohol plant has been authorized under M-30 to tax pay or to deliver in bond for the purpose of tax paying, a portion of his production, such an authorization will not affect his right to use an AA-1 rating for maintenance, repair and operating supplies. (Issued July 22, 1944.)

PART 3281—PULP AND PAPER

[General Preference Order M–93, Direction 1, as Amended Sept. 28, 1944]

PREFERRED STATUS OF CERTAIN DELIVERIES AND USES OF WOOD PULP

The following direction is issued pursuant to General Preference Order M–93:

(a) *Reasons for this direction.* A producer's output of wood pulp is allocated by the War Production Board for his own uses and for delivery to other consumers on the basis of the amount which he reports to the War Production Board as his estimated output. If he over-estimates his production, it is necessary and appropriate in the public interest and to promote the national defense to assure that this does not result in cutting off wood pulp from the consumers to whom it was allocated and who have no other source of supply for the continuance of their minimum operations, and to assure that any necessary reductions are made in those grades of paper and paperboard not listed in paragraph (d) below.

(b) *Producers.* If a producer is unable during any calendar quarter to make all deliveries which he has been directed on Form WPB–699 to make, he shall reduce his deliveries to himself to the extent necessary to complete all deliveries to consumers other than himself.

(c) *Consumers.* If a consumer during any calendar quarter has, or anticipates that he will have, inventory and receipts of wood pulp less than the amount of wood pulp he is authorized on Form WPB–2973 to consume, he shall not use in the production of grades of paper and paperboard other than those listed in paragraph (d) below more wood pulp than the amount calculated by subtracting (1) the amount of his above-mentioned shortage of wood pulp from (2) the total amount of wood pulp he is authorized on Form WPB–2973 to use in the production of grades of paper and paperboard other than those listed in paragraph (d) below.

(d) *Grades of paper and paperboard having preferred production status:*

PART 1351—FOOD AND FOOD PRODUCTS

[FPR 1,[1] Amdt. 11 to Supp. 7]

PACKED FRUITS, BERRIES AND VEGETABLES OF THE 1944 AND LATER PACKS

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.*

Supplement 7 to Food Products Regulation No. 1 is amended in the following respects:

1. Section 14 (d) is amended by adding the following sentence: "The establishment for the first time of maximum prices or a pricing method for an item in this supplement does not require notification."

*Copies may be obtained from the Office of Price Administration.

[1] 9 F.R. 8057.

[1] 8 F.R. 9493, 9612, 10194, 10356, 10497, 10630, 10709, 10714.

2. In Appendix C to section 15, the "Explanation of how maximum prices for packed peas are figured" is amended in the following respects:

a. The phrase "section 5 (a) 2" at the end of the first sentence is amended to read "section 5 (a) (2)".

b. The following sentence is added to the second undesignated paragraph:

However, this rule does not apply when the only grade of packed peas sold during the base period was substandard grade.

c. The first sentence in the seventh undesignated paragraph is amended to read as follows:

The order in which the steps are to be taken in figuring the maximum price for an item of packed peas under subparagraph (2), (3) or (4) of section 5 (a) is as follows (however, note Exceptions below):

d. Step 8 in the seventh undesignated paragraph is amended by inserting a parenthesis after the figure "5" and deleting the parenthesis after the word "agencies".

e. The following text is added to the seventh undesignated paragraph:

Exception 1: If the processor sold only substandard grade of packed peas in the base period, the steps and the order in which they are to be taken differ from those set forth above. In this situation, the steps are as follows:

First, convert for container size;
Next, convert to Standard grade;
Next, add the appropriate permitted increase for Standard grade;
Then, proceed with step 8 and the following steps in the usual order as specified above.

Exception 2: If the processor is pricing substandard grade, the steps and order in which they are to be taken differ from those set forth above. In this situation, step 4 must follow step 6 instead of preceding step 5; otherwise, steps are to be taken in the usual order as set forth above.

NOTE: Both Exceptions 1 and 2 apply where the processor sold only substandard grade in the base period and is now pricing substandard grade. In this situation the usual procedure is varied in the manner indicated by both Exceptions.

3. In Table 3, Area 1, of Appendix B to section 16, the figures "2.07–2.39" in the column headed "Price ranges" under the column headed "No. 2½ Cans", and opposite the word "Standard" under "Halves, unpeeled" in the column headed "Style and grade", are amended to read "2.15–2.31".

This amendment shall become effective September 27, 1944.

Issued this 27th day of September 1944.

JAMES G. ROGERS, Jr.,
Acting Administrator.

PART 1351—FOOD AND FOOD PRODUCTS

[MPR 421,[1] Amdt. 16]

CEILING PRICES OF CERTAIN FOODS SOLD AT WHOLESALE

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation 421 is amended in the following respects:

1. Section 13 (d) is added to read as follows:

(d) *1944 pack of "canned" and frozen fruits and vegetables.* Each item of the 1944 pack of "canned" fruits and vegetables and frozen fruits and vegetables shall be considered a different item from the 1943 and earlier packs, and you shall figure a separate ceiling price for each item. You must figure your ceiling price for each such item in accordance with the provisions in sections 3, 4 and 5, basing your "net cost" on the first delivery to you of the item.

However, if that first delivery is received by you before the date on which maximum prices are established by the OPA for sales of the item by processors, and another delivery is received by you after that date, you shall refigure your ceiling price for such item, basing your "net cost" on the first delivery of the item to you after that date.

The receipt of any of the above items of the 1944 pack, at a price to be adjusted after delivery in accordance with action to be taken by the OPA shall not be deemed a delivery, for the purpose of this section, until the receipt of an invoice or other written notice from your supplier showing the price after adjustment. Until the receipt of such an invoice or notice, you may not sell or deliver or offer to sell or deliver the item at a price higher than your ceiling price for the same item of the 1943 pack.

2. Section 32 (b) (12) is amended to read as follows:

(12) "Fruits, dried and dehydrated" (packaged or bulk) includes, but is not limited to, fresh dates, stuffed dried fruits, dried dates and figs, pitted dates, and macerated dates. Excluded are fruit confections, candied or glaced fruits and peels, and date products.

NOTE: The 1943 pack of dried fruits shall be considered a different item from the 1942 pack of dried fruits, and you must figure separate ceiling prices for each item of the 1943 pack. The 1944 pack shall also be considered a different item from the 1943 and earlier packs, and you must figure separate ceiling prices for each item of the 1944 pack.

This amendment shall become effective September 27, 1944.

Issued this 27th day of September 1944.

You must figure your ceiling price for each such item in accordance with the provisions in sections 3, 4 and 5, basing your "net cost" on the first delivery to you of the item.

However, if that first delivery is received by you from a person other than a wholesaler pricing the item under Maximum Price Regulation No. 421,[1] before the date on which maximum prices are established by the OPA for sales of the item by processors, and another delivery is received by you after that date, you shall refigure your ceiling price for such item, basing your "net cost" on the first delivery of the item to you after that date.

That first delivery may be from a wholesaler (pricing under Maximum Price Regulation No. 421), whose ceiling price for the item is figured on the basis of a delivery received by him before the date on which maximum prices are established by the OPA for sales of the item by processors. In that event, and if you receive a later delivery of the item, you must refigure your ceiling price for such item; you must base your "net cost" upon the first delivery to you from your supplier after he has figured his ceiling price for the item on the basis of a delivery received by him after the date on which maximum prices are established by the OPA for sales by processors of the 1944 pack of the item.

The receipt of any of the above items of the 1944 pack, at a price to be adjusted after delivery in accordance with action to be taken by the OPA shall not be deemed a delivery, for the purpose of this section, until the receipt of an invoice or other written notice from your supplier showing the price after adjustment. Until the receipt of such an invoice or notice, you may not sell or deliver or offer to sell or deliver at a price higher than your ceiling price for the same item of the 1943 pack.

This amendment shall become effective September 27, 1944.

PART 1307—RAW MATERIALS FOR COTTON TEXTILES

[MPR 33,[1] Amdt. 7]

CARDED COTTON YARNS AND THE PROCESSING THEREOF

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Maximum Price Regulation No. 33 is amended in the following respects:

1. Section 1307.67 (d) is amended to read as follows:

(d) *Premiums for knotless and lapless yarns.* The maximum prices for carded cotton yarns which are both knotless and lapless shall be the applicable maximum price for the base-grade yarn adjusted in accordance with the following premiums:

	Cents per lb.
Up to and including 16s	3.0
Above 16s	3.0

[1] 7 F.R. 7557, 9048, 10070; 8 F.R. 2345, 3526, 9750, 13497; 9 F.R. 10578.

The premiums permissible hereunder are applicable only where the yarn is to be used for products in the manufacture of which knotless and lapless yarns were used prior to January 1, 1942, and where the seller receives a written statement to that effect from the buyer. The seller shall preserve the statement for not less than two years.

2. Section 1307.67 (f) (1) is amended to read as follows:

(1) *Discounts for yarns containing low-grade*[1] *cotton and/or cotton waste.* The maximum price for carded cotton yarn which contains low-grade cotton and/or cotton waste shall be a price in line with the maximum price set forth herein for base-grade yarn of the same number and ply. As used herein, the term "in line with" means having a justifiable relation to the maximum price for the base-grade yarn of the same number and ply with a decrease in price commensurate with the decrease in his material costs[2] resulting from his use of the low-grade cotton and/or cotton waste. In determining his "in line with" price, allowance may be made by the producer for increased manufacturing costs which he may incur in producing such yarns. Solely for the purposes of computing an "in line with" price under this paragraph a producer shall employ the following maximum prices for base-grade yarns of numbers less than 6:

[Cents per pound]

Yarn No.	Single	Ply
1s	37.25	39.75
2s	37.50	40.00
3s	37.75	40.25
4s	38.00	40.50
5s	38.25	40.75

3. In § 1307.67 (j) the premium of "6%" is changed to "5.4%".

4. In § 1307.67 (k) the premiums of "10", "7½" and "5" percent are changed to "9", "6¾" and "4½" percent, respectively.

NOTE: The record-keeping provision of this amendment to Maximum Price Regulation No. 33 has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This amendment shall become effective October 3, 1944.

(e) *Maximum prices applicable in cases where persons sell to wholesalers, other distributors, or retailers, at or below ceiling prices provided in paragraphs (a), (b), and (c).* When a person who packs a manufactured popcorn product and sells to a wholesaler or other distributor at or less than the appropriate figure listed in Columns 1 (but in excess of the price listed immediately above that figure) or sells to a retailer at or less than the appropriate figure listed in Columns 2 (but in excess of the price listed immediately above that figure), he shall mark on the individual retail package or label attached to it the consumer price listed in Columns 3 opposite the greater of the two listed figures.

When a person who packs a manufactured popcorn product has marked on the individual retail package a consumer price listed in Columns 3 of this section, no person may charge a consumer more than that price; no person may charge a retailer more than that figure listed on the same line of Columns 2, and no person may charge a wholesaler or other distributor more than the figure listed on the same line of Columns 1.

These maximum prices shall prevail regardless of the actual weight of the package; however, in any case, the actual weight of the package must not be lower than the weight specified in paragraphs (a), (b), or (c) for the particular maximum price named therein. No person shall increase the consumer price marked on the package after it has been sold by the person who packed it, but any person selling to a consumer may reduce that price.

Directions for retailers. If the consumer price marked on the retail package is a figure listed in Columns 3 of this section, you must not pay more than the figure listed on the same line in Columns 2 and you may not charge more than the price marked on the package. For example, if the retail package is marked "8 cents" you may not pay more than 72 cents per dozen nor charge more than 8 cents per package.

Directions for wholesalers and other distributors. If the consumer price marked on the retail package is a figure listed in Columns 3 of this section, you must not pay more than the figure listed on the same line in Columns 1, and you may not charge more than the figure listed on the same line in Columns 2. For example, if the retail package is marked "8 cents" you may not pay more than 58 cents per dozen nor charge more than 72 cents per dozen.

(f) *Maximum prices for all other manufactured popcorn products.* The maximum price for any manufactured popcorn product, of a size, kind, or package, not specifically covered by this regulation or any other maximum price regulation, shall continue to be governed by the General Maximum Price Regulation.

(b) "Seasoned popcorn" means popcorn popped in an edible oil or fat, or sprayed with an edible oil or fat after popping. For the purpose of this regulation plain popped popcorn to which butter or other seasoning has been added shall be deemed seasoned popcorn.

product. In any case where the buyer has no customary receiving point, "delivered to the customary receiving point" means delivered to that point where it is customary in the industry to receive the product. (Maximum prices named at the customary receiving point include all transportation to that point. Any amount the buyer himself pays to get the goods to that point must be subtracted from the maximum price named. Any amount the seller pays to move the goods beyond that point may be added to the maximum price.)

(f) *Meaning of "ultimate consumer."* "Ultimate consumer" means a person who buys the popcorn product to eat.

(g) *Meaning of "retailer."* "Retailer" means a person who buys the popcorn product and resells it to an ultimate consumer. The term also includes institutional and commercial users.

(i) *Meaning of "other distributor."* "Other distributor" means a person who buys the popcorn product and resells it to a wholesaler.

(j) *Meaning of "package size" and "sale in bulk."* "Package size" means the net contents of the package. "Sale in bulk" means a sale of a popcorn product in containers holding more than one pound. It includes a popcorn product purchased in bulk and sold to an ultimate consumer in less than one pound packages prepared at point of sale.

(k) *Meaning of other terms.* Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to the other terms used in this regulation.

SEC. 4. *Price labeling requirement.* Any person who packs a manufactured popcorn product in individual retail packages shall state in a conspicuous place on each package (or label attached to it) the price named for sales of that size package to consumers.

Any person who sells a manufactured popcorn product in bulk to an ultimate consumer shall display in a prominent place in his place of business the maximum selling price applicable to each kind of manufactured popcorn product he offers for sale, as set forth in paragraphs (a) (2), (b) (2), and (c) (2) of section 2.

SEC. 5. *Geographical applicability.* This regulation applies in the forty-eight states of the United States and the District of Columbia.

SEC. 6. *Compliance with the regulation*—(a) *No selling or buying above maximum prices.* Regardless of any contract or obligation, on and after October 3, 1944, no person shall sell or deliver a manufactured popcorn product, or buy or receive a manufactured popcorn product in the course of trade or business, at prices higher than the maximum prices established by this regulation, and no person shall offer, solicit, attempt or agree to do any of the foregoing.

(b) *Evasion.* No person shall evade a maximum price, directly or indirectly, whether by commission, service, transportation or other charge or discount, premium or other privilege; by tying-agreement or other trade understanding; by any change of product; by a business practice relating to labeling or packaging, or in any other way.

(c) *Enforcement.* Any person violating a provision of this regulation is subject to the criminal penalties, and enforcement acts, license suspension provisions, and suits for treble damages provided by the Emergency Price Control Act of 1942, as amended.

(d) *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control are applicable to all sellers subject to this regulation. A seller's license may be suspended for violation of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sales for which his license has been suspended.

SEC. 7. *Petition for Amendment.* Any person seeking a general modification of this regulation may file a petition for amendment in accordance with Revised Procedural Regulation No. 1, issued by the Office of Price Administration.

This regulation shall become effective October 3, 1944.

Issued this 28th day of September 1944.

PART 1499—COMMODITIES AND SERVICES

[SR 15 to GMPR, Amdt. 83]

CONTRACT CARRIER, STORAGE AND TERMINAL SERVICES

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Section 1499.75 (a) (3) of Supplementary Regulation No. 15 is amended to read as follows:

(3) *Contract carrier, storage and terminal services.* The Office of Price Administration, or any regional office thereof, may adjust the maximum prices (rates) established under the General Maximum Price Regulation for any person supplying service as a contract carrier, or for any person supplying storage or terminal services,[1] if it finds (i) that such maximum price subjects such person to substantial hardship and (ii) that the adjustment requested is necessary to permit the continuance of the supply of an essential service for which there is no adequate substitute available at a price lower than the maximum price requested.

A contract carrier who has applied, or is about to apply, for an adjustment under this sub-paragraph may agree to supply services from the date on which the application is filed with the Office of Price Administration at a price no higher than the maximum price for which he has applied. However, no payment above the existing maximum price may be made or received until a higher price has been authorized by an order of the Office of Price Administration containing no restriction against such payment. A contract carrier wishing to make any such agreement must advise the shipper that he has applied, or is about to apply, to the Office of Price Administration for a specified increase in his existing maximum price and that he may not receive any payment above his existing maximum price until a higher price has been authorized by the Office of Price Administration.

Applications for adjustment shall be filed with the regional office of the Office of Price Administration in the region in which the service or services involved in the application are performed except that where an applicant supplies service in more than one region, or supplies service in interstate commerce as a contract carrier, an application shall be filed with the Office of Price Administration, Washington, D. C.

The Regional Administrator of Region IX may delegate to any Territorial Director within his region the functions, duties, powers, and authority conferred on such Regional Administrator by this sub-paragraph.

A list of the regional offices with an enumeration of the states included in each region is set forth in Appendix A, (c), to this regulation.

Applications for adjustment under this sub-paragraph submitted by contract carriers shall be filed on and contain the information required by O. P. A. Forms 644-602 and 603. No form is prescribed for application for adjustment of prices for storage and terminal services but such applications shall contain the following information:

(a) Description of applicant's business, including services performed, locations, principal commodities involved, names and addresses of companies financially or otherwise affiliated, if any.

(b) Present and requested maximum rates, present and requested rules or conditions. If the terms used to identify the rates do not adequately show just what services are performed for these charges, additional descriptions of the services should be furnished.

(c) Detailed annual profit and loss statements in the form customarily prepared and supported by balance sheets in customary form for the calendar years 1939, 1940, 1941, or for fiscal years ending within these calendar years, if such fiscal years are customary, or if these are unavailable, OPA Financial Reporting Form A for these years. Profit and loss statement for the most recent 12 month period which is available, supported by a detailed balance sheet as at the end of that 12 month period. Revenue accounts should be supported by statements of volume of business in terms of tons, square feet occupied, or other units which may be customary. Any substantial changes in property or equipment accounts should be explained.

If any increase in rates has been granted by the Office of Price Administration during the most recent 12 month period, applicant should show as nearly as possible the amount of additional revenue derived from such increase. Applicant should also furnish his best estimate of the revenue to be derived from the proposed increase.

If only part of applicant's business is involved in the requested increase, revenue accounts should be shown separately for the principal divisions of revenue customarily made. Minor amounts may be shown as "other revenues". In addition, if the revenues from the particular services, charges for which are sought to be increased, are not separately stated in the customary division, they should be estimated as closely as practicable.

Insofar as practicable, expenses for the services involved should also be shown separately. Expenses which are charged directly to these services should be distinguished from those which are allocated, and the methods whereby portions of joint expenses are charged against the services involved should be explained. Property and equipment or portions thereof devoted to the involved services should also be identified.

If any of this information has already been furnished in connection with other applications for adjustment or on Forms A and B, such information need not be repeated but may be incorporated into the application by reference.

(d) Statement of the names and addresses of applicant's principal competitors, together with their rates, if available, for similar services. An explanation of any significant differences in these services.

(e) If applicant has any other applications for price or rate increases affecting any part of his business pending or recently granted, reference should be made to the offices where filed and docket or order numbers. Increases made in portions of applicant's business as a regulated common carrier or public utility, if any, should be identified by reference to notices filed with the Office of Price Administration under Procedural Regulation No. 11. In suitable cases, this requirement would be met by such statements as "Notices filed by the ------ Freight Bureau in whose tariffs we participate."

(f) Applicant is free to supply other information which, in his opinion, will support the findings required by this sub-paragraph.

This amendment shall become effective October 3, 1944.

Issued this 28th day of September 1944.

Administrator.

(a) Such individual is hired for work in an essential or locally needed activity or for work to which he has been referred by the United States Employment Service and

(b) Such individual presents a statement of availability from his last employment in an essential or locally needed activity, or is referred by the United States Employment Service of the War Manpower Commission, or is hired with its consent, as provided herein.

S. government declares an end to the war emergency, whichever is sooner.

Workers transferred with statements of availability and later entering the armed forces under the Selective Service Act will have the same rights for re-employment with their home employer as provided in (a) and (b).

SEC. 10. *Hiring contrary to the program.* An employer shall, upon written request of the United States Employment Service, promptly release from employment any worker hired in violation of this program.

SEC. 11. *Exclusions.* No provision of this employment stabilization program shall be applicable to:

(a) The hiring of a new employee for agricultural employment;

(b) The hiring of a new employee for work of less than seven days' duration, or for work which is supplementary to the employee's principal work; but such work shall not constitute the individual's "last employment" for the purposes of the program, unless the employee is customarily engaged in work of less than seven days' duration;

(c) The hiring of an employee in any territory or possession of the United States, except Alaska and Hawaii;

(d) The hiring by a foreign, state, county, or municipal government, or their political subdivisions or their agencies and instrumentalities, or to the hiring of any of their employees, unless such foreign, state, county, or municipal government or political sub-division or agency or instrumentality has indicated its willingness to conform, to the maximum extent practicable under the Constitution and laws applicable to it, with the program;

(e) The hiring of a new employee for domestic service, or to the hiring of a new employee whose last regular employment was in domestic service;

(f) The hiring of a school teacher for vacation employment or the rehiring of a school teacher for teaching at the termination of the vacation period.

SEC. 12. *Appeals.* Any worker or employer may appeal from any act or failure to act by the War Manpower Commission under this employment stabilization program, in accordance with the regulations and procedures of the War Manpower Commission.

SEC. 13. *Contents of statements of availability.* A statement of availability issued to an individual pursuant to this program shall contain only the individual's name, address, social security account number, if any, the name and address of the issuing employer, or War Manpower Commission officer and office, the date of issuance, a statement as to whether or not the individual's last employment was in a critical occupation and such other information not prejudicial to the employee in seeking new employment as may be authorized or required by the War Manpower Commission.

SEC. 14. *Solicitation of workers.* No employer shall advertise or otherwise solicit for the purpose of hiring any individual if the hiring of such an individual would be subject to restrictions under this employment stabilization program except in a manner consistent with such restrictions.

SEC. 15. *Hiring.* The decision to hire or refer a worker shall be based on qualifications essential for performance of or suitability for the job, and shall be made without discrimination as to race, color, creed, sex, national origin, or except as required by law, citizenship.

The Federal Government shall be considered as a single essential employer for the purposes of this program, and all hiring for departments and agencies of the Federal Government subject to the Civil Service Act, rules and regulations, shall be conducted by the U. S. Civil Service Commission which shall recruit in accordance with the policies of the War Manpower Commission.

SEC. 16. *Representation.* Nothing contained in the program shall be construed to restrict any individual from seeking the advice and aid of, or from being represented by, the labor organization of which he is a member or any other representative freely chosen by him, at any step in the operation of the program.

SEC. 17. *General referral policies.* No provision in the program shall limit the authority of the United States Employment Service or any other governmental agency designated by the War Manpower Commission to make referrals in accordance with approved policies and instructions of the War Manpower Commission.

SEC. 18. *Standards governing referrals.* Applicants subject to priority referral who apply at a local office of the United States Employment Service for referral to a job opening shall be referred to job openings in accordance with the standards of referral adopted by the labor-management committee for the area and attached hereto as Appendix A.

SEC. 19. *Establishment of employment ceilings.* The Area Manpower Director may set for all or any establishments in the Waterbury area, fair and reasonable employment ceilings fixing the number of employees or specified types of employees which such establishments may not exceed. Such ceilings will be determined on the basis of the establishment's actual labor needs, the available labor supply, and/or the relative urgency of the establishment's products or services to the war effort. Except as authorized by the Area (or State) Manpower Director, no employer shall hire any new employee for work in such establishment if the hiring of such employee would result in such establishment's exceeding the employment ceiling applicable to it.

Each employer for whom an employment ceiling has not been established by the Manpower Priorities Committee will file with the United States Employment Service a statement indicating the number of full-time workers and the number of part-time and supplemental workers on his payroll as of February 1, 1944.

The number of full-time workers so reported by employers for whom ceilings have not been established by the Manpower Priorities Committee will become the ceiling of employment for that company. No employer shall exceed this ceiling of employment without the consent of the Area Manpower Director who shall consult with the Area Labor-Management War Manpower Committee.

SEC. 20. *Effective date.* This program shall become effective August 28, 1944, and is in substitution for and supersedes the employment stabilization program in effect prior to such date. It shall, subject to such amendments as the War Manpower Commission may promulgate, continue in effect for six months following the termination of the war, unless sooner terminated by the War Manpower Commission.

Dated: August 28, 1944.

MARY M. DEWEY,
Area Director.

Approved: September 22, 1944.

DAVID G. NAGLE,
Acting Regional Director.

APPENDIX A—STANDARDS GOVERNING REFERRALS

1. *Use of priorities.* The Manpower Priorities shall be distributed to all authorised referral agencies. These agencies shall be governed by these priorities in referring workers to employers.

2. *Standards governing referrals by the War Manpower Commission.* a. *Order of referral.* (1) Based on occupational qualifications a worker possessing skills for which there is demand for the war effort shall be referred to job openings for which he is qualified in order of their relative importance as set forth in paragraph 2, hereof, and, to the extent consistent with current and anticipated manpower needs, in the following order:

(a) To job openings in occupations using his highest skill.

(b) To job openings in occupations which require closely related skills.

(c) To other types of job openings for which he may be qualified.

(2) Based on importance in connection with the war effort the order of referral to job openings shall be as follows:

(a) To establishments having manpower priorities, in the order of their relative priority.

(b) To establishments in essential or locally needed activities, not on the priority list.

(c) To establishments in less essential activities, and only if there are no job openings in a priority establishment or an essential or locally needed activity for which the worker is qualified and which the worker may not decline except as hereinafter provided.

(3) In any case in which there are two or more job openings of the same relative urgency for which the worker is equally qualified, he shall be entitled to a free choice of the job openings to which he wishes to be referred.

b. *Refusal or referral without prejudice.* (1) A worker may refuse a referral to a job opening and continue to be eligible for further referral if: (a) The referral is not to a job opening in an occupation which will use his highest skill, and such job openings are available, or may be expected to become available within a reasonable period of time, in other priority or essential or locally needed activities.

(b) The referral is not a job opening in an occupation which will use a closely related skill, and such job openings are available, or may be expected to become available within a reasonable period of time, in other priority or essential or locally needed activities.

(c) As a condition of accepting or continuing in the offered employment, he would be required to join, resign from or refrain from joining a labor organization.

(d) The wages or working conditions of the job offered are below standards fixed by applicable law.

(e) The wage rate for the job offered is less than the minimum of an applicable bracket fixed by the War Labor Board for the occupation and locality, or is less than such amount as has been determined by the War Labor Board for the area or region, as necessary to avoid substandards of living.

(f) He can show that acceptance of the job offered would involve for him an undue personal hardship.

(2) If a worker refuses referral or refuses to accept a job, which he may decline on one or more grounds set forth in paragraph 2, he shall be advised of his rights under the Manpower Program.

c. *Unjustified refusal.* If a worker refuses a referral on grounds other than those listed in paragraph 2, he shall not be referred to another opening until the job he refused has been filled or withdrawn or another opening develops with equal or higher priority for which the applicant is qualified.

d. *Reporting.* Referral agencies shall render such reports as to the number of referrals and hires made to priority establishments and referrals to non-priority establishments as may be required by the State or Area Manpower Director.

3. *Use of other organizations as referral agencies; Union hiring halls.* Under the controlled referral plan and the basic referral policies outlined above, unions which have hiring arrangements with essential or locally needed employers who have a substantial number of workers at the time the controlled referral plan becomes effective may be granted the right to refer their own members to those employers in accordance with the following conditions:

a. In their referral activities the unions shall observe all of the Area Employment Stabilization Plan and all determinations with respect to manpower priorities.

b. The unions shall refer only those of their members who are entitled to referral under the program and in the order of priority set by the Area Manpower Director.

c. The union shall maintain records of its referrals and hires and shall permit review of these records by the War Manpower Commission or shall supply information relating to its referral activities to the War Manpower Commission as may be required.

Approved by the Area Labor-Management War Manpower Committee on May 1, 1944, and re-approved by the committee on August 28, 1944.

In the event that such producer, wholesaler, or retail dealer has discontinued business or is unable to fill such order, or in the event that the owner or operator of a poultry brooder or hatchery did not purchase anthracite for such use during the period April 1, 1942 to March 31, 1943, inclusive, then such owner or operator may file such statement with any other producer, wholesaler, or retail dealer.

The owner or operator of a poultry brooder or hatchery shall be required to file only one such statement with each supplier prior to March 31, 1945 and the statements contained therein shall be deemed to have been made to SFAW. The prescribed form of the statement, marked Appendix A, is attached to this regulation and made a part hereof.

The Administrator may take such action as he deems appropriate or necessary with regard to such appeal.

§ 602.87 *Damages for breach of contract.* No person shall be held liable under any contract for damages or penalties for any default which shall result directly or indirectly from compliance with this regulation.

Chapter IX—War Production Board

Subchapter B—Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E. O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 24, as amended Sept. 28, 1944]

PURCHASE OF MACHINE TOOLS, MANUFACTURING MACHINERY, AND SIMILAR EQUIPMENT NEEDED FOR CIVILIAN PRODUCTION

§ 944.45 *Priorities Regulation 24*—(a) *What this regulation does.* This regulation tells how purchase orders for machine tools, manufacturing machinery, and similar equipment may be placed by companies who wish to get ready for the resumption or expansion of civilian production when this is possible without interfering with war or essential civilian production. Where suitable existing equipment is not available, this regulation modifies the restrictions on the acceptance and filing of unrated purchase orders which are imposed by the WPB orders listed at the end of this regulation. It is the policy of the War Production Board to encourage the purchase of such equipment primarily from existing excess stocks as they may be made available in order to avoid using scarce materials in making additional new equipment. When these are not available, it is the policy of the War Production Board to permit the placing of unrated orders for new equipment which will be needed for civilian production as long as the filling of these orders does not interfere in any way with direct or indirect war production. This regulation also explains when ratings may be assigned to orders for equipment needed for civilian production.

(b) *Removal of restrictions on placing, acceptance and delivery of certain purchase orders.* The various WPB orders shown on List A at the end of this regulation forbid the sale of items which they cover to fill unrated orders. Some of them require a rating before a purchase order may be placed and accepted, while others require a rating before an item may be produced or delivered to fill a purchase order. Many of them contain both kinds of restrictions. They may also require a special WPB form. This regulation overrides these restrictions and unrated purchase orders may now be placed, accepted and filled for items covered by the WPB orders mentioned on List A. However, the approval of the War Production Board must be obtained, as explained in paragraph (c), before the unrated purchase order is placed.

(c) *How a purchaser gets WPB approval to place unrated orders.* A person who wishes to place an unrated order in spite of the restrictions of the WPB order on List A may apply for War Production Board approval by filing a letter in triplicate with his nearest War Production Board field office with a list in triplicate attached giving a description of the equipment which he wishes to get including make, type, size, and approximate price. Approval of the War Production Board will be given on Form GA–1977 if it finds that no suitable existing excess equipment is available. Upon receiving War Production Board approval, the person placing the unrated order must endorse the following statement on his purchase order, signed either manually or as provided in Priorities Regulation 7: "This order approved by the War Production Board in accordance with Priorities Regulation 24." The standard form of certification contained in Priorities Regulation 7 may not be used. Approval by the War Production Board under this paragraph does not give the purchase order a rating of AA–5 under § 944.1 (b) of Priorities Regulation 1.

(d) *Report of unrated orders.* Producers of equipment subject to any WPB order on List A must file Form WPB–3940 monthly in accordance with the instructions printed on the form, showing the quantity of their rated and unrated shipments. However, if the dollar value of a producer's monthly shipments of unrated orders does not exceed 10 percent of his total shipments he need not file this report, although he must keep unrated purchase orders placed under this regulation filed so that they can be readily segregated and examined.

(e) *Effect of other WPB orders and regulations.* (1) This regulation does not relieve anyone from complying with the requirements of Priorities Regulation 1 with respect to the compulsory acceptance and filling of rated orders in preference to unrated orders.

(2) If an unrated order under this regulation is put into a production schedule it shall not become a part of any "frozen" schedule in spite of Priorities Regulation 18 or other War Production Board order, but shall be subject to postponement in favor of rated orders in accordance with Priorities Regulation 1.

(3) Attention is called to the fact that this regulation does not authorize any construction contrary to the provisions of Construction Order L–41. Direction 2 to L–41 tells when you may install or relocate machinery or equipment without getting permission under that order. Direction 15 to CMP Regulation 5 tells how to get materials needed to install or relocate machinery or equipment.

(4) Except to the extent specifically provided in this regulation, it does not waive the restrictions or conditions of any other order or regulation of the War Production Board.

(f) *Other cases where unrated orders allowed.* Many types of machinery and equipment, including most jigs, dies, fixtures and special tooling, are not subject to a WPB order limiting or restricting the placing or filling of orders. Consequently, unrated orders for these items have always been permissible where they can be filled without interference with rated orders as provided in Priorities Regulation 1. Many types of machinery and equipment may be bought under Priorities Regulation 13 from somebody who is not in the business of selling such machinery and equipment without any preference rating or other authorization. Permission under this regulation is not required in the case of such purchases.

(g) *Ratings for equipment required for civilian production.* (1) The policy of the War Production Board is not to grant any ratings for equipment needed for resumption or expansion of civilian production where this equipment can be obtained out of existing available stocks or where unrated orders for it can be filled within a reasonable time. However, where this is not the case, and the equipment takes a long time to produce, the War Production Board will consider applications for ratings both for equipment covered by the WPB orders mentioned in List A and for other types of equipment.

(2) If you need equipment for war production or for civilian production which is currently authorized by the War Production Board during the war, you may apply for a rating in accordance with existing procedures and without regard to this regulation. However, if you want equipment for operations which are neither directly related to the war effort nor currently authorized by the War Production Board, you cannot get a rating except by applying on Form WPB–1319 to your War Production Board field office in accordance with the instructions printed in the WPB–1319 Instruction Pamphlet. This is so whether the equipment you need is covered by the WPB orders on List A or not. An exception to this rule is explained in Direction 2 to L–41 which points out that you must apply on the appropriate form specified in L–41 if it is necessary to construct a new building or make an addition to an existing building or if priorities assistance is required for the materials needed for the installation or alteration permitted by that direction in addition to that given by Direction 15 to CMP Regulation 5 or other blanket preference rating orders. If an application under L–41 is necessary it should cover the materials required for the construction and the machinery or equipment which is to be installed.

(3) If the War Production Board grants a rating under this regulation, it may be applied only for the make of equipment shown in the application Form WPB–1319. The rating may be applied by use of the standard certification in Priorities Regulation 7 but the following statement must be added: "This rating applied pursuant to Priorities Regulation 24." Such an order may be accepted and filled in spite of any War Production Board order requiring approval on a special form.

NOTE: The reporting provisions of this regulation have been approved by the Bureau

of the Budget pursuant to the Federal Reports Act of 1942.

Issued this 28th day of September 1944.

PART 1041—PRODUCTION, TRANSPORTATION, REFINING AND MARKETING OF PETROLEUM

[Preference Rating Order P-98-b, Direction 2, as Amended Sept. 28, 1944]

USE OF PREFERENCE RATINGS IN PETROLEUM MARKETING

The following direction is issued pursuant to Preference Rating Order P-98-B:

(a) *What this direction covers.* This direction tells petroleum operators when they may use a preference rating of AA-3, instead of the MRO rating of AA-5, to secure material for the maintenance and repair of service stations and retail outlets. The use of the AA-3 rating is covered by paragraph (b) of this direction.

In paragraph (c), this direction also permits the use of an MRO rating and symbol by operators to secure limited quantities of materials to make authorized installations or replacements of "equipment" at service stations and other retail outlets and at consumer accounts. This latter permission establishes an exception to the limitation of Order P-98-b that the MRO ratings and symbol may not be used to secure material for the installation or replacement in marketing of "equipment."

(b) *AA-3 rating available for maintenance and repair of service stations or retail outlets.* An operator who does any maintenance or repair work for an operator of a service station or retail outlet and an operator of a service station or retail outlet who does any maintenance or repair work for consumers (such as the servicing or lubrication of automotive vehicles or the maintenance of petroleum consuming apparatus) may use a rating of AA-3 instead of the MRO rating of AA-5. The AA-3 rating may be used only to secure material for the upkeep or restoration of structures, equipment, or material of a service station or retail outlet. The AA-3 rating may not be used to secure operating supplies for a service station or retail outlet, and only the AA-5 MRO rating may be used for that purpose. Allotment symbol MRO-P-3 remains available to secure controlled materials for MRO purposes.

(c) *Rating and symbol available to operators for installation of "equipment."* A petroleum operator may use a preference rating of AA-3 and allotment symbol MRO-P-3 to secure up to $100 worth of material to make each installation or replacement of "equipment," as defined in Petroleum Administrative Order 12 (PAO-12). However, the AA-3 rating and the symbol may be used to secure material only to make an installation or replacement of "equipment" which has been authorized by the provisions of PAO-12 or by an exception to PAO-12 and which is to be made at a service station or other retail outlet or at a consumer account. The AA-3 rating and the symbol may not be used to secure the "equipment" which is authorized to be installed or replaced. Any operator is permitted to make this use of the above rating and symbol, and not merely an operator of a service station or retail outlet. By permitting the use of the above rating and symbol for such a purpose, this direction makes a limited exception to the provision of Order P-98-b which excludes from the definition of "maintenance and repair" the installation or replacement in marketing of such "equipment."

(d) Except as provided in this direction, the AA-3 rating and the MRO-P-3 symbol may be used only in accordance with the procedure of Order P-98-b applicable to the AA-5 MRO rating.

Issued this 28th day of September 1944.

PART 1157—CONSTRUCTION MACHINERY

[Limitation Order L-192, as Amended Sept. 28, 1944]

CONSTRUCTION MACHINERY AND EQUIPMENT

The fulfillment of requirements for the defense of the United States has created a shortage in the supply for defense, for private account and for export, of materials used in the production of construction machinery and equipment and repair parts; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1157.10 *Limitation Order L-192—*(a) *What this order does.* This order regulates the production and delivery of construction equipment and certain repair parts. The items of equipment covered by the order are listed in Schedules A, B and D. The order provides for scheduling the production and delivery of Schedule A equipment, prohibits sales and deliveries of Schedule A equipment except upon specific authorization of the War Production Board, and regulates the sales of repair parts for Schedule A equipment. With respect to Schedule B equipment, the order provides for the control of total production and restricts sales and deliveries to orders rated AA-5 or higher but does not regulate repair parts. It prohibits the production of Schedule D equipment.

(b) *Definitions.* For the purpose of this order:

(1) "Producer" means any person engaged in the manufacture of equipment.

(2) "Equipment" means that construction machinery and equipment listed in Schedules A, B and D attached hereto but not any equipment on rubber tired chassis or running gear built for or usable for the transportation of commodities or persons.

(3) "New", when applied to equipment, means any equipment which has never been delivered to and put into regular use by a person acquiring it for use.

(4) "Repair part" means any part manufactured for use in the repair and maintenance of equipment; but does not include components or attachments which change the functional operations of the equipment as originally shipped.

(5) "War agency" means the Army, Navy, Maritime Commission, War Shipping Administration, Veterans' Administration, and the military forces of any foreign country entitled to receive deliveries pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(6) "United States" means the United States of America and its territories and possessions.

(7) "Supplier" means any producer, dealer or distributor engaged in the business of selling equipment or repair parts.

(8) "Dealer or distributor" means any person who is engaged in the business of purchasing equipment or repair parts for the purposes of resale.

Schedule A Equipment

(c) *Procedure for placing and receiving orders for Schedule A equipment.* (1) No person shall sell or deliver any new equipment listed in Schedule A, except to a war agency, unless the purchase or delivery order is accompanied by authorization on Form WPB-1319 or by a certification as explained below. Application for such authorization and for a preference rating must be made by filing the required number of copies of Form WPB-1319 with the War Production Board regional office in the region in which the purchaser desires to use such equipment, in accordance with the current instructions for the form. When a person receives authorization on Form WPB-1319 to purchase Schedule A equipment, he may give his supplier the authorization along with his purchase order, or, if he prefers, he may give the supplier a certification in substantially the following form: "Authorized under Order L-192—on Form WPB-1319, Case No._____." This certification shall constitute a representation to the War Production Board that the purchase or delivery of the Schedule A equipment ordered has been specifically authorized by the War Production Board on Form WPB-1319.

(2) A war agency shall furnish the Construction Machinery Division, War Production Board, Washington 25, D. C., with information copies of Form WPB-1319 made out in duplicate (or other written notice in duplicate) at the time that any order for such equipment is placed with a supplier.

(d) *Restrictions on production of Schedule A equipment.* Producers must not use or put into process any materials for the production or assembly of (1) any new Schedule A equipment except in accordance with such production schedules as may be approved by the War Production Board under paragraph (e), or (2) any parts to be physically incorporated into new Schedule A equipment in excess of those required by approved production schedules.

(e) *Production schedules.* On or before the 15th day of each calendar month, every producer must file on Form WPB-1689, in accordance with the instructions on the form, a statement of his production of Schedule A equipment for the previous month and his proposed production schedule of all new Schedule A equipment projected for all additional monthly periods for which production may be planned. Approval or modification of such production schedule for the period planned or for a shorter period will be indicated on an approved copy of the Form WPB-1689 returned to the producer prior to the first day of the calendar month succeeding such filing. No producer shall change his production schedules as approved or changed by the War Production Board without specific authorization of the War Production Board. When actual production in any month is less than production authorized for that month, the items not produced may be produced in any subsequent month unless the authorization is revoked or modified by the War Production Board. Therefore, such items must not be shown again as planned production on any subsequent production schedule.

(f) *Prohibiting transfer and use of new equipment.* (1) On or before the 15th day of each calendar month, every producer must file on Form WPB-1689, in accordance with the instructions on the form, a statement showing his proposed delivery schedule of all unfilled orders for new Schedule A equipment, his shipments made during the calendar month previous to filing, his shipments during the current month to the date of filing, and inventory of finished items on hand at the end of the month previous to filing. Approval of a delivery schedule of all new Schedule A equipment for the calendar month succeeding such filing will be indicated on an approved copy of the form returned to the producer prior to the first day of that month, and the sequence of deliveries will remain in force whether or not the equipment is actually shipped during that month unless the schedule is subsequently changed by the War Production Board. In addition to the requirement of authorization on Form WPB-1319 for sales or deliveries under paragraph (c), no producer shall use for other than experimental or demonstration purposes, or sell or deliver any new Schedule A equipment unless the use, sale or delivery has been specifically approved by the War Production Board on Form WPB-1689.

(2) The War Production Board may at any time revoke any delivery authorization provided for in subparagraph (1) above as to any or all new Schedule A equipment included therein, direct or change the schedule for deliveries of any such equipment, allocate any order for that equipment listed on a producer's Form WPB-1689 to any other producer, or direct the delivery of any such equipment to any other person, at regularly established prices and terms.

(3) Notwithstanding any preference rating heretofore or hereafter granted, no producer shall change his schedule of deliveries of any new Schedule A equipment as approved or changed by the War Production Board, without specific authorization of the War Production Board.

(g) *Restrictions on resale, rental and use.* Every person, except a war agency, to whom delivery of any new equipment listed in Schedule A has been authorized pursuant to this order, must use such equipment on the project described in the authorization to purchase. In addition, every person except a war agency, thirty days prior to the sale, lease or use on any other project of such equipment, shall notify in writing the Used Construction Machinery Regional Specialist of the War Production Board Regional Office in the region in which the equipment is located. The War Production Board at any time on two weeks' written notice, may require any such person who owns such equipment to sell, lease, or use such equipment as directed.

Repair Parts for Schedule A Equipment

(h) *Restrictions on sale and delivery of repair parts for Schedule A equipment.* A supplier must not sell or deliver repair parts for Schedule A equipment to any person unless the sale or delivery is permitted by one of the following subparagraphs:

(1) *Repairs for current use.* A supplier may sell or deliver repair parts to any person for current use if the purchaser certifies that he will need the parts to replace worn out parts within 30 days after receiving them. The certification must be in substantially the following form: "Authorized under Order L-192—current use". This certification shall constitute a representation to the War Production Board that the repair parts ordered are required to replace worn out parts within 30 days after receipt of the parts ordered and are not for stock; and that the purchaser does not have other parts on hand or on order with any other supplier for this purpose. The purpose of this subparagraph (1) is to release by certification repair parts which will be put immediately (or within 30 days after receipt) into construction machinery in order that such machinery may be kept operating or put into condition to operate. This subparagraph (1) is not intended to permit the purchase of repair parts for stock. Paragraph (h) (4) tells how an equipment owner can get authorization on Form WPB-1319 from the War Production Board to purchase a stock of repair parts.

Exception. The above certification for current use must not be used for parts orders over $1000 if such parts are to be used for crawler, walker, or truck type shovels, cranes or draglines, with a rated capacity of less than 2½ cubic yards. Parts orders over $1000 for current use for such machines must be approved on Form WPB-1319, in accordance with subparagraph (4) below, before the sale or delivery can be made. Repair parts purchase or delivery orders must not be subdivided for the purpose of coming within this $1000 limitation.

(2) *War agencies and persons repairing war agency equipment.* (i) This paragraph (h) does not restrict the sale or delivery of repair parts to war agencies for direct use by them.

(ii) A supplier may sell or deliver repair parts to any person who has contracted to repair equipment owned by a war agency if the purchaser certifies that the parts will be used only to repair equipment owned by the war agency. The certification must be given in substantially the following form: "Authorized under Order L-192—war agency contract." This certification shall constitute a representation to the War Production Board that the buyer has contracted to repair equipment owned by a war agency and that the parts ordered will be used only for the repair of that equipment.

(3) *Exports.* A supplier may sell or deliver repair parts for export on any purchase order for $100 or less if the purchaser certifies that the parts are for export. The certification must be given in substantially the following form: "Authorized under Order L-192—for export." This certification shall constitute a representation to the War Production Board that the parts ordered are for export. If the purchase order is for more than $100, it must be approved on Form WPB-1319, as explained in the next subparagraph. However, nothing in this order shall be deemed to relieve any person from the necessity of getting an export license from the Foreign Economic Administration where such license is required.

(4) *Specific authorization to buy repair parts.* A supplier may sell or deliver repair parts for stock or any other purpose not provided for above if the purchase or delivery of the repair parts has been specifically authorized by the War Production Board. Application for this authorization and for a preference rating, if none has been previously assigned, may be made by filing the required number of copies of Form WPB-1319 in accordance with the current instructions for the form. When a person receives authorization on Form WPB-1319, to purchase repair parts, he may give his supplier the authorization along with his purchase order or, if he prefers, he may give the supplier a certification in substantially the following form: "Authorized under Order L-192—on Form WPB-1319." This certification shall constitute a representation to the War Production Board that the purchase or delivery of the repair parts ordered has been specifically authorized by the War Production Board on Form WPB-1319.

(5) *Sales to producers.* This paragraph (h) does not restrict the sale or delivery of repair parts to producers.

(6) *Sales to dealers and distributors.* Unless otherwise specifically directed by the War Production Board, this paragraph (h) shall not restrict the sale or delivery of repair parts to dealers or distributors located in the United States or Canada.[1] However, a dealer or distributor located in the United States must not purchase repair parts under this exemption to repair construction equipment owned by him. If he wants to use repair parts for that purpose, he may do so by following the procedure of paragraph (h) (1) above. For example, if he is getting repair parts from another supplier for the repair of his own equipment, he must give the certification of paragraph (h) (1) or the WPB-1319 authorization to the other supplier; if he wants to repair his equipment with parts which he originally acquired for resale, he may do so and, in that case, the certification or the WPB-1319 authorization must be placed in his file.

(i) *Certification.* Each L-192 certification provided for in paragraph (h) must be signed manually or as provided in Priorities Regulation 7. If the person signing an L-192 certification is using a preference rating on his order, he may add the L-192 certification to any certification used to apply the preference rating instead of giving two separate certifications. The standard certification of Priorities Regulation 7 must not be used instead of the L-192 certification, although the standard certification may be used along with it in applying a preference rating. A supplier may rely on any such L-192 certification unless he knows or has reason to believe it to be false. The L-192 certification may be waived in the manner provided in Priorities Regulation 7, and the one-time certification of Priorities Regulation 7 may be used instead of the L-192 certification.

(j) *Spares.* Orders for repair parts intended to be used as spares for new equipment listed in Schedule A must be placed with the supplier at the same time as the order for such new equipment.

(k) *Allocation of production of repair parts for Schedule A equipment.* No producer shall deliver to war agencies in any one month any repair parts for Schedule A equipment whatsoever in excess of 75% of his sales of that repair part during the month, if the delivery would prevent deliveries of such repair part to fill orders properly placed by other persons. Similarly, no producer shall deliver to other persons in any month more than 25% of his sales of any repair part for Schedule A equipment if the delivery would prevent the filling of orders for delivery of such repair part to war agencies. "Other persons", as used in this paragraph, shall not include dealers or distributors who have ordered repair parts for their stock or inventory. A dealer or distributor, in placing a purchase order with a producer for repair parts for which he has received a customer's order that he is unable to fill out of his stock, may state on his purchase order to the producer whether the repair part is being ordered for a war agency or not. If the repair part is being ordered for a war agency, delivery by the producer on such order shall be considered a delivery to a war agency for the purpose of this paragraph. If the repair part is being ordered for a person other than a war agency, delivery by the producer on the order shall be considered a delivery to "other persons" for the purposes of this paragraph.

(l) *Filling repair parts orders upon specific direction of the War Production Board.* A producer shall, upon the specific direction of the War Production Board on Form WPB-1319, make delivery of any repair part for Schedule A equipment to fill any order specified in such direction: When application has not previously been filed, the person authorized to receive such repair part shall return to the War Production Board a signed copy of Form WPB-1319 as confirmation of the application. However, confirmation copies need not be filed by war agencies.

Schedule B Equipment

(m) *Restrictions on sale and delivery of Schedule B equipment.* After August 3, 1944, no person shall sell or deliver any new equipment listed on Schedule B unless the sale or delivery bears a preference rating of AA-5 or higher. This restriction does not apply to deliveries on orders placed before August 3, 1944.

(n) *Restrictions on production of Schedule B equipment.* On or before the 15th day of August 1944, and on or before the 15th day of October, January, April and July thereafter, every producer must file on Form WPB-1689, in accordance with the instructions on the form, a statement of his deliveries of new Schedule B equipment for the previous three months and his proposed production of all new Schedule B equipment for all succeeding calendar quarters for which production may be planned. Approval or modification of the quantity of such equipment to be produced in the calendar quarter succeeding such filing or for a longer period will be indicated on a copy of the Form WPB-1689 returned to the producer prior to the first day of the calendar month succeeding such filing. A producer must not during any period produce more units of any type of Schedule B equipment than the quantity approved for that period by the War Production Board of Form WPB-1689 without a specific authorization from the War Production Board. When actual production in any quarter is less than production authorized for that quarter, the quantity not produced may be produced in any subsequent quarter unless the authorization is revoked or modified by the War Production Board. Therefore, such items must not be shown again as planned production on any subsequent report. Production schedules of Schedule B equipment are not "frozen schedules" under Priorities Regulation 18.

(o) *Repair parts for Schedule B equipment.* This order does not restrict the sale or delivery of repair parts for Schedule B equipment.

Schedule D Equipment

(p) *Restrictions on production of Schedule D equipment.* Producers must not use or put into process any materials for the production or assembly of any equipment listed in Schedule D.

(q) *Sales and delivery of Schedule D equipment and repair parts therefor.* Except as provided in paragraph (p) above, this order does not restrict the sale or delivery of any equipment listed in Schedule D or repair parts therefor.

Miscellaneous Provisions

(r) *Production authorizations.* (1) Production will be authorized so that labor requirements therefor in any one plant will not interfere with war production in that plant or in any other plant located in the same area.

(2) In approving a producer's total production of equipment for delivery to persons other than war agencies, the War Production Board may, with respect to any particular type of equipment, take into consideration the producer's total production of that type of equipment during the years 1937-1941 so that each producer will get approximately his proportion of the total non-military production of the industry on the basis of his production during the years 1937-1941. In addition, the War Production Board will take into consideration, among other factors, the availability of materials and components.

(s) *Substitution and conservation of critical materials.* In the manufacture of any item of equipment or repair parts, no producer shall use any alloy steel, stainless steel, copper, brass, bronze, nickel, tin or cadmium, where the use of other less critical materials will not impair the efficiency of operation of such item.

(t) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(u) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(v) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter, in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal. The letter should be filed with the field office of the War Production Board in the district in which is located the plant or branch of the appellant to which the appeal relates.

(w) *Communications.* All communications concerning this order, except where specific reference is made herein to the contrary, shall be addressed to Construction Machinery Division, War Production Board, Washington 25, D. C., Ref: L-192.

NOTE: The reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 28th day of September 1944.

PART 3270—CONTAINERS

[Supplementary Order L-103-b, as Amended Sept. 28, 1944]

GLASS CONTAINER AND CLOSURE QUOTAS

§ 3270.36 *Supplementary Order L-103-b.* This order lists the only products which may be commercially packed in new machine-made, glass containers or with new metal closures. It specifies closure materials and sets forth the number of glass packages and metal closures which may be used for each listed product. In addition, some restrictions are placed upon the manufacture of closures.

The order limits "commercial packs" only. Although there are certain manufacturing restrictions, the use of glass containers or metal closures for home canning purposes is not affected.

Likewise, the provisions of this order cover only new glass containers and closures. Used containers or closures are not limited. However, closures which are fabricated from used closures—that is, where the used closures are a production material—are regarded as new closures made of "waste" and are governed by the pertinent provisions of this order.

Definitions of the various terms used in this order appear in paragraph (x) hereof.

Restrictions on Use of Glass Containers and Closures

(Note exceptions from these restrictions in paragraphs (p) through (v)).

(a) *Prohibited acceptances and uses of glass containers and closures.* No packer shall accept delivery of or use any new glass container, or any new metal closure for packing any product not listed in a schedule of this order.

(b) *Limitations on acceptance and use of glass containers and closures.* (1) During any calendar year beginning with 1944, no packer shall accept delivery of or use, for packing any product which is listed in a schedule of this order, more new glass containers or more new metal closures (other than closures made of blackplate rejects, waste or aluminum) than his quota for that product.

(2) The limitations of subparagraph (1) shall not apply in the following cases:

(i) Jobbers or retailers may obtain closures and glass containers without restriction but must resell them in conformity with the provisions of this order.

(ii) In addition to his quota, any packer may, after November 1st of each year, accept delivery of new glass containers and new metal closures (within applicable inventory limitations) in an amount no greater than that which is required to provide him with a practicable minimum working inventory on January 1st of the following year. Containers and closures accepted under this paragraph may not be used until the following year and they must be charged to the following year's quota.

(iii) During any calendar year, a packer, (other than a person who operates under the exceptions in paragraph (r)), may accept, in each of his plants, a maximum of $5000 worth (cost price to him) of empty new glass containers, and $1500 worth (cost price to him) of new metal closures. These containers and closures may be acquired and used in addition to those which the packer would be permitted to accept and use under the other provisions of this order, provided that they are packed in the plant which is entitled to accept them as above, with a product (listed or unlisted) for which he does not have a quota under this order.

NOTE: Subdivision (iv) formerly (iii) redesignated Sept. 28, 1944.

(iv) Certain other exceptions are set forth in paragraphs (p), (q), (r), (s) and (u) (1) and also in the schedules of this order.

(c) *Closure materials.* No packer shall accept delivery of or use, for packing any listed product, new metal closures made of any material except those permitted for that product in the schedules of this order. However, blackplate (including rejects) may be used wherever tinplate or terneplate is specified, and frozen plate may be used wherever tinplate, terneplate or blackplate is specified. Likewise, closures made of waste may be used in accordance with the following paragraph:

(d) *Closures made of waste.* Closures made of waste shall not be used for packing any product not listed in the schedules attached to this order. Closures made of waste may be used in addition to specified quotas for listed products.

(e) [Deleted Sept. 22, 1944.]

Quotas

(f) *General.* Closure and glass quotas are stated separately in the attached schedules, and are not necessarily the same for any given product.

Quotas are not interchangeable as between listed products. That is, a packer who packs two products, product A and product B, must compute his quota (in the manner described in the following paragraph (g)) for each product separately. He cannot allot any portion of his quota for product A to product B, even if he does not pack his full quota of product A.

Furthermore, quotas may not be transferred from one packer to another except as provided in Priorities Regulation 7A.

(g) *Computation of quotas.* Glass container and closure quotas which are based on past usage (for instance, where a percentage figure followed by a calendar year—as 130% 1943—appears in a quota column) are computed as follows:

(1) The packer takes the number of new glass containers (or the number of new metal closures if he is computing his closure quota) which he used for packing that product during the named base year.

(2) He subtracts the number of new glass containers (or new metal closures) which he used for packing that product during the base year, and which were quota exempt under the provisions of any prior order of the War Production Board or under any previous amendment of this order.

(3) He multiplies the resultant figure by the applicable percentage. The glass container quotas for malt and non-alcoholic beverages (Schedule VI) are based on the number of new glass containers accepted rather than those used during the specified base period. In these cases the method of computation described in this paragraph applies, except that the word "accepted" should be substituted for the word "used" in steps (1) and (2) above. Only the new glass containers which a packer actually accepted delivery of and those which were invoiced to him during the applicable base period may be included in his quota base. But, for the purpose of making charges against quota, a packer must include the new glass containers which he actually accepts delivery of, and those which are set aside for him or held by another party for his account—whether or not they are actually invoiced to him. In a few cases, the schedules of this order set forth special rules, not covered by the above, for the computation of quotas for particular products. Such rules must be followed, and supersede the general statements contained in this paragraph (g) to the extent that they conflict with them.

(h) *Use of quotas.* As indicated above, most quotas are based on past use. The word "use" refers only to the actual filling operation in the case of glass and the actual capping operation in the case of closures. Therefore, to the extent that a person did not do this directly during the base period, he has no quota, despite the fact that he may have supplied the actual packer with the product, closures, containers, etc. After December 31, 1943, any packing done for him must be within the quota of the person performing the actual filling and capping operation.

In the case of products whose quotas are based upon acceptances, a person is deemed to have "accepted" glass containers or closures (for the purpose of computing quotas) only to the extent that he himself actually took possession of them or had them invoiced to him. If he did not do this during the base period, he has no quota, and the rules stated in the preceding paragraph of this paragraph (h) apply.

Packers who use or accept new glass containers or metal closures for packing products for the account of others, as well as for their own account, must conduct both operations within their own quotas. Without a special appeals grant under this order, they cannot regard their use or acceptances of glass containers and metal closures for the account of others as an addition to their quotas. This is true even where the other person may represent to the packer that he has a quota which he is not using himself.

On the other hand, packers are entitled to include, in their own quota bases, their use or acceptances of new glass containers or new metal closures, for the account of others during the specified base periods.

Restrictions on Sale and Delivery of Glass Containers and Closures

(i) *General restrictions.* No person shall sell or deliver any glass containers or closures which he knows, or has reason to believe, will be accepted or used in violation of any provision of this order.

(j) *Export.* The provisions of this order do not affect or restrict the manufacture, sale or delivery of empty new glass containers or unused closures for shipment outside the continental United States.

(k) *Certificates.* No person shall sell or deliver any new glass containers or new metal closures except under a purchase order or contract validated by the delivery to such person of a purchaser's certificate, signed manually, or as provided in Priorities Regulation 7.

This certificate shall be in substantially the form attached hereto as Exhibit A in the case of sales or deliveries of all glass containers, and of all metal closures except malt and non-alcoholic beverage closures. Attention is called to the fact that this certificate, once filed by a purchaser with a supplier, covers all future deliveries from that supplier to that purchaser.

The certificate should be in substantially the form attached hereto as Exhibit B, where sales or deliveries of malt or non-alcoholic beverage closures are concerned. This certificate differs from Exhibit A in that it must be filed with each purchase order for beverage closures in order to validate the order.

Jobbers as well as packers must file certificates in accordance with this paragraph (k). However, in Exhibit B, jobbers need only supply the information called for in sections (b) and (d) of that certificate.

(l) *Outstanding certificates.* Certificates previously filed with a supplier under any previous amendment of this order, shall remain valid insofar as sales or deliveries of glass containers are concerned. Exhibit A certificates previously filed under order M-104, shall remain valid insofar as closure (other than malt or non-alcoholic beverage), deliveries are concerned. In either of the above cases, no new certificate need be filed by any purchaser to validate his orders placed with the supplier to whom the previous certification was made.

(m) *Cases where certificates need not be filed.* No certificates shall be required for the sale or delivery of the following:

(1) Home canning jars except when sold to a packer
(2) Home canning closures except when sold to a packer
(3) Returnable glass containers for packing miscellaneous dairy products
(4) Prescription bottles and ointment jars for prescription use
(5) Closures for prescription and ointment jars for prescription use
(6) Glass containers or closures of any kind to retailers for resale empty or unused or to persons purchasing them from retailers.
(7) Glass containers or closures on shipments, empty or unused, to persons outside the continental United States.

(n) *Standard certifications.* The standard certification provided for in paragraph (d) of Priorities Regulation 7, cannot be used in place of the certifications provided by this order; nor may the certifications provided by this order be waived in accordance with paragraph (f) of Priorities Regulation 7.

Restrictions Relating Solely to Manufacture of Closures

(o) *Closure material.* (1) No person shall use any zinc, tinplate, terneplate, blackplate, frozen plate, waste-waste or waste for the manufacture of the following types of closures:

(i) Cover caps which serve as a protective or decorative closure in addition to any original sealing medium (other than paraffin) such as another closure.

(ii) Double shell or semi-double shell caps except where one part is made of aluminum.

(iii) Two-piece closures when both pieces are made of metal (other than aluminum) except for home canning closures conforming to paragraph (o) (2).

(2) No person shall use any zinc, tinplate, terneplate, blackplate or wire (except aluminum wire) for the manufacture of any closure of the home canning type except as follows: For jelly glass lids—blackplate; for all other home canning closures—0.50 tinplate, zinc, and wire (for bales).

A manufacturer may make home canning closures of the permitted materials without restriction as to quota. No two-piece all-metal closure manufactured pursuant to this subparagraph shall knowingly be sold to or used by any person for packing any product for sale.

(3) No person shall use any tinplate, terneplate or blackplate heavier than 90 pounds per base box for the manufacture of crown caps. This restriction does not apply to rejects, frozen plate waste-waste, or waste.

(4) No person shall use for the manufacture of closures any tinplate with a tin coating in excess of 0.50 lb. per base box except as otherwise specified in Schedule I, where in a few instances the figure 1.50 appears in the tinplate closure material column. In those cases tinplate with a tin coating of 1.50 lbs. per base box may be used.

(5) No person shall use any wire for the manufacture of paperboard disc plug caps, except that wire may be used for such caps having a diameter of two inches or larger. This restriction shall not apply to aluminum wire.

Exceptions Pertaining to Both Glass Containers and Closures

(p) *Deliveries to certain agencies and persons.* Nothing in this order shall prohibit the purchase, acceptance of delivery, or use (such use to be in addition to any quota specified in the schedules attached to this order) of glass containers or closures by any of the following persons or by any person for packing any product to be delivered to or for the account of any of the following persons:

(1) Army, Navy, Marine Corps, Maritime Commission, War Shipping Administration of the United States (including persons operating vessels for such Administration or Commission for use thereon), or the United Seamen's Service, Inc.

(2) Any person for packing products for retail sale or distribution through post-exchanges, sales commissaries, officers' messes, servicemen's clubs, ship service stores, or outlets; provided same are located at Army or Navy Camps, are not operated for private profit and are established primarily for the use of Army or Navy personnel within Army or Navy establishments or on Army or Navy vessels.

(3) American Red Cross, United Service Organizations, or such other nonprofit Defense Recreation Committees, engaged in the operation of recreation centers in the United States, its territories or island possessions, solely for military personnel, as are certified to be within the exemption provided by this paragraph (p) (3) by the Office of Community War Services under the Federal Security Agency.

(4) Any agency of the United States purchasing for a foreign country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(q) *Special provisions in schedules relative to exempt deliveries to certain agencies and persons.* The schedules of this order contain certain limitations on the exception provided by the preceding paragraph (p) in the case of certain products—as, for instance, malt and nonalcoholic beverages. In such cases, the provisions of the schedules are controlling and supersede paragraph (p) to the extent that they conflict therewith.

(r) *Small users.* The restrictions of this order shall not apply to any packer during any calendar year in which he neither accepts nor uses more than a total of $5,000 worth (cost price to him) of empty new glass containers and $1,500 worth (cost price to him) of new tinplate, terneplate or blackplate closures for all products. A packer who accepts glass containers or closures under the provisions of this paragraph, must use them in his own plant and may not deliver them for packing by anyone else. All packers owned or controlled directly or indirectly by the same person shall be deemed to be a single packer for the purposes of this paragraph.

Exceptions Relative to Glass Containers Only

(s) *Large size glass containers.* The restrictions of this order which pertain to glass containers shall not apply to any glass container with a capacity larger than 140 fluid ounces.

(t) *Glass containers of non-permitted sizes manufactured prior to January 4, 1944.* A packer may accept and use, for packing any product listed in the schedules of this order, any glass container which was manufactured before January 4, 1944, even though the container is of a size which is not permitted for that product by the schedules. Such acceptance and use must be in accordance with the quota provisions of this order and with the provisions of Order L-103.

(u) *Quota status of glass containers in inventory as of January 1, 1944.* Glass containers in the possession of a packer as of January 1, 1944, may be used by him for packing any listed product as follows:

(1) Quota free, if accepted for packing a product which had a limited quota in 1943, (unless "borrowed" as described in point 3 of this paragraph).

(2) Within quota, if accepted for packing a product which had an unlimited quota in 1943.

(3) Within quota, if borrowed against anticipated 1944 use as permitted in paragraph (e) of this order as amended November 1, 1943.

(v) [Deleted July 18, 1944.]

Prior Appeals

(w) *Appeals granted prior to December 31, 1943 under Order M-104 and Order L-103-b.* All appeals granted prior to December 31, 1943 under orders L-103-b and M-104 are cancelled and shall be ineffective on and after January 1, 1944. Therefore, after that date, no person shall accept delivery of or use or shall manufacture, sell or deliver any new glass container or any new metal closure except in accordance with the provisions of this order—unless he receives a new grant on appeal after January 1, 1944.

The letter of appeal need not follow any particular form. It should state informally, but completely, the particular provision appealed from, the precise relief desired, the reasons why denial of the appeal would result in undue and excessive hardship, and such other statistical and narrative information as may be pertinent.

(bb) *Communications.* All communications concerning this order shall be addressed to: War Production Board, Containers Division, Washington (25), D. C., Ref.: L-103-b.

(cc) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. SCHEDULES—GENERAL EXPLANATION

Schedules I through VI list the only products which may be packed in new glass containers or with new metal closures.

The data set forth in the two "quota" columns, opposite each product, indicate the number of new glass containers and new metal closures (determined in accordance with the general rules set forth in paragraph (g) of Order L-103-b), which may be used for packing that product. However, any special quota provisions which these schedules make applicable to any product, are controlling to the extent that they conflict with paragraph (g).

Where the "x" mark appears opposite a product in one of the columns headed "Closure Material", it indicates that, except as listed hereafter, only closures made of that material may be used to pack that product. The general exceptions from this rule are:

(i) Closures made of blackplate may be used, within quotas, wherever tinplate or terneplate is specified.

(ii) Closures made of frozen plate may be used, within quota, wherever either tinplate, terneplate or blackplate is specified.

(iii) Closures made of waste may be used in addition to specified quotas for listed products.

All special provisions of these schedules relating to closure materials for specific products must be followed, and control to the extent that they conflict with the above.

All size specifications for glass containers set forth in these schedules must be followed in addition to the provisions of Order L-103 and its schedules.

Attention is called to Paragraphs (p) through (u) of this order which establish limited exceptions to its provisions. Here again any special provisions which these schedules contain relative to quota exemptions, as in the case of certain beverages, must be observed.

SCHEDULE VI—BEVERAGES

(The rules set forth in this schedule are controlling wherever they conflict with any other provisions of Order L–103–b. However, except as modified herein, all provisions of Order L–103–b are applicable)

MALT BEVERAGES

Product: Malt beverages, including only beer, ale, porter, near beer and mixtures thereof.

Glass Containers

(a) *Glass container quota.* 130% of the number of new returnable glass containers which the packer accepted delivery of for malt beverages during 1943—less the number of quota exempt returnable glass containers which were accepted during the period between July 1, 1943 and December 31, 1943.

(b) *Exceptions from glass quota provisions.* In addition to his quota of glass containers for malt beverages, any packer may accept delivery of the following portion of the number of new or used glass containers used, or actually to be used, during the then current calendar year for delivering malt beverages to or for any of the persons listed under paragraph (p) of this order:

(1) *Export shipments and domestic shipments in non-returnable bottles.* The full amount of glass containers (of all types) for delivering malt beverages to or for any such person for shipment to points outside the continental United States; and the full amount of non-returnable glass containers for delivering malt beverages to or for any such person for use or distribution within the continental United States.

(2) *Domestic shipments in multiple-trip bottles.* Fifteen per cent of the full amount of multiple-trip glass containers for delivering malt beverages to or for any such person for use or distribution within the continental United States.

Closures

(c) *Closure quota (See Note 3).* 115% of the number of new metal closures used for malt beverages during 1943. (Quota exempt closures may not be included in base.)

Only closures made of the following materials may be used in addition to quota:

1. Closures made of blackplate rejects without any lettering or design printed thereon.

3. Closures made of used cans and discs which were in the inventory of the crown manufacturer or user on September 28, 1944 and which are made into crowns before January 1, 1945.

(e) *Closure material for armed forces.* Closures for overseas shipments of malt beverages or closures for shipments unused to overseas bottling plants, when the beverage is for delivery to the United States Army or Navy, may be made of 0.50 lb. electrolytic tinplate of 103 basis weight.

NON-ALCOHOLIC BEVERAGES

Product. Non-alcoholic beverages, including only carbonated soft drinks; non-carbonated soft drinks; unflavored carbonated waters and unflavored naturally carbonated and still waters (See Note 2); drinks consisting of fruit juices, vegetable juices and combinations thereof, where less than 85% by weight of such drinks is pure fruit juice, vegetable juice, or a mixture thereof; and sterilized milk drinks made with powdered milk.

Glass Containers

(a) *Glass container quota.* 110% of the number of new glass containers which the packer accepted delivery of for non-alcoholic beverage during 1941.

(b) *Exceptions from glass quota provisions.* In addition to his quota of glass containers for non-alcoholic beverages, any packer may accept delivery of the following portion of the number of new or used glass containers used, or actually to be used, during the then current calendar year for delivering non-alcoholic beverages to or for any of the persons listed in paragraph (p) of this order.

(1) *Export shipment.* The full amount of glass containers for delivering non-alcoholic beverages to or for any such person for shipment to points outside the continental United States.

NOTE 2: Except with regard to items listed in Schedule II, no new metal closures shall be affixed to glass containers smaller than 12 fl. oz. for packing unflavored carbonated natural or mineral waters unless such glass containers were manufactured on or before June 1, 1942.

NOTE 3: No person other than a jobber purchasing for resale shall accept delivery of malt beverage or non-alcoholic beverage closures which would increase his inventory beyond 30% of his 1944 quota of such closures plus the number of closures used in the preceding three calendar months for purposes described in paragraph (p) of this order. This restriction does not apply to closures which are permitted to be used without regard to quota under paragraphs (d) (1) (2) and (3) for Malt and Non-alcoholic Beverages under this schedule.

NOTE 4: As an alternative to computing his glass quota on the basis of 130% of 1943, any packer of distilled spirits may elect to compute his quota for the calendar year 1944 as follows: 100% of 1943 plus 6 bottles for each proof gallon of distilled spirits manufactured during August of 1944 that he uses for packing for beverage purposes.

SCHEDULE VII: Revoked Sept. 28, 1944.

INTERPRETATION 1: Revoked Jan. 4, 1944.

INTERPRETATION 2

GLASS CONTAINER AND CLOSURE QUOTAS

Paragraph (g) sets forth the method for computing a packer's quota of new glass containers or new metal closures. The first step in the process (subparagraph (1) of paragraph (g)) is to take the number of new glass containers or new metal closures used or accepted for packing that product during the named base period. In arriving at this number a packer may not include more containers or closures than he was permitted to accept or use under the provisions of the applicable order in existence at the time. New glass containers or new metal closures accepted or used pursuant to the grant of an appeal are properly included in making the computation. (Issued Apr. 3, 1944.)

INTERPRETATION 3

A caterer or restaurateur, who fills glass containers with food which is ready for consumption, for the purpose of delivering it to a plant to be served in in-plant feeding operations, is not a packer within the meaning of the term as defined in paragraph (x) (2) of this order and therefore not subject to the restrictions contained in it. He may properly use the certification contained in Exhibit A in placing his purchase orders if the glass containers are to be used for this purpose only. (Issued May 15, 1944.)

PART 3274—MACHINE TOOLS AND INDUSTRIAL SPECIALTIES

[General Preference Order E-1-b, as Amended Sept. 28, 1944]

PRODUCTION AND DELIVERY OF MACHINE TOOLS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of machine tools and components used in producing machine tools for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3274.1 *General Preference Order E-1-b.*—(a) *Definitions.* For the purposes of this order:

(1) "Machine tool" means any new, non-portable, power driven, metal-working machine listed on the attached Exhibit A except light power driven tools subject to Limitation Order L-237.

The word "machine" means a machine tool. It includes all fixtures, equipment and tooling covered by the original purchase order which are required to be delivered with the machine to make it usable in production for the purposes intended. It does not include replacements, spare parts or equipment, or extra tooling.

(2) "Producer" means any person engaged in producing machine tools.

(3) "Service purchasers" means those whose purchase orders for machines call for delivery to a supply arm or bureau of the Army or Navy, to the United States Maritime Commission, to one of their prime contractors, or to a subcontractor of such a prime contractor. However, no such purchaser shall be considered a service purchaser unless his preference rating certificate or endorsement accompanying his purchase order shows that the preference rating being applied to the purchase was assigned on Form WPB-542, CMPL-224, or GA-1456, or that the rating was assigned and certified in accordance with paragraph (e) (3) of War Production Board Directive 31.

(4) "Foreign purchasers" means those whose purchase orders show that the machine is to be delivered to or for the account of a foreign country, other than Canada, or a subdivision, agency, or instrumentality thereof.

(5) "Other purchasers" means all purchasers other than service purchasers and foreign purchasers, whose purchase orders have been assigned a preference rating of AA-5 or higher. Other purchasers include all Canadian purchasers except those who are service purchasers by reason of their purchasing machines for use on direct United States prime contracts or subcontracts.

(6) "Size" includes all of those dimensions or variations of a particular type of machine which can be used interchangeably for production purposes. Size classification shall be that used by each producer on June 22, 1944 unless he is hereafter authorized to use a different classification. Producers may apply for such permission by writing to the Tools Division, War Production Board, Ref.: E-1-b.

(b) *Delivery of machine tools until September 1, 1944.* Until September 1, 1944 each producer shall maintain his production and delivery schedules as established on June 22, 1944. An exception to this is any change in schedules required by a diversion or by any other specific direction of the War Production Board issued after June 22, 1944.

(c) *Allocation of production to service purchasers and to foreign purchasers and other purchasers.* (1) Starting September 1, 1944, each producer shall schedule his deliveries for each calendar month so as to deliver 75 percent of his production of each size in that month to service purchasers and 25 percent of each size to foreign purchasers and other purchasers combined.

(2) To the extent that a producer has not received orders from service purchasers for 75 percent of his production of a given size by sixty days prior to the first of the month being scheduled, he may schedule more than 25 percent for delivery to foreign purchasers and other purchasers combined. To the extent that he has not received orders from foreign and other purchasers combined for 25 percent he may schedule more than 75 percent for delivery to service purchasers.

(d) *Distribution of 75 percent of production among service purchasers.* Each producer shall schedule deliveries to service purchasers as follows:

(1) Service purchasers are subdivided into seven groups, consisting of the following and their respective prime contractors and subcontractors: Bureau of Ships (Navy), Bureau of Ordnance (Navy), Ordnance Department (Army), Air Forces, Miscellaneous Branches and Bureaus, the Maritime Commission, and the Signal Corps. The fourth group, designated "Air Forces," includes the Army Air Forces and the Navy Bureau of Aeronautics and their respective prime contractors and subcontractors. The fifth group, designated "Miscellaneous Branches and Bureaus," includes the Quartermaster Corps, the Corps of Engineers, the Office of The Surgeon General (Army Medical Department), the Chemical Warfare Service, the Transportation Corps (Transportation Service), the Bureau of Yards and Docks, and the Marine Corps, together with any other corps, department, bureau or service of the Army or Navy not heretofore designated as a separate group, and their respective prime contractors and subcontractors.

(2) (i) Each producer shall figure the number of orders on his books for each size from each of the seven service purchaser groups as of sixty days prior to the first day of the month being scheduled or, at the producer's option, the nearest date within ten days thereof on which he may have compiled his record of orders. Only orders which require delivery in the month being scheduled or in a previous month shall be counted. This figure shall be termed the net backlog of each service purchaser group. No order shall be counted unless it is a firm order accompanied by specifications or other description of the machine in sufficient detail to enable the producer to place the machine in his production schedule and by the information required by paragraph (f) of this order.

(ii) He shall then distribute the number of machines of this size allocated to all service purchasers for the month being scheduled among each of the seven service purchaser groups according to each group's quota. The quota of this size for each service group shall be the ratio of:

(a) Net backlog in this size of the service group to

(b) The total of all net backlogs in such size of all the service groups,

multiplied by the total number of machines of this size allocated for the month being scheduled to all service purchasers. An example of the calculation required by this paragraph is attached, marked "Illustration of paragraph (d) (2)."

(iii) The quota shall be determined monthly for the third ensuing month. For example: On the 1st of July quotas shall be determined for September, on the first of August quotas shall be determined for October, and on the first of September quotas shall be determined for November, etc.

(3) Commencing with the month of September 1944 and each month thereafter, a producer shall deliver to each service group the number of machines of that size equal to its quota for that month. However, no producer shall schedule delivery of any machine earlier than the date on which the purchaser requires delivery unless all required delivery dates on other orders are being met.

(e) *Treatment of fractions.* Where the number of machines which results from any computation required by this order contains a fraction of more than one-half, the fraction shall be counted as a whole machine. A fraction under one-half shall be disregarded, except that where the computation results in a fraction only (less than one whole machine) for any one month, and such fraction is less than one-half, it shall be counted in computing the next month's quota. Where each of the computations of two or more different quotas for the same month shows a fraction of one-half, and there is only one remaining machine to which such fractions can apply, such machine shall be allotted to the group having the largest quota, and the other fractions of one-half shall be disregarded for that month, but shall be counted in computing the other quota or quotas for the next month.

(f) *Necessity for preference rating.* No producer shall place any order for a machine in his production schedule and no producer or other person shall deliver or accept delivery of any machine unless it is rated AA-5 or higher. However, a producer who has filled all rated orders on their required delivery dates may deliver a total of not more than ten machines (irrespective of size and type) to his different dealers within the continental United States without ratings. A producer may distribute these ten machines among his dealers in any way he wishes. Upon the sale of any of these machines, if he has then fulfilled all rated orders, he may deliver additional machines to maintain a total of not more than ten machines among his different dealers.

Any dealer so receiving a machine may resell it only on a rating of AA-5 or higher and may not extend the rating received from his customer to replace it in his inventory.

In applying a preference rating to an order for a machine tool, the purchaser must supply the following information in addition to his regular endorsement or certification applying the rating:

(1) The form of preference rating certificate or the number of the order or regulation by which the rating was assigned to the purchaser. For example: Form WPB-541, WPB-542, WPB-1319, CMPL-224, GA-1456, P-68, CMP Regulation 5.

(2) The urgency standing assigned to the delivery of the machine, if any.

(3) The required delivery date of the machine.

(4) A statement as to whether the purchaser is a service purchaser, a foreign purchaser, or other purchaser, and if a foreign purchaser the foreign country to which the machine is to be delivered.

(5) In the case of service purchasers the supply arm or bureau of the Army or Navy, or the Maritime Commission which placed the prime or subcontract on which the machine being purchased is to be used, the number of the prime contract and the name of the prime contractor.

(g) *Operation of Numerical Master Preference List.* Numerical Master Preference List, Revision No. 6, designated "Restricted," has been supplied to machine tool builders (Exhibit B to this order). This list determines the sequence of deliveries as between service purchasers as follows:

(1) The sequence of deliveries among each group of service purchasers within its respective quota shall be determined each month without regard to preference ratings.

(2) Deliveries to service purchasers who are either on the list or are subcontractors of persons on the list shall take precedence over service purchasers who are not on the list.

(3) As between deliveries having conflicting required delivery dates and to be made to service purchasers on the list, priority shall be given to the service purchaser with the higher urgency standing in that service group. The highest urgency standing is No. 1.

(4) The sequence of conflicting deliveries to service purchasers not on the list shall be determined by the respective dates on which the producer receives the preference rating together with the information called for by paragraph (f).

(5) Delivery to a subcontractor not specifically named on the list shall take the urgency standing of his prime contractor. However, no subcontractor may use the urgency standing of his prime contractor unless it has been endorsed on the instrument assigning the preference rating by the supply arm or bureau concerned.

(6) If the urgency standing certified to by the purchaser differs from the urgency standing shown for the particular contractor in question on the Numerical Master Preference List, Revision No. 6, the latter shall govern.

(h) *Additions to list.* Changes may be made in the Numerical Master Preference List from time to time by the War Production Board. Where an urgency standing between existing urgency standings is assigned, the new urgency standing will consist of a number including a decimal. Such an urgency standing will take a position in the sequence of deliveries as indicated by the following example: Urgency Standard 792.1 will be scheduled after 792 and before 793.

(i) *Sequence of deliveries among foreign purchasers and other purchasers.* The sequence of deliveries among foreign purchasers and other purchasers within the proportion of production allocated to them shall be determined in accordance with the provisions of § 944.7 of Priorities Regulation No. 1.

(j) *"Frozen" period.* Unless the War Production Board specifically orders otherwise, no higher preference rating or urgency standing which may be received by a producer shall operate to postpone or in any way affect any delivery under a purchase order which is scheduled for delivery within sixty days of receipt of such higher preference rating or urgency standing.

(k) *Replacement parts.* Nothing in this order shall be construed to prohibit the delivery by any producer of repair and replacement parts for machine tools in accordance with applicable regulations and orders of the War Production Board concerning maintenance, repair and replacement items.

(l) *Changes in schedules.* Notwithstanding any other provision of this order, the War Production Board may direct or change any schedule of production or delivery of machines, allocate any order for machines to any other producer, divert or otherwise direct the delivery of any machine to any other person.

(m) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(n) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal. This appeal should be filed with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates.

(o) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regula-

tions of the War Production Board, as amended from time to time.

(p) *Communications.* All reports required to be filed hereunder, and all appeals and other communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Tools Division, Washington 25, D. C., Ref.: E-1-b.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-124 as Amended Sept. 28, 1944]

RUBBER YARN AND ELASTIC THREAD

§ 3290.36 *Conservation Order M-124*—(a) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(b) *Restrictions on use and delivery.* No person shall knit, weave or otherwise process or use, sell, deliver, purchase, order or accept any rubber yarn, latex yarn or elastic thread including all types of synthetic rubber yarn or synthetic rubber thread, except:

(1) As specifically authorized by letter or telegram of the War Production Board.

(2) For sale or delivery by or to the Defense Supplies Corporation or its representatives;

(3) Any rubber yarn, latex yarn or elastic thread in a retail merchant's stock as such on March 29, 1942.

Until December 1, 1944, the restrictions of this paragraph (b) shall not apply to synthetic rubber yarn or synthetic rubber thread.

(c) *Authorizations.* Any authorization requested under paragraph (b) (1) shall be filed on Form WPB-1319 (formerly PD-556), including inventory data and the prime contractor's name and prime contract number if a Government contract is involved. These reporting requirements have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(d) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(e) *Communications.* All reports required to be filed under, and all communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Textile, Clothing, and Leather Division, Washington, (25) D. C., Ref: M-124.

(f) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(g) *Equitable distribution.* It is the policy of the War Production Board that rubber yarn, latex yarn, elastic thread and all types of synthetic rubber yarn and thread not required to fill rated orders shall be distributed equitably. In making such distribution due regard should be given to essential civilian needs, and there should be no discrimination in the acceptance or filling of orders as between persons who meet the seller's regularly established prices and terms of sale or payment. Under this policy every seller of such products, so far as practicable, should make available an equitable proportion of his merchandise to his customers periodically, without prejudice because of their size, location or relationship as affiliated outlets. It is not the intention to interfere with established channels and methods of distribution unless necessary to meet war or essential civilian needs. If voluntary observance of the policy outlined is inadequate to achieve equitable distribution, the War Production Board may issue specific directions to named concerns. A failure to comply with a specific direction shall be deemed a violation.

PART 3291—CONSUMERS DURABLE GOODS

[Limitation Order L-98, as Amended Sept. 28, 1944]

DOMESTIC SEWING MACHINES

§ 3291.280 *Limitation Order L-98*—(a) *Definitions.* For the purposes of this order:

(1) "Domestic sewing machine" means any sewing machine designed for household use.

(2) "Attachment" means any special purpose detachable device which is designed for use with a domestic sewing machine but which is not essential to the most simplified operation of such machine.

(3) "Part" means any part manufactured for incorporation into an attachment or into a domestic sewing machine. It includes, for example, a needle, cabinet, portable base, cover, table and stand. It does not include attachments, electric motors, or motor controllers.

(4) "Manufacturer" means any person in the business of making new domestic sewing machines, attachments or parts, and any person who was in that business in 1940.

(b) *Restrictions on production.* (1) No person shall manufacture or assemble any new domestic sewing machine or any new attachment.

(2) No manufacturer shall make or transfer any new domestic sewing machine part if he knows or has reason to believe that that part will be used for any other purpose than the repairing of a used domestic sewing machine.

(3) No manufacturer shall make any part if by making that part he would have more parts of that type in his inventory than twice the number he sold in the second preceding calendar quarter. However, a manufacturer making parts in order to bring his inventory of that type of part up to twice the number he sold in the second preceding calendar quarter, need not make less than a minimum practical run of that part in order to comply with this paragraph (b) (3).

(4) It will be the general policy of the War Production Board to allocate controlled materials and give priorities assistance for the purchase of all other materials for the manufacture of parts under the Controlled Materials Plan, only to the extent that the manufacture of parts in any one plant or labor requirements therefor will not interfere with war production in that plant or any other plant located in the same area.

(c) *Electrification prohibited but other renovations and repair allowed.* No person shall commercially convert a non-electric domestic sewing machine, whether new or used, so as to make it operate by electricity. Any other repair, rebuilding, renovation or reconditioning (including the final assembly of a new domestic sewing machine into a cabinet, portable base and cover, or table and stand) is allowed.

(d) *Restrictions on transfer of domestic sewing machines.* No manufacturer shall transfer physical possession of or title to any new domestic sewing machine, except

(1) As specifically authorized by the War Production Board in writing. Applications for such authorization should be made by filing a letter with the War Production Board, Washington, 25, D. C. Ref: L-98.

(2) For delivery to or for the account of the Army, Navy, War Shipping Administration, or Veterans' Administration; on Lend-Lease and export orders, and on orders stating on their face that the domestic sewing machines are for ship board use.

(e) *Reports.* All manufacturers must file with the War Production Board, on or before the twentieth day of April, July, October and January, Form WPB-1600 (formerly PD-655) showing all new domestic sewing machines shipped or delivered in the preceding calendar quarter.

(f) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance.

(g) (1) *Exceptions and appeals.* Any person who wants to manufacture or assemble new domestic sewing machines or new attachments; or any person who wants to make or transfer any parts, the production or transfer of which is prohibited or restricted by paragraph (b) (2) or (b) (3) of this order, may apply for permission to do so as provided in Priorities Regulation 25. The transfer of physical possession or title to any new domestic sewing machine is not subject to the distribution restrictions of paragraph (d) when authorization to manufacture is obtained under Priorities Regulation 25.

(2) *Appeals.* Any appeals from the restrictions of this order, other than the restrictions of paragraph (b), should be filed on Form WPB-1477 (in triplicate) with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates. No appeal should be filed from the restrictions of paragraph (b).

(h) *Applicability of other orders and regulations.* The provisions of this order and all transactions affected thereby are subject to all applicable regulations of the War Production Board. If any other order of the War Production Board limits the use of any material in the production of domestic sewing machines, attachments or parts to a greater extent than this order does, the other order shall govern unless it states otherwise.

(i) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Consumers Durable Goods Division, Washington 25, D. C., Ref: L-98.

NOTE: The reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 3296—SAFETY AND TECHNICAL EQUIPMENT

[General Limitation Order L-206, as Amended Sept. 28, 1944]

X-RAY EQUIPMENT

§ 3296.61 *General Limitation Order L-206*—(a) *Purpose of this amended order.* This order is a complete revision of Order L-206 as it stood prior to November 29, 1943. The provisions of this order take the place of the provisions of the older editions of L-206. The principal purpose of this revised order is to eliminate the paper work required heretofore and to establish maximum dollar quotas for shipments of medical X-ray equipment to civilians, based on a normal pre-war base period. Shipments to persons and agencies other than civilians (as defined in paragraph (e) (8) below) will not be counted against the quota and therefore will be unrestricted. The provisions of the older editions of the order which required the filing of Form PD-774 by the manufacturers and PD-556 by prospective purchasers have been taken out of the order. Furthermore, the restrictions on models and types of X-ray equipment heretofore contained in the order have been removed by deleting Schedule A and the provisions pertaining to that schedule.

(b) *Restrictions on shipments of medical X-ray equipment.* (1) During the 12 months' period beginning October 1, 1943, and during every 12 months' period beginning October 1st thereafter, no manufacturer shall ship to civilians more medical X-ray equipment (by dollar value) than 75 per cent of his base period shipments. (The terms "manufacturer", "civilians", "medical X-ray equipment", and "base period shipments" are defined in paragraph (e).) Shipments to civilians during the calendar quarter beginning October 1, 1943, and during any calendar quarter thereafter, must not exceed 35 per cent of the quota permitted for the entire 12 months' period. (Shipments to civilians include shipments to distributors and dealers for resale to civilians.) In charging off shipments against the permitted quota, dollar values must be calculated on the basis of the manufacturer's published list price for the item as of November 29, 1943. If the manufacturer had no published list price for the item on November 29, 1943, the first legally authorized list price published after that date must be the basis.

(i) As an illustration of the foregoing restrictions, assume that a manufacturer's base period shipments amounted to $1,000,000. His quota for the entire 12 months' period would then be $750,000 (75 per cent of his base period shipments); and he would not be permitted to make shipments amounting to more than $262,500 (35 per cent of $750,000) during any calendar quarter.

(2) There is no restriction on the dollar value of shipments of medical X-ray equipment which may be made to the Army or Navy of the United States, the Veterans' Administration, the United States Maritime Commission, any agency of the United States Government purchasing for Lend-Lease purposes, the Canadian Army and Air Force, the Canadian Navy, or persons holding export licenses issued by the Office of Economic Warfare or the Foreign Economic Administration. Nor is there any restriction on the dollar value of shipments of industrial X-ray equipment which may

be made, regardless of who the purchaser may be.

(c) *Special directions.* The War Production Board, at its discretion, may at any time issue special directions to any manufacturer with respect to production or shipments of X-ray equipment.

(d) *Reports.* On or before December 10, 1943, and on or before the 10th day of every month thereafter, each manufacturer shall file with the War Production Board, Washington 25, D. C., three copies of a letter containing a report of shipments of X-ray equipment (by dollar value) made during the preceding calendar month. (However, the first report should show the shipments made during October and November, 1943, and shipments for each month should be reported separately.) Shipments should be reported separately for each of the following: (1) Army of the United States; (2) Navy of the United States; (3) the Veterans' Administration; (4) United States Maritime Commission; (5) Lend-Lease; (6) Canadian Army, Navy and Air Force; (7) Office of Economic Warfare and Foreign Economic Administration; (8) Canadian (civilian); and (9) Office of Civilian Requirements (all persons in the United States, its territories and possessions except the Army, Navy and Maritime Commission). Separate reports should be made for shipments of medical X-ray equipment and industrial X-ray equipment. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(e) *Definitions.* The meaning of various terms used in this order is set forth below:

(1) "X-ray equipment" means the following radiographic equipment, fluoroscopic equipment and therapy equipment: power units; radiographic, fluoroscopic, and therapy tables; photo-fluorographic units; cassette changers; and tube stands. The terms shall not include (i) any parts, accessories, or appliances used in connection with radiography, fluoroscopy or therapy, other than the items specifically named above; (ii) rebuilt equipment; nor (iii) any equipment which has at any time been sold to an ultimate user. "Medical X-ray equipment" means X-ray equipment designed for medical (including dental) use; and "industrial X-ray equipment" means X-ray equipment designed for non-medical industrial use. However, if a piece of X-ray equipment is designed for medical use but is sold for non-medical industrial use, it shall be regarded as industrial X-ray equipment; likewise if it is designed for non-medical industrial use but is sold for medical use, it shall be regarded as medical X-ray equipment. Finally, if it is designed for either medical or industrial use, its classification shall depend on the use for which it is sold.

(2) "Power unit" means a high-voltage transformer (with or without rectifying tubes) and control for X-ray use.

(3) "Radiographic, fluoroscopic or therapy table" means a table adapted for placing a patient in a position for radiography, fluoroscopy or therapy, and may be either stationary or tilting.

(4) "Photo-fluorographic unit" means an instrument for photographing the image cast by X-rays through a patient on a fluoroscopic screen. It includes a camera, supporting stand, and fluoroscopic screen. It is also known as a "photo-roentgen unit" or a "photo-fluorograph."

(5) "Cassette changer" means equipment designed to hold two cassettes (one protected from X-rays by a lead shield, and one in the radiographic field) which is constructed to interchange the position of the cassettes.

(6) "Tube stand" means a tubular or frame support (mounted on a base which is either mobile or stationary) which is designed to hold the carriage of an X-ray tube head and allow its vertical movement.

(7) "Manufacturer" means any person engaged in the manufacturing, fabricating or assembling of X-ray equipment.

(8) "Civilians" means all persons other than (i) the Army or Navy of the United States, (ii) the Veterans' Administration, (iii) the United States Maritime Commission, (iv) any agency of the United States Government purchasing for Lend-Lease purposes, (v) the Canadian Army and Air Force, (vi) the Canadian Navy, and (vii) persons required to obtain export licenses from the Office of Economic Warfare or the Foreign Economic Administration. In other words, the term "civilians" includes so-called domestic civilians, all agencies of the United States Government other than the agencies named above, and Canadian civilians.

(9) "Base period shipments" means a manufacturer's average annual shipments (by dollar value) of medical X-ray equipment during the years 1937, 1938 and 1939 to all persons located in the United States, its territories or possessions or located in the Dominion of Canada, but excluding shipments to the Army and Navy of the United States. (In other words, shipments to all persons located outside of the United States, its territories and possessions (except Canadians) and shipments to the Army and Navy of the United States should not be counted in determining base period shipments.) To illustrate how base period shipments are calculated, assume that a manufacturer's shipments of medical X-ray equipment to all persons located in the United States, its territories or possessions (except the Army and Navy) or located in the Dominion of Canada amounted to $1,075,000 in 1937, $900,000 in 1938 and $1,025,000 in 1939; his base period shipments would then be $1,000,000. In determining base period shipments, dollar values must be calculated on the basis of the manufacturer's published list prices at the time the shipments were made. Furthermore, in determining dollar values of shipments of medical X-ray equipment, it should be remembered that the term "X-ray equipment" is defined in paragraph (e) (1) of this order to include only certain named items. Other items not included in that definition (such as bucky diaphragms, stationary grids, and X-ray accessories and appliances) should not be counted in determining base period shipments and should not be counted in determining the dollar value of shipments permitted under paragraph (b) of this order.

(f) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(g) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(h) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(i) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board as amended from time to time.

(j) *Correspondence.* Reports to be filed and other communications concerning this order shall be addressed to the War Production Board, Safety and Technical Equipment Division, Washington 25, D. C., Ref.: L-206.

Issued this 28th day of September 1944.

PART 1075—CONSTRUCTION

[Conservation Order L-41, as Amended Sept. 26, 1944]

§ 1075.1 *Conservation Order L-41.*—(a) *What this order does.* This order limits construction. It is necessary in order to conserve materials, construction equipment, labor and transportation. In most cases, except where the construction is of a special kind, you must get permission from the War Production Board for construction. This permission (sometimes called "authorization to begin construction") must not be confused with preference ratings or priorities. If a construction job is allowed, either because it is not of the kind restricted by this order or because permission has been obtained, it may still be necessary to get preference ratings for the materials and fixtures which are needed. On the other hand, if you have ratings for materials, or materials on hand, you may still have to get permission to use them for a particular construction job.

(b) *What is meant by construction.* Construction covered by this order includes putting up or altering any sort of a structure, including a building, road, bridge, dam, sewer, and similar jobs; also the installing of equipment or fixtures. Certain special kinds of construction are excepted, as explained in paragraphs (c) and (d) below and in certain directions to this order.

(c) *How much construction is allowed without getting permission.* You need not get permission under this order for construction which does not total more than the limits shown in the following list for all jobs begun in the same year. For an explanation of how to figure "cost," see paragraph (i). If a utility connection (electric, gas, water or central steam heating) will be required, it may be necessary to get War Production Board approval for the connection. If so, approval for the connection must be obtained before beginning construction, even if the cost of construction comes within the limits. The limits for all jobs begun in the same year are as follows:

(1) $200 for a house, including the entire residential property.

(2) $1,000 for a farm including the farmhouses. However, not more than $200 of this sum may be spent on any farmhouse on the farm. A "farm" means a place used primarily for raising crops, livestock, dairy products, poultry, etc., for the market. A "farm-house" means a building on a farm used for residential purposes.

(3) $1,000 for a hotel, apartment building or other residence for six or more families. Any residence for five or less families is considered a house under (1) above.

(4) $200 for an office, bank, store, laundry, garage, restaurant, or other retail service establishment, except that the limit is $1,000 for a unit containing more than five establishments of this kind.

(5) $1,000 for a church, hospital, school, college, U. S. O. Club, public playground for children, or for a publicly owned building or group of buildings used for public purposes.

(6) $1,000 for a bridge, overpass, underpass, tunnel, dock, pier, airport, bus terminal, truck terminal operated by a common or contract carrier by truck, or for a railroad or street railway building or group of buildings.

(7) $1,000 for an irrigation or drainage system serving more than one farm.

(8) $1,000 for a building or group of buildings which will be used for warehouse or for off-farm storage purposes, except that the limit is $200 for a frozen food locker plant.

(9) $1,000 for all monuments and structures on the same cemetery lot or for all cemetery buildings or structures in the same cemetery.

(10) $1,000 for a military exchange situated on a reservation of the Army or Navy.

(11) $1,000 for a building or group of buildings which will be used directly for a sewage system and owned by a sewage system operator as defined in Order P-141.

(12) $5,000 for a factory, plant or other industrial unit which is used for the manufacture, processing or assembling of any goods, except that the limit is $200 if the goods are listed on Schedule A at the end of this order or if the productive floor area of the unit upon completion of construction is less than 10,000 square feet.

(13) $200 for any other kind of construction.

(d) *Special kinds of construction which do not require permission.* It is not necessary to get War Production Board permission under this order for the following kinds of construction, and the cost of such construction need not be charged against the cost limits stated in paragraph (c).

(1) Maintenance and repair; that is, work necessary to keep a building or structure in sound working condition or fix it when it has become unsafe or unfit for service because of wear and tear; also the minimum work necessary to prevent more damage to a building or structure (or its contents) which has been damaged by fire, flood, tornado, earthquake, acts of war, or the like. Changes in material are permitted in doing maintenance and repair work. Additions, structural alterations, or the completion of unfinished parts of buildings are not considered maintenance and repair. Rebuilding or restoring after damage caused by fire, flood, tornado, earthquake, acts of war, or the like, is not permitted as maintenance and repair, but is permitted in some cases as explained below.

(2) The rebuilding or restoring of a house (including a farm house) or other residential building damaged or destroyed after July 1, 1943, by fire, flood, tornado, earthquake, acts of war, or the like, if the cost of rebuilding or restoring is less than $5,000.

(3) The rebuilding or restoring of farm buildings damaged or destroyed by fire, flood, tornado, earthquake, acts of war or the like, if the cost of rebuilding or restoring is less than $5,000, where the immediate reconstruction is determined by the United States Department of Agriculture to be essential to the agricultural program.

(4) The rebuilding or restoring of a building or structure damaged or destroyed by disaster, where the Red Cross has been given priority assistance to restore the disaster area, and where the rebuilding or restoring has been determined by the Red Cross to be essential.

(5) Construction necessary to prevent threatened loss of farm products, where immediate construction is determined by the United States Department of Agriculture to be essential to the agricultural program.

(6) Construction owned by the United States Army, Navy, Maritime Commission, War Shipping Administration, Coast Guard, Marine Corps, Civil Aeronautics Authority, Coast and Geodetic Survey, or Panama Canal.

(7) Insulating existing buildings with materials such as storm windows and doors, pipe covering, loose fill, blanket or bat insulation, plain or granule surfaced rigid insulation and weather stripping. Also the application of masonry veneer to existing houses. (This paragraph does not exempt the use of the above materials for any purpose other than the insulation of an existing building against exterior cold or heat without change in the function of the building. It does not apply to the use of insulation materials in the original construction of a building or in the conversion of a building from one purpose to another, or to the use of insulation materials to make an alteration to a building. The cost of new insulating materials used in building a new building or in making alterations to or converting to a new purpose an old building must be included in the cost of the job.) Also any installation of heating and combustion equipment resulting in a saving of the fuel formerly used (not including a change to a new kind of fuel) where the total cost of the installation including the cost of the equipment does not exceed $25,000 and where the cost of installation excluding the cost of equipment does not exceed $5,000. Also the installation of conversion units designed for burning gas in a furnace or boiler formerly burning coal where the use of the fuel involved is not restricted for that purpose by Order U-7 or Order L-174 or where permission has been obtained for the use of the fuel from the War Production Board, Office of War Utilities.

(8) [Deleted Mar. 7, 1944]

(9) Grading, ditch-digging or similar earth-moving operations, if no cement, lumber or other building materials are used, except clay tile and non-reinforced concrete pipe. This applies only to projects which can be completed without the use of any other materials. It does not apply to earth moving operations which are part of a construction job in which other materials will be incorporated before completion.

(10) Various kinds of construction connected with farms, public roads, railroad tracks, utilities, mines, smelters, wells, the petroleum industry, the lumber industry, the chemical industry, steel mills, broadcasting facilities, laboratories, and civilian aircraft facilities as described in Schedule B.

(11) A construction job which began before this order originally became effective (April 9, 1942), or at a time when the job was not limited by this order, and has gone on without interruption.

(12) Construction jobs which are classed as minor capital additions under CMP Regulation No. 5 or under CMP Regulation No. 5A. This exception applies only to:

(i) Additions to factories, plants and other industrial units which will have a productive floor area of 10,000 square feet or more, and which are for the manufacturing, processing or assembling of goods which are not listed in Schedule A.

(ii) Hospitals.

(e) *All other construction forbidden without WPB permission.* No person shall do any construction which has not been permitted by the War Production Board, unless it is of a kind described

in paragraph (c) or (d) above. This prohibition applies to a person who does his own construction work, to one who gets a contractor to do it for him, and to any contractor or subcontractor who works on the job or gets others to work on it. It also applies to any supplier who furnishes material for the job if he knows or has reason to know that the construction has not been permitted.

(f) *How to apply for permission.* (1) Schedule C at the end of this order shows the various types of application forms, and where they should be filed.

(2) In case of emergency, application may be made by wire or in person instead of on a printed form. It must be made to the office in which a written application for the same construction should be filed. The following information must be given:

(i) Cause of the emergency (fire, flood, etc.).

(ii) What the building or structure is used for.

(iii) Type of construction.

(iv) Why immediate construction is necessary.

(v) Estimated cost of construction.

(g) *Preference rating includes permission in some cases only.* There are some forms of preference rating orders and certificates which are issued or have been issued for special kinds of construction and which include permission for construction although they do not say so. These are listed in Schedule D at the end of this order. In all other cases, a preference rating is not enough, unless the instrument which assigns the rating also states that construction is permitted under this order.

(h) *Other restrictions on use of some items.* Permission for construction or the exception of any construction from this order does not relieve any one from complying with the various WPB orders or directives which restrict the use of copper and other scarce materials or fixtures. If you do not know about these restrictions, consult the nearest War Production Board District Office.

(i) *How to figure cost.* (1) For the purpose of determining whether a construction job may be started without getting permission from the War Production Board, "cost" means the cost of the whole construction job as estimated at the time of beginning construction, including the cost of all paid labor, regardless of who pays for it, and including the cost or value of new machinery, equipment, fixtures and materials incorporated in the construction (whether or not obtained without paying for them), but excluding the cost or value of previously used machinery, equipment, fixtures, and materials, the value of unpaid labor, and architects' and engineers' fees (contractors' fees must be included).

(2) [Deleted Sept. 28, 1944]

(3) [Deleted Aug. 19, 1944]

(4) [Deleted Sept. 28, 1944]

(5) All construction on the same unit must be included. The word "unit" means any group of buildings or structures (including roadways, pipelines, etc.) which are situated near to each other, and which serve the same general purpose, or closely related purposes. For example, each of the following is a unit: a house, together with a detached garage, tennis court, swimming pool, etc.; a farm, including the farm house, barn, hen house, dairy, etc.; a manufacturing plant with a number of buildings used for the same or different processes, together with administration buildings, cafeterias, etc. In no case may a single building or structure be treated as more than one unit.

(6) The cost per year must be determined on a calendar year basis, beginning with January 1, 1943, except that a company which regularly keeps its books on a fiscal year basis may use the fiscal year.

(j) *Penalties for violations.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any Department or Agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining any further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 28th day of September 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

Permission under this order is not necessary for the following kinds of construction which are referred to generally in paragraph (d) (10).

1. Construction of structures which are to be used directly in the discovery, development or depletion of mineral deposits; also maintenance work, repairs and minor capital additions given priorities assistance under order P-56 (relating to mines and smelters).

2. Construction which is regulated by any petroleum administrative order or other order issued or administered by the Petroleum Administration for War (construction of this kind is permitted only to the extent authorized by the applicable petroleum administrative order or other order).

The above types of construction are controlled by P-142. The construction of tunnels, overpasses, underpasses or bridges where the cost of the materials acquired as stated above is more than $2,500 and the construction of railroad stations, warehouses, loading platforms and other similar structures are not excepted by this paragraph.

5. Construction of facilities which will be used directly in furnishing electric, gas, water, or central steam heating utility services and which will be owned by a utility producer as defined in Order U-1.

13. Construction which is given priorities assistance under paragraph (e) (2) of Order P-43 (relating to laboratories).

14. Construction of public highways and public streets owned by a Government Agency (construction of this kind is controlled by Order L-41-e).

15. Construction which is given priorities assistance under P-47 (relating to civilian aircraft facilities).

INTERPRETATION 1

[Superseded by L-41, as amended November 1, 1943, which incorporates the substance of the interpretation.]

INTERPRETATION 2

Conservation Order L-41 (§ 1075.1) does not apply to the construction or erection of temporary motion picture sets of a kind which may be stored between the taking of pictures, nor to the incorporation of such temporary sets into permanent sets for the taking of a single motion picture. However it does apply to the construction of permanent outdoor motion picture sets and foundations for sets of a kind which are designed for use in more than a single picture at one location. (Issued Nov. 18, 1943)

INTERPRETATION 4

PORTABLE STRUCTURES ON SKIDS

The erection of a portable or pre-fabricated building is construction and, consequently, is limited by Order L-41 whenever the building is either placed on a foundation constructed on the site or is placed on skids in a spot where it is intended to remain for an undetermined time. The only case in which the erection of a portable or pre-fabricated building is not "construction", is when it is placed on what is intended to be a temporary site with the purpose of moving it from time to time and without affixing it to the land by plumbing, public utilities connection, or in any other way. For example, the erection of a portable structure for use as a garage on a house lot is generally construction, but the erection of a shelter to be moved around for use on different parts of a farm from time to time is not construction. (Issued Mar. 24, 1944.)

INTERPRETATION 6

MAINTENANCE AND REPAIR OF SIDINGS

Paragraph (d) (1) of L-41 excepts maintenance and repair work necessary to keep a building or structure in sound working condition. If an existing siding or roof needs repair, the minimum amount of repair work may be done to put the siding or roof in suitable condition. Thus if a siding can be put in proper condition by putting on paint it should be done in this way. If, on the other hand, the siding has so deteriorated that a paint job will not provide adequate protection a new siding may be put on the building. The new siding need not be of the same material as the old siding. This interpretation is not applicable where asbestos materials are used for re-siding or re-roofing as the use of these materials is governed by Order L-41-d. (Issued Apr. 4, 1944)

INTERPRETATION 8

[Revoked Aug. 19, 1944]

INTERPRETATION 10

INSTALLATION OF MACHINERY AND EQUIPMENT RATED ON WPB-541 AND WPB-542

Interpretation 9 to L-41 explains the circumstances under which an installation of a piece of equipment is restricted by L-41. If the installation of a piece of equipment is restricted by L-41 and is not within the appropriate exemption allowed by paragraph (c) of L-41 and not permitted under Direction 2 to L-41, permission under L-41 to make the installation must be obtained even though the machinery has been rated on Form WPB-541 or Form WPB-542. The reference to WPB-542, PD-3A and CMPL-593 Navy (Army) in Schedule D of L-41 applies only to those forms when used for command construction, Engineers Corps construction, Panama Canal construction, and CAA construction, as defined in paragraphs (c) (3), (4), (5), (6) of WPB Directive 31, when carried on under the supervision of the Armed Services. Paragraph (d) (6) of L-41 also exempts certain construction for which these forms may have been issued. (Issued Aug. 19, 1944.)

DIRECTION 1

[Superseded by Schedule C as amended, which gives instructions for filing applications]

DIRECTION 3

BLANKET PERMISSION FOR MISCELLANEOUS CONSTRUCTION

(a) The War Production Board has been issuing blanket authorizations to applicants permitting them to carry on miscellaneous construction over a fixed period. Instructions as to how to apply for blanket authorizations have been described in WPBI-43 (formerly PDL-362). The need for blanket authorizations has been largely eliminated by the recent transfer of processing of small construction applications to the Field offices, by the simplification of War Production Board procedures under Direction 1 to CMP 6, and by the exception of certain types of minor capital additions under paragraph (d) (12) of L-41. For this reason blanket authorizations will no longer be issued generally but only in cases where it appears that the filing of individual project applications will interfere with the war effort or cause extreme hardship.

(b) In these circumstances applications for blanket authorization may be made on form WPB-617. Separate applications must be made for each "unit" as defined in paragraph (i) (5) of L-41. The applicant will prepare his application in the same way he would prepare an application to do a single job and in accordance with the instructions to Form WPB-617. The need for a blanket authorization must be firmly established.

(c) Blanket authorizations will permit the builder to do miscellaneous routine construction but no materials may be acquired or used contrary to the Limitations which will be made a part of the authorization. In the case of equipment items which must be listed on the application, the builder may use only those which are specifically approved. The use of such items or deviations from the Construction Limitations will be approved only in exceptional cases. The applicant will be permitted to use the allotment symbol P-6 and the rating assigned for the procurement of material. While the blanket authorization will cover a number of jobs, no one job costing more than $10,000 will be authorized, and in certain cases a lower cost limit per job may be fixed. No reports of materials used will be required. No job for which tax amortization privileges will be requested may be included in a blanket application. A separate application should be filed for each such job at the time the request for tax amortization is made.

(d) This direction supersedes WPBI-43 (formerly PDL-362). (Issued April 19, 1944.)

DIRECTION 4

PRISONER OF WAR HOUSING

It is not necessary to get War Production Board permission under Order L-41 to construct facilities to house prisoners of war assigned by the Army to the builder if priorities assistance for the construction has been granted on Form CMPL-593 Navy (Army), pursuant to Direction 2 to CMP Regulation 6 and WPB Directive 31. PART 1075—CONSTRUCTION

[Conservation Order L-41, Interpretation 9, as Amended Sept. 28th, 1944]

INSTALLATION OF EQUIPMENT AND FIXTURES

The following interpretation is issued with respect to Conservation Order L-41:

Paragraph (b) of L-41 describes the kind of work which is covered by the order under the term construction. It specifically states that "the installing of equipment or fixtures" is construction and is covered by L-41.

This means that if a piece of equipment or a fixture is attached to a building and used as a part of the building, or if a piece of equipment or a fixture is so firmly attached to the building that removal would result in material injury to the building or the fixture, construction under L-41 is involved and the limitations of L-41 apply.

The following kinds of installations are construction under L-41:

The installation of any piece of equipment or fixture which is attached to the plumbing system of a building; the installation of any piece of equipment or fixture which involves putting new wiring in a building; the installation of any piece of equipment or fixture for which a base or foundation must be built; the installation of any piece of equipment or fixture cemented to a floor or wall of a building; the installation of a furnace or stoker connected by pipes or flues or wiring to the building.

The following kinds of installations are not construction under L-41:

The installation of a counter, table or booth which is attached to the building only by nails or screws and which can be removed as a unit and will only make it necessary to fill up the holes left by the nails or screws (however, if the counter contains equipment which is attached to the plumbing system, construction is involved); the installation of a piece of equipment or fixture which requires only making a connection to an existing wiring outlet (if new wires must be run or a new outlet built into the wall or ceiling, construction is involved).

These examples illustrate the general principles. In case of doubt as to a particular installation, consult the nearest WPB office or file an application for permission to do the work, if the cost of the work plus the cost of other construction already done on the building during the calendar year exceeds the allowance given under the applicable paragraph of section (c) of L-41 and if the installation is not permitted under Direction 2 to L-41.

Issued this 28th day of September 1944.

PART 1075—CONSTRUCTION

[Conservation Order L-41, as Amended Sept. 28, 1944, Direction 2]

INSTALLATION OR RELOCATION OF MACHINERY OR EQUIPMENT

The following direction is issued pursuant to Conservation Order L-41:

It is not necessary to get War Production Board permission to install or relocate in existing buildings any piece of: (1) processing or service machinery or equipment, or (2) other machinery or equipment (including building service equipment) rated or authorized on a special form (including WPB-541 and WPB-542). Building alterations required in connection with the installation may be made but no new buildings or additions to existing buildings may be constructed under this direction. If it is necessary to construct a new building or make an addition to an existing building, or if priorities assistance is required for materials needed for an installation and alteration permitted by this direction in addition to that given by Direction 15 to CMP Regulation 5 or other blanket preference rating orders, application for permission to begin construction must be made in accordance with L-41. The application should include both the construction and the machinery or equipment which is to be installed.

The term "processing or service machinery or equipment" as used above includes all processing machinery and equipment and all service machinery and equipment installed in a building to make it possible to render a particular service in the building, such as X-ray equipment and the like in hospitals, projectors and screens in theatres, or cold storage enclosures or coolers in stores. The term "building service equipment" as used above means equipment installed in a building for the purpose of making the building function as such regardless of the purpose of the building, such as heating, lighting, plumbing and air-conditioning equipment and systems, and elevators and escalators.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-628]

MECHANICS CONTRACTING CO

A. G. Fleming and A. A. Zeigler, copartners doing business as Mechanics Contracting Company, are contractors and builders located at 1325 Main Street, Columbia, South Carolina. In July 1943, they began construction as building contractors, and thereafter continued construction consisting of altering, remodeling and converting into apartments a two and one-half story residence owned by William M. Burney, and located at 1714 College Street, Columbia, South Carolina. The cost of this construction was $19,000.00 which amount exceeded the limit of $200.00 permitted by Conservation Order L-41, and was in violation of that order. A. G. Fleming and A. A. Zeigler were aware of the War Production Board restrictions on construction, and the beginning and completion of this construction without authorization constituted a wilful violation of Conservation Order L-41.

This violation of Conservation Order L-41 has diverted critical materials to uses not authorized by the War Production Board, and has hampered and impeded the war effort of the United States. In view of the foregoing, it is hereby ordered, that:

§ 1010.628 *Suspension Order No. S-628.* (a) A. G. Fleming and A. A. Zeigler shall not for three months from the effective date of this order apply or extend any preference ratings or use any CMP allotment symbols, regardless of the delivery date named in any purchase order to which such ratings may be applied or extended or on which CMP allotments symbols are used.

(b) The restrictions and prohibitions contained herein shall apply to A. G. Fleming and A. A. Zeigler, doing business as Mechanics Contracting Company, their and its successors and assigns or persons acting on their or its behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

(c) Nothing contained in this order shall be deemed to relieve A. G. Fleming and A. A. Zeigler, doing business as Mechanics Contracting Company, their and its successors and assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on September 28, 1944, and shall expire on December 28, 1944.

Issued this 21st day of September 1944.

(2) The maximum price for sales to an ultimate consumer of a box of ammunition not listed above shall be the price per thousand contained in the manufacturers' price lists, in effect during March 1942, divided by the number of boxes in the thousand. The maximum price per shell or cartridge for sales to an ultimate consumer of less than one box shall be the price per box, divided by the number of shells or cartridges in the standard box.

The following are examples of how to determine the maximum price of a box of shells or cartridges and a single shell or cartridge; 12 gauge long range shot shells are packaged 25 in a standard box. Dividing 1000 by 25 equals 40, the number of boxes per thousand. The manufacturers' list price of $55.20 per thousand, divided by 40, the number of boxes per thousand, equals $1.38 per box. To determine the price per shell, the maximum price per box $1.38 divided by 25, the number of shells per box, equals $.055, the maximum price per shell.

(c) *Addition of state and local taxes.* State and local sales taxes imposed upon the sale of ammunition at wholesale or retail may be added to the maximum prices established under this section provided they are stated as a separate charge on the invoice or sales slip.

(d) *Notification.* (1) The manufacturer shall forward to each of his customers a copy of this amendment immediately after its issuance.

(2) The jobber shall forward a copy of this amendment to each of his customers at the time of or prior to the first invoice of sale.

(e) *Posting.* Retailers must keep posted a copy of the table contained in paragraph (b) (1) of this section at the place in his business establishment where ammunition is offered for sale, so that it is clearly visible to purchasers of ammunition.

(f) *Applicability.* The provisions of this section shall be applicable to the 48 states of the United States and to the District of Columbia.

This amendment shall become effective the 30th day of September 1944.

Issued this 28th day of September 1944.

Administrator.

PART 1389—APPAREL

[RMPR 208,[1] Amdt. 2]

STAPLE WORK CLOTHING

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Revised Maximum Price Regulation 208 is amended in the following respects:

1. Section 2.7 (a) is amended to read as follows:

SEC. 2.7 *Special quota rule on deliveries made by manufacturers*—(a) *Explanation of the special quota rule.* Each manufacturer who delivered staple work clothing at "wholesale prices" (this term is defined in (b) (1) below) in 1941 must, during the remainder of 1944 and during each subsequent calendar year, make at least a certain quota of his deliveries of staple work clothing (including "war models" and "thirty yard minimum boys' bib overalls") at "wholesale prices." During the period from August 26, 1944 to the end of 1944, this quota is that percentage of his total deliveries during this period of garments covered by this regulation which is equal to his "wholesale percentage" (found under paragraph (b) below). During each subsequent calendar year, this quota is that percentage of his total deliveries during that year of garments covered by this regulation which is equal to his "wholesale percentage" (found under paragraph (b) below).

Example: X, a manufacturer of overalls, has a "wholesale percentage" of 40%, and he expects to deliver 300,000 dozen garments of staple work clothing during the period from August 26, 1944 to the end of 1944. Accordingly, during this period, at least 120,000 dozen garments (40% of 300,000=120,000) must be delivered at "wholesale prices." 180,000 dozen garments or less may be delivered at other than "wholesale prices."

X also expects to deliver certain additional quantities of work clothing garments to the Department of the Navy during the remainder of 1944. He is not permitted to include these garments in calculating the total number of garments delivered during 1944, nor does he include these deliveries in figuring whether he has met his quota, since deliveries of garments made to military specifications to war procurement agencies are not covered by this regulation but are covered by Maximum Price Regulation 157.

If, at the end of a year, a manufacturer fails to meet his quota, he has exceeded his ceiling prices to the extent of the deficiency, and will be liable to civil and criminal penalties accordingly.

2. The first undesignated paragraph of section 2.7 (b) (1) is amended to read as follows:

(b) *How a manufacturer finds his "wholesale percentage"*—(1) *Definitions of "wholesale percentage" and "wholesale price."* A manufacturer's "wholesale percentage" is the percent of his 1941 deliveries of staple work clothing which were made at "wholesale prices." Deliveries to any agency or department of the United States Government shall not be included.

3. Section 2.7 (b) (2) (i) is amended to read as follows:

(i) Find the number of dozens of staple work clothing garments covered by this regulation delivered in 1941 to all purchasers other than agencies or departments of the United States Government.

4. The last sentence of example 3 in section 2.7 (b) (2) (iii) is amended to read as follows:

S's "wholesale percentage" is 40% (20,000÷50,000).

5. A new paragraph (c) is added to section 3.2 to read as follows:

(c) *Purchase by wholesalers of identical lot number from different manufacturers.* If a wholesaler purchases the same garment with the identical lot number from different manufacturers at different prices, the wholesaler may, at his option, compute an "average supplier's price" for the garment according to the instructions set forth in section 4.2 (b) (3) for such computation by Group I retail sellers.

6. Section 4.2 (b) (4) is amended to read as follows:

(4) *Where retail sale is made by manufacturer.* Where a sale at retail is made by a manufacturer, the seller's ceiling price is determined as follows:

(i) Determine the ceiling price for the particular garment for sales to each class of purchaser under the applicable pricing rule in Article II.

(ii) If a ceiling price for sales to ultimate consumers can be found under (i), the ceiling price for a sale at retail is the price found in (i) for sales to ultimate consumers.

(iii) If a ceiling price for sales to ultimate consumers cannot be found under (i) above, the ceiling price for a sale at retail is found from Column (3) of the tables in Appendix C (Sales at retail by Group I retail sellers) by taking as the "supplier's net selling price" the lowest ceiling price for the garment found under (i) above.

7. At the end of the first paragraph of the example in section 4.4 (b), the figures "(.35+1.98=17.7%)" are deleted and the following figures "(.35+1.98=17.7%)" are substituted.

8. In the third and fourth sentences of section 5.2 (b) (1) (ii) the date "September 25, 1944" is amended to read "November 1, 1944."

9. Paragraph (a) of Appendix B is amended to read as follows:

(a) For all garments made from materials other than denim, chambray, or shirting coverts, Table I must be used.

10. In paragraph (c) of Appendix B the introductory phrase is amended to read as follows:

(c) For all garments made from shirting covert:

11. In Table I of Appendix B, the word "Army" in the twentieth line in Column 1 (Type of Cloth) is deleted, and the word "Government" is substituted.

12. In Column 1 of Table III in Appendix C, the figures "$24.98—24.05+" are amended to read "$23.98—24.05+."

13. In the headings to the table in section 6.4 the word "class" in Parts 1 and 2 of Columns A, B and C is amended to read "group."

14. The following footnote is added to the table in section 7.3:

NOTE: The ceiling price of a thirty yard minimum boys' bib overall which is of substandard quality, i. e., a "second" or "imperfect," is found by taking the ceiling price of a first quality garment found in the table above and deducting 10%.

15. The headnote to section 7.4 is amended to read as follows:

SEC. 7.4 *Marking and informational requirements.*

16. The text of section 7.4 is redesignated paragraph (a) of section 7.4, and a headnote to paragraph (a) is added to read as follows:

(a) *Notification to be furnished to purchasers for resale.*

17. A new paragraph (b) is added to section 7.4 to read as follows:

(b) *Marking of thirty yard minimum boys' bib overalls*—(1) *Marking required at retail.* On and after October 16, 1944, every person is forbidden to sell or offer to sell at retail or display in a retail

*Copies may be obtained from the Office of Price Administration.

store any thirty yard minimum boys' bib overall which is not marked as required by this section. The marking must contain the following elements:

(i) The manufacturer's lot number or brand name for the garment.
(ii) The retail ceiling price.
(iii) A statement of defects (if any).

(2) *Marking required by manufacturers.* On and after September 29, 1944, every manufacturer is forbidden to deliver a thirty yard minimum boys' bib overall unless the garment is marked with the manufacturer's lot number or brand name and a statement of defects (if any).

(3) *Elements and manner of marking.* The provisions of paragraphs (d) and (e) of section 5.1 relating to the explanation of the elements and manner of marking shall apply to the marking of thirty yard minimum boys' bib overalls.

18. The heading and the first undesignated paragraph of Appendix F are amended to read as follows:

APPENDIX F—HOW GROUP I RETAIL SELLERS AND WHOLESALERS MAY COMPUTE "AVERAGE SUPPLIER'S PRICE"

A Group I retail seller or a wholesaler may, at his option, compute the "average supplier's price" for a garment as follows:

This amendment shall become effective September 29, 1944.

Chapter XX—Office of Contract Settlement

[Gen. Reg. 4]

PART 8012—PLANT CLEARANCE AND PROPERTY

SUBPART B—MACHINERY, TOOLS AND EQUIPMENT

SEPTEMBER 28, 1944.

Pursuant to the authority conferred upon me by section 4 (b) and section 12 (g) of the Contract Settlement Act of 1944, the following policies, principles, methods, procedures, and standards relating to removal of government-owned plant equipment from private plants of war contractors are prescribed for all contracting agencies:

Sec.
8012.51 General policies.
8012.52 Procedure for plant clearance.
8012.53 Matters for negotiation and agreement.
8012.54 Storage.
8012.55 Facilities subcontractors.
8012.56 Restoration expenses not to be paid by the Government.
8012.57 Initiation of action by owning agencies.
8012.58 Advance planning.

AUTHORITY: §§ 8012.51 to 8012.58, inclusive, issued under sec. 4 (b) and sec. 12 (g), Contract Settlement Act of 1944, 58 Stat. 649.

§ 8012.51 *General policies.* It shall be the policy of the owning agencies[1] of the Government to assure the orderly and expeditious removal from the private plants[2] of war contractors of Government-owned machinery, tools and equipment (hereinafter called "plant equipment") which by reason of termination of war contracts at the option, or for the convenience, of the Government or otherwise are no longer required by the contractors for war production or for the national defense and which are not to be retained by them. Much plant equipment is now held by war contractors under contracts or contract provisions specifically governing its use, retention, storage, maintenance or disposition (hereinafter called "facilities contracts") which obligate the war contractors to maintain the plant equipment in standby condition after it has become excess to the needs of the war contractors for war production, or which may otherwise impede orderly and expeditious plant clearance if enforced. To the extent found necessary to effectuate the policy of orderly and expeditious plant clearance, and consistent with the determination of the owning agencies as to the retention at contractors' plants of plant equipment necessary for the national defense, the owning agencies will waive or release, upon such terms and conditions as they may deem appropriate, any existing obligations of the war contractors under facilities contracts.

§ 8012.52 *Procedure for plant clearance.* The following general procedure will be observed by war contractors and the owning agencies in effecting plant clearance:

(a) Whenever a war contractor is of the opinion that he no longer requires for the performance of any war contract any plant equipment installed in his plant covered by an option to purchase or lease which he is then entitled to exercise, he will promptly notify the owning agency whether he desires to exercise the option or is willing to waive it. If he indicates that he desires to exercise the option and the owning agency determines the option provisions are operative, disposition of the plant equipment will be made accordingly.

(b) With respect to plant equipment which the war contractor considers no longer required for war production, (i) not covered by such an option, or (ii) covered by an option which the war contractor is willing to waive, he will promptly[3] submit to the owning agency:

(1) A list of the plant equipment, adequately itemized and described, showing:

(i) The plant equipment which the war contractor desires to retain;

(ii) The plant equipment which, in the opinion of the war contractor, must be removed from its then location in order to make room for other production (specifying the production for which the space occupied by this plant equipment is immediately needed); and

(2) A statement of the amount of space that is or can be made available, in the plant or plants of the war contractor or elsewhere in the vicinity, for the temporary storage of plant equipment; and

(3) A statement of whether the war contractor can arrange to use his own personnel to dismantle and prepare the plant equipment for removal and shipment, or intends to use outside contractors for this purpose.

(c) Unless the war contractor is notified within 10 days after receipt by the owning agency of the list and data that they are not satisfactory, then, within 20 days following such receipt:

(1) The war contractor will be notified whether any plant equipment on the list has been determined by the government to be necessary for his war production or for the national defense; and

(2) With respect to the balance of plant equipment on the list, the war contractor will be notified:

(i) Whether the government is willing to dispose of any plant equipment to the war contractor which he desires to retain;

(ii) Whether it is desired that the war contractor (a) store plant equipment in available storage space in his own plant or plants, or (b) dismantle and prepare plant equipment for removal and shipment. The war contractor will be furnished with specifications, standardized so far as may be practicable, regarding methods of storage, or preparation for removal and shipment.

(d) Subject to the provisions of § 8012.53 below, the following will be accomplished within 60 days (or less if feasible) after receipt by the owning agency of a satisfactory list and data, with respect to all plant equipment on the list not determined by the Government to be necessary for the war contractor's war production or for the national defense:

(1) The Government will dispose of any or all of the plant equipment to the war contractor which the Government is willing to release.

(2) As to the balance of plant equipment:

(i) The war contractor, in accordance with specifications, will temporarily store in available storage space in his own plant or plants the plant equipment which has been designated by the owning agency for such storage.

(ii) The war contractor with his own personnel, or personnel under outside contract, will dismantle the plant equipment not retained for storage and prepare it for removal and shipment in accordance with specifications. The plant equipment will thereupon be removed by or on behalf of the Government.

(3) Prior to or at the time of storage or removal, the war contractor will furnish the Government with an undertaking to waive all option and similar contract rights with respect to this plant equipment whenever requested by the Government.

[1] The term "owning agency" refers to the Government agency which owns or holds title for the United States to the plant equipment located in the plant of the war contractor.

[2] The terms "private plants" and "his plant" refer to buildings or other structures owned by the contractor or leased by him from a party other than the Government and do not refer to contiguous separate buildings, extension to buildings, or other structures owned by the Government.

[3] In aid of sound administration, war contractors should not make repeated submissions covering minor amounts of plant equipment.

§ 8012.53 *Matters for negotiation and agreement.* It is recognized that the provisions of existing facilities contracts may be inconsistent with the procedures set forth in § 8012.52 (d). It is also recognized that existing facilities contracts do not in all cases indicate who is to bear the costs of dismantling and preparation, removal, or storage. Such matters (including the terms and conditions of the waiver or release of any existing obligations of the war contractors under facilities contracts) will be made the subject of negotiation and agreement. Such agreement will normally be reached within the time prescribed in § 8012.52 (d) for final action. In other cases it may be feasible to carry out the physical steps prescribed in § 8012.52 (d) within the time there allowed, postponing agreement on such matters as division of costs until a later date (for example, the date of any related termination settlement). Where agreement on essential terms cannot be reached and the war contractor is not willing in the absence of such agreement to carry out the physical steps prescribed in § 8012.52 (d), the parties will be remitted to their respective rights under the existing facilities contract or any applicable provisions of law.

§ 8012.54 *Storage*—(a) *Contractor's right to store at his own expense.* Except where the applicable facilities contract contains inconsistent provisions and such provisions have not been waived, a war contractor may at any time remove from his plant and store on his own premises or elsewhere at his own expense and risk, any plant equipment which has not been theretofore determined by the Government to be necessary for the war contractor's war production or for the national defense. The war contractor will use reasonable care in the transportation and preservation of plant equipment so removed and stored, and will comply with any standardized specifications covering removal, preservation, transportation, and storage which may be issued by the owning agency and will notify the owning agency of the action taken.

(b) *Contractor's right to store at Government expense.* Except where the applicable facilities contract contains inconsistent provisions and such provisions have not been waived, a war contractor who has (so far as permitted by the Government) carried out the procedure prescribed in this statement, may, at any time after the lapse of 60 days from the date of receipt by the owning agency of a satisfactory list and data, and upon 20 days' prior written notice to the owning agency, remove from his plant and store on his premises or elsewhere, for the account and at the risk and expense of the Government, any plant equipment included in such list which has not been theretofore determined by the Government to be necessary for his war production or for the national defense, and which has not been disposed of, stored or removed as provided in § 8012.52 (d). War contractors will use reasonable care in the transportation and preservation of plant equipment so removed and stored, and will comply with any standardized specifications covering removal, preservation, transportation and storage which may be issued by the owning agency and will notify the owning agency of the action taken.

(c) *Cooperation in providing storage.* War contractors will be expected to cooperate in the securing of storage space by making space in their plants available for storage on suitable terms so long as their production requirements permit.

§ 8012.55 *Facilities subcontractors.* War contractors are empowered by certain outstanding facilities contracts to permit the plant equipment covered thereby to be installed in the plants of other war contractors (usually under arrangements which are in form subcontracts under the facilities contracts). In general, the procedures for clearance of plant equipment from the plants of such facilities subcontractors will be the same as those set forth above, except that lists and data will be routed to the owning agency through the war contractor with whom the owning agency has executed the applicable facilities contract, and in the negotiation of terms (see § 8012.53) it may become necessary to consider and adjust, among other things, the rights and obligations of the two war contractors as between themselves. The owning agencies may issue specific instructions covering this subject matter and describing the cases, if any, in which the facilities subcontractors may be permitted to present their lists and data direct to the owning agency.

§ 8012.56 *Restoration expenses not to be paid by the Government.* Except where the facilities contracts otherwise provide and such provisions have not been superseded by agreement of the parties, the Government, in making arrangements with war contractors under this statement, will not undertake to reimburse or pay any expenses of restoring, rehabilitating or reconverting the war contractor's plants.

§ 8012.57 *Initiation of action by owning agencies.* While the procedures set forth above assume that the steps looking toward removal of plant equipment will be initiated by war contractors, it is not intended that the owning agencies will necessarily delay action until war contractors present lists and data. Whenever plant equipment is determined by the Government to be excess to the war contractor's needs for war production, the owning agency, without awaiting a request from the war contractor, may avail itself of any existing contract rights and of applicable procedures, or enter into any additional arrangements which may be required, to cause such plant equipment to be removed.

§ 8012.58 *Advance planning.* It is important that war contractors be made aware of the functions which they will be expected to assume under this regulation. War contractors should be encouraged without relaxing war production to plan ahead for plant clearance and in particular to work out time schedules for clearance of the most urgently needed space in their plants. The owning agencies, so far as their personnel may from time to time be available for the purpose, will review war contractor's plans for plant clearance to the end that mutually satisfactory mechanics for handling the problems may be arrived at before substantial amounts of plant equipment are required to be removed.

ROBERT H. HINCKLEY,
Director.

BUILDING BLOCKS, ETC.

ADJUSTMENT OF MAXIMUM PRICES

An opinion accompanying Amendment No. 53 to Order A-1 has been issued simultaneously herewith and filed with the Division of the Federal Register.

Paragraph (a) (32) is amended to read as follows:

(32) *Modification of producers' maximum prices for certain crushed stone aggregates, concrete building blocks, and ready-mixed concrete produced in Southern Florida.* (i) The maximum prices for certain sizes of Miami Oolite Limestone, all of which are hereinafter specifically described, when produced within a radius of 50 air-miles of the Dade County (Florida) Court House and when used in the building of roads, dams, buildings, and other structures, or when used as aggregates in ready-mixed concrete or job-mixed concrete or in bituminous binder mixtures, or in concrete building blocks, and other cast concrete products, shall be as follows:

Grade "C" crushed stone, no abrasion requirement	Maximum prices f.o.b plant	Maximum prices delivered to job site within the Miami area
Ballast (minus 2½ plus ¾ inches)	$0.95	$1.70
Concrete rock (minus 1½ plus ¾ inch)	1.20	2.00
Pea rock (minus ¾ inch plus No. 4)	1.50	2.25
Rice rock (or chats) (minus ¾ inch plus No. 4)	1.90	2.75
Screenings—no abrasion requirement: Minus ⅜ inch	1.00	1.75
Mason sand or screenings—no abrasion requirement: Minus ⅛ inch	1.00	1.75
Lime rock-pit run:		
Grade No. 1	.90	1.65
Grade No. 2	.80	1.55

All of the above maximum prices are per cubic yard when sold for delivery by truck or barge, and are per net ton when sold aboard railroad cars, f. o. b. plant or nearest railroad siding.

The gradations of "Miami Oolite Limestone" specified in this paragraph (a) (32) refer to the Dade and Broward County "Standard Classification for Crushed Stone and Screenings" filed with the Office of Price Administration on July 29, 1944. "Grade C Crushed Stone, Rock Screenings, and Mason Sand and Screenings" are not required to meet an abrasion test. "Lime Rock-Pit Run" must meet the specifications of the Florida State Road Department for Grades Nos. 1 and 2.

(ii) Any person producing an aggregate from Miami Oolite Limestone not comparable with any of the aggregates hereinbefore specified by reason of a gradation requiring extra or special screenings, or because such aggregate is from a deposit composed of stone having especially valuable properties, or for any other reason, provided such material is produced for commercial use in construction or for use as an aggregate and cannot be produced and sold at the maximum prices herein established without hardship to the producer, shall file an application for the establishment of a maximum price for such material under § 1499.156 of Maximum Price Regulation No. 188. Such application shall be filed with the Office of Price Administration, Building Materials Price Branch, Washington 25, D. C., and shall contain a description of the special aggregate, with a detailed statement showing:

(*a*) A comparison between the aggregate for which a maximum price is fixed herein and the aggregate for which a price is requested, with definite information showing the claimed superior qualities.

(*b*) The extra production process used in producing the special aggregate and the extra cost of such process.

(*c*) The need of a maximum price differing from the maximum prices fixed herein.

(iii) The maximum prices for certain ready-mixed concrete, as hereinafter specified, produced within a radius of 15 air-miles of the Dade County (Florida) Court House, shall be as follows:

[*Maximum prices, per cubic yard, delivered to job site within the Miami area*]

Bags of cement per cubic yard of ready-mixed concrete:	
4	$6.60
4½	6.95
5	7.30
5½	7.65
6	8.00
7	8.70
8	9.40
9	10.10
10	10.80

(iv) The maximum prices for certain concrete building blocks, as hereinafter specified, produced within a radius of 15 air-miles of the Dade County (Florida) Court House, shall be as follows:

Size	Maximum prices per block f. o. b. plant	Maximum prices per block, delivered within the Miami area
8 x 8 x 16	$0.0950	$0.1180
8 x 12 x 16	.1650	.19
4 x 8 x 16	.0675	.0775
6 x 8 x 16 (corners and jams)	.0950	.1180
8 x 12 x 16 (corners)	.1650	.19
8 x 8 x 8 (single corners and half jams)	.0675	.0775
8 x 4 x 16 or 8 x 8 x 16 partition tile	.0675	.0775

(v) Delivery areas for which no additional charges may be made and the conditions under which such charges may be made are to be determined according to the following methods:

(*a*) *Delivery within the Miami area.* Maximum prices established by this paragraph (a) (32) for delivery "Within the Miami Area" include delivery by each producer within the area recognized by him during March 1942 as his normal delivery area or zone for the commodity to be delivered. No extra charge may be for delivery within such area or zone. Any producer who did not have a normal delivery area or zone during March 1942, shall regard the delivery area or zone of his most comparable seller as his in-area territory covered by the term "within the Miami Area."

(*b*) *Delivery outside the Miami Area.* For delivery outside the Miami area, as described in subdivision (a) above, each producer may add to the maximum prices established herein an amount not in excess of the charge in effect by him during March 1942 for each particular destination. If a producer does not have an established maximum delivery charge for delivery outside the Miami area because he was not in business during March 1942, or, if was then in business, because he did not deliver outside the Miami area, or for any other reason, he must file a schedule of proposed delivery charges to be added to the maximum prices established by this paragraph (a) (32) with the Jacksonville District Office of the Office of Price Administration. Such charges shall not exceed the charges established for other manufacturers for the same or similar service and shall be subject to approval or disapproval within 20 days of the date of filing.

Before the expiration of the 20-day period the District Director of the Jacksonville District Office either will approve or disapprove the requested charges. In the absence of such approval or disapproval within the 20-day period, the reported delivery charges, if properly filed, shall be deemed to have been approved by that Office.

(vi) *Discounts and other price differentials and services.* All cash, quantity, and other price differentials and services at least as great as those extended by each seller during March 1942 must be continued.

This Amendment No. 53 shall become effective October 3, 1944.

Issued this 28th day of September 1944.

CHESTER BOWLES,
Administrator.

AUTHORIZATION TO FIX COMMUNITY CEILING PRICES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Paragraph (b) (2) is amended to read as follows:

(2) *Ceiling prices.* Every person selling food items at retail must obtain from the Office of Price Administration one or more copies (as many copies as may be needed to satisfy the requirements of this subparagraph) of each list of the applicable dollars-and-cents ceiling prices fixed hereunder for such food items. Unless a list contains a statement that it need not be posted, the following rules shall apply: One copy of each list of the dollars-and-cents ceiling prices fixed for dry groceries must be posted for each 1500 square feet or part thereof of selling space. If more than one copy of a list of dry groceries is required, they must be posted at least 25 feet apart. One copy of each list of the dollars-and-cents ceiling prices fixed for all items other than "dry groceries" must

[1] 9 F.R. 408.

be posted at or near the place where the item or items are offered for sale.

Each list must be posted in such a manner that it can be easily read and so that customers can approach it within a distance of two feet. If the dollars-and-cents ceiling prices established hereunder do not replace the ceiling prices of a seller, he must continue to post his ceiling prices as required by any other applicable regulation.

This amendment shall become effective October 4, 1944.

Issued this 29th day of September 1944.

WAR MANPOWER COMMISSION.

PHILADELPHIA, PA., AREA

EMPLOYMENT STABILIZATION PROGRAM

The following employment stabilization program for the Philadelphia area is hereby prescribed, pursuant to § 907.3 (g) of the War Manpower Commission Regulation No. 7, "Governing Employ-

ment Stabilization Programs," effective August 16, 1943 (8 F.R. 11338).

In furtherance of the war effort and for the purpose of achieving the most effective utilization of the services of labor in essential and locally needed activities, the area director of the War Manpower Commission for the Philadelphia area, which comprises all of Philadelphia and Delaware Counties and Bucks County, except the extreme northwestern part, all of Montgomery County south of Pottstown, and all of Chester County except the extreme western part, with the concurrence of the Area War Manpower Committee and with the approval of the Regional Director hereby establishes the following plan for the Philadelphia area with respect to the stabilization of employment throughout the area:

Sec.
1. Utilization of local labor supply.
2. Control of hiring and solicitation of workers.
3. Standards.
4. Existing contracts.
5. Advertising.
6. Advance notice of lay-offs.
7. Limited statements of availability.
8. Request to remain on or return to a job.
9. Definitions—as used in this plan.

SECTION 1. *Utilization of local labor supply.* All employers will make every reasonable effort to utilize the available local labor supply before resorting to the employment of workers from outside the commuting areas of their establishments and will recruit workers outside such areas only through the facilities of the U. S. Employment Service of the War Manpower Commission.

SEC. 2. *Control of hiring and solicitation of workers.* (a) All hiring and solicitation of workers in, or for work in, the Philadelphia area shall be conducted in accordance with the provisions of this employment stabilization plan.

(b) The area manpower director may fix for all or any establishments in the Philadelphia area, fair and reasonable employment ceilings and/or allowances, limiting the number of employees, or specified types of employees, which such establishments may employ during specified periods. Such ceilings and/or allowances will be determined on the basis of establishments' actual labor requirements, the available labor supply, and/or the relative urgency of establishments' products or services to the war effort. Except as authorized by the area manpower director, no employer shall hire any new employee if the hiring of such employee would result in the establishment's exceeding the employment ceiling and/or manpower allowance currently applicable to it.

SEC. 3. *Standards*—(a) *General.* A new employee, who during the preceding 60-day period was engaged in an essential or locally needed activity, may be hired only if such hiring would aid in the effective prosecution of the war. Such hiring shall be deemed to aid in the effective prosecution of the war only if:

(1) Such individual is hired for work in an essential or locally needed activity or for work to which he has been referred by the United States Employment Service, and

(2) Such individual presents a statement of availability from his last employment in an essential or locally needed activity, or is referred by the United States Employment Service of the War Manpower Commission, or is hired with its consent, as provided herein.

(b) *Issuance of statements of availability by employers.* An individual whose last employment is or was in an essential or locally needed activity shall receive a statement of availability from his employer if:

(1) He has been discharged, or his employment has been otherwise terminated by his employer, or

(2) He has been laid off for an indefinite period, or for a period of seven or more days, or

(3) Continuance of his employment would involve undue personal hardship, or

(4) Such employment is or was at a wage or salary or under working conditions below standards established by State or Federal law or regulation, or

(5) Such employment is or was at a wage or salary below a level established or approved by the National War Labor Board (or other agency authorized to adjust wages or approve adjustments thereof) as warranting adjustment, and the employer has failed to adjust the wage in accordance with such level or to apply to the appropriate agency for such adjustment or approval thereof.

(c) *Issuance of statements of availability by United States Employment service.* (1) A statement of availability shall be issued promptly to an individual when any of the circumstances set forth in subsection (b) is found to exist in his case. If the employer fails or refuses to issue a statement, the United States Employment Service of the War Manpower Commission, upon finding that the individual is entitled thereto, shall issue a statement of availability to the individual.

(2) A statement of availability shall be issued by the United States Employment Service to any individual in the employ of an employer who, the War Manpower Commission finds, after notice, hearing and final decision, has not complied with any War Manpower Commission employment stabilization plan, regulation or policy, and for so long as such employer continues his non-compliance after such finding.

(d) *Referral in case of under-utilization.* If an individual is employed at less than full time or at a job which does not utilize his highest recognized skill for which there is a need in the war effort, the United States Employment Service may, upon his request, refer him to other available employment in which it finds that the individual will be more fully utilized in the war effort.

(e) *Workers who may be hired only upon referral by the United States Employment Service.* A new employee may not be hired solely upon presentation of a statement of availability, but may be hired only upon referral by, or with the consent of, the United States Employment Service when:

(1) The new employee is to be hired for work in a critical occupation, or his statement of availability indicates that his last employment was in a critical occupation.

(2) The new employee has not lived or worked in the locality of the new employment throughout the preceding 30-day period.

(3) The new employee's last regular employment was in agriculture and he is to be hired for non-agricultural work: *Provided,* That no such individual shall be referred to non-agricultural work except after consultation with a designated representative of the War Food Administration: *And provided,* That such an individual may be hired for non-agricultural work for a period not to exceed six weeks without referral or presentation of a statement of availability.

(4) The new employee is a male worker.

(f) *Exclusions.* No provision of the employment stabilization shall be applicable to:

(1) The hiring of a new employee for agricultural employment:

(2) The hiring of a new employee for work of less than seven days duration, or for work which is supplementary to the employee's principal work; but such work shall not constitute the individual's "last employment" for the purposes of the program, unless the employee is customarily engaged in work of less than seven days duration:

(3) The hiring of an employee in any Territory or possession of the United States, except Alaska and Hawaii:

(4) The hiring by a foreign, state, county, or municipal government, or their political subdivisions, or their agencies and instrumentalities, or the hiring of any of their employees, unless such foreign, state, county, or municipal government, or political subdivision or agency or instrumentality has indicated its willingness to conform, to the maximum extent practicable under the Constitution and laws applicable to it, with the program:

(5) The hiring of a new employee for domestic service, or to the hiring of a new employee whose last regular employment was in domestic service:

(6) The hiring of a school teacher for vacation employment or the rehiring of a school teacher for teaching at the termination of the vacation period.

(g) *Appeals.* Any worker or employer may appeal from any act or failure to act by the War Manpower Commission under this employment stabilization plan, in accordance with regulations and procedures of the War Manpower Commission.

(h) *Content of statements of availability.* A statement of availability issued to an individual pursuant to this plan shall contain only the individual's name, address, social security account number, if any, the name and address of the issuing employer, or War Manpower Commission officer and office, the date of issuance, a statement as to whether or not the individual's last employment

was in a critical occupation, and such other information not prejudicial to the employee in seeking new employment as may be authorized or required by the War Manpower Commission.

(i) *Solicitation of workers.* (1) No employer shall advertise or otherwise solicit for the purpose of hiring any individual if the hiring of such an individual would be subject to restrictions under this employment stabilization plan, except in a manner consistent with such restrictions.

(2) No employer shall interview for employment, any person unless such person presents either:

(i) A statement of availability from his or her last employer.

(ii) A referral card from the United States Employment Service.

(iii) A statement on an authorized form stating that he or she has not been engaged in essential or locally needed work during the previous 60 days.

(j) *Hiring.* The decision to hire or refer a worker shall be based on qualifications essential for performance of or suitability for the job, and shall be made without discrimination as to race, color, creed, sex, national origin, or except as required by law, citizenship.

(k) *Representation.* Nothing contained in plan shall be construed to restrict any individual from seeking the advice and aid of, or from being represented by, the labor organization of which he is a member or any other representative freely chosen by him, at any step in the operation of this plan.

(l) *General referral policies.* No provision in the program shall limit the authority of the United States Employment Service to make referrals in accordance with approved policies and instructions of the War Manpower Commission.

SEC. 4. *Existing contracts.* Nothing in this plan shall be construed to prejudice existing seniority rights of an employee under any agreement with his employer.

SEC. 5. *Advertising.* Advertising for employees:

(a) Shall not be of a nature which will have a disruptive effect upon the labor market in a particular area, including either the publication of wage rates which induce turnover and piracy or the solicitation of workers by employers outside an area except through arrangements with the United States Employment Service of the War Manpower Commission.

(b) Should state clearly that employees now employed in essential activity cannot be considered without a statement of availability.

(c) Should state clearly that before employers hire employees possessing skills which appear on the List of critical occupations, clearance must be obtained from the United States Employment Service.

SEC. 6. *Advance notice of lay-offs.* When possible at least three (3) days in advance of the anticipated date of any layoff, an employer shall submit to the local office of the United States Employment Service of the War Manpower Commission for the area in which the employer's establishment is located, a list containing the names, addresses and occupational classification of workers to be laid off. [C-214]

ATLAS DISTRIBUTING CORP.

Atlas Distributing Corporation, a Massachusetts corporation, is charged by the War Production Board with a violation of Conservation Order L-41 in that in December, 1943, it began and thereafter continued construction on a warehouse located at the corner of Sherman, Kansas, and Pitt Streets, Worcester, Massachusetts, at an estimated cost of $25,000. The purpose of the construction was to convert the warehouse into a bottling plant for wines and a store and distributing center for wines, liquor, and beer. Atlas Distributing Corporation admits this violation but denies that it was wilful and does not care to contest the issue of wilfulness and has consented to the issuance of this order.

Wherefore, upon the agreement and consent of Atlas Distributing Corporation, the Regional Compliance Chief and the Acting Regional Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered*, That:

(a) Atlas Distributing Corporation shall not do any construction work on the premises at the corner of Sherman, Kansas, and Pitt Streets, Worcester, Massachusetts, including putting up or altering the structure, unless hereafter specifically authorized in writing by the War Production Board.

(b) The prohibitions contained herein shall apply to Atlas Distributing Corporation, its successors or assigns, or any persons acting on its behalf. Prohibitions against any action include the taking indirectly as well as directly of any such action.

(c) Nothing contained in this order shall be deemed to relieve Atlas Distributing Corporation, its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 28th day of September 1944.

WAR PRODUCTION BOARD,
